American Railroad Journal.

Saturday, September 7, 1872.

Stock Exchange and Money Market.

Money has been more active since our last. The demand from speculative and mercantile sources has been more urgent. The offerings of funds, especially on the part of the city banks, have been on a restricted scale. Rates have favored lenders, with call loans quoted generally from 4@6, and choice to good discounts from 7 @9 per cent. per annum. The Fall trade gives promise of unusual activity, in most lines; and the prospect is of a brisk Money movement. At the ruling figures, through the week, however, responsible borrowers have had their wants provided for, with promptness, and there has been no manifestations of stringency either at bank, or in private channels, though the rapid liquidation of loans and deposits, as shown by the recent city bank returns, on the eve of the Fall Trade, which is expected to be exceptionally animated this year, excites some concern among Banking people and among the Brokers of the Stock Exchange, in regard to the future course of the money market. The city banks, last week, were again heavy losers, in their leading items of averages, particularly so in that of deposits, while reporting a further increase in their circulation. The U. S. Sub-Treasury added handsomely to its coin balances chiefly through the free receipts from customs which amounted at this port alone, for the week to $3,806,563. The office reduced its currency reserves about a million and a half.

Secretary Boutwell has called for the redemption of the three per cent. temporary loan certificates, as follows: Five thousands of numbers 4,-154 to 4,314 inclusive, and ten-thousands of numbers 4,574 to 4,719, amounting in the aggregate to $1,550,000, on which interest will cease October 31, 1872.

The receipts of the U. S. Sub-Treasury, here, in August, were $60,830,438, including $19,960,759 from customs; payments, $49,395,213, including $3,675,098 of coin interest.

The U. S. Sub-Treasury office last week received $3,407,923of currency, and $5,761,322 of gold, the latter including $3,940,000 from customs; and disbursed $4,898,188 of currency and $4,583,211 of gold, the latter embracing $771,-650 of coin interest. The city banks reduced their loan and discount average about 3⅝ millions during the week, and enlarged their outstanding circulation about ⅛th of a million. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $7,590,013, and a coin reserve of $50,845,081.

The city banks, in their latest return, show a reduction of $1,502,300 of legal tender notes, $1,804,700 of specie, and of $7,413,100 of deposits, also a contraction of $3,616,200 in their loan and discount averages, and an increase of $103,300 in their item of circulation. The city bank exchanges, last week, averaged 83⅜, and thus far, this week, about 105½ millions daily. The banks now hold $4,142,400 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $16,402,500, against $12,-298,550 same time last year. The city bank deposits are now $219,036,200 against $248,709,800, week ending Sept. 2, 1871. The legal tender reserve amounts to $49,366,700, against $68,384,500 same time last year. The circulation now stands at $27,475,000 against $30,158,587 same time last year. The loans are now $288,812,400 against $307,046,600 at this date last year.

The coin reserve of the city banks is now under 16½ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 49⅜ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 219 millions, against 247¼ millions on the 20th of July.

Government revenues have been up to a fair average, since our last. The excises yielded within the week about 2⅛ millions, and thus far in the current fiscal year beginning with July 1, 1872, $25,418,036. The customs at the port of New York last week were $3,806,563; at the outports, equal to about $1,250,000 all in coin, or coin certificates.

The aggregate of U. S. Currency, outstanding is $397,685,643, including of old demand notes, $86,-152 50; legal tender notes (new issue), $114,268,-817; do. series of 1869, $241,736,183; one-year notes of 1863, $99,340; two-year notes of 1863

$34,150; two-years coupon notes of 1863, $31,800; compound interest notes, $614,900; fractional currency—first issue, $4,377,291 60; second do., $3,180,728 76; third do., $3,849,339 61; fourth do., 17,822,909 94; fourth do., second series, $11,589,031 25.

Under the Treasury programme for September, Government proposes to sell, at least, four millions of Gold, as follows: Thursday, September 5, $1,000,000; Thursday, September 12, $1,000,000; Thursday, September 19, $1,000,000; Thursday, September 26, $1,000,000. And to buy in four millions of Five Twenties, as follows: Wednesday, September 4, $1,000 000; Wednesday, September 11, $1,000,000; Wednesday, September 18, $1,000,000; Wednesday, September 23, $1,000,000. Secretary Boutwell reserves the right to modify the September schedule as circumstances demand, and as his coin and currency balances permit.

Gold has been weak and irregular in prices, under a tamer speculative inquiry, but closes with more steadiness, on a somewhat more confident demand. The customs call is yet active, but is the chief drain on the floating supply.

The range of the price during the week has been from 112¼@113⅜ and the closing quotation on Wednesday was 113@113⅛ against 113¼ the preceding Wednesday. The specie outflow last week, was only $367,539. The Gold Exchange Bank clearances have averaged about 48⅞ millions per day during the week.

The specie export from this port on Wednesday of the current week were $139,604.

The customs demand for Gold last week, averaged $690,000 a day; thus far, this week, it has averaged $720,000 a day, or equal to a weekly aggregate of $4,320,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $8,000, and since Jan. 1, 1872, $2,876,628 against $7,585,801 same time in 1871. The total customs revenue of the Government, in coin, at this port, since January 1, has been $103,914,796 against $107,962,193 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $57,345,884, against $63,739,378 during the same time in 1871.

The export drain of specie was $367,539 last week, against $538,437 same week preceding year. The shipments since January 1, 1872, have been $56,542,170 against $53,814,096 during the same portion of 1871.

Foreign Exchange has been less sought after and quoted weaker. Bankers' sixty day bills on London closed on Wednesday at 108½@108⅞; sight bills on London, 109⅜@109⅝.

The week's exports hence of domestic produce have been to the currency value of $4,406,670.

Government securities has been moderately active, with some irregularity in values, which, on the coin-bearing bonds, have fluctuated with Gold. The later dealings have shown more steadiness in prices, favored by the September debt exhibit, which indicates a further liquidation, in August, of $10,736,636.

On Wednesday, Government bought in a million of Five-Twenties at 112 24@112 44 out of an aggregate offering of $4,536,750.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 116@116¼; U. S. Five-Twenties of 1862, 114⅜@114½; U. S. Five-Twenties of 1864 at 114⅜@114½; U. S. Five-Twenties of 1865, 114½@114¾; U. S. Five-Twenties of 1865 consolidated, 113¼@113⅜; U. S. Five-Twenties of 1867, 113¾@113¾; U. S. Five-Twenties of 1868, 113⅝@113¾; U. S. Tenforties at 108¾@109 ex Sept. interest coupon; U. S. Fives of 1881 (Funding Loan) 111½@111¾; Six per cent. currency bonds, 112⅜@112⅝.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 21.	Aug. 28.	Sept. 4.
Consols	93	92¾	92⅞
U. S. 5-20's of 1862..	92¾	92½	92⅝
U. S. 5-20s, 1865....	93⅛	93⅛	93¼
" 1867	92⅝	92½	92⅝
" 10-40s	*88¼	88	88
New Fives of 1881...	90¼	89¾	89⅞
Erie.	39½	40⅓	39¼

State bonds have been in quite moderate demand at variable prices.

Railway and Miscellaneous share property has been fairly active, but values have been fluctuating widely. The later transaction indicated a rather more confident general movement.

Railway Mortgage Loans have been in fair request, on investment account, at the current rates. Central Pacific Sixes have been inquired for at 101@101¼. Chesapeake and Ohio have been in demand at 94 per cent. and accrued interest.

The Metal trade has been comparatively tame, since our last. Copper has been dull, at former rates; 90,000 lbs. Ingot sold at 33¼c.@33⅜c. per lb. Scotch Pig iron has been held higher, in view of the more encouraging reports from England, but has been quiet, with Gartsherrie quoted at $56@$57. Coltness at $58, Eglinton at $52 50@$53, and Glengarnock at $54@$55, per ton. American Pig-iron firm and moderately inquired for. Wrought Scrap-iron has been purchased to the extent of 800 tons, within the range of $47@$50, per ton. Other kinds quiet. Lead and Spelter inactive at old figures. Tin dull and weak at about previous quotations. Of Mooselman Zinc, 25 casks sold on private terms.

General business has been brisker in most lines. Domestic produce has been dealt in with more freedom, and prices of the leading articles have favored sellers. Middling upland cotton closed steadily on Wednesday at 22¼ cts. per lb. The receipts at all the ports, year ending Sept. 1, were 2,705,523 bales, against 3,980,738 bales same time in the preceding year; exports 1,954,995 bales against 3,161,276 bales in the previous year; stock at the ports at latest dates, 48,900 bales against 119,950 bales same date 1871.

At the Live Stock Markets, Beeves have been in good demand at 10½@13¾ cts.; Veals at 6@10 cts.; Sheep at 5¼@7⅜ cts.; Lambs, 7½@10 cts.; Swine, at 5¼@5½ cts. per lb., all live weight. The week's receipts were 9,125 Beeves, 3,196 Veal Calves, 29,464 Sheep and Lambs, and 86,589 Swine.

Foreign goods have been attracting more attention and seasonable supplies have been held with more confidence. The week's imports of foreign goods reached the amount of $11,092,938 including $4,379,273 of dry goods.

Ocean freights have been more active and rates have been quoted higher, with the main inquiry for room for Grain, Petroleum, Provisions, Tobacco, and Cotton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Boston, Hartford and Erie R. R., 7; do. 1st mort., 40¼; do. guar. bonds, 56; Clev., Col., Cin. and Ind. 1st mort., 102½; Central of New Jersey 1st mort. new, 103; do. scrip, 103; Galena and Chicago 1st mort., 101; Ohio and Miss. 2d mort., 87¾; do. consols, 96; Gt. ☞ The Connecticut Western Railroad has decided to build the branch from Collinsville to New Britain at once. It will cost $250,000, and is to be put under contract immediately.

☞ The entire cost of building the Middletown, Meriden and Cheshire Railroad is estimated at $768,000, and the indications are that it will soon be commenced.

☞ Major A. L. Hopkins, formerly superintendent of the Housatonic Railroad, has been appointed one of the vice-presidents of the Illinois Central.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
Bankers,
No. 5 NASSAU ST., NEW YORK.

The CHESAPEAKE AND OHIO RAILROAD is now nearly completed, and will soon be doing business as one of the great trunk roads from the Atlantic tide-waters to the heart of the great West, and opening a low grade and direct line with Cincinnati, Dayton, Louisville, St. Louis and other cities. We are still selling its SIX PER CENT. FIRST MORTGAGE BONDS—a first-class investment—on behalf of the Company at 94 and accrued interest, coupon or registered; $100, $500, $1,000 denominations.

We also conduct a regular banking business in all its branches, and receive deposits, on which we allow interest at the rate of four per cent. per annum.

FISK & HATCH.

Chesapeake and Ohio Railroad.

We take from the Richmond *Dispatch* an account of the progress of the Chesapeake and Ohio Railroad, whereby it appears that the track was last week laid 85 miles west of the White Sulphur Springs, or 262 miles distant from the eastern terminus. On the Western Division from the Ohio River to the Gauley, about one hundred miles, the track is also laid and in operation. The intervening section, of about seventy miles, is rapidly being reduced. There are two tunnels not quite ready for the locomotive and some heavy rock excavations upon which the company has placed extra force. The work has been retarded somewhat of late by slides caused by the heavy rains, but it is believed the trains will be running through to the Ohio this year. The six per cent. first mortgage loan of the company is also nearly disposed of by Messrs. FISK & HATCH, the agents.

Springfield and Illinois Southeastern Railway.

THE FIRST MORTGAGE SINKING FUND BONDS of the Springfield and Illinois Southeastern Railway have recently been placed upon the market. These Bonds bear 7 per cent. Gold Interest, payable February and August, free of Government Tax, at the office of the Farmers' Loan and Trust Company, New York, and are introduced to the market at the low price of 90 and accrued interest. They represent a very light mortgage ($15,000 per mile) upon a completed and fully equipped railway, 228 miles long, extending through one of the richest and most populous States of the Union. By the terms of a Traffic Guarantee Contract with the well known Cleveland, Columbus, Cincinnati and Indianapolis Railway, a large number of these Bonds will be purchased semi-annually, by lot, at Par and Accrued Interest, giving the fortunate holders Eleven per cent. Profit on their investment, besides an Interest of nearly Nine per cent.

MESSRS. JONES & SCHUYLER, No. 12 Pine street, New York, Financial Agents of the Company, invite attention to this security, in another column, as a particularly safe and desirable one.

☞ The estimated earnings of the Erie Railway for the week ending Aug. 31, 1872, were $422,505; against $486,404 for the corresponding period of 1871—a decrease of $60,899. Total earnings since April 1, 1872, $7,865,038—an increase over the same time in 1871 of $81,583.

THE

St. Joseph & Denver City

RAILROAD COMPANY'S

First Mortgage Bonds

are being absorbed by an increasing demand for them.

Besides being the obligation of a wealthy corporation, composed of men of experience and high-toned commercial integrity, they are secured by a first mortgage on the road, revenues, land grant, franchise and equipments, combined in one mortgage, and are readily negotiable both in the markets of this country and Europe.

A liberal sinking fund provided in the mortgage deed must advance the price upon the closing of the loan. Principal and interest payable in GOLD. Interest at eight (8 p. c.) per cent. per annum, payable, semi-annually, free of tax Principal in thirty years. Denominations, $1,000, $500 and $100, Coupons or Registered.

Price 97½ and accrued interest in currency, from August 15, 1872.

Maps, circulars, documents and information furnished.

Trustees, Farmers' Loan and Trust Company of New York.

The diminished quantity of these Bonds for sale, and the increased demand absorbing them, warrant the belief they will soon be sought for at an advance considerably above the present subscription price at which they can now be had through the principal Banks and Bankers throughout the country, and from the undersigned, who unhesitatingly recommend them.

TANNER & CO.

BANKERS,

NO. 11 WALL STREET.

☞ The Philadelphia *Ledger* of 2nd inst., reports the net anthracite coal tonnage for the week ending on the 24th ult., from all sources, at 400,504 tons, and for the year 12,413,120 tons, against 8,250,847 tons to the same date last year, being an increase in the tonnage of anthracite coal of 4,622,273 tons. The production of bituminous coal for the week was 55,428 tons, and for the year 1,567,640 tons, against 1,372,550 tons to the corresponding time last year—an increase of 195,090 tons. The total production of all kinds of coal for the week was 455,982 tons, and for the year 13,980,760 tons, against 9,623,397 tons to corresponding time last year, showing an increase of 4,357,363 tons.

☞ Work has been begun in Gardner on the extension of the Boston, Barre and Gardner Railroad.

Journal of Railroad Law.

RAILROAD COMPANIES—DUTIES AND LIABILITIES OF, TO PASSENGERS—STATUTORY DAMAGES.

The facts in the late case of The Great Western Railway Company *vs* Miller, (19 Mich., 305,) are fully and clearly stated in the following opinion by—

CAMPBELL, J.—Miller sued the railway company for damages on account of his expulsion from their cars, which he averred to have been done at a distance from any dwelling or usual stopping place. All of the counts in the declaration alleged him to have been a passenger who had complied with all the conditions required to entitle him to be carried to the end of his journey.

He stated on the trial that he then resided in Chatham, Ontario, but in answer to an inquiry whether he was a citizen of Canada, said he was a native of Michigan and a citizen, as he supposed.

A statute of Canada was given in evidence providing that "any passenger refusing to pay his fare, and his baggage, may, by the conductor of the train and the servants of the company, be put out of the cars at any usual stopping place or near any dwelling house, as the conductor elects, the conductor first stopping the train, and using no unnecessary violence."

Evidence was given and met by counter evidence, concerning the facts which would determine his right as a passenger.

The case was also put to the jury on the claim that, even though not complying with his duties as such, he was entitled to damages for having been put off contrary to the statute, at a distance from any station or house. And on this the court charged, "that if the jury find that the plaintiff was put out of the defendants' cars, not at any usual stopping place or not near any dwelling house, the plaintiff is entitled to recover, even though he had no ticket and had made no valid tender of his fare." Error is assigned upon this ruling. The jury rendered a verdict of three thousand dollars against the defendants.

As the view we take of the case will require a new trial, it will become necessary for us to consider all the principal questions presented, and which will be raised again unless now disposed of.

The liability for putting a person off from the cars at a distance from any dwelling or station is purely statutory, and no damages can be recovered for that specific grievance, unless the statutory provision is set out and a case made out under it by the pleadings. A carrier is not required by the common Law to put out a trespasser at one place rather than in another, and while the Law will not permit a person to be exposed wantonly to peril, there is no rule which requires any consideration to be shown for the convenience of a wrong doer. The Canadian statute was probably adopted on grounds of public policy, and to establish a general rule most likely to prevent suffering. But the privileges it confers depend entirely upon its provisions, and as we have no judicial knowledge of it, any one relying upon it must aver and prove it as a ground of recovery.

While in his special counts the plaintiff has alleged that he was expelled from the cars at a distance from any station or dwelling, he has not averred anything to show that the law of Canada has made this a distinct grievance, and has not set up any cause of action depending upon it, in whole or in part. He has throughout placed himself on the footing of a passenger rightfully in the cars, and entitled to complain of any expulsion whatever as wrongful.

The charge complained of, authorized him to recover, although he might have been on the cars without any pretense of right, and there is nothing in the declaration to warrant it.

It is urged on the hearing that the railroad company could not be held liable for any wrongful expulsion under this statute, because it would be the personal wrong of the conductor in violation of law for which he must be held to have exceeded his known agency. And the same exemption was claimed for them from liability for any expulsion, unless under circumstances where they may be supposed to have authorized it by their instructions general or special. There is, however, so far as we have seen, no authority which would exempt them from some amount of responsibility for any wrongful expulsion of a passenger by a conductor. He represents them in the whole management of his train, and the power to do any serious mischief is chiefly derived from their investing him with the control of this large agency. He occupies the same position as the master of a ship, and his action in the case supposed must be regarded as done in the line of his employment.

But it does not follow that the responsibility of his employers is the same as his. For those aggravations which may arise out of his wantonness and malice we have held that the employer is not on the same footing with the agent. The subject was discussed in Detroit Daily Post Company *vs.* McArthur, 16 Mich. R. 447. This case does not seem to have been noticed on the trial, as we infer from the amount of the verdict, and the omission of counsel to cite it.

The voluntary appearance of the defendant below renders any discussion of the subject of the *venue* unnecessary. There can be no doubt that the locality of the trespass does not of itself oust the jurisdiction, where the court has lawfully obtained control over the parties. But where the parties are not residents of the United States, and the trespass was committed abroad, the right of action in our courts can only be claimed as a matter of comity, and they are not compellable to proceed in such cases. It is not to be denied that much hardship is likely to arise where a person is called upon to defend himself against a charge arising out of transactions occurring at a distance and out of the jurisdiction. Witnesses cannot always be compelled or induced to be present at the trial, and where a knowledge of localities becomes essential it is impossible to obtain a view by the jury.

Questions of foreign Law may, as in this case, become important elements of decision. We think that when by the pleadings, or upon the trial, it appears that our tribunals are resorted to for the purpose of adjudicating upon mere personal torts committed abroad, between persons who are all residents where the tort was committed, the inconveniences and the danger of injustice attending the investigation of such controversies render it proper to decline proceeding further. The cases cited on the argument recognized the right to take this course, and we regard it as the correct one. We do not propose to lay down any rule as to other classes of cases before they arise. In the present case we think that the residence of the plaintiff below became material, and might properly be inquired into.

The judgment must be reversed with costs and a new trial granted.

Ordered accordingly.

☞ The Cleveland, Ottawa and St. Louis Railroad company, having its termini at Ottawa and Cleveland, and passing through the counties of Hancock, Seneca, Huron and Lorain, a distance of 125 miles, has filed its certificate of incorporation with the Secretary of State of Ohio. Capital stock $2,000,000. Corporators, A. V. Rice C. M. Godfrey, N. H. McCracken, Stansburry Sutton, J. P. Simon, W. W. Kelley, S. B. Rice, S. Slauson, J. L. Olney.

Statement of the Public Debt of the United States September 1, 1872.

Iron Furnace Property
FOR SALE.

THE EASTON IRON MANUFACTURING Company will sell at Public Sale, at the Circle, in the borough of Easton, Northampton County, Pa.,

On Thursday, September 26th, 1872.

at 10 o'clock in the forenoon, their

Blast Furnace and Real Estate

located in the borough of Glendon, Northampton Co., Pa., containing about 15 acres of Land. The Furnace erected thereon is a sheet iron casing stack, 14½ feet bosh by 70 feet high, with bell and hopper, J. P. Morris & Co.'s low pressure condensing engine, 8 boilers, 2 Kents' hot blast ovens, casting house, engine house, steam hoist, 11 tenement houses, 2 stables and a blacksmith shop. The furnace buildings are built of brick and stone, and put up in the best of manner, with all the modern improvements. The works have been built about one year, and are now in blast. Its production of iron is as great as any other blast furnace in the Valley for its size. Canal and Railroad in close connection. Hematite Ores are very plenty, and there is sufficient for several more furnaces. No better location can be found; iron can be manufactured and conveyed to market as cheap, if not cheaper, than any other place in the Lehigh Valley. Leases and all other advantages belonging thereto sold together with the property, which will appear in the conditions of sale. The Furnace will be sold in blast, if nothing prevents. Terms and conditions made known on the day of sale. Sale positive and without reserve. Any parties wishing to view said property will please call on the premises.

EASTON IRON MANUFACTURING CO.
Easton, August 20, 1872.

Notice to Contractors.

OFFICE KENTUCKY AND TENNESSEE R. R. }
MOBILE, ALA., August 13, 1872. }

THE KENTUCKY AND TENNESSEE RAILroad Company desire to contract for the construction of their Road from Columbus, Ky., to Fillmore City on the Ohio River, opposite to the City of Cairo, Illinois, a distance of about twenty-one miles.

The road runs up the Valley of the Mississippi River, and, for the greater part of its length, will require heavy embankments, trestle work, and pile bridging.

Maps, profiles, specifications, and any other information, may be obtained at this office after the first of September next.

The work is required to be completed within six months after the ratification of the contract, and is worthy of the attention of large contractors.

L. J. FLEMING,
6t34 Chief Eng. Ken. and Tenn. R.R.

PROPOSALS

FOR THE CONSTRUCTION

OF THE

TEXAS AND PACIFIC RAILWAY.

Proposals will be received up to the 1st of October, 1872, at the office of the Texas and Pacific Railway company at Marshall, Texas, for the grading, bridging, tieing and tracklaying of about five hundred (500) miles of the Texas and Pacific railway, divided into the following divisions:

The southern division, extending from Longview through Dallas to Fort Worth—155 miles.

The Jefferson division, extending from Marshall through Jefferson to Texarkana—65 miles.

The east half of the trans-continental division, extending from Texarkana to the crossing of the Houston and Texas Central railroad, near Sherman—156 miles.

The west half of the trans-continental division, extending from the crossing of the Houston and Texas Central railroad to Fort Worth—68 miles.

The grading and bridging will be let in one mile sections; the tracklaying by the mile; the ties by one thousand and upwards.

Each class of work to be bid for separately.

The time for completing the grading, bridging and tieing extends from sixty days to nine months.

The company reserves the right to reject any or all bids, and in letting the work will be the judge of the responsibility of parties bidding, and will give preference to contractors having outfits on the ground ready to commence work within ten days after the date of contract.

Profiles, estimates and specifications can be seen at the office of the company, in Marshall and Jefferson, Texas, and at the Pacific National bank, Council Bluffs, Iowa.

Contractors, upon arriving on the ground, can obtain work up to the date of general letting, on the fifty miles west of Longview.

Address, until September 20th, Council Bluffs, Iowa—after that date, Marshall, Texas.

G. M. DODGE,
Chief Engineer.

CAMP'S IMPROVED DUMPING CAR.

(Used by the American Dredging Company.)

RIGHTS FOR SALE BY

N. H. CAMP,

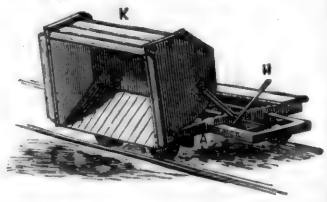

Fig. No. 1, Car Loaded. **TO DUMP THE CAR.** Fig. No. 2, Car Dumped.

The Brakeman seizes the lever H, and raises it, thus removing the step from under the box-support A, when the weight of the load causes the box to roll over to the position shown in Fig. 2.

To replace the box in readiness for another load.

The Brakeman, standing on the platform, reaches over, and grasping the corner of the box, pulls it back to its place.

Address, N. H. CAMP,
Care N. C. MILLER, 61 Broadway, New York City:

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by WILLIAM & HENRY HAND,

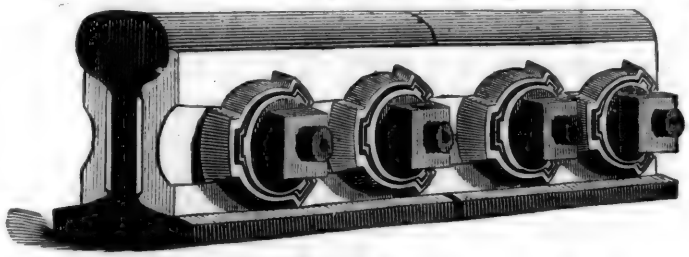
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

INVESTMENTS.

We continue to sell at par, adding accrued interest, the First Mortgage Gold Bonds of the Northern Pacific Railroad Company. On the completion of this season's contracts there will be FIVE HUNDRED AND SEVENTEEN miles of the main line of the road in operation, uniting Lake Superior with the Missouri River, and securing the large traffic of the Northwest. This amount of road also entitles the Company to ten million four hundred thousand acres of land located in Central Minnesota, Eastern Dakota, and in the Columbia Valley, on the Pacific coast. The bonds are secured by a first mortgage on the road, its traffic and franchise, and on the entire land grant received from the government. The rate of interest is Seven and Three tenths, Gold, equivalent to about Eight and a Quarter per cent. in Currency. Believing the security to be ample and the rate of interest satisfactory, we recommend these bonds as a desirable investment. Holders of United States 5-20's and high priced corporate securities may materially increase both their principal and their interest income by exchanging for Northern Pacifics.

JAY COOKE & CO.

New York, Philadelphia and Washington.

ANNOUNCEMENT FOR PROPOSALS.

OFFICE OF FISK & HATCH,
BANKERS AND FINANCIAL AGENTS OF THE CHESAPEAKE AND OHIO R. R. Co.
NEW YORK, SEPTEMBER 9TH, 1872.

By direction of the President and Directors of the Chesapeake and Ohio Railroad Company, we offer, for proposals, *all* the remaining balance of their FIRST MORTGAGE SIX PER CENT. GOLD BONDS, now amounting to $2,923,700. Proposals must be accompanied by a deposit of five per cent., and will be received up to, and including Monday, the 16th inst., the Directors reserving the right to reject any proposals which it may not be for the interests of the Company to accept. The five per cent. deposit will be applied toward the payment, in case of accepted bids, and returned to those whose proposals are not accepted.

The President of the Company, Mr. C. P. HUNTINGTON, is well known as the Vice President of the CENTRAL PACIFIC RAILROAD COMPANY, and the same energy displayed in the management of that corporation, and to which its remarkable success is so largely due, is being put forth in the CHESAPEAKE AND OHIO.

The Board of Directors is composed of probably as strong and able men as were ever associated together to carry out a great enterprise. Among them are the following well known New York Merchants:

Messrs. A. A. LOW, WM. H. ASPINWALL,
JONAS G. CLARK, DAVID STEWART,
WM. WHITEWRIGHT, Jr.

This road will extend from Richmond to the heart of the great West, at a point on the Ohio River, 313 miles below Pittsburgh, where it will at once connect with 12,000 miles of river navigation, and soon by connecting roads with the whole great system of Western railroads, thus giving a short, direct and easy grade outlet to the millions of people and inexhaustible products of the West to the Atlantic Coast, and in return furnishing them with the manufactures of the East, and cheap coal and cheap iron from along the line of the road. Its traffic must be immense. It will cost, fully equipped, upwards of $30,000,000. Of the whole length of the line, 427 miles, at this date 360 miles are completed; the grading is nearly done on the remainder, the iron is being rapidly laid, and during November next, it is expected trains will run through to the Ohio river.

The Western end, 200 miles, will be nearly all laid with steel rails; the bridging all iron, and the masonry first class in every respect.

The total amount of these Bonds is **$15,000,000.** The amount sold by us from the date of bringing out the loan is **$14,489,600.**

The amount now offered by us is made up as follows:

UNSOLD BALANCE OF LOAN as above	**$510,400**
RE-PURCHASED AND RECEIVED FOR DEBENTURE BONDS OF THE COMPANY	**2,413,300**
LEAVING BALANCE SUBJECT TO PROPOSALS	**$2,923,700**

Should the Proposals exceed this amount a proper award among the accepted proposals will be made. An opportunity for Savings Banks, Insurance Companies, Estates and Investors to get so good a Bond on a great road, at a moderate price, is rarely offered.

The Bonds are issued in denominations of $100, $500, and $1,000; either Coupon or Registered; Interest payable May and November, both principal and interest payable in New York City, in U. S. Gold Coin. The accrued interest from May 1st will be added to all accepted proposals.

Proposals should be addressed to

FISK & HATCH, Financial Agents,
Chesapeake and Ohio R. R. Company.

☞ The business men of Alpena, Mich., are contemplating a railroad, to connect them with Grand Rapids and Chicago, by quite a direct route. They are correct in judging that the advantage of such a road would enhance the importance of their thriving city sufficiently to warrant a liberal investment towards the construction of the projected line of communication.

☞ Track-laying on the Green Bay and Lake Pepin Railroad has been completed to Northport, Iron for the extension is rapidly arriving at Green Bay.

Petersburg Railroad.

The earnings of this road in the years ending December 31, 1870 and 1871 compare as shown in the following exhibit:

	1870.	1871.
From passengers	$94,255 69	$84,768 01
" freight.....	148,411 55	160,458 00
" mail	9,750 00	10,562 50
" Southern express.	7,101 31	7,252 37
" miscellaneous ...	594 57	395 75
Total.....	$260,113 12	$263,431 63
Operating expenses.....	142,215 32	178,195 67
Net earnings.....	$117,897 80	$85,235 96
Coupons and interest.....		24,498 98
Leaving a balance of.....		$60,736 98

Out of these profits a dividend of four per cent was declared, amounting to the sum of $52,986. The President in his report dated February 15, 1872, says.

The fiscal year of this company, terminates annually, on the first day of January. On the 1st of February inst., a proposal was made in the Council of the city of Petersburg, to sell the city's interest in this road.

This proposal attracted more than ordinary attention, and the management of this road was most freely canvassed.

In view of this, for a moment, we will depart from the beaten path, stereotyped in most railroad reports, and submit a short review of a management which will receive the approval of the stockholders of this company, as we believe.

To enter into details covering a period of four years, would be tedious and unprofitable, but to state the general principles conducting the administration, in the particular of its finances, may be instructive, and will certainly afford the basis of attaining right judgment on the part of all.

Four years since, when the present administration was installed, there was a considerable outstanding debt, funded in six and seven per cent. bonds falling due in 1869, '70, '71, '72; there was a comparatively large floating debt, liquidated and unliquidated; there were large claims amounting to several thousand dollars, rapidly maturing to trial, on the dockers of the courts, every one of which resulted in judgments against the company; the receipts were far short of the pecuniary requirements; the road-bed was in an unsafe condition, being almost entirely without ballast; the sills, most of them green pine, rapidly wearing out; the rails, for the most part, seriously worn, not more than half spiked, and in the main, without chairs; several of the bridges to be entirely re-built; most of the depot buildings and the water stations to be constructed anew; very much of the motive power old, unsafe and inadequate; the rolling stock for freights, requiring constant and expensive repairs, by reason of being repaired during, and then since the war with unseasoned lumber. Such was the veritable condition of the road when its charge devolved upon the new management.

What it is now is well known to the travelling public, as well as to very many of our stockholders, who are familiar with its improved condition.

The arrangement and adjustment of the debts, the speedy making of the needed renewals of the roadway and rolling stock, the operating of the road the meanwhile, and the forced payment of dividends to the City of Petersburg, necessitated the adoption of some plan, in the common interest of all the shareholders, whereby successful results should be worked out of the seeming chaos, in large measure, the legacy of war.

The expedient of an issue of eight per cent. bonds was resorted to, by which to pay off the accumulated and accumulating debts, and supplement any deficit in the gross earnings which were inadequate to the payment of ordinary operating expenses, the large renewals necessitated by the then condition of the road, the dividends to the city, and the principal of, as well as the interest upon the funded and unfunded debt

In this connection, let it be borne in mind, that the City of Petersburg, a shareholder to the extent of more than one-third of the road, was entitled to, and demanded a three per cent. dividend on two thirds of its stock, under an act of the Virginia Legislature, and that too, whether the road was making or losing money.

While the gross earnings of the road were appropriated to, (and more than exhausted in,) the payment of ordinary expenses, of debts, of repairs, of dividends and interest, whereby the capital of the stock, (or in other words, the principal of the shareholder), was largely appreciated, and at the same time, one of the shareholders, (or co-partners), the City of Petersburg, holding more than one-third of all the stock, was receiving the benefit, not only of the appreciating value of its capital, (or principal invested), but was also demanding and receiving its three per cent. dividend, it was determined on, by the board of directors, that the shareholders, (or co-partners) other than the city,(the individual stockholders) should be placed upon the same footing with the city, by appropriating so much of the earnings as was required to pay to all the shareholders, the City of Petersburg and the individual stockholders alike, the annual dividend of three per cent., and so long as there was any deficit in the gross earnings for all the purposes required, supplement so much from the eight per cent. bonds as was necessary to restore the amount taken from the earnings for dividends, thus doing equal and exact justice to the entire partnership, and at the same time afford timely help to our stockholders, very many of whom, widows and orphans, were helpless and almost hopeless, and leave to posterity the obligation of paying some part of a debt, contracted in greatly enhancing the value of property to come into their possession. To have done otherwise, would have been to enrich one stockholder—the city—at the expense of all the rest.

Such was the condition of the road, and such was the policy adopted by your board. That it meets your approval, we believe; that it was just, none can doubt; that it was wise, the present condition of the affairs of the company amply attests.

The following abstract from the Report of the Treasurer exhibits in details, the financial condition of the company:

INDEBTEDNESS.

Seven per cent. coupon bonds.	$17,000 00	
Eight per cent. coupon bonds.....	341,500 00	
		$358,500 00
Bills payable.....		28,223 08
		$386,723 08
Due to other companies...	$7,040 70	
Dividends and interest....	18,852 50	
Bills not paid 1st January, 1872	14,189 31	
		40,082 51
		$426,805 59

CREDITS.

Cash assets.....	$44,228 45	
Due by other companies.	19,524 16	
		$63,752 61
Leaving total balance of indebtedness, 1871		$363,052 98
Total balance of indebtedness for the year 1870.....		314,552 02
Increase of debt.		$48,500 96
Total assets.		$1,782,865 35
Total liabilities, including capital stock.....		1,751,005 59
Excess of assets		$31,859 76

The total value of the road is $1,719,112 74, which gives a per mile value of $21,226 01, very much less than would be the cost of constructing and equipping a road such as this.

It will be observed, that the indebtedness has increased since the last report, by the sum of forty-eight thousand five hundred dollars. This increase of debt is represented in the large expenditure being made in the renewal of the track, and the bridge over the Roanoke river, between Garysburg and Weldon. This work is progressing satisfactorily.

The act of the Legislature of North Carolina, securing in this behalf certain privileges not heretofore enjoyed, is hereto appended.

In connection with the increase of indebtedness, it should be observed that the property of the company has appreciated in value, by reason of renewals and improvements, by the sum of sixty-eight thousand nine hundred and fifty-six dollars, more than counterbalancing the increased indebtedness.

Few, if any, roads in the South present a more favorable exhibit than does this road, and the board unhesitatingly renews the expression of its confidence in its present value and future prosperity.

The number of passengers transported over the road in 1871 was 34,953, against 40,399 in 1870. Freight carried in 1871, 52,345 tons, against 43,240 tons in 1870—showing a decrease in passengers of 5,446, with an increase in freight tonnage of 9,105.

The financial condition of the company as per Balance Sheet, at commencement of 1872, was as follows:

Capital stock.....	$1,000,000 00
Preferred stock.....	324,200 00
Seven per cent. coupon bonds..... ..	17,000 00
Eight per cent. coupon bonds	341,500 00
Bills payable.....	28,223 08
Due to other companies.....	7,040 70
Interest on bonds due Jan. 1, 1872..	14,000 00
Dividends 3 235 shares stock, 1½ per cent. due Jan. 1, 1872	4,852 50
Current accounts.....	14,189 31
Excess of assets over liabilities.....	31,859 76
	$1,782,865 35
Road and equipment.....	$1,719,112 74
Due by other companies.....	19,524 16
Bills receivable.....	2,602 32
Lancaster, Brown & Co.....	8,000 00
Cash on hand.....	33,626 13
	$1,782,865 35

President.—CHARLES F. COLLIER.

Vice President.—A. G. MCILWAINE.

Directors.—S. A. Plummer, D. B. Tennant, R. A. Martin, T. T. Broocks.

General Superintendent.—R. B. PEGRAM.

Treasurer.—DAVID G. POTTS.

Auditor.—DAVID R. DUNN.

Toledo and St. Louis Railroad.

The most active operations on the Toledo and St. Louis Air Line road have commenced. More than one thousand men are distributed from Shelbyville, Illinois, to Arcola, sixty miles this way, and are rapidly preparing the road for iron. An enthusiastic meeting was held at Shelbyville, on Thursday last, in honor of the vigorous commencement of the work. Colonel Sprague has been on that section of the line for several weeks past, pushing forward the enterprise. The greater part of the Illinois division will be completed this season.

The only reason that work has not been commenced on the eastern division, is the small deficit of local stock—about $30,000 out of more than $800,000. This is really all a deficit of our own county. Adams, Wells, Huntington, Tipton, Clinton, Boone, Montgomery and Vermillion have not only done their duty, but Huntington, Clinton and Boone have a surplus. In Grant and Fountain counties only are there deficits. The consid-

erable surpluses of Boone and Clinton counties are applied to Fountain, which brings it up full. The small surplus of Huntington is applied to Grant county, yet there is still a lack of almost $30 000—we having raised $70,000 out of our quota of $100,000—*Marion Chronicle.*

Houston and Texas Central Railway Company.

This road was begun in 1868 and will be entirely completed by Jan. 1st next. It is destined to open up a vast region of great fertility, and place the city of Houston and the chief part of Texas in safe and quiet communication with all important northern and western points. A glance at the map will show the completed portions of tract run through a settled and producing country. In 1869 the gold receipts on 141 miles were $1,047,827; in 1870 of 166 miles, $1,538,410; and in 1871, $2,311,337. The northern division or trunk line will terminate at Preston, on the Red River, a distance of 350 miles, and the western division, from Hempstead to Austin City, a distance of 115 miles, making the entire length of road 465 miles. The president, William E. Dodge, of the noted firm of Phelps, Dodge & Co., is a gentleman trusted and highly respected among all business, mercantile and monetary, classes; while such other officers and directors as W. M. Rice, Moses Taylor, Sheppard Knapp and W. Walter Phelps are well worthy to be associated with him. These names will inspire confidence wherever known.

The company are now offering through the eminent banking house of John J. Cisco & Son, 59 Wall street, first mortgage 7 per cent. land grant gold bonds at 90 and accrued interest in currency, principal and interest payable January and July in gold at the National Bank, New York city.

These bonds are secured by a first and only mortgage upon ten sections or square miles of land for every completed mile of road on the northern division or trunk line from the city of Houston to Red River, and on the western division from Hempstead to Austin city, the capital of the State, also by first and only mortgages upon the whole and entire lines of road of each division, and upon the property of the company of every description, including chartered rights, privileges and franchises, also by an annual sinking fund of two per cent. in addition to the amount derived from the sales of the lands, which are specially devoted to the purpose of paying the bonds. The land grant is 16 sections of 640 acres each, or 10,240 acres for every mile of road constructed; of which, however, as stated above, but 10 sections, or 6,400 acres, to the mile are covered by the mortgage. The issue of the bonds is limited to $20,000 per mile, and no bonds are issued except upon road thoroughly built, equipped and in active operation. Capital stock, $820,000, to which has been added the net earnings of the road, over $3,000,000, largely held by managers and directors. It will be seen that these bonds offer the highest possible inducements as to profit and security for permanent investment. They are in every respect first-class.

Jackson, Lansing and Saginaw Railroad.

The northern extension of this road is completed and accepted to the West Branch, thirteen miles above Wells. Beyond that point track laying is progressing rapidly, not less than five miles having been laid in four days, recently. There are some 600 men regularly employed. The new Superintendent, Major Geo. C. Hooper, has his office at Saginaw City, and with the energy for which he is noted, is sparing no pains to render this road complete in all its appointments. The following is from the Jackson *News*:

This road is opening up a section of the country that for wildness of scenery and picturesque beauty cannot be surpassed in this country, by penetrating these vast old forests that for centuries have been the secure abodes of the bear, wolf and deer, where they have remained undisturbed except by an occasional adventurous pioneer, or by the "noble red man," those solitudes are soon to echo with the shrill scream of the locomotive, and those beautiful lakes that for ages have nestled in those dark forests, will soon be the scenes of happy parties from the highest circles of civilization. As soon as the railroad is completed a ride to Mackinaw and a visit to the intermediate points of interest will be one of the most delightful of summer trips that can be imagined. The road will be completed to the north line of Crawford county this fall, and will undoubtedly be pushed to the Straits next summer, and is destined to be one of the most popular and safe roads to travel on in this country.

Illinois Central Railroad.

The statement of this Company for the month of August, 1872, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	1,409.74 for	$12,480 18
Acres Inter't Fund Lands Sold	40 for	480 00
Acres Free Lands Sold	183.89 for	2,158 90
Total sales during the m'th of August, 1872	1,633.63 for	$15,119 08
To which add Town Lot Sales	for	
Total of all	1,633.63 for	$15,119 08
Cash collected in August, 1872		$47,198 00

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois. 707 Miles.	In Iowa. 402 Miles.	Total. 1,109 Miles.
Freight	$444,741 00	$82,891 00	$527,632 00
Passengers	111,434 05	38,990 20	150,424 25
Mails	6,375 00	3,059 33	9,434 33
Other sources	73,625 00	2,140 67	75,765 67
Tot'l Aug. '72	$636,175 05	$127,081 20	$763,256 25
Total actual earn'gs, Aug., 1871	$706,947 35	$129,093 16	$836,040 51

Albany and Susquehanna R. R.

At the annual meeting of this company held in Albany on the 3d inst., the following gentlemen were elected directors for the ensuing year: Thomas Dickson, J. Pierpont Morgan, David Groesbeck, New York; Joseph H. Ramsey, Robert H. Pruyn, William A. Rice, Thomas Olcott, Albany; Minard Harder, Cobleskill; John Westover, Richmondville; John Cook, Worcester; Jared Goodyear, Colliersville; Eliakim R. Ford, Oneonta; Ira E. Sherman, Sidney Plaine. At a meeting of the directors held subsequently, the following officers were chosen: Joseph H. Ramsey, President; David Groesbeck, Vice President; William L. M. Phelps, Secretary and Treasurer.

☞ The estimated earnings of the Kansas Pacific Railway in August, 1872, were $349,381-80, against actual earnings in August, 1871, $332,-554 97—an increase of $16,826 83.

☞ The length of the Berks County (Pa.) railroad, between Reading and Slatington, is forty miles; one-half of this is now under contract, and the shanties for the workmen are being put up along the route.

☞ A railroad is being built from Mt. Union, in Blair county, (Pa.) to Matilda Furnace, in Wayne township, Mifflin county. The grading is nearly completed.

Traffic Guarantee

AND

REDEMPTION BONDS

7 per cent. Gold Interest.

Mortgage $15,000 per mile.

COMPLETED AND FULLY EQUIPPED RAILWAY.

228 MILES LONG,

ENTIRELY WITHIN THE

STATE OF ILLINOIS.

FIRST MORTGAGE SINKING FUND, GOLD BONDS OF THE

Springfield and Illinois South-Eastern Railway.

INTEREST PAYABLE FEBRUARY AND AUGUST, FREE OF GOVERNMENT TAX, AT THE

Office of the Farmers' Loan and Trust Company

IN NEW YORK.

PRICE 90 AND ACCRUED INTEREST.

These Bonds, representing an unusually light Mortgage upon a Finished Railway, fully Equipped, extending Centrally through one of the Richest, and most Populous States of the Union, remarkable for the great success of its different Railways, offer unusual inducements to the investor seeking a PROFITABLE AND SAFE SECURITY.

The Holder of this Bond has the right to vote at all Elections.

By the terms of a Traffic Guarantee Contract with the well-known CLEVELAND, COLUMBUS, CINCINNATI AND INDIANAPOLIS RAILWAY, (four of whose Directors, including the President and Vice-President, are also DIRECTORS IN THE SPRINGFIELD AND ILLINOIS SOUTH-EASTERN RAILWAY), A LARGE NUMBER OF THESE BONDS WILL BE PURCHASED BY LOT SEMI-ANNUALLY *AT PAR* and ACCRUED INTEREST, giving the fortunate holders Eleven per cent. Profit on their investment, besides nearly Nine per cent. Interest.

We respectfully invite the attention of all Capitalists to this Security as a particularly safe and desirable one.

Pamphlets and Maps with full particulars furnished by us on written or personal application.

JONES & SCHUYLER,

12 PINE STREET, NEW YORK,

Financial Agents of the Company.

Grand Rapids and Bay City R. R.

The eastern end of the Grand Rapids and Bay City Railroad will soon be completed. It is time to think of the western end of the road; the line from Midland City to Grand Rapids ought to be completed next season. The following from the Midland *Independent* tells how far advanced the eastern end of the road is, and what the prospects are:

An assessment of 10 per cent. was made on the 9th inst., on the subscribed stock of the above road, which is payable September 5th, and another assessment of 15 per cent., payable on the 6th of October next. These two assessments make the 100 per cent., or in other words, exhaust the subscription. We are informed that the grading upon this road is substantially completed, with the exception of a two-mile job at either extremity. The whole will be accomplished probably within 60 days. The ties and irons have not as yet been purchased. Many ties have been got out, however, along the line of the road, and are held for sale to this company. The iron will probably be secured ere long, and it is believed that before the frost hardens our ground again the locomotive will have made its first direct trip from Midland to Bay City.—*Grand Rapids Eagle.*

Wilmington and Reading Railroad.

The grading on the extension of the Wilmington and Reading Railroad from Birdsboro' to Reading is rapidly approaching completion. Three bridges are required over the Schuylkill, and by the time these are finished the whole road will be ready for the rails. The work on the extension of the W. and R. road from Reading to the Lehigh Valley Railroad, known as the Berks County Railroad is also progressing. The contractors are at work on the grading of the first twenty miles, and the remainder will be put under contract in a few days. The road connects with the Lehigh road at Slatington, and will be 40 miles long, part of which, however, will be built by the Lehigh Valley road. It is expected to have the cars running in a year. This will place Chester county in direct connection with the Lehigh coal regions. The project to build a branch from the Wilmington and Reading Railroad, at Springfield, up the Conestoga Valley into Lancaster county, we hear, is lying quiet for the present, owing to the fact that surveys of the proposed Lancaster City and Delaware River Railroad run parallel with it.—*Westchester Record.*

Marquette, Houghton and Ontonagon R. R.

The Marquette and Ontonagon and the Houghton and Ontonagon Railroad companies have been consolidated under the above title. The officers of the new organization are: H. N. Walker, of Detroit, President; S. P. Ely, of Marquette, Vice President; Freeman Norvell, of Detroit, Secretary; Moses Taylor, of New York, Treasurer. Directors, Moses Taylor and John Steward, of New York; Charles Adams, Jr., and Alex. Agassis, of Boston; H. N. Walker, George Jerome, S. L. Smith, S. P. Ely and C. H. Palmer, of Michigan.

It is understood to be the policy of the new company to extend their road and branches to all the mines in their vicinity, to increase the rolling stock and motive power equal to the demand, to reduce their rates of transportation, and, if practicable, to establish a new system of transportation, which, if carried out, will, it is thought, work advantageously to the producer and consumer, and relieve the anxiety of both.

A committee was appointed to investigate the mode suggested, which is to establish a line of steam barges to run in connection with the road, taking the ore from the mines and delivering it at its port of destination, with a certain degree of regularity, which it is impossible to do now. It is hoped that something may be done to facilitate transportation of ores from this region. The present prospects are that a demand for not less than 1,500,000 tons of ore, and possibly more, will be made next year from here. As it now looks not over 1,000,000 tons will be shipped this year, and over half this amount will go via the Chicago and Northwestern Railroad, via Escanaba. It is reported that the latter company intend to build 500 or more cars the coming winter to do the transportation required over their road next year, equal to 800,000 tons or more of ore. Their new shipping dock will be completed so as to use this fall to some extent. It is now very evident that neither road can move the whole amount of ore sold.—*Correspondence Detroit Post.*

The Cotton Crop.

The cotton crop as made up for the year ending August 31, 1872, is considerably smaller than the estimates of it which were published at this time a year ago, and this for reasons which we have duly published as the prospects varied from time to time until the last boll was picked. When the statement was completed last year, the indications for the new crop were so favorable that the most reliable estimates had gradually risen from three and a quarter to three and a half million bales, and it was our own opinion that the higher figure was not an exaggerated summary of the prospective yield. This was afterwards reduced, but very few, even of the least sanguine, expected that the total would fall below three million bales. The weekly *Financial Chronicle* of this city, under the advice and countenance of the Cotton Board, has made up the annual statistics which are accepted here as official. The following will show the yield in different sections as nearly as these can be divided:

COMPARATIVE PRODUCT OF COTTON.

	1869-'70	1870-'1.	1871-'2.
Louisiana	1,142,097	1,446,490	957,538
Alabama	305,956	404,673	288,012
Texas	246,284	314,484	197,956
Florida	23,194	16,688	19,359
Georgia.	485,374	725,528	450,539
South Carolina.	246,593	350,692	271,241
North Carolina.	58,884	77,223	52,528
Virginia.	203,981	339,175	276,098
Tennessee, etc..	322,386	580,813	341,080
Manuf. at South.	79,843	91,240	120,000
Total bales	3,114,592	4,347,006	2,974,351

The exports to foreign ports show a very large decrease as compared with the corresponding figures of last year. They may be summed up briefly as follows:

EXPORTS OF COTTON TO FOREIGN PORTS.

	1869-'70.	1870-'1.	1871-'2.
To Gt. Britain..	1,475,444	2,345,998	1,454,532
To France	346,706	138,869	189,634
To N. Europe...	255,315	496,377	229,427
To other ports..	96,094	152,928	82,721
Total bales	2,173,529	3,134,172	1,957,814

The total consumed in the United States can never be given with perfect accuracy, but the annexed estimate is probably near enough for all practical purposes:

HOME CONSUMPTION OF COTTON.

	North of Virginia.	Elsewhere.	Total.
1856-7, bales...	665,718	154,218	819,936
1857-8 "	452,185	143,376	595,562
1858-9 "	760,218	167,433	927,651
1859-60 "	886,521	185,522	972,043
1860-1 "	650,357	193,383	843,740
1865-6 "	594,000	72,000	666,000
1866-7 "	690,000	80,000	770,000
1867-8 "	884,281	81,385	965,666
1868-9 "	846,756	79,498	926,254
1869-70 "	777,341	85,265	862,606
1870-1 "	1,072,426	94,542	1,166,968
1871-2 "	1,007,540	130,000	1,137,540

We now present our usual comparison of the total crop of each year since 1820. The total given as the crop of 1865-6 includes a large amount grown in preceding years, but not sent forward until the ports were opened; the period of the war has been filled up with accepted estimates;

COMPARATIVE CROP STATEMENT.

	Bales.		Bales
1820-1	430,000	1846-7	1,778,651
1821-2	455,000	1847-8	2,347,634
1822-3	495,000	1848-9	2,728,596
1823-4	509,158	1849-50	2,096,706
1824-5	569,249	1850-1	2,355,257
1825-6	720,027	1851-2	3,015,029
1826-7	957,281	1852-3	3,262,882
1827-8	727,593	1853-4	2,930,027
1828-9	870,415	1854-5	2,847,339
1829-30	976,845	1855-6	3,527,845
1830-1	1,038,848	1856-7	3,939,519
1831-2	987,477	1857-8	3,113,962

1833-4	1,205,324	1859-60	4,669,770
1834-5	1,254,328	1860-1	3,656,086
1835-6	1,360,725	1861-2. (est.).	4,800,000
1836-7	1,422,930	1862-3. (est.).	1,500,000
1837-8	1,801,497	1863-4. (est.).	500,000
1838-9	1,360,532	1864-5. (est.).	300,000
1839-40	2,177,835	1865-6	2,154,476
1840-1	1,634,945	1866-7	1,951,988
1841-2	1,683,574	1867-8	2,430,893
1842-3	2,378,875	1868-9	2,260,557
1843-4	2,030,409	1869-70	3,114,592
1844-5	2,394,503	1870-1	4,347,006
1845-6	2,100,537	1871-2	2,974,351

The Sea Island crop for last year was the smallest of any year upon our record, amounting to only 16,845 bales. The largest total was for 1858-9, when it reached 47,592 bales. The smallest previous total was for 1868-9, when it fell to 18,054. The next year it reached 26,507, then fell to 20,818, for the year before last.

Prices of cotton have ruled during the year a little above the range for the previous year. The average of the range, reckoning one week with another, is 22 cents. The highest price for middling upland in this market was 27¼, and the lowest price 18¼, reckoning from September 1, 1871, to August 31, 1872. We have prepared with much care, from the official record at the Cotton Exchange, the highest and lowest price of middling upland at this port for each week of the year, which will be found extremely valuable for reference, and should be carefully preserved:

HIGHEST AND LOWEST PRICE OF MIDDLING UPLAND COTTON AT NEW YORK DURING EACH WEEK OF THE YEAR ENDING AUGUST 31, 1872:

Week end.	High-est.	Low-est.	Week end.	High-est.	Low-est.
Sept. 8—1871.	20⅞	19¾	Mch. 8—1872.	22¼	22¼
Sept. 15	21¼	20¾	Mch. 15	22¼	22¼

Mch. 1	22¾	22¼	Aug. 30	22	21¾

Some time ago we compiled a yearly table giving the highest and lowest prices of middling upland at this port for each year since 1825. This was very highly esteemed, and we were solicited for copies long after our edition was exhausted. We now repeat this table, adding to it the highest and lowest for the year 1872 from January 1 to August 31. This, it will be noticed, is for the calendar

year ending December 31, and not for the commercial year:

HIGHEST AND LOWEST PRICES OF MIDDLING UPLAND COTTON IN EACH OF THE YEARS NAMED AT THE CITY OF NEW YORK.

Year.	Highest price.	Lowest price.	Year.	Highest price.	Lowest price.
1825	27	13	1849	11	6
1826	14	9	1850	14	11
1827	12	8	1851	14	8
1828	13	9	1852	10	8
1829	11	8	1853	11	10
1830	13	8	1854	10	8
1831	11	7	1855	11	7
1832	12	7	1856	12	9
1833	17	9	1857	15	13
1834	16	10	1858	13	9
1835	20	15	1859	12	11
1836	20	12	1860	11	10
1837	17	7	1861	28	11

1844	9	5	1868	33	16
1845	9	4	1869	35	25
1846	9	6	1870	25¾	15
1847	12	7	1871	21¼	14¾
1848	8	5	1872 to 8p. 1	27⅜	18⅜

The damage to the growing crop from various causes, and especially from the furious storms and overflow of water in Alabama, have modified materially the estimates made some time ago. A few days since the sharp turn of cold weather led many to fear an early frost that would put an end to all ripening of the late yield. Not a few argue from the extreme heat of the past summer, an early and cold winter, to extend over a large area of country. Of course this is mere speculation, but the indications of a long, late picking season are not as favorable quite as usual. If no untimely frost occurs, with a fair opportunity to gather all maturing, the yield will probably be near three and a half million bales.—*N. Y. Journal of Commerce.*

Notes on Tennessee Roads.

It appears likely that Chattanooga will push through her air line to Pensacola. The South and North proposed to build the Chattanooga, Montgomery and Pensacola road beginning at Rome, Georgia, if Chattooga and Walker Counties would subscribe $100,000, but the Lookout Mountain Company want the work to begin at Chattanooga and this appears to be the understanding now. The indications are that Chattooga and Walker counties will assist, and Chattooga has already promised.

The survey of the Columbia and Fayetteville road was begun on the 19th inst., and is now being carried vigorously forward. Fayetteville does not seem as enthusiastic as Columbia and Lewisburg, and counts out its dollars for assistance slowly. Unquestionably this road would be of immense benefit to Lincoln County and no county can better afford it. Nature has made the route an easy one, almost level, while Marshall, Maury and Lincoln are all fertile to a remarkable degree; the two latter are among the richest counties in the State. Probably Lincoln is rich enough to be a little selfish and careless as to its neighbors welfare, Maury has not subscribed yet but will in all probability; while Marshall is very anxious, a subscription of $300,000 to the Cumberland and Ohio, restrains it from action just now.

The bidding closed for the building of the extension of the Mississippi Central from Jackson, Tennessee, to Cairo, and Col. Reid has laid the estimates and bids before President McCombs. The Jacksonians are hopeful of an early completion of this line.

The Memphis and Knoxville narrow gauge is working it way through the mist of wordy preliminaries.

The Cincinnati Southern sold $150,000 of their bonds to the First National Bank of Cincinnati lately at a handsome premium. With this money they intend to complete the surveys to Chattanooga, and arrange other preliminaries so that by the first of 1873 to begin the grading.—*Nashville Journal of Commerce.*

Air-Line Route from Nashville to Chicago.

Among the various roads lately projected and now completed, has been an air line route from Nashville, Tenn., to Chicago, via Evansville and Terre Haute. In other words a road has been built from Henderson, Ky., opposite Evansville, Ind., to Nashville, Tenn., as an extension of the Evansville and Crawfordsville Railroad, at the southern extremity, while at the northern terminus the Terre Haute, Danville and Chicago Railroad has been completed, so that now the run from Chicago to Nashville can easily be made in twenty hours. These three roads are soon to be consolidated, and cars without change will be run from Evansville to Chicago, the distance being about three hundred miles.

Between Vincennes and Terre Haute the Evansville and Crawfordsville Railroad runs through a valuable coal country; and previous to the opening of this one to Chicago there has been little or no market for the coal mined in this region, so that, during the summer months especially, the miners were idle. Now there is a ready sale for all the coal offered, and so great is the demand that several new shafts have recently been sunk in Sullivan county. About three fourths of the freight trains to Chicago over the Chicago, Danville and Vincennes road are now composed of coal cars. Besides this, immense quantities of cotton and tobacco from Nashville, which were formerly sent over the Louisville and Nashville as a matter of necessity now comes this way. This new road is as straight as an arrow, and seems so destitute of curves that an express train could run on it 50 miles an hour with ease and safety. This is destined to be the great Southern route from Chicago, and will form a valuable connection with the Terre Haute and Cincinnati road now building, a portion of which was opened with a celebration on the 6th inst., to Middleburg, in Clay county, Indiana.—*Chicago Journal of Commerce.*

☞ The managers of the Chicago, Dubuque and Minnesota Railroad have made proposals for building another branch of their line. It will commence on the Iowa and Pacific, eight miles beyond Lafayette, and run up into Howard county, via Cresco. The building of the road will commence as soon as certain preliminaries are fixed up. The Chicago, Dubuque and Minnesota Railroad is now running to Brownsville, Minnesota, and on the Tucker Valley Road the iron is laid to Elkport, and beyond.

☞ Mr. Wendell Bollman, of Baltimore, the contractor for the erection of iron bridges over the creeks on the line of the Frederick and Pennsylvania Line R. R., completed the last one, that over Monocacy, on Saturday morning last. It is a neat and handsome structure, and reflects much credit upon the builder.

☞ The following persons have been elected directors of the Cincinnati, Rockport and Southwestern Railway Company, to serve for one year: A.S. Goshorn, James M. Glenn, S. S. l'Hommedieu, K. Garrard, Joseph Kinsey, Henry Lewis, E. H. Sabin, L. J. Debruler, John Mollen, Jacob Seasongood, J. F. Melbourne, John A. Mann.

☞ Work will soon be commenced on the Nashua and Rochester Railroad at Rochester.

☞ The survey of the Painesville, Warren and Pittsburgh Railroad has been completed.

LOW PRICE

THE

CHICAGO

AND

CANADA SOUTHERN

First Mortgage Sinking Fund

30 Years'

7 PER CENT. GOLD BONDS

AT

90 AND ACCRUED INTEREST.

Interest Payable April and October at Union Trust Company.

This road is the western link in the new AIR LINE from BUFFALO to CHICAGO, and runs from the Detroit River to Chicago in nearly a straight line.

The road is a part of the same line as the Canada Southern, and is being built by the same men, viz.: Milton Courtright, John F. Tracy, David Dows, Wm. L. Scott, Henry Farnham, R. A. Forsyth, John M. Burke, M. L. Sykes, Jr., all Directors either in the Chicago and Northwest, or the Chicago, Rock Island and Pacific; Geo. Opdyke, of the Midland Road; Sidney Dillon, Daniel Drew, John Ross, David Stewart, Samuel J. Tilden, Kenyon Cox, and other prominent railroad men.

The Road, like the Canada Southern, will have steel rails (60 pounds to the yard) throughout; is practically straight and level; much shorter, and can be run more quickly and with greater safety than any other road connecting Buffalo and Chicago.

Twenty-five miles are finished and running; seventy-five miles more are so far advanced as to be finished by January 1st, and the entire road will be completed during the ensuing year. Steel rails and ties for one-half the entire road have already been purchased.

The builders of the road control enough of its Chicago feeders to obtain for it a profitable business from the start, having projected the line to accommodate existing business, and having seen the necessity for another trunk line between Chicago and the Atlantic seaboard, located expressly with the view of obtaining the cheapest transportation practicable.

The branch lines will make the shortest connections between Chicago and Toledo, and Chicago and Detroit, as well as between all these points and Buffalo.

The Canada Southern Bonds in every particular like these, were eagerly taken, the last of them several weeks ago, by the best class of investors, and were on the market a shorter time than any other railroad loan of like amount for years past.

The proceeds of these bonds will complete the entire line, and we recommend them with the same confidence as we did the Canada Southern, and regard them as in every way a choice security.

☞ The Kendallville (Ind.) *Standard* says that the surveyors of the Lake Shore, Midland and Western Railroad Company have arrived at that place, having completed the preliminary survey to Kendallville from the Illinois State line; that the directors of the company have also been there looking after the interest of the proposed road,and that everything appears to be favorable for its speedy construction.

Vermont Central Railroad.

The Vermont Central Railroad has obtained permission of the courts in Vermont to issue a new loan of about $2,000,000. This is rendered necessary by the extraordinary expenses incurred in putting the road in thorough repair, and making additions to the rolling stock. To this may be added the loss incurred by leasing the Rutland and Ogdensburg roads, the earnings of which for the past year have not covered the expenses and the rental. These losses have not taken the managers by surprise. It was expected that for the first few years the receipts would not be sufficent to pay the operating expenses and the full rent. In taking the lease the calculations were based upon the whole period of twenty years, and that the growth and development of the property within that period would make the whole a profitable undertaking. In this view the Vermont and Canada stockholders fully concurred, as was expressed by their vote unanimously authorizing the execution of the lease.

The indebtedness of the road for which trust property is held, amounts to $4,000,000, with an interest of $310,000, to which the new loan of $2,000,000 is added making $6,000,000 at $471.000 interest. The securities which take the chances of earnings are the Vermont Central first mortgage bonds, $3,000,000 7 per cent., and the Vermont and Canada stock of $3,000,000 8 per cent. calling for an annual payment of $450,000 ; maka total of $921,000. This, it will be perceived, is more than the income of the road for the year ending May 1, 1871, as per the report of the managers, though the next six months show a decided improvement. The business of the road has been steadily increasing during the last ten years, as the figures plainly show. In 1861 the tonnage of the road was 213 834, with receipts amounting to $713,417, while in 1871 the road carried 806,152 tons, and receipts amounted to $2,107,900, exclusive of the earnings of the S., S. and C. The floating debt of the road is now about $2,000,000 against which are assets, including the new extension bonds, of $2,500,000, excluding from these assets all the securities pledged to the payment of the S., S. and C. bonds.

The road is in the best condition as regards the road bed and equipment. The traffic is steadily increasing and the managers believe that by a reduction of the expenditures, and a proper increase of the local tariff, and the natural increase of the business of the road, which we have seen has been steadily progressing for the past ten years, they will be able to overcome the deficiency in income and earn the interest on the whole debt.

In this aspect of the affairs of the road it cannot be doubted that the security holders will find it to their interest to come forward and take the new issue of bonds, relieve the management of its floating liabilities, and thus hold the great system of our Northern Railroads for the benefit and development of Boston, rather than see it diverted into other channels.—*Boston Journal, Sept.* 3.

☞ The last rail has been laid on the Hastings and Dakota Railroad through Hastings and Glencoe, and workmen are now engaged in ballasting the newly made track. This makes seventy-four miles on this important railroad line that is now completed.

☞ Grading on the main line of the Northern Pacific Railroad, in the Dakota division, is progressing very rapidly, the level condition of the country necessitating no great amount of very heavy work. The grade will all be completed to the Missouri river by October.

☞ The work of extending the Chicago and Northwestern Railway northward from Menominee progresses slowly. There is a determination, however, to get it through to Escanaba this season, and the probability is that it will be done.

The South Side Railroad.

We have already alluded to the project for the construction of a railroad on the south side of the Ohio river from Phillipsburgh, or some other point in that vicinity, to Pittsburgh. A meeting was held in Phillipsburg, on the 2d inst., to take action in reference to the matter. An organization was effected by calling John R. McDonald, Esq., to the chair, and electing J. C. Ritchie and W. J. Langfit, Secretaries. J. P. Fleming, Esq., then made a lengthy and effective speech, illustrating the advantages to be derived from the new railroad. Mr. Kerr, of Allegheny county, and Rev. W. G. Taylor addressed the meeting. The following persons were then selected as corporators: J. B. McKee, Marshall McDonald, W. J. Langfit, W. B. Anderson, W. G. Taylor, William Cooper, David McDonald.

The corporators were authorized to obtain such books as might be necessary, and to solicit subscriptions to the capital stock of the proposed corporation, and to make surveys for the location of the road. The meeting then adjourned.

A railroad on the South Side will be fed from the start by a large and remunerative local traffic, and will enhance the property along the route in value to an amount sufficient to defray the expenses of the construction.

The gentlemen agitating the matter are going forward with a determination to put it through, and it is hoped that they will have the cordial cooperation of all the people of the South Side.—*Pittsburg Chronicle.*

Shenandoah Valley Railroad.

The meeting of the stockholders of the Shenandoah Valley Railroad Company, and that of its board of directors, at Front Royal, on Tuesday and Wednesday last, were well attended, and we learn that a large amount of important business was transacted, amongst which was the appointment of a special committee, with Mr. Boteler its chairman, to confer with the Cumberland Valley Railroad Company in regard to the connection with Hagerstown, said committee being authorized, when the right of way in Maryland shall be satisfactorily arranged, to contract for the construction of the bridge, graduation, masonry, &c., between this place and Hagerstown.—*Shepherdstown (Va.) Register.*

☞ The corporators of the South Side Railroad Company appointed at a meeting held at Phillipsburg, in Beaver Co., Pa., on the 2d inst., met in Pittsburg on the 4th inst., and elected the following officers : J. P. Fleming, President ; David McDonald, Vice President ; W. J. Langfit, Treasurer ; W. B. Anderson, Secretary ; J. S. Ferguson, Solicitor, and Charles A. Cooper, Engineer. It is proposed to organize the company under the general railroad law. The right of way has already been obtained, and a considerable amount of stock subscribed. The enterprise bids fair to be carried out to successful completion.

☞ The new locomotive " Authracite," recently placed on the Albany and Susquehanna railroad, is of an altogether different model from those heretofore built for that or any other road, having six driving wheels and no trucks, and carries its water above the boiler, thus dispensing with a tender. The firing apparatus is so arranged that the fires last all day, without replenishing, and the furnaces require dumping only once a week.

☞ Ground was broken and work commenced on the 5th inst. on the Warsaw division of the State Line railway running from Rochester to Pittsburg. A large number of people were present. The work from Rochester to Salamanca is to be completed in one year.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

American Railroad Journal.

Saturday, September 14, 1872.

Stock Exchange and Money Market.

The Money market has been comparatively well supplied, chiefly through the agency of private lenders, the banks having been less liberal of accommodation in view of their contracted reserve averages. The demand for aid has been good on mercantile account, with strictly prime to good grades of business paper rated at from 7@10 per cent. per annum. The speculative inquiry has been brisk, and has been quite readily met, within the range of 4@6, generally at 5 per cent. on call, on the pledge of satisfactory collaterals. The city banks, last week, were again losers, in their leading items of averages, particularly so in that of deposits, while reporting a further slight increase in their circulation. The U. S. Sub-Treasury added moderately to its coin balances chiefly through the receipts from customs which amounted at this port alone, for the week, to $3,664,000. The office reduced its currency reserves about half a million.

The U. S. Sub-Treasury office last week received $3,505,444 of currency, and $3,965,129 of gold, the latter including $3,664,000 from customs; and disbursed $3,941,144 of currency and $3,513,747 of gold, the latter embracing $982,526 of coin interest. The city banks reduced their loan and discount average about 1⅛ millions during the week, and enlarged their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $10,232,302, and a coin reserve of $51,718,675.

The city banks, in their latest return, show a reduction of $298,200 of legal tender notes, $2,951,000 of specie, and of $5,420,000 of deposits, also a contraction of $1,172,400 in their loan and discount averages, and an increase of $57,900 in their item of circulation. The city bank exchanges, last week, averaged 93¼ and thus far, this week, about 103 millions daily. The banks now hold $2,232,525 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $13,451,300, against $10,762,800 same time last year. The city bank deposits are now $213,616,200 against $249,078,600, week ending Sept. 9, 1871. The legal tender reserve amounts to $49,068,500, against $66,945,700 same time last year. The circulation now stands at $27,532,900 against $30,144,200 same time last year. The loans are now $287,640,000 against $311,206,300 at this date last year.

The coin reserve of the city banks is now under 13⅛ millions as against about 29⅛ millions on the 20th of July; the legal tender reserve is about 49 1/16 millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 213⅝ millions, against 247¼ millions on the 20th of July.

Government revenues have been yielding quite satisfactorily since our last. The excises yielded within the week about three millions, and thus far in the current fiscal year beginning with July 1, 1872, $28,488,789. The customs at the port of New York last week were $3,522,111; at the outports, equal to about $1,200,000 all in coin, or coin certificates.

Under the Treasury programme for September, Government proposes to sell, Gold, as follows: Thursday, September 19, $1,000,000; Thursday, September 26, $1,000,000. And to buy in Five Twenties, as follows: Wednesday, September 18, $1,000,000; Wednesday, September 23, $1,000,000.

The Gold speculation has been of less general interest, and the fluctuations in the price have been within a narrow range. The customs call has been up to about $600,000 per day. The export drain has been unimportant. The later transactions indicated weakness.

The range of the price during the week has been from 112⅝@113⅜ and the closing quotation on Wednesday was 112⅞ against 113 the preceding Wednesday. The specie outflow last week, was only $374,433. The Gold Exchange Bank clearances have averaged about 44¾ millions per day during the week.

The customs demand for Gold last week, averaged $610,670 a day; thus far, this week, it has averaged $589,000 a day, or equal to a weekly aggregate of $3,534,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $8,367, and since Jan. 1, 1872, $2,884,995 against $7,506,816 same time in 1871. The total customs revenue of the Government, in

coin, at this port, since January 1, has been $107,581,542 against $111,924,297 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $58,328,410, against $64,396,697 during the same time in 1871.

The export drain of specie was $374,433 last week, against $422,105 same week preceding year. The shipments since January 1, 1872, have been $56,916,603 against $54,296,201 during the same portion of 1871.

Foreign Exchange has been quoted decidedly lower, on a freer offering of bills, and a restricted inquiry, closing weak. Bankers' sixty day bills on London closed on Wednesday at 108 1/8@108 3/8; sight bills on London, 108 7/8@109 1/8.

The week's exports hence of domestic produce have been to the currency value of $4,909,999.

Government securities has been in less demand, and values have been quoted easier, influenced mainly by the depression in gold. The later transactions indicated a steadier range of prices.

On Wednesday, Government bought in a million of Five-Twenties at 111 08@111 44 out of an aggregate offering of $4,494,600.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 115@115 1/2; U. S. Five-Twenties of 1862, 113 3/8@113 7/8; U. S. Five-Twenties of 1864 at 113 3/8@113 7/8; U. S. Five-Twenties of 1865, 113 3/4@114; U. S. Five-Twenties of 1865 consolidated, 112 5/8@112 3/4; U. S. Five-Twenties of 1867, 113@113 1/2; U. S. Five-Twenties of 1868, 113@113 1/8; U. S. Ten-forties at 107 7/8@108 U. S. Fives of 1881 (Funding Loan) 111 1/4@111 3/4; Six per cent. currency bonds, 112@112 1/8.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 28.	Sept. 4.	Sept. 11.
Consols	92 3/4	92 7/8	92 5/8
U. S. 5-20's of 1862	92 1/2	92 5/8	—

" 10-40s	88	88	87 1/2
New Fives of 1881	89 3/4	89 7/8	89 1/4
Erie	40 1/3	39 1/4	40

State bonds have been comparatively quiet and irregular as to prices.

Railway and Miscellaneous share property has been more active, and the speculative dealings have been more confident in the favorite stocks, prices closing firmly.

Railway Mortgage Loans have been in moderate investment demand, at the current rates. Central Pacific Sixes have been in request, at 99 1/2@99 3/4. Chesapeake and Ohio have been selling at 94 per cent. and accrued interest.

The Metal trade has shown rather more life. Ingot Copper has been in pretty fair request and quoted about steady, with sales reported of 300,000 lbs., at 33 1/4c.@33 1/2c. per lb. Scotch Pig-iron has been quoted firmer on light offerings of stock, but has been quite moderately dealt in; sales, 120 tons Gartsherrie at $57; 150 tons Glengarnock and 50 tons Langloan at $54, with Eglinton quoted at $52. American Pig-iron has been purchased to the extent of 500 tons, part at $56 for Allentown. Of Iron Rails, 2,000 tons English, and 2,000 tons American, sold on private terms, the former quoted at $73@$75, gold, and the latter at $85@$87 50, currency per ton. Lead, Spelter and Zinc, dull at old figures. Pig Tin firm at 33c.@33 1/4c., with sales of 100 slabs Shorts at 33c., gold. Tin Plates, tame, and irregular: sales, 250 boxes assorted Charcoal, at $13 25, gold.

General business has been fairly active in most kinds of Domestic produce, with values comparatively well supported in most instances. Middling upland cotton closed weaker on Wednesday at 21 1/2 cts. per lb. The receipts at all the ports, since Sept. 1, have been 33,744 bales, against 17,778 bales same time in the preceding year; exports 2,055 bales against 8,826 bales in the previous year; stock at the ports at latest dates, 55,302 bales against 99,337 bales same date 1871.

At the Live Stock Markets, Beeves have been in less demand at 10@13 1/2 cts.; Veals at 7@10 cts.; Sheep at 5 1/2@7 1/2 cts.; Lambs, 6 3/4@9 3/4 cts.; Swine, at 5 1/4@5 1/2 cts. per lb., all live weight. The week's receipts were 11,053 Beeves, 2,389 Veal Calves, 30,227 Sheep and Lambs, and 39,595 Swine.

Foreign goods have been more generally active, and on the whole, strong in price. The week's imports of foreign goods reached the amount of $8,969,052 including $3,365,385 of dry goods.

Ocean freights have been moderately active at firmer rates, particularly for Grain, of which the offerings have been quite liberal.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—South Carolina 6s, new, Apl. and Oct., 28; do Jan. and July, 25; New York State 7s, B. L., 108; Brooklyn 6s, W. L., 94 1/2; Boston, Hartford and Erie R. The New Railroad Outlet for the Southwest.

CHESAPEAKE AND OHIO RAILROAD BONDS.

The Chesapeake and Ohio Railroad Company, whose extension of their line to the Ohio river, at a point favorable for continuous navigation, was begun some two years and a-half since, have so nearly completed the work that they are able to announce that trains will be running from Richmond to Huntington, 420 miles, before the close of the year. They at the same time announce the disposal of all but $500,000 of their fifteen million first mortgage loan; and it is now proposed to offer the unsold balance, together with about $2,500,000 of these bonds which have been either repurchased or received in exchange for the Debenture Bonds of the Company, for public proposals. The opportunity is thus afforded capitalists to secure a portion of this Loan at the time when the whole remainder is being removed out of the market, prior to its introduction upon the Stock Exchanges, and just as the magnificent enterprise is on the eve of completion. A portion of these bonds is already held in Europe, and it is natural to expect that large amounts will follow, as in the case of the Central Pacifics, under substantially the same financial management. As will be seen by their advertisement in our columns, Proposals for Bonds should be sent to the Financial Agents of the Company, Messrs. FISK & HATCH, up to Monday, the 16th inst.

☞ The earnings of the Central Pacific Railroad Company for the month of August, 1872, were $1,228,297; for the month of August, 1871, $1,006,373—increase this year over 1871, $281,924. Earnings first eight months 1872, $7,972,208; earnings first eight months, 1871, $5,920,552—increase this year over 1871, $2,051,656.

☞ The estimated earnings of the Erie Railway for the week ending September 7, 1872, were $379,871; against $414,087 for the corresponding period of 1871—a decrease of $34,216. Total earnings since April 1, 1872, $8,244,909—an increase over the same time in 1871 of $47,367.

☞ The Muskegon and Big Rapids (Mich.) Railroad is to be built forthwith, James F. Joy having taken hold of the enterprise.

HOUSTON AND TEXAS CENTRAL
RAILWAY COMPANY'S
FIRST MORTGAGE
Land Grant Sinking Fund
7 PER CT. GOLD BONDS,
AT 90 AND ACCRUED INTEREST IN CURRENCY,

Yielding over Nine per Cent. on the Investment.

WILLIAM E. DODGE, of New York, President.
SHEPHERD KNAPP and WILLIAM WALTER PHELPS, Trustees for Bondholders.

Principal and Interest payable in Gold at the National City Bank, New York. We confidently assure investors that these Bonds are in every respect first-class, and we recommend them as an entirely safe investment. All securities taken at Board prices in exchange. Circulars and information may be obtained at our office.

JOHN J. CISCO & SON,
No. 59 Wall-st., New York.

Cotton Trade of Mobile.

The exports of Cotton from Mobile (Ala.) for the years ending September 1, 1871 and 1872 have been as follows:

	1871.	1872.
Great Britain	137,484	211,154
France	16,133	10,432
Other foreign ports	9,537	14,925
Total foreign	163,154	236,511
Total United States	84,194	122,234
Grand total	247,348	358,745

Commerce of Charleston.

The Charleston (S. C.) *Courier* publishes the following as an approximate value of the leading articles of export from that port during the year ending August 31, 1872:

Cotton, 270,000 bales upland	$27,000,000
Cotton, 11,789 bags Sea Island	2,500,000
Rice, 43,000 tierces	2,000,000
Navel stores, 149,000 barrels	1,100,000
Lumber, 12,000,000 feet	175,000
Domestic yarns 20,000 bales	2,000 000
Phosphates (manufactured and crude)	1,500,000
Sundries additional	2,000,000
Total value	$38,275,000
To which add the jobbing trade of the city	22,275,000
Showing the business of Charleston to have amounted the past year to	$60,550,000

☞ Gen. George W. Cass has been elected President of the Northern Pacific Railroad Company, Vice J. Gregory Smith, Esq., resigned. Mr. Cass will take up his residence permanently in New York, and give his undivided attention to the interests of the Northern Pacific.

☞ The Detroit river tunnel is progressing. The tunnel now extends under the river 905 feet from the Michigan shore, and about 300 feet from the Canada shore.

☞ It is stated the Allegheny Valley Railroad Company has purchased a controlling interest in the Oil Creek and Allegheny River Railroad, and will take possession soon.

THE
St. Joseph & Denver City
RAILROAD COMPANY'S
First Mortgage Bonds

are being absorbed by an increasing demand for them.

Besides being the obligation of a wealthy corporation, composed of men of experience and high-toned commercial integrity, they are secured by a first mortgage on the road, revenues, land grant, franchise and equipments, combined in one mortgage, and are readily negotiable both in the markets of this country and Europe.

A liberal sinking fund provided in the mortgage deed must advance the price upon the closing of the loan. Principal and interest payable in GOLD. Interest at eight (8 p. c.) per cent. per annum, payable, semi-annually, free of tax Principal in thirty years. Denominations, $1,000, $500 and $100, Coupons or Registered.

Price 97½ and accrued interest in currency, from August 15, 1872.

Maps, circulars, documents and information furnished.

Trustees, Farmers' Loan and Trust Company of New York.

The diminished quantity of these Bonds for sale, and the increased demand absorbing them, warrant the belief they will soon be sought for at an advance considerably above the present subscription price at which they can now be had through the principal Banks and Bankers throughout the country, and from the undersigned, who unhesitatingly recommend them.

TANNER & CO.
BANKERS,
NO. 11 WALL STREET.

☞ The Philadelphia *Ledger* of 9th inst., reports the net anthracite coal tonnage for the week ending on the 31st ult., from all sources, at 460,663 tons, and for the year 12,872,899 tons, against 8,606,476 tons to the same date last year, being an increase in the tonnage of anthracite coal of 4,266,423 tons. The production of bituminous coal for the week was 57,525 tons, and for the year 1,669,356 tons, against 1,543,495 tons to the corresponding time last year—an increase of 125,161 tons. The total production of all kinds of coal for the week was 517,688 tons, and for the year 14,542,255 tons, against 10,109,881 tons to corresponding time last year, showing an increase of 4,432,374 tons.

☞ The Pewabic Mining Company has declared a dividend of $1 per share, payable October 5.

Journal of Railroad Law.

COMMON CARRIERS—BURDEN OF PROOF—RESPONSIBILITY FOR LOSS OF CATTLE.

The late case of The Baltimore and Ohio Railroad Company *vs.* Brady (32 Maryland, 333), was an action to recover damages for loss and injury to a number of cattle belonging to the appellee. The appellant offered in evidence a printed tariff of special rates under which it assumed no responsibility for loss, damage or delay to stock. This tariff contained the condition that the rates therein specified were to be charged only when the owner of the stock, or the party in charge of them, executed to the company a release of all liability for risks or damage to his person or stock. When no such release was executed, the charge would be made at local first class rates of the general tariff. The appellee was charged for the transportation of his cattle under the tariff of the special rates, but executed no release.

The following is the opinion of the court delivered by—

BRENT, J.—There is no doubt that a common carrier by an express contract with his employer may limit his ordinary responsibilities. Where idemnity from loss is claimed by virtue of such a contract, the burden of proof to establish it is upon the carrier.

In this case a special contract was attempted to be set up by showing that the appellee paid for the transportation of his stock at a tariff under which by the printed table the company assumed no responsibility for loss, damage or delay of stock. This alone was not sufficient. It was necessary to show that the owner of the cattle had notice or actual knowledge of these terms at the time or before the delivery of the stock by him to the company to be transported and they were assented to on his part. 2 Redfield on R. R., 80. This was the only question in the case; it was one of fact for the jury upon all the evidence and was promptly submitted to them.

There was no written contract which the court was called upon to construe; and although the appellee may have paid the special rates, it does not follow, as a conclusion of law, that he had notice of the terms upon which they were charged, or that he assented to the same. The weight of testimony is against any such conclusion. The evidence offered by the company shows that really no contract was entered into by the appellee to limit their responsibility as a common carrier. Where the special rates were accepted, releases were to be given. In this case, no release was given by the owner of the cattle, according to the company's own terms, a contract was never consummated between the parties. Their own evidence also rebuts the presumptions of any contract growing out of the charge of the special rates. The cattle were placed on the cars at Brady's Mills, and the charges for their transportation were fixed at the company's office in Baltimore City, after the accident and loss occurred, upon which this action is founded.

In looking at the whole case, the appellant has nothing to complain of in the instruction and payers which were granted by the court below. The prayers of the appellee which were granted, properly state the law of the case. And in the fourth prayer of the appellant the case is most favorably submitted to the jury upon the law, and the whole question of the existence of any special contract left to be passed upon by them on the whole evidence in the case.

Seeing no error in the rulings of the court below, the judgment will be affirmed.

Judgment affirmed.

Springfield and Illinois Southeastern Railway.

Last May the Springfield and Illinois South Eastern Railway Company being desirous to extend its roads northwestwardly from Beardstown to some point on the Mississippi River, and from Shawneetown to some point on the Ohio River, entered into an agreement with the Cleveland, Columbus, Cincinnati and Indianapolis Railway Company by which each is bound to supply the other with all the freight and passengers it can, and the latter guarantees to apply 25 per cent. of the gross earnings to be derived from this source to the purchase of the mortgage bonds of the former. This 25 per centum is expected to realize $200,000 per annum. The mortgage bonds on the road that is now in running order for 228 miles, amounts to $3,400,000 of the denomination of $1,000. Two hundred of these bonds will be annually drawn by lot and the principal and accrued interest paid in coin. This "traffic guarantee" is in some respects new. In this form, besides to the holder's assurance of the ultimate redemption of his bonds, it adds the hope that it may be at a day much earlier than he had anticipated. It utilizes the element of chance in a manner entirely unobjectionable.

☞ The Directors of the Ware River (Mass.) Railroad Co. have organized by choosing Charles A. Stevens of Ware President, and Otis Low of Ware Secretary and Treasurer. The first section of the road, which is now leased to the New London Northern Railroad, will be surrendered as soon as the whole road is completed, which it is expected will be in January, 1873, when cars will be running from Winchendon to Palmer.

☞ Track laying on the Lake Erie and Louisville Railroad is progressing satisfactorily between Lima and Findlay, Ohio. The latest reports say the party were at Rawson, nine miles from Findlay, and expected to reach Bluffton in ten days. The grading north is finished to Lima, and work on the grade south has commenced and will be pushed rapidly forward.

☞ The Saginaw *Enterprise* says that the work of track laying on the Saginaw Valley and St. Louis Railroad has commenced in good earnest, and assurances have been given that the cars will be running through to St. Louis in a very short space of time.

☞ The Lynchburg *Virginian* says that the work of grading on the Lynchburg and Danville railroad is progressing rapidly, and it is thought will be ready for the track within the next sixty days.

☞ John S. Hoffman has purchased the rolling mills at Cooper's Point for $99,250. They will be put in working order in about two weeks.

☞ W. H. Slingerland, of Albany, has been appointed chief engineer of the proposed railroad from Hudson to the State line.

Cold Water and Northwestern Railroad.

The Bellefontaine (Ohio) *Republican* says that the Coldwater and Northwestern Railroad, designed to run from Lima, on the Dayton and Michigan Railroad to Columbus, is again on foot and in a fair way of proving a success. It urges that assistance be given it, and for the following reasons:

We have graded already, with the exception of a short half mile, a good road-bed from Bellefontaine to Marysville, a distance of twenty-four miles—where about $100,000 of capital is lying unused and valueless, having no interest—we can soon put it to use and profit. It will give a connection with the great growing Northwest. It will, on the other hand, by way of the Baltimore and Ohio, from Columbus, gives us a through Eastern connection to the cities of the seaboard.

☞ The Athens (Ga.) *Watchman* says that the contract for grading the Northeastern Railroad from that place to the Air-Line Road has been awarded to Grant, Alexander & Co., who have also subscribed liberally to its stock. They will commence operations on the 9th inst., and push the work rapidly. It will take but a short time to construct and equip the first twenty miles—when State aid, to the amount of fifteen thousand dollars per mile, can be secured.

☞ The railroad between Lafayette, Ind., and Kankakee, Ills., having been completed, the Illinois Central, in connection with the Cincinnati, Lafayette and Chicago, and Indianapolis, Cincinnati and Lafayette Railroads have commenced running through trains between Chicago and Cincinnati, *via* Kankakee, Lafayette and Indianapolis. A fast freight line has been established, to be known as the Kankakee Line, which is now in regular operation, with good equipment.

☞ The earnings of the Union Pacific Railroad in July, 1872, were $743,382; and the expenses, $357,840—making the net earnings $385,542. From January 1, to July 31, 1872 the earnings were $4,584,999; the expenses, $2,744,984—and the net earnings $1,840,015. This shows an increase for July in gross earnings of $69,689; and for the seven months ending July 31, 1872, of $501,021. The increase in net earnings for July was $30,151; and for the seven months ending July 31, $238,772.

☞ The Pennsylvania and Delaware Railroad, extending from Pomeroy, on the Pennsylvania Railroad, to the Delaware State line, where it connects with the Delaware and Pennsylvania Railroad, is fast approaching completion. The locomotive already passes over the greater portion of it daily, and it is the intention to open it for travel on the 18th of September.

☞ The contractors for building that part of the Philadelphia, West Chester and Downingtown Railroad, lying between Philadelphia and West Chester, have been ordered by the directors to push along the work as fast as in can be marked out by the engineer.

☞ The North Grey Branch of the Northern (Canada) Railway is completed as far as Thornbury, and was opened for traffic on the 2d inst.

☞ A movement is on foot to have the Toronto, Grey and Bruce Railway extended from Wroxeter, via Ainleyville, Seaforth, Brucefield, and Varna to Bayfield.

☞ The secretary of the Dayton, Piqua and Toledo Railroad Company reports that the prospects for completing the work on the line north of Piqua, at an early day, are encouraging—a survey of the route having been completed, and arrangements made for building the road. A surveying party will start along the route down the Stillwater Valley, from Piqua to Dayton, during the present month.

☞ The Davenport and St. Paul division of the Indianapolis, Bloomington and Western Railroad has been completed to Hopkinton, seventy miles north of Davenport, and trains are running regularly to that point.

☞ The Wolfboro' Branch of the Portsmouth, Great Falls and Conway Railway has been completed from the main line at Sanborn's Junction northwestward to Wolfboro', N. H., 12 miles.

☞ Work has been commenced at Gardner (Mass.) upon the extension of the Worcester and Gardner Railroad.

Board of Engineers of the Fourth Avenue Improvement.

Office, Grand Central Depot.

NEW YORK, September 5th, 1872.

Notice to Contractors.

SEALED PROPOSALS will be received by the undersigned at this Office until Two O'Clock of the thirtieth day of September 1872, for all the work on the Fourth Avenue Improvement between 79th Street and Harlem River, embracing a large amount of heavy work, Excavation, Tunnels, Walls, Bridges, &c.

Plans, Specifications and Blank Proposals will be in readiness at this Office on the eleventh day of September, on and after which time the Engineers will be present to make explanations.

ALLAN CAMPBELL,
ALFRED W. CRAVEN,

Iron Furnace Property FOR SALE.

THE EASTON IRON MANUFACTURING Company will sell at Public Sale, at the Circle, in the borough of Easton, Northampton County, Pa.,

On Thursday, September 26th, 1872.

at 10 o'clock in the forenoon, their

Blast Furnace and Real Estate

located in the borough of Glendon, Northampton Co., Pa., containing about 15 acres of Land. The Furnace erected thereon is a sheet iron casing stack, 14½ feet bosh by 70 feet high, with bell and hopper, J. P. Morris & Co.'s low pressure condensing engine, 8 boilers, 2 Kents' hot blast ovens, casting house, engine house, steam hoist, 11 tenement houses, 2 stables and a blacksmith shop. The furnace buildings are built of brick and stone, and put up in the best of manner, with all the modern improvements. The works have been built about one year, and are now in blast. Its production of iron is as great as any other blast furnace in the Valley for its size. Canal and Railroad in close connection. Hematite Ores are very plenty, and there is sufficient for several more furnaces. No better location can be found; iron can be manufactured and conveyed to market as cheap, if not cheaper, than any other place in the Lehigh Valley. Leases and all other advantages belonging thereto sold together with the property, which will appear in the conditions of sale. The Furnace will be sold in blast, if nothing prevents. Terms and conditions made known on the day of sale. Sale positive and without reserve. Any parties wishing to view said property will please call on the premises.

EASTON IRON MANUFACTURING CO.

Easton, August 20, 1872.

Notice to Contractors.

OFFICE KENTUCKY AND TENNESSEE R. R. Co.
MOBILE, ALA., August 13, 1872.

THE KENTUCKY AND TENNESSEE RAILroad Company desire to contract for the construction of their Road from Columbus, Ky., to Fillmore City on the Ohio River, opposite to the City of Cairo, Illinois, a distance of about twenty-one miles.

The road runs up the Valley of the Mississippi River, and, for the greater part of its length, will require heavy embankments, trestle work, and pile bridging.

Maps, profiles, specifications, and any other information, may be obtained at this office after the first of September next.

The work is required to be completed within six months after the ratification of the contract, and is worthy of the attention of large contractors.

PROPOSALS

FOR THE CONSTRUCTION

OF THE

TEXAS AND PACIFIC RAILWAY.

Proposals will be received up to the 1st of October, 1872, at the office of the Texas and Pacific Railway company at Marshall, Texas, for the grading, bridging, tieing and tracklaying of about five hundred (500) miles of the Texas and Pacific railway, divided into the following divisions:

The southern division, extending from Longview through Dallas to Fort Worth—155 miles.

The Jefferson division, extending from Marshall through Jefferson to Texarkana—65 miles.

The east half of the trans continental division, extending from Texarkana to the crossing of the Houston and Texas Central railroad, near Sherman—156 miles.

The west half of the trans-continental division, extending from the crossing of the Houston and Texas Central railroad to Fort Worth—68 miles.

The grading and bridging will be let in one mile sections; the tracklaying by the mile; the ties by one thousand and upwards.

Each class of work to be bid for separately.

The time for completing the grading, bridging and tieing extends from sixty days to nine months.

The company reserves the right to reject any or all bids, and in letting the work will be the judge of the responsibility of parties bidding, and will give preference to contractors having outfits on the ground ready to commence work within ten days after the date of contract.

Profiles, estimates and specifications can be seen at the office of the company, in Marshall and Jefferson, Texas, and at the Pacific National bank, Council Bluffs, Iowa.

Contractors, upon arriving on the ground, can obtain work up to the date of general letting, on the fifty miles west of Longview.

Address, until September 20th, Council Bluffs, Iowa—after that date, Marshall, Texas.

G. M. DODGE
Chief Engineer.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board; without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

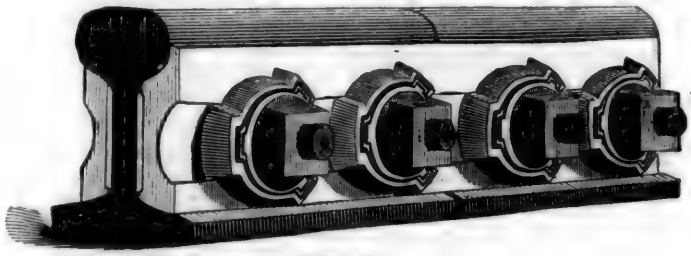
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

European and North American Railway.

The following statement of the bonded indebtedness of this company is from an official source:

The Bonds of the European and North American Railway Company, are: First, a million in amount, currency, of Bangor City Bonds, which were loaned to the Company by the City of Bangor, and are secured by a first mortgage on fifty-five miles of its line of railway from Bangor to the town of Winn. Second, an issue of two millions in amount, of gold six per cent bonds, which are secured by a second mortgage upon 55 miles of the line of railway from Bangor to Winn, and a first mortgage upon fifty nine miles of its line of railway from Winn easterly to the Saint Croix River, or the boundary of New Brunswick; and, lastly, by a first and only mortgage upon a grant of wild land from the state of Maine, embracing nearly seven hundred thousand acres of land. The Bangor city Bonds loaned to the company are payable in 1894. The gold Bonds are payable in 1899.

☞ J. P. Barnard has been appointed General Superintendent of the Kansas City, St. Joseph and Crincil Bluffs Railroad.

TO INVESTORS.

To those who have funds to invest in large or small amounts, or who wish to increase their income from means already invested in other less profitable securities, we recommend, after full investigation, the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company. Bearing seven and three-tenths per cent. gold interest, (equal now to about 8¼ currency,) and sold at par, they yield an income considerably more than one-third greater than U. S. 5-20's. They are Coupon and Registered, the lowest denomination being $100, the highest, $10,000.

Nearly one-third of the Main Line of the Road will be completed and in operation with a large business the present season. All the property and Rights of the Company, including a most valuable Land Grant, averaging about 23,000 acres per mile of road, are pledged as security for the first mortgage bonds now offered.

All marketable stocks and bonds are received in exchange at current prices. Descriptive pamphlets and maps, showing Route of road, Connections, Tributary Country, &c., will be furnished on application.

JAY COOKE & CO.

New York, Philadelphia and Washington.

FINANCIAL AGENTS NORTHERN PACIFIC RAILROAD COMPANY.

Baltimore and Ohio Railroad.

The Wheeling (W. Va.) *Intelligencer* says that the Baltimore and Ohio Railroad Company is extending its double track west of Piedmont as rapidly as it can be done. Already the seventeen mile grade is nearly furnished with the second track, and by the close of the present month Newburg will be reached from Grafton. Along the line between Altamont and Newburg gangs of men are at work widening the road bed for the additional track. Within the next twelve months this will probably be completed. We hear that orders have been given to double-track the Parkersburg branch also. The immense addition to the company's business since getting control of a through line to St. Louis has made this addition to the capacity of the road indispensably necessary.

Railroad Improvements in New Jersey.—Harsimus Cove.

The work of the different railroad lines between this city and New York is materially changing the appearance of the meadows between Snake Hill and the junction of the Passaic and Hackensack rivers. The net work of tracks and the necessary buildings about to be constructed will doubtless in a short time determine in part how a considerable portion of the marsh in this locality is to be reclaimed.

The completion of the Midland road and the double track road bed of the Newark and Hudson road, now nearly completed, will add several hundred acres to the solid ground.

The route for the connecting link that will unite the Morris and Essex with the Newark and New York road east of the Passaic river, is now being laid out by the engineer, and this will also take up several hundred acres of waste land. It is expected that this road bed will be laid in a very short time after it is commenced, as a portion of the ground is comparatively solid. The crossing over the New Jersey road will be the most important part of the undertaking.

Opposite the foot of Snake Hill the presence of a large force of men with portable steam engines, cutting ditches and driving piles, has excited the curiosity of passengers in the cars of the three lines running close by this locality. This work has been done to prepare a foundation for a round house and machine shops for the Pennsylvania Railroad Co. A considerable portion of the stone walls of the foundation have already been laid and the work is progressing favorably.

In connection with this matter, we will state that the Harsimus Cove improvements are being pushed forward and show progress, two long lines of made ground having been partially completed from the shore line on the Hudson for a considerable distance into the Cove. The principal substance so far used for filling up is the street dirt from New York. This is carried on cars moved by dummy engines and dumped where wanted, two tracks having been constructed the length of the Cove. It will be remembered that this is the beginning of the gigantic project, for several years determined upon by the Camden and Amboy Railroad Company, to construct immense warehouses and docks at Harsimus Cove, and to run their trains from Bergen Cut over an elevated track, supported upon arches, to the Hudson river.—*Newark* (N. J.) *Advertiser*.

Detroit and Milwaukee Railroad.

The Detroit and Milwaukee Railroad, in length 189 miles, or including sidings, &c., 210 miles, is under perpetual lease and is operated by the Great Western Railway Company of Canada.

The Company's Stock of locomotives at the close of 1871 consisted of 34 engines, of which were passenger 14, freight 16 and shunting, 4. They had at same date 576 revenue cars, viz: first-class passenger 30, post-office and baggage 20, emigrant 7, box and cattle 330, flat 188 and auxiliary one.

Trains were run as follows: passenger 304,159, freight 326,610, and others 132,366—total 763,135 miles.

Passengers in 1871, 440,239 as against the previous year's business 459,808—showing a decrease in passenger traffic of 19,569. The freight business increased over the figures of 1870 to the extent of 61,775 tons, having been in 1870, 315,994 and in 1871 377,769.

The cause of the decrease in passenger traffic is assigned to the opening of new roads in the country traversed by this line. The decrease was in the local traffic alone. Through travel, never very large, increased about ten per cent. Freight traffic increased—local about 10 per cent., and through 71½ per cent.; but the average rate per ton was in 1871 less than that realized in preceding years.

The gross earnings in 1870 and 1871 compare as follows:

	1870.	1871.
Passengers	$638 905 71	$618,178 42
Freight	734,874 27	803 110 44
Mails, &c	41,962 18	42,068 61
Rents	5,380 47	39,504 51
Trackage 1870 & 1871	.....	4,355 76
Total	$1,421,122 63	$1,507,217 74

The working expenses were:

Way	$320,841 89	$322,734 45
Locomotive power	194,473 31	210,709 41
Cars	84 159 55	82,287 24
Traffic-passenger	85,022 44	96,525 29
" freight	141,949 32	152,583 34
General charges	39,130 63	38,782 20
Taxes and summaries	52,322 33	37,901 95
Total	$917,899 47	$941,583 88
Balance carried to net revenue	$503,223 16	$565,633 86

"Rents" in 1871 include $34,048 88 for the use of the company's track by the Michigan Central Company between Grand Rapids Junction and Nunica, Nov. 27, 1870, to Dec. 31, 1871. "Trackage," a new item of account, is paid under traffic agreement by the Michigan Central and Great Western of Canada Companies.

The net revenue from the traffic of 1870 and 1871, was disposed of as shown in the following summaries:

	1870.	1871.
Interest on funded debt	$389,128 24	$394,141 76
Interest and discount	5,234 80	1,828 78
Interest on bonds of June 30, 1866	11,421 98	972 90
Claim for personal injury D. & M. R. R. Co. proportion of claims for detention of freight in Winter of 1864-'65	.....	16,657 79
	.....	16,835 10
	$408,785 02	$430,431 27
Balance to credit of income	$94,438 14	$135,202 59

The following table shows the operations and results thereof from January 1, 1861, to December 31, 1871, a period of eleven years:

	Train miles.	Pass. carried.	Tons moved.	Earnings—Gross.	Earnings—Net.
				$	$
1861	161,189	135,787		738,863	318,924
1862	187,727	167,454		866,726	385,547
1863	296,868	167,818		1,026,059	405,025
1864	403,901	165,361		1,323,403	438.644
1865	515,420	439,961	189,427	1,691,735	690.985
1866	514,787	439,453	218,819	1,659,218	635,062
1867	588,382	468,004	258,409	1,761,308	768,789
1868	600,913	438,394	278,729	1,718,094	704,458
1869	614,243	447,041	283,580	1,615,618	666,267
1870	690,924	459,808	315,994	1,421,123	503,223
1871	763,135	440,239	377,769	1,507,218	565,634

The company was reorganized Oct. 24, 1860, and from that date to Dec. 31, 1860, the gross earnings were $218,558 53, and the net earnings $109,666 30, or 50.18 per cent. In the ten succeeding full years the net earnings were 43.07, 44.52, 39.48, 33.16, 40.85, 38.28, 43.65, 41.01, 41.24, 35.42, and 37.53 per cent.

In the years prior to 1868 the earnings included the Michigan Steam Ferry proportion of business. The establishment alluded to has been purchased and is now operated by a distinct company in connection with the railroad.

No dividends have been paid on the Common Stock since the re-organization of 1868. The preference shares, however, received in 1868 3½ and in 1869 7 per cent. No dividends were declared either in 1870 or 1871; but it is very evident that the increased earnings, dependent mainly on improved economy and the rapid settlement of the country traversed, must at no distant period render it possible to pay on both preference and common alike.

The following statement shows the financial condition of the company as of January 1, 1872:

Capital stock	$422,140 00
Pref. stock, secured by mortgage	2,095,000 00
Bonded debt	7,696,387 75
Total	$10,213,527 75
Cost of road and equipment	$10,179,342 47
Expenditure on works, &c., 1871	13,613 03
Balance carried to general account	20,572 25
Total	$10,213,527 75

The actual cost of the road and rolling stock was on June 1, 1872, $11,797,972 48, the difference between the actual cost having been taken from revenue used in construction since the reorganization of October 24, 1860.

The following shows the elements of the capital account at the close of the years indicated:

Dec. 31.	Stock.	Bonds.	Debt.	Road, &c.
1861	$1,952,350	$4,942,046	$357,917	$7,102,514
1862	1,952,350	4.942,046	293,407	6,948,898
1863	1,952,350	5,333,768	188,710	7 286,118
1864	1,952,350	5,333,768	335,686	7,286,118
1865	1,952,350	5,313,408	225,455	2,265,758
1866	1,952,350	5 313,408	372,614	7,265,658
1867	2,547,350	7,151,198	251,150	9,698,548
1868	2,547,350	6,925,048	177,315	9,472,298
1869	2 547,350	6,825,048	337,041	11,467,220
1870	2,547,350	7,530,048	236,813	11,648,094
1871	2,517,140	7,696,388	230,979	11,797,972

The increase in stock and bonds in 1867 was the result of the adjustment of old debts of the late D. and M. Railway Company. The funded debt of the company was reduced in 1868-'69 and '70 by the operation of an annual sinking fund. The actual cost of road and equipment was increased in 1869 and 1870 by adding amounts spent out of revenue since 1860 on capital account.

The outstanding funded debt is described as follows:

Oakland and Ottawa sterling 6s, 1873	$150,866 75
Oakland and Ottawa dollar 7s, 1873	51,000 00
Detroit and Pontiac 7s, 1878	250,000 00
Detroit and Pontiac 8s, 1886	250,000 00
Detroit and Milwaukee 1st mortgage 7s, 1875	2,500,000 00
Detroit and Milwaukee 2d mortgage 8s, 1875	1,000,000 00
Detroit and Milwaukee 1st coupon 7s, 1875	628,525 00
Detroit and Milwaukee 2d coupon 7s, 1875	377,115 00
Detroit River Front mortgage 10s	53,266 67
Mechanical shops 10s, 1871	50,000 00
Detroit and Milwaukee Railroad 6s, of June 30, 1866 due 1886	2,085,614 33
Detroit and Milwaukee Railroad 6s, of Sept. 1, 1866, due 1886	300,00 00

The majority of the bonds of June 30, 1866, ($1,238,000), are in the hands of the Merchant's Bank of Canada, and are redeemable at the rate of $100,000 per annum. To date $350,000 have been thus redeemed and are held by the company although still retained in full on the balance sheet. The company also hold of this series $40,262 62; of the bonds of Sept. 1, 1866, $190,000, and of funded coupons $8,983 50, the said bonds not having been used. Deducting these redeemed and non-issued securities the net debt of the company amounts only to $7,112,141 63.

President.—CHARLES C. TROWBRIDGE, Detroit, Michigan.

Vice President.—JOSEPH PRICE, Hamilton, Can.

Directors.—Charles C. Trowbridge, Detroit, Mich.; Joseph Price, Hamilton, Can.; Henry N. Walker, Edmund A. Bush, and Christain A. Buhl, Detroit, Mich.; Donald McInnes and Æmilius Irving, Hamilton, Can.; Hugh Allan, Montreal, Can.; William K. Muir, Hamilton, Can.

General Superintendent.—Thomas Bell, Detroit, Michigan.

Secretary.—JAMES H. MUIR, Detroit, Michigan.

Baltimore and Potomac Railroad.

At a meeting of the stockholders of this Company, held in Baltimore on the 4th inst., the following gentlemen were elected Directors to serve for the ensuing year: George B. Roberts, J. N. Du Barry, Wm. D. Bowie, Samuel Cox, Dr. Eli J. Henkle, James C. Clarke and Wm. T. Walters. At a subsequent meeting of the new Board, Hon. Oden Bowie was unanimously re-elected President; J. N. Du Barry, Vice President and General Manager; S. Little, Secretary and Auditor, and J. S. Leib, Treasurer.

REPORT OF THE PRESIDENT AND DIRECTORS.

In the last annual report the President and Directors gave the stockholders assurance that before the present yearly meeting a great portion of the road would be ready for travel and freight transportation. Accordingly, on the second of July last the road between Baltimore and Washington, being thoroughly in order and complete, was opened to the public, and six trains were run daily then and since, each way, between the two cities. Two of these each way are accommodation trains stopping for local benefits at all stations. The other four are mail and through trains, conveying Southern and Western travel, and stopping only at important stations. One of these is a night train, with the very best sleeping accommodations, and running through from Baltimore to Weldon without change of cars.

The road from Bowie, the junction of the main

stem and Washington Branch, is now ballasted to Upper Marlboro,' on the main stem, about fourteen miles from Bowie: the "turn table" at Marlboro' is now in, and as the want of this only has for sometime delayed that part of the road being opened, trains were yesterday started from that town. A gravel pit has been opened at Marlboro' to ballast that portion of the road south of the town; another has been purchased at Talbert's, a station about ten miles further south, and will be at once opened. Two others have been secured in Charles county to the Pope's Creek terminus, and as all our energies will now be directed to the immediate completion of the lower end of the route, along which there has been some complaint of delay, we can promise its opening to Pope's Creek by January 1, 1873. But reflection will satisfy even those who have complained most that we have exercised a sound policy in completing first the lines nearer Baltimore and Washington, which would give larger returns upon the heavy investment of the whole work. When completed, as it soon will be, it is our purpose to extend the greatest facilities and inducements for business along the whole line. We propose to run two trains daily each way between Bowie and Pope's Creek, connecting at the former place with Baltimore and Washington trains—one of which each way will be a fast and exclusively passenger train, and the other will be for freight, with passenger coaches attached.

While these very liberal facilities through a sparsely populated, and of late years, because of the scarcity of labor, not very productive, country, may not pay the Company at first, we consider it a wise economy and sound policy to build up a future paying trade by encouraging fruit and other culture and increasing business generally, the life-blood of railways. We hold that the wise course for all corporations, depending on the custom of others, is to invite business by the most liberal policy. This will embrace numerous stations along the line and as low rates as can be maintained. In this connection it must be remembered that the present rates of freight are only temporary upon a business which we are doing at great inconvenience and delay to the road, and only for the great and general accommodation of the people of the country through which it passes. It must also be remembered that the present charges for drayage in Baltimore will be very largely reduced when the completion of the tunnel will allow the delivery of freight at our regular depot instead of, as now, at a suburban station, some distance out of the city.

The last report having detailed so completely the character of the road, its grading, bridging, superstructure, &c., we deem it unnecessary to refer again to it, further than to say that the track of the entire length of the line is laid, the ballasting all completed, except from Marlboro' to Pope's Creek, and platforms and way station houses are being erected.

The equipment has been, like the construction, first-class in every respect. We have at this time: Passenger cars, the best made, 27; to arrive 6; baggage cars, 10; box freight cars, 50; and to be delivered immediately, 50 more; gondola and flat cars, 125; hand cars for track and repair men, 22; truck cars for track and repair men, 22; engines now on hand, 16; ordered for immediate delivery, 5; and cattle cars ordered, 50.

Our line of road passing immediately by the State Cattle Scales, it is our purpose to give particular attention and the most liberal inducements to the cattle trade, which is already so large and greatly increasing each year in Baltimore. The obvious fact that our advantage of being able to unload cattle immediately in the State Yard would give to us this carrying trade from the grazing section of Virginia, which passes through Washington, has induced an effort in this interest of another road, to require the cattle to be unloaded in Washington, under the pretence of being there fed and watered. But when it is remembered that the yard at Baltimore is less than two hours distant in time from Washington and that Baltimore being one of the largest home and distributing markets in the country, all cattle coming to the city are unloaded and refreshed here, it is unreasonable to suppose that this additional annoyance, expense and delay will be put upon drovers and dealers in Washington merely that another road, having less advantages than ours, should be benefited.

As we have labored earnestly for the success of our road so in the interest of Southern Maryland, which has been heretofore deprived of rail facilities, and of the cities of Baltimore and Washington, have we been gratified at the prospect of other roads being built from that part of the State to these cities; and been willing cordially to co operate with any where the interests might be made identical, or were not too conflicting with ours.

Accordingly we have entered into articles of agreement with the Southern Maryland, a road chartered some years since by the Maryland Legislature, and running from Point Lookout through the counties of St. Mary's, Charles and Prince Georges, in the lower part of which last county it intersects our road, which it is believed, will aid materially the building of this road, and upon its completion be materially advantageous to both.

The tunnel, a work of greater magnitude and expense than any other of the kind in this country, except the Hoosac, is satisfactorily approaching completion, and we have the assurance of the contractor, Mr. Rutter, a gentlemen of high character and great experience, that it will be completed by April next.

Thirty seven hundred feet have been walled up, covered in and entirely finished. Rapid progress is being made with other excavations, which are enclosed as fast as each section is excavated.

The completion of the tunnel will complete our work, and facilities for local and through travel will then be unequalled. With the Union Tunnel connection, passengers from all sections of the country passing through Baltimore can do so without any change of car or delay, and for Baltimore travel the most enlarged facilities will be provided. Arrangements having been made with the Northern Central Railway for the use of its depot, as a starting point in the heart of the city, excellent local stations—such as that at Lafayette, which will be continued, and to the neighborhood of all of which the city horse-cars will run—will be provided at Pennsylvania avenue and at the State Cattle Scales on Baltimore street extended.

The convenience of all sections of this city being thus consulted and provided for, our depot in Washington, the plans of which have been perfected on the most extensive scale and with a full regard in architectural design to meet the requirements which its location in the very centre of the city and the neighborhood of the hotels, departments and public buildings require, its construction will be commenced forthwith, and with the character of the road we have built, the superior outfit we have provided, the obliging and accommodating officials, whom alone will be retained in connection with the road, and the liberal policy which we are satisfied will prevail, we feel assured of the public patronage and of every reasonable success.

The approaching completion of the road, which will dispense with their services, renders this a fitting opportunity for a just and merited testimonial upon our part to the efficient labors rendered the Company by our engineers, and for the faithful and unexceptionally good work done by our contractor, Mr. Thomas Seabrook.

ODEN BOWIE, President.

☞ The South and North Alabama railroad, from Montgomery to Decatur (Ala.) is completed, and through trains will run to Louisville (Ky.) in a few days. The formal celebration of the opening will take place on the 29th inst., under the auspices of the Louisville and Nashville Railroad Company.

Traffic Guarantee

AND

REDEMPTION BONDS

7 per cent. Gold Interest.

Mortgage $15,000 per mile.

COMPLETED AND FULLY EQUIPPED RAILWAY.

228 MILES LONG,

ENTIRELY WITHIN THE

STATE OF ILLINOIS.

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

Springfield and Illinois South-Eastern Railway.

INTEREST PAYABLE FEBRUARY AND AUGUST, FREE OF GOVERNMENT TAX, AT THE

Office of the Farmers' Loan and Trust Company IN NEW YORK.

PRICE 90 AND ACCRUED INTEREST.

These Bonds, representing an unusually light Mortgage upon a Finished Railway, fully Equipped, extending Centrally through one of the Richest, and most Populous States of the Union, remarkable for the great success of its different Railways, offer unusual inducements to the investor seeking a PROFITABLE AND SAFE SECURITY.

The Holder of this Bond has the right to vote at all Elections.

By the terms of a Traffic Guarantee Contract with the well-known CLEVELAND, COLUMBUS, CINCINNATI AND INDIANAPOLIS RAILWAY, (four of whose Directors, including the President and Vice-President, are also DIRECTORS IN THE SPRINGFIELD AND ILLINOIS SOUTH-EASTERN RAILWAY), A LARGE NUMBER OF THESE BONDS WILL BE PURCHASED BY LOT SEMI-ANNUALLY *AT PAR* and ACCRUED INTEREST, giving the fortunate holders Eleven per cent. Profit on their investment, besides nearly Nine per cent. Interest.

We respectfully invite the attention of all Capitalists to this Security as a particularly safe and desirable one.

Pamphlets and Maps with full particulars furnished by us on written or personal application.

JONES & SCHUYLER,

12 PINE STREET, NEW YORK,

Financial Agents of the Company.

Development of the Mining Resources of the United States.

AN ACT to promote the development of the mining resources of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, That all valuable mineral deposits in lands belonging to the United States, both surveyed and unsurveyed, are hereby declared to be free and open to exploration and purchase, and the lands in which they are found to occupation and purchase, by citizens of the United States, and those who have declared their intention to become such, under regulations prescribed by law, and according to the local customs or rules of miners, in the several mining districts, so far as the same are applicable and not inconsistent with the laws of the United States.

Section 2. That mining-claims upon veins or lodes of quartz or other rock in place bearing gold, silver, cinnabar, lead, tin, copper, or other valuable deposits heretofore located, shall be governed as to length along the vein or lode by the customs, regulations, and laws in force at the date of their location. A mining-claim located after the passage of this act, whether located by one or more persons, may equal, but shall not exceed, one thousand five hundred feet in length along the vein or lode; but no location of a mining-claim shall be made until the discovery of the vein or lode within the limits of the claim located. No claim shall extend more than three hundred feet on each side of the middle of the vein at the surface, nor shall any claim be limited by any mining regulation to less than twenty-five feet on each side of the middle of the vein at the surface, except where adverse rights existing at the passage of this act shall render such limitation necessary. The end lines of each claim shall be parallel to each other.

Section 3. That the locators of all mining locations heretofore made, or which shall hereafter be made, on any mineral vein, lode, or ledge, situated on the public domain, their heirs and assigns, where no adverse claim exists at the passage of this act, so long as they comply with the laws of the United States, and with State, territorial, and local regulations not in conflict with said laws of the United States governing their possessory title, shall have the exclusive right of possession and enjoyment of all the surface included within the lines of their locations, and of all veins, lodes, and ledges throughout their entire depth, the top or apex of which lies inside of such surface lines extended downward vertically, although such veins, lodes, or ledges may so far depart from a perpendicular in their course downward as to extend outside the vertical side-lines of said surface locations: *Provided*, That their right of possession to such outside parts of said veins or ledges shall be confined to such portions thereof as lie between vertical planes drawn downward as aforesaid, through the end-lines of their locations, so continued in their own direction that such planes will intersect such exterior parts of said veins or ledges; *And provided further*. That nothing in this section shall authorize the locator or possessor of a vein or lode which extends in its downward course beyond the vertical lines of his claim to enter upon the surface of a claim owned or possessed by another.

Section 4. That where a tunnel is run, for the development of a vein or lode, or for the discovery of mines, the owners of such tunnel shall have the right of possession of all veins or lodes within three thousand feet from the face of such tunnel on the line thereof, not previously known to exist, discovered in such tunnel, to the same extent as if discovered from the surface; and locations on the line of such tunnel of veins or lodes not appearing on the surface, made by other parties after the commencement of the tunnel, and while same is being prosecuted with reasonable diligence, shall be invalid; but failure to prosecute the work on the tunnel for six months shall be considered as an abandonment of the right to all undiscovered veins on the line of said tunnel.

Section 5. That the miners of each mining district may make rules and regulations not in conflict with the laws of the United States, or with the laws of the State or Territory in which the district is situated, governing the location, manner of recording, amount of work necessary to hold possession of a mining-claim, subject to the following requirements: The location must be distinctly marked on the ground so that its boundaries can be readily traced. All records of mining-claims hereafter made shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located by reference to some natural object or permanent monument as will identify the claim. On each claim located after the passage of this act, and until a patent shall have been issued therefor, not less than one hundred dollars' worth of labor shall be performed or improvements made during each year. On all claims located prior to the passage of this act, ten dollars' worth of labor shall be performed or improvements made each year for each one hundred feet in length along the vein until a patent shall have been issued therefor; but where such claims are held in common such expenditure may be made upon any one claim; and upon a failure to comply with these conditions, the claim or mine upon which such failure occurred shall be open to relocation in the same manner as if no location of the same had ever been made; *Provided*, That the original locators, their heirs, assigns or legal representatives, have not resumed work upon the claim after such failure and before such location. Upon the failure of any one of several co-owners to contribute his portion of the expenditures required by this act, the co-owners who have performed the labor or made the improvements may, at the expiration of the year, give such delinquent co-owner personal notice in writing or notice by publication in the newspaper published nearest the claim, for at least once a week for ninety days, and if at the expiration of ninety days after such notice in writing or by publication such delinquent should fail or refuse to contribute his proportion to comply with this act, his interest in the claim shall become the property of his co-owners who have made the required expenditures.

Section 6. That a patent for any land claimed and located for valuable deposits may be obtained in the following manner: Any person, association, or corporation authorized to locate a claim under this act, having claimed and located a piece of land for such purposes; who has, or have complied with the terms of this act, may file in the proper land office an application for a patent, under oath, showing such compliance, together with a plat and field-notes of the claim or claims in common, made by or under the direction of the United States surveyor general, showing accurately the boundaries of the claim or claims, which shall be distinctly marked by monuments on the ground, and shall post a copy of such plat, together with a notice of such application for a patent, in a conspicuous place on the land embraced in such plat previous to the filing of application for a patent, and shall file affidavit of at least two persons that such notice has been duly posted as aforesaid, and shall file a copy of said notice in such land-office, and shall thereupon be entitled to a patent for said land, in the manner following; The register of the land office, upon the filing of such application, plat, field notes, notices and affidavits, shall publish a notice that such application has been made, for the period of sixty days, in a newspaper to be by him designated as published nearest to said claim; and he shall also post such notice in his office for the same period. The claimant at the time of filing this application, or at any time thereafter, within the sixty days of publication, shall file with the register a certificate of the United States surveyor general that five hundred dollars' worth of labor has been expended or improvements made upon the land by himself or grantors; that the plat is correct, with such description by such reference to natural objects or permanent monuments as shall identify the claim, and furnish an accurate description, to be incorporated in the patent. At the expiration of the sixty days of publication the claimant shall file his affidavit, showing that the plat and notice have been posted in a conspicuous place on the claim during said period of publication. If no adverse claim shall have been filed with the register and the receiver of the proper land office at the expiration of the sixty days of publication, it shall be assumed that the applicant is entitled to a patent, upon the payment to the proper officer of five dollars per acre, and that no adverse claim exists; and thereafter no objection from third parties to the issuance of a patent shall be heard, except it be shown that the applicant has failed to comply with this act.

Section 7. That where an adverse claim shall be filed during the period of publication, it shall be upon oath of the person or persons making the same, and shall show the nature, boundaries, and extent of such adverse claim, and all proceedings, except the publication of notice and making and filing of the affidavit thereof, shall be stayed until the controversy shall have been settled or decided by a court of competent jurisdiction, or the adverse claim waved. It shall be the duty of the adverse claimant, within thirty days after filing his claim, to commence proceedings in a court of competent jurisdiction, to determine the question of the right of possession; and a failure so to do shall be a waiver of his adverse claim. After such judgment shall have been rendered, the party entitled to the possession of the claim, or any portion thereof, may, without giving further notice, file a certified copy of the judgment roll with the register of the land office, together with the certificate of the surveyor general that the requisite amount of labor has been expended, or improvements made thereon, and the description required in other cases, and shall pay to the receiver five dollars per acre for his claim, together with the proper fees, whereupon the whole proceedings and the judgment-roll shall be certified by the register to the Commission of the General Land Office, and a patent shall issue thereon for the claim, or such portion thereof as the applicant shall appear, from the decision of the court to rightly possess. If it shall appear from the decision of the court that several parties are entitled to separate and different portions of the claim, each party may pay for his portion of the claim with the proper fees, and file the certificates and description by the surveyor general, whereupon the register shall certify the proceedings and judgment roll to the Commissioner of the General Land Office as in the preceding case, and the patents shall issue to the several parties according to their

respective rights. Proof of citizenship under this act, or the acts July twenty-sixth, eighteen hundred and sixty-six, and July ninth, eighteen hundred and seventy, in the case of an individual, may consist of his own affidavit thereof, and in case of an association of persons unincorporated, of the affidavit of their authorized agent, made on his own knowledge or upon information and belief, and in case of a corporation organized under the laws of the United States, or of any State or Territory of the United States by the filing of a certified copy of their charter or certificate of incorporation; and nothing herein contained shall be construed to prevent the alienation of the title conveyed by a patent for a mining claim to any person whatever.

Section 8. That the description of vein or lode claims, upon surveyed lands, shall designate the location of the claim with reference to the lines of the public surveys, but need not conform therewith; but where a patent shall be issued as aforesaid for claims upon unsurveyed lands, the surveyor general, in extending the surveys, shall adjust the same to the boundaries of such patented claim, according to the plat or description thereof, but so as in no case to interfere with or change the location of any such patented claim.

Section 9. That sections one, two, three, four, and six, of an act entitled "An act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July twenty-sixth, eighteen hundred and sixty-six, are hereby repealed, but such repeal shall not affect existing rights. Application for patents for mining-claims now pending may be prosecuted to a final decision in the General Land Office; but in such cases where adverse rights are not effected thereby, patents may issue in pursuance to the provisions of this act; and all patents for mining claims heretofore issued under the act of July twenty-six, eighteen hundred and sixty-six, shall convey all the rights and privileges conferred by this act where no adverse rights exist at the time of the passage of this act.

Section 10. That the act entitled "An act to amend an act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July ninth, eighteen hundred and seventy, shall be and remain in full force, except as to the proceedings to obtain a patent, which shall be similar to the proceedings prescribed by sections six and seven of this act for obtaining patents to vein or load claims; but where said placer claims shall be upon surveyed lands, and conform to legal subdivisions, no further survey or plat shall be required, and all placer mining claims hereafter located shall conform as near as practicable with the United States system of public land surveys and the rectangular subdivisions of such surveys, and no such location shall include more than twenty acres for each individual claimant, but where placer-claims cannot be conformed to legal subdivisions, survey and plat shall be made as on unsurveyed lands: *Provided*, That proceedings now pending may be prosecuted to their final determination under existing laws; but the provisions of this act, when not in conflict with existing laws, shall apply to such cases: *And provided also*, That where by the segregation of mineral land in any legal subdivision a quantity of agricultural land less than forty acres remains, said fractional portion of agricultural land may be entered by any party qualified by law for homestead or pre-emption purposes.

Section 11. That where the same person, association, or corporation is in possession of a placer-claim, and also a vein or lode included within the boundaries thereof, application shall be made for a patent for the placer-claim, with the statement that it includes such vein or lode, and in such case, (subject to the provisions of this act and the act entitled "An act to amend an act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July ninth, eighteen hundred and seventy) a patent shall issue for the placer-claim, including such vein or lode, upon the payment of five dollars per acre for such vein or load claim, and twenty-five feet of surface on each side thereof. The remainder of the placer-claim, or any placer-claim not embracing any vein or lode claim, shall be paid for at the rate of two dollars and fifty cents per acre, together with all costs of proceedings; and where a vein or lode, such as described in the second section of this act, is known to exist within the boundaries of a placer-claim, an application for a patent for such placer-claim which does not include an application for the vein or lode claim shall be construed as a conclusive declaration that the claimant of the placer-claim has no right of possession of the vein or lode claim; but where the existence of a vein or lode in a placer-claim is not known, a patent for the placer-claim shall convey all valuable mineral and other deposits within the boundaries thereof.

Section 12. That the surveyor general of the United States may appoint in each land district containing mineral lands as many competent surveyors as shall apply for appointment to survey mining claims. The expenses of the survey of vein or lode claims, and the survey and subdivision of placer-claims into smaller quantities than one hundred and sixty acres, together with the cost of publication of notices, shall be paid by the applicants, and they shall be at liberty to obtain the same at the most reasonable rates, and they shall also be at liberty to employ any United States deputy surveyor to make the survey. The Commissioner of the General Land Office shall also have the power to establish the maximum charges for surveys and publication of notices under this act; and, in case of excessive charges for publication, he may designate any newspaper published in a landed district where mines are situated for the publication of mining-notices in such district, and fix the rates to be charged by such paper; and, to the end that the Commissioner may be fully informed on the subject, each applicant shall file with the register a sworn statement of all charges and fees paid by said applicant for publication and surveys, together with all fees and money paid the register and the receiver of the land office, which statement shall be transmitted, with the other papers in the case, to the Commissioner of the General Land Office. The fees of the register and receiver shall be five dollars each for filing and acting upon each application for patent or adverse claim filed, and they shall be allowed the amount fixed by law for reducing testimony to writing, when done in the land office, such fees and allowances to be paid by the respective parties; and no other fees shall be charged by them in such cases. Nothing in this act shall be construed to enlarge or affect the rights of either party in regard to any property in controversy at the time of the passage of this act, or of the act entitled "An act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July twenty-six, eighteen hundred and sixty-six, nor shall this act affect any right acquired under said act; and nothing in this act shall be construed to repeal, impair, or in any way affect the provisions of the act entitled "An act of granting to A. Sutro the right of way and other privileges to aid in the construction of a draining and exploring tunnel to the Comstock lode, in the State of Nevada," approved July twenty-fifth, eighteen hundred and sixty six.

Section 13. That all affidavits required to be made under this act, or the act of which it is amendatory, may be verified before any officer authorized to administer oaths within the land-district where the claims may be situated, and all testimony and proofs may be taken before any such officer, and when duly certified by the officer taking the same, shall have the same force and effect as if taken before the register and receiver of the land office. In cases of contest as to mineral or agricultural character of the land, the testimony and proofs may be taken as herein provided on personal notice of at least ten days to the opposing party; or if said party cannot be found, then by publication of at least once a week for thirty days in a newspaper, to be designated by the register of the land office as published nearest to the location of such land; and the register shall require proof that such notice has been given.

Section 14. That where two or more veins intersect or cross each other, priority of title shall govern, and such prior location shall be entitled to all ore or mineral contained within the space of intersection *Provided, however*, That the subsequent location shall have the right of way through said space of intersection for the purposes of the convenient working of the said mine: *And provided also*, That where two or more veins unite, the oldest or prior location shall take the vein below the point of union, including all the space of intersection.

Section 15. That where non-mineral land not contiguous to the vein or lode is used or occupied by the proprietor of such vein or lode for mining or milling purposes, such non-adjacent surface ground may be embraced and included in an application for a patent for such vein or lode, and the same may be patented therewith, subject to the same preliminary requirements as to survey and notice as are applicable under this act to veins or lodes: *Provided*, That no location hereafter made of such non-adjacent land shall exceed five acres, and payment for the same must be made at the same rate as fixed by this act for the superficies of the lode. The owner of a quartz-mill or reduction works, not owning a mine in connection therewith, may also receive a patent for his mill-site, as provided in this section.

Section 16. That all acts and parts of acts inconsistent herewith are hereby repealed: *Provided*, That nothing contained in this act shall be construed to impair, in any way, rights or interests in mining property acquired under existing laws.

Approved May 10, 1872.

☞ The Bel Air (Md.) *Intelligencer* says that a new impetus has been given to the Bel Air and Magnolia Railroad which it hopes, will result in the building of the road. A meeting of the corporators was held in Bel Air on Saturday, when the prospects of the road were fully discussed, and the determination arrived at, that it must be built. At this meeting a statement was made that Mr. Patrick McCabe, of Havre de Grace, a well known railroad contractor, had offered to subscribe $20,000 to the capital stock of the road, provided the contract for grading the same be given to him. If this proposition is put in a tangible shape and properly guaranteed, we may safely promise that the remainder of the money will be forthcoming.

☞ The St. Vincent extension of the St. Paul and Pacific Railroad reached the crossing of Red Lake River, twenty miles east of Grand Forks, on the 29th of August.

☞ The Quincy, Missouri and Pacific Railroad has been completed to Kirksville, and trains commenced running regularly on the 2d of September.

RAILROAD EARNINGS—MONTHLY.

North Missouri Railroad Sale.

Yesterday morning, at the east wing of the Court house, Deputy United States Marshal Sauer sold the title of the old Missouri railroad, now known as the St. Louis, Kansas City and Northern railroad. Some time ago Wm. Hoge, a well known car builder at Philadelphia, entered a complaint against the company for moneys due him from the company. The court allowed the claim, and invested the Marshal with authority to sell the title on the 13th day of September to the highest cash bidder. This title included the road bed of both the northern and western branches, the bridges, depots, station houses, water-tanks, cattle-pens, fencing, machine-shops, engine and car houses, all locomotives and cars of every description. The road, with all the appurtenances stated, sold for the comparatively insignificant sum of $45,000 cash. It was bought by its President, Mr. T. B. Blackstone, also President of the Chicago and Alton railroad. There was but a slim attendance of bidders.—*St. Louis Daily Globe Sept.* 14.

Burlington and Southwestern Railroad.

This road, which will soon be of considerable importance to Missouri as well as Iowa, is progressing in a most satisfactory manner. The route runs southwesterly from Burlington through Ft. Madison, Farmington and Bloomfield, Iowa, to Moulton, on the St. Louis, Kansas City and Northern railway. Thence through Unionville, Putnam county, Mo., Princeton, Mercer county, Bethany, Harrison county, Pattensburg, Daviess county, and Maysville, DeKalb county, to St. Joseph. From Unionville a branch runs southwesterly through Valparaiso and Milan, Sullivan county, Linneus and Laclede, Linn county, Stanley, Chariton county and Norborne, Carroll county, to Lexington. At this point the road again divides, one branch running west to Kansas City, and the other continuing to the southwest, through Pleasant Hill, Butler, Nevada, Lamar and Carthage, Mo., to Vinita, in the Indian Territory, the junction of the Atlantic and Pacific and the Missouri, Kansas and Texas roads. So much as to the route, which is evidently an excellent one.

The road was completed and trains commenced running regularly from Burlington to Moulton, a distance of 100 miles, January 1st, 1872. The work laid out for this season was to build the main line to Unionville, 30 miles west of Moulton, and to complete the branch from Unionville to Stanley City, a distance of 53 miles. The grading on this 83 miles is nearly done. The iron is bought and nearly all of it is on the ground. Track-laying began on the 15th of August at Laclede crossing of the Hannibal and St. Joseph Railroad toward the north. It is now laid to Linneus, a distance of seven miles. The track is also laid from Moulton, a distance of six miles to the Chariton river, near the State line. Both parties of tracklayers are now progressing at the rate of half a mile a day.—*St. Louis Railway Register.*

Hempfield and Bellevernon Railroad.

As we announced some time ago, the Baltimore and Ohio Railroad Company have broken ground on the Bellevernon route of the Hempfield road and commenced work at one or two points. It is understood that the reason the Bellevernon, instead of the Mingo route, was adopted, was because the former is between four and five miles the shorter, and this company is determined to secure the shortest route possible between Baltimore and Chicago, and the northwest, and on the completion of the Hempfield and a road which they are now building between Hannibal, Ohio, and Chicago, this result will be accomplished. The Hempfield route alone, via Bellevernon, shortens the distance between the above-named points sixty nine miles. It is the intention of the company to push forward the work with vigor, so that in eighteen months at the outside we may expect to have the long wished for and long-delayed line completed. A double track will be laid throughout the whole line.—*Washington Reporter.*

Movements of Produce.

Receipts of certain articles of domestic produce at the port of New York for eight months from January 1st:

☞ The estimated earnings of the Erie Railway for the week ending September 15, 1872, were $454,492; against $483,100 for the corresponding period of 1871—a decrease of $28,609. Total earnings since April 1, 1872, $8,699,401—an increase over the same time in 1871 of $21,758.

SAFE AND PROFITABLE

THE

CHICAGO

AND

CANADA SOUTHERN

First Mortgage Sinking Fund

30 Years'

7 PER CENT. GOLD BONDS

INTEREST PAYABLE APRIL AND OCTOBER AT THE UNION TRUST COMPANY,

—AT—

90 AND ACCRUED INTEREST.

This road is the western link in the new AIR LINE from BUFFALO to CHICAGO, and runs from the Detroit River to Chicago in nearly a straight line.

The road is a part of the same line as the Canada Southern, and is being built by the same men, viz.: Milton Courtright, John F. Tracy, David Dows, Wm. L. Scott, Henry Farnham, R. A. Forsyth, John M. Burke, M. L. Sykes, Jr., all Directors either in the Chicago and Northwest, or the Chicago, Rock Island and Pacific; Geo. Opdyke, of the Midland Road; Sidney Dillon, Daniel Drew, John Ross, David Stewart, Samuel J. Tilden, Kenyon Cox, and other prominent railroad men.

The Road, like the Canada Southern, will have steel rails (60 pounds to the yard) throughout; is practically STRAIGHT AND LEVEL; MUCH SHORTER, and can be run with greater speed and safety than any other road connecting Buffalo and Chicago.

The builders of the road control enough of its Chicago feeders to obtain for it a profitable business from the start, having projected the line to accommodate existing business, and having seen the necessity for another trunk line between Chicago and the Atlantic seaboard, located expressly with the view of obtaining the cheapest transportation practicable. Rapid progress is being made in the construction of the Road, and it will be finished at the earliest practicable period.

The branch lines will make the shortest connections between Chicago and Toledo, and Chicago and Detroit, as well as between all these points and Buffalo.

The Canada Southern Bonds, in every particular like these, were eagerly taken, the last of them several weeks ago, by the best class of investors, and were on the market a shorter time than any other railroad loan of like amount for years past.

The proceeds of these bonds will complete the entire line, and we recommend them with the same confidence as we did the Canada Southern, and regard them as in every way a choice security.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 21, 1872.

Stock Exchange and Money Market.

Money has been in much more urgent demand, particularly on speculative account, and the price on call has been generally advanced to from 7 per cent. curreny to 7 per cent. gold and a fractional commission. The offerings of currency have been on a materially reduced scale, the available supply having been, to an unusual extent, under the control of operators, who have been manipulating the market, with the view of inflating the Gold premium and depressing values at the Stock Exchange. The pinch was most noticable towards the close, and the indications were of increased trouble, in this line, should the speculative element be enabled to persevere in the clique work, for many days. The discount movement was seriously interfered with by the pressure in the call loan line, and both the banks and private lenders were less liberal of accommodation—the former, at least, in good part, because of the recent marked falling off in their reserves. Strictly choice to very good commercial paper was rated at from 7 to 10 per cent. per annum, and not dealt in with much freedom. The later movements in Money indicated an easier market for borrowers.

The U. S. Sub-Treasury office last week received $12,434,557 of currency, and $5,049,386 of gold, the latter including $3,665,000 from customs; and disbursed $4,499,252 of currency and $2,437,225 of gold, the latter embracing $381,122 of coin interest. The city banks reduced their loan and discount average nearly three millions during the week, and again enlarged their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $16,651,843, and a coin reserve of $54,335,158.

The city banks, in their latest return, show a reduction of $962,000 of legal tender notes, $664,100 of specie, and of $4,070,200 of deposits, also a contraction of $2,989,700 in their loan and discount averages, and an increase of $93,500 in their item of circulation. The city bank exchanges, last week, averaged 98, and thus far, this week, about 101 millions daily. The banks now hold $1,599,700 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $12,782,200, against $10,228,400 same time last year. The city bank deposits are now $209,546,000 against $246,896,700, week ending Sept. 16, 1871. The legal tender reserve amounts to $48,105,600, against $63,821,700 same time last year. The circulation now stands at $27,626,400 against $30,129,700 same time last year. The loans are now $284,650,300 against $312,668,000 at this date last year.

The coin reserve of the city banks is now about 12¾ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 48⅛ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 209½ millions, against 247¼ millions on the 20th of July.

Government revenues have been up to a fair average. The excises yielded within the week about 2¼ and thus far in the current fiscal year beginning with July 1, 1872, $30,667,392. The customs at the port of New York last week were $3,419,085; at the outports, equal to about $1,150,000 all in coin, or coin certificates.

Under the Treasury programme for September, Government proposes to sell, Gold, as follows: Thursday, September 26, $1,000,000. And to buy in Five-Twenties, as follows: Wednesday, September 23, $1,000,000.

Under the clique manipulations, Gold has advanced sharply, since our last, on a brisk speculative movement, deriving much aid from the large mercantile interest said to be short of coin. The floating supply has been cut down materially, so much so that on Tuesday after the brokers of the clique had offered to lend a million at an eighth per cent. for the day's use, they put on the screws, and, by competing with those who were obliged to borrow for delivery, ran the rate for the day's use up to 1⅛@1¼ per cent. It was supposed to be the purpose of the clique to compel settlements of short contracts for cash. The customs drain was moderate, and the specie export light. The heavy purchase of Government bonds on Wednesday on Treasury account served to relieve the speculative pressure against the mercantile interest.

The range of the price during the week as

been from 113@114⅝ and the closing quotation on Wednesday was 114 against 112⅞ the preceding Wednesday. The specie outflow last week, was only $336,217. The Gold Exchange Bank clearances have averaged about 51 million per day during the week.

The customs demand for Gold last week, averaged $611,000 a day; thus far, this week, it has averaged $558,910 a day, or equal to a weekly aggregate of $3,353,460. The arrivals of specie from Europe, Havana and other foreign ports last week were $30 943, and since Jan. 1, 1872, $2,915,938 against $7,632,509 same time in 1871. The total customs revenue of the Government, in coin, at this port, since January 1, has been $111,149,649 against $115,912,500 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $58,709,532, against $64,844,648 during the same time in 1871.

The export drain of specie was $336,217 last week, against $521,701 same week preceding year. The shipments since January 1, 1872, have been $57,252,820 against $54,817,902 during the same portion of 1871.

The business in foreign exchange was deranged by the remarkable activity in Gold, and the price was depressed, by forced offerings of bills. Bankers' sixty day bills on London closed on Wednesday at 107¾@108; sight bills on London, 108¾@109.

The week's exports hence of domestic produce have been to the currency value of $5,283,128.

Government securities has been in fair demand, and on the whole, stronger in price, on light offerings of the favorite issues.

On Wednesday, Government bought in three million of Five-Twenties at equal to market rates out of an aggregate offering of $4,753,850 at from 110 87@112 75. The unexpected large purchase of bonds greatly relieved the pressure in the financial line.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 115@115½; U. S. Five-Twenties of 1862, 113¾@114; U. S. Five-Twenties of 1864 at 113¾@114; U. S. Five-Twenties of 1865, 114@114½; U. S. Five-Twenties of 1865 consolidated, 112¾@113; U. S. Five-Twenties of 1867, 113⅛@113¼; U. S. Five-Twenties of 1868, 113⅛@113½; U. S. Ten-forties at 107½@107¾ U. S. Fives of 1881 (Funding Loan) 111@111¼; Six per cent. currency bonds, 111⅞@112⅛.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Sept. 4.	Sept. 11.	Sept. 18.

New Fives of 1881...	89⅞	89¼	89¼
Erie.	39¼	40	39

State bonds have been less sought after and less firm, closing irregularly.

Railway and Miscellaneous share property has been quite active, the speculative dealings having been extensive, but the stringency in Gold, and brisk call for Money, have been decidedly against values, which have been depressed, though closing with some indications of reviving buoyancy. Hurious rates were exacted on loans of some of the more active stocks.

Railway Mortgage Loans have been in fair investment demand, at the ruling figures. Central Pacific Sixes have been in rather better request, closing firmly at 99¾@100.

We learn from Messrs Fisk & Hatch, the financial agents of the Chesapeake and Ohio Railroad Company, that the offerings of proposals for $2,923,700 of the company's first mortgage bonds, amounted to $2,891,500, and, after deducting the awards, the amount now remaining at the disposal of the company is only $959,000. The original loan of $15,000,000 having been thus practically disposed of, including the greater part of those repurchased or received in exchange for the debenture bonds of the company, the Loan, will now be withdrawn from the market, and the new bonds remaining in the hands of the company will be disposed of at private sale.

In the Metal line, there has not been much animation, apart from the dealings in Iron Rails. Ingot Copper has been held firmly, but has been rather quiet; sales 190,000, lbs. at 33¼c.@33½c. Scotch Pig-iron in moderate request and quoted strong in price on light offerings; sales, 200 tons Glengarnock, in lots, part at $55, and 100 tons Monklin on private terms. American Pig-iron has been in good demand and buoyant as to price, with sales reported of 1,000 tons January and February deliveries, at $54@$55. Wrought scrap-iron has been quoted weak, on freer offerings, with sales of 1,000 tons, from dock and yard, at $50. There has been an active call for English Rails, and 2,000 tons changed hands at $75, gold; also, 1,000 tons Old, mainly at $49, gold. Of Russian Sheet-iron, 100 packs were placed on private terms, with 17½c., gold, given, as the ruling price. No important dealings reported in Lead, Spelter, Zinc or Tin Plates; values nominally as before. Pig-tin in some demand on the basis of 33¼c., gold for Straits, with, however, holders generally asking 33½c.@33¾c., gold, checking business.

Business in the leading kinds of domestic produce has been fairly active, with Flour, Corn, Oats, Pork, Butter and Spirits Turpentine, quoted firmer, and Wheat, Lard, Bacon, Resin and Cotton cheaper. Middling upland cotton closed heavily on Wednesday at 20¼ cts. per lb. The receipts at all the ports, since Sept. 1, have been 69,876 bales, against 31,386 bales same time in the preceding year; exports 7,792 bales against 24,513 bales in the previous year; stock at the ports at latest dates, 69,832 bales against 87,943 bales same date 1871.

At the Live Stock Markets, Beeves have been in more demand at 9½@14½ cts.; Veals at 7@10 cts.; Sheep at 5@7½ cts.; Lambs, 6@9¾ cts.; Swine, at 5⅜@5¾ cts. per lb., all live weight. The week's receipts were 9,710 Beeves, 2,878 Veal Calves, 23,629 Sheep and Lambs, and 40,723 Swine.

Foreign goods have been in more request at generally well supported prices. The week's imports of foreign goods reached the amount of $8,086,294 including $4,594,236 of dry goods.

Ocean freights have been quite active particularly for Grain, of which the offerings have been quite liberal.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Boston, Hartford and Erie R. R., 67⅛; do. 1st mort., 39; Cleveland and Pittsburg consols, 95; Lake Shore and Michigan Southern consols, reg., 100; do. coupon, 100½; Toledo, Peoria and Warsaw 1st mort. W. ☞ The Michigan Central Company has recently opened sixteen additional miles of their Jackson, Lansing and Saginaw Division. This completes the line for a distance of seventy-five miles above Saginaw.

☞ It is expected that the Detroit and Bay City railroad will be opened by October 15, and that the line will be finished throughout by the end of that month.

California and Oregon Railroads.

The Visalia Division of the Central Pacific Railroad is now open for business as far south as Tipton, 170 miles from the junction with the main line at Lathrop, and 348 miles from San Francisco. This makes a new and comparatively quick route between San Francisco and Los Angeles, the "Telegraph Stage Line" connecting Tipton with the trains. A new route between California and Oregon has also been opened recently in connection with this company's Oregon Division, which is in operation as far north as Red Bluff, 117 miles north of the junction with the main line and 273 miles from San Francisco. The "California and Oregon" stage line runs from Red Bluff north through a mountainous country to Oakland, Oregon, the southern terminus of the Oregon and California Railroad, by which the distance to Portland is 181 miles.

☞ The St. Louis *Republican* says that Mr. Thomas Allen, President of the Cairo and Fulton railroad of Arkansas, has decided to build a railroad bridge over the Arkansas river at Little Rock, with a track for the cars, and a track above for a highway to accommodate passengers and teams. The cost of the bridge is estimated at $275,000. This bridge is to be completed by the first of April next.

☞ Track laying on the Flint River Branch of the Flint and Pere Marquette Railroad has been completed. The road runs from the main line to Otter Lake, and will doubtless be extended eventually. The Saginaw *Enterprise* regards this Branch as a very important one, not only to the country through which it runs, but also to the F. and P. M. Road.

☞ The arrivals of vessels at Philadelphia in August, 1872, were 4,238—of which 97 were foreign and 4,141 coastwise. The exports from Philadelphia in August, amounted to $1,759,511—of which $1,259,613 were in foreign and $499,898 in American vessels. The principal article exported was Petroleum, valued at $1,169,577.

☞ Col. J. J. Lawrence, has assumed the general management of the Oil Creek Railroad, lately purchased by the Allegheny Valley Railroad Company, Mr. Pitcairn having retired. Charles J. Hepburn has been appointed Superintendent of the new line.

☞ The Columbus and Hocking Valley Railroad company will build, early next spring, the Monday Creek branch of their road, running from Nelsonville to Straitsville, through the finest coal field in America. The new branch will be about fourteen miles in length.

☞ The Darby Improvement of the Philadelphia, Wilmington and Baltimore Railroad is rapidly approaching completion, and during the coming month it is to be used for travel, when several additional trains between Chester and Philadelphia are to be run.

☞ The Marshall (Mich.) *Statesman* says that the contracts are all let and work going on on the whole length of the Marshall and Coldwater railroad, from Coldwater, Branch county, through Calhoun, Eaton and Ionia counties to Elm Hall, in Gratiot county, a distance of about 120 miles.

ELEVEN PER CENT INVESTMENT.

FIRST-CLASS SECURITY.

State Loan of Arkansas,

7 per cent Thirty-Year Bonds.

A LIMITED NUMBER OFFERED

AT 70 CENTS

AND ACCRUED INTEREST.

In these Bonds "the faith and credit of the State are solemnly and irrevocably pledged for the payment and redemption of the principal and interest on each and every bond.

THE

JOHN J. CISCO & SON,

No. 59 Wall-st., New York.

FIRST MORTGAGE SINKING FUND LAND GRANT BONDS OF THE

ST. JOSEPH AND DENVER CITY RAILROAD COMPANY,

In denominations of $1,000, $500 and $100, Coupons or Registered, 30 years to run. Interest at 8 per cent., payable February and August. Interest and principal payable in gold. Price 97½ and accrued interest in currency. For sale by

TANNER & CO., No. 11 Wall st.

☞ The Cumberland (Md.) Coal and Iron Company has declared a dividend of 5 per cent, for the last six months, payable October 1.

Journal of Railroad Law.

RAILROAD COMPANIES—INJURY TO SWINE—WHEN LESSEE LIABLE UNDER ACT OF 1862.

The facts in the recent case of Stewart, *vs.* The Chicago and Northwestern R. R. Co., (27 Iowa, 282,) are as follows:

A jury was waived and the court found the following facts:

1. Plaintiff's hogs, of the value, &c., were killed by defendant's cars and engines as charged, etc.

2. At the time the County had, by a proper vote, adopted what is called the "hog law" and it was in full force.

3. Proper notice of the law was given, etc., and the road was not fenced where the hogs were killed, though the company there had a full right to fence.

4. In 1864 the C. R. and Mo. River R. R. Co., the then owner of this road, leased the same to the defendants, the lease running with the expiration of the charter of the company so owning the road, or fifty years from June, 1859. The defendant had the exclusive right to run, operate and control the road until the expiration of the lease, unless sooner forfeited by the lessee.

5. Since the lease defendant has built fences along the line of the road and now maintains the same. It has also operated said road since the making of said lease.

6. There was no negligence on defendant's part, nor was the loss occasioned by the willful act of the plaintiff. And as conclusion of law it was found that defendant was liable for failure to fence.

Judgment for plaintiff in double the value of the stock killed, and defendant appeals.

The following is the opinion of the court delivered by—

WRIGHT, J.—I. Appellee suggests but does not argue the question of liability growing out of the "local regulation" as to fences in Tama County. It is conceded that the point has been ruled in accordance with the judgment below, and yet we are asked to consider the same. We are not possessed of any new light upon this subject; it clearly appears that though defendant had a right to fence, when these hogs were killed it had not fenced, either in accordance with the "local regulation" or otherwise. The conclusion of the court below was in harmony with what we have heretofore held and this conclusion we are not disposed to disturb. See Fernow *vs.* Dubuque and S. W. R. R. Co., 22 Iowa, 528, Spence *vs.* Chicago and N. W. R. R. Co., 215 *id.*, 139.

II. Counsel, however, argue and insist upon the second point, to wit: that defendant is the lessee of the road, and is not, therefore, liable for the failure to fence, relying upon Riddle *vs.* The Keokuk, Mt. P. and M. R. R. Co., 23 Iowa, 378, and this is in fact the only question to which they have directed attention in their argument.

Aside from a few cases of injury prior to April, 1868, this point is but of little practicable importance. This is plain from the consideration that the Act of April 3, 1868, (Ch. 79 Acts of 1868) extended the provisions of chapter 169 Laws of 1862, to lessee operating or running any railroad the same as the company owning or controlling the same. This legislation was after and perhaps consequent upon the ruling in the Riddle case. The stock in the case before us was killed in 1865, and we are hence to determine the liability of defendant without the aid of this recent legislation.

In our opinion the case is easily distinguishable from that upon which the appellant relies. There "Kilbourne was individually the lessee in possession of and running the road." For how long a time this lease extended whether for one day or one month did not appear. He merely had possession of and was running the road. There was no pretense that he had ever undertaken to fence any part of the line; here the defendant had the exclusive right to run, operate and control the road until the year 1909 (if there was no forfeiture). Here, too, defendant had built and maintained fences along the line of the road in all things treating the same as under its exclusive management and control. It manifestly from the facts affirmatively found had the same power to protect itself as the lessor could have if still running the road; and it is this consideration which becomes controlling in looking at the language and endeavoring to discover the meaning of the statute. Defendant was, for fencing purpose more than a lessee. It was the company running and owning the road within the meaning of the law. It was, in a word, running and operating it as its own, having the right to fence for its own protection, and, hence, under a like liability as though the absolute and entire owner.

It was never intended to hold that none other than the party or company invested with the entire and full title or ownership of the road should be liable for failure to fence.

The case referred to was placed upon its own circumstances, and its language, as it is believed, carefully guarded. It was confined to "a lessee in possession of and running a road" and cannot fairly be extended to one having the exclusive right to run, operate and control the road, with the right to fence undenied and exercised without dispute; a right, too, extending for near a half century. We were aware of these extended leases; were aware that those holding the same had an estate of a more permanent character than if limited to a few months or a year; that it was of such a dignity as that when sold under execution it would be redeemable (Rev. §§ 3329, 3330): that the spirit of the law extended to them, exclusively controlling while operating and running these roads, and never designed to exempt such from the provisions of the statute. There is not, in our judgment, anything in the case referred to, warranting such exemption. The law itself certainly does not recognize such a distinction.

Judgment affirmed.

☞ The Memphis *Avalanche* say that a contract for the building of that portion of the White River Valley railroad extending from Augusta to Jacksonport and intersecting the Cairo and Fulton railroad, has been closed with that well-known contractor, David Gore, and work is to be commenced at once, with a view to completion by May, 1873. The length of the work is thirty-two miles.

☞ About nine miles of the Cincinnati and Terre Haute railroad are graded beyond Middlebury, and will be laid with the standard steel-capped rails as soon as they arrive. Grading is favorably progressing.

Texas and Pacific Railroad.

We find in the San Diego *Union*, of 22d ult., a report of an interview with Col. Thomas A. Scott, who has for some time been in California for the purpose of forwarding the Texas and Pacific Railroad. Of the object of his visit to California, Col. Scott said:

I have come from the east purely for business purposes—in fact, to visit San Diego, the western terminus of the Texas and Pacific Railroad.

The road will run from the eastern border of Texas to San Diego, on or about the thirty-second parallel, and will for the most part follow the line laid down on the map of the Southern Pacific Railroad; starting from two points on the eastern border of Texas and joining again at Fort Worth.

One line leaves Texarcana, where it joins communication with the Fulton, Memphis and Cairo line, connecting at Memphis with the direct route to Charleston, S. C.; also from the same junction to Richmond, Va., and Cincinnati, thus connecting the Texas and Pacific line with all the principal railroad arteries of the eastern states. The other line further south has its eastern terminus at Shreveport, also on the eastern border of Texas, and by way of Marshall and Dallas joins the prescribed line at Forth Worth at a distance of about two hundred and fifty miles from its commencement. This line connects the Texas and Pacific with New Orleans by way of Vicksburg, and by the Texas Central, which it crosses at Dallas, with Galveston to the southward, and St. Louis to the northward. The line, it will be seen, thus connects itself with all the principal centers of railroads which, throwing their many arms all over the states, connect California with everywhere.

The junction at Dallas is peculiarly favorable, as it forms the shortest railroad route from California to a port on the Atlantic, or at least to Galveston on the Gulf of Mexico, from which port, owing to the gulf stream and the generally favorable trade winds, an immense saving of time is effected in the shipping of California produce to Europe.

The line will proceed from Fort Worth by El Paso and Fort Yuma to San Diego.

The present capital of the Texas and Pacific company is $10,000,000.

The line is to be built by a constructive syndicate whose bonds will be floated on the London market.

The road has been built so far sixty-six miles, from Shreveport to Longview. Three hundred miles will be put under contract before the end of October next.

Work will be commenced at San Diego immediately, as the charter of the company requires the line to be commenced from that place before the end of the year. In fact it is to make an arrangement for this, that I now visit California.

☞ The Philadelphia *Ledger* of 16th inst., reports the net anthracite coal tonnage for the week ending on the 7th inst., from all sources, at 407,557 tons, and for the year 13,280,477 tons, against 9,183,275 tons to the same date last year, being an increase in the tonnage of anthracite coal of 4,097,202 tons. The production of bituminous coal for the week was 52,983 tons, and for the year 1,722,377 tons, against 1,553,164 tons to the corresponding time last year—an increase of 169,213 tons. The total production of all kinds of coal for the week was 460,540 tons, and for the year 15,002,854 tons, against 10,736,439 tons to corresponding time last year, showing an increase of 4,266,415 tons.

☞ The locating survey of the Berlin and Weyauwega Railroad has been commenced by the Wisconsin Central Railroad Company. The new road will be located from Beaver Dam to Weyauwega via Berlin, immediately.

Rondout and Oswego Railroad.

The case of Abel A. Crosby and others against the Rondout and Oswego Railroad Company and others was argued yesterday before Judge Ingalls at Special Term, on a motion for an injunction to restrain the Messrs. Litchfield, of New York city, who are engaged as contractors in building the road, from voting on or assigning certain stock of company held by them. After an argument occupying nearly all day, the motion of the plaintiff was denied. This motion was especially important to the Messrs. Litchfield, not only for the reason that the annual election of the company is to be held to-day, but for the further reason that the case involved a question of their good faith in past dealings with the company. The judge in rendering the decision intimated his views in regard to the case, and said he regarded the stock as valid in the hands of the Messrs. Litchfield. The Hon. T. R. Westbrook, of Ulster county, and John E. Burrill, Esq., of New York city, were counsel for plaintiffs, and the Hon. Matthew Hale, of Albany, the Hon. Augustus Schoonmaker, Jr., of Ulster, and Edward T. Bartlett, Esq., of New York city, for defendants.—*Albany Journal, Sept.* 10.

☞ The grading of the first 40 miles of the North Shore (Canada) Railway has been given under contract to Mr. Hulbert, builder of the Gosford Railway.

LOCOMOTIVES FOR SALE.

SEVERAL SECOND HAND LOCOMOTIVES for sale by the Philadelphia and Reading Railroad Co. Weights ranging from twelve to twenty-nine tons. Further information can be obtained upon application to

Iron Furnace Property
FOR SALE.

THE EASTON IRON MANUFACTURING Company will sell at Public Sale, at the Circle, in the borough of Easton, Northampton County, Pa.,

On Thursday, September 26th, 1872.

at 10 o'clock in the forenoon, their

Blast Furnace and Real Estate

located in the borough of Glendon, Northampton Co., Pa., containing about 15 acres of Land. The Furnace erected thereon is a sheet iron casing stack, 14½ feet bosh by 70 feet high, with bell and hopper, J. P. Morris & Co.'s low pressure condensing engine, 8 boilers, 2 Kents' hot blast ovens, casting house, engine house, steam hoist, 11 tenement houses, 2 stables and a blacksmith shop. The furnace buildings are built of brick and stone, and put up in the best of manner, with all the modern improvements. The works have been built about one year, and are now in blast. Its production of iron is as great as any other blast furnace in the Valley for its size. Canal and Railroad in close connection. Hematite Ores are very plenty, and there is sufficient for several more furnaces. No better location can be found; iron can be manufactured and conveyed to market as cheap, if not cheaper, than any other place in the Lehigh Valley. Leases and all other advantages belonging thereto sold together with the property, which will appear in the conditions of sale. The Furnace will be sold in blast, if nothing prevents. Terms and conditions made known on the day of sale. Sale positive and without reserve. Any parties wishing to view said property will please call on the premises.

EASTON IRON MANUFACTURING CO.
Easton, August 20, 1872.

Notice to Contractors.

OFFICE KENTUCKY AND TENNESSEE R. R.
MOBILE, ALA., August 13, 1872.

THE KENTUCKY AND TENNESSEE RAILroad Company desire to contract for the construction of their Road from Columbus, Ky., to Fillmore City on the Ohio River, opposite to the City of Cairo, Illinois, a distance of about twenty-one miles.

The road runs up the Valley of the Mississippi River, and, for the greater part of its length, will require heavy embankments, trestle work, and pile bridging.

Maps, profiles, specifications, and any other information, may be obtained at this office after the first of September next.

The work is required to be completed within six months after the ratification of the contract, and is worthy of the attention of large contractors.

L. J. FLEMING,
6t34 Chief Eng. Ken. and Tenn. R.R.

PROPOSALS
FOR THE CONSTRUCTION
OF THE
TEXAS AND PACIFIC RAILWAY.

Proposals will be received up to the 1st of October, 1872, at the office of the Texas and Pacific Railway company at Marshall, Texas, for the grading, bridging, tieing and tracklaying of about five hundred (500) miles of the Texas and Pacific railway, divided into the following divisions:

The southern division, extending from Longview through Dallas to Fort Worth—155 miles.

The Jefferson division, extending from Marshall through Jefferson to Texarkana—65 miles.

The east half of the trans-continental division, extending from Texarkana to the crossing of the Houston and Texas Central railroad, near Sherman—156 miles.

The west half of the trans-continental division, extending from the crossing of the Houston and Texas Central railroad to Fort Worth—68 miles.

The grading and bridging will be let in one mile sections; the tracklaying by the mile; the ties by one thousand and upwards.

Each class of work to be bid for separately.

The time for completing the grading, bridging and tieing extends from sixty days to nine months.

The company reserves the right to reject any or all bids, and in letting the work will be the judge of the responsibility of parties bidding, and will give preference to contractors having outfits on the ground ready to commence work within ten days after the date of contract.

Profiles, estimates and specifications can be seen at the office of the company, in Marshall and Jefferson, Texas, and at the Pacific National bank, Council Bluffs, Iowa.

Contractors, upon arriving on the ground, can obtain work up to the date of general letting, on the fifty miles west of Longview.

Address, until September 20th, Council Bluffs, Iowa—after that date, Marshall, Texas.

G. M. DODGE,
Chief Engineer.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**

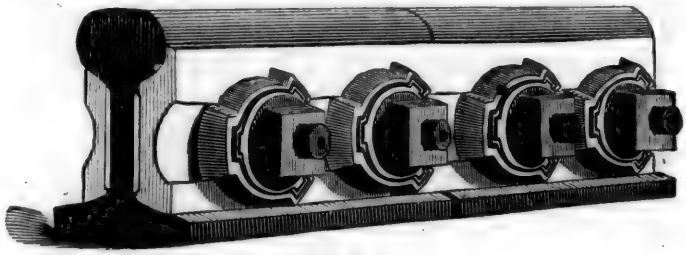
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

New York, Saturday, September 28, 1872.

Arkansas Central Railway.

We call attention to the advertisement of the Arkansas State Loan issued to aid in the construction of the Arkansas Central Railway, a line of 160 miles in length, and running from Helena to Little Rock, with a branch line to Pine Bluff. These bonds are a regular State issue, and as such as good as the faith and credit of a State which promptly pays its interest can make them. They are also endorsed by the Railway Co., which pledges itself to guarantee the prompt payment of the principal and interest as the same shall become due. They are offered at the low price of 70 cents on the dollar, thus ensuring an annual income of over 10 per cent, the interest being payable semi-annually at the office of the Union Trust Co. of New York. Sixty miles of this road are fully completed and in operation, and the balance is expected to be in running order by Dec. 1, 1872.

☞ The Massachusetts Central Railroad Company have finally decided on the location of their road, where it is to cross the county road at Cowee's mills, in West Boylston, and work is resumed there, after a suspension of several weeks.

BANKING HOUSE OF

JAY COOKE & CO.,

No. 20 Wall St., New York.

We continue to sell at par, adding accrued interest, the First Mortgage Gold Bonds of the Northern Pacific Railroad Company. On the completion of this season's contracts there will be FIVE HUNDRED AND SEVENTEEN miles of the main line of the road in operation, uniting Lake Superior with the Missouri River, and securing the large traffic of the Northwest. This amount of road also entitles the Company to ten million four hundred thousand acres of land located in Central Minnesota, Eastern Dakota, and in the Columbia Valley, on the Pacific coast. The bonds are secured by a first mortgage on the road, its traffic and franchise, and on the entire land grant received from the government. The rate of interest is Seven and Three-tenths, Gold, equivalent to about Eight and a Quarter per cent in Currency. Believing the security to be ample and the rate of interest satisfactory, we recommend these bonds as a desirable investment. Holders of United States 5-20's and high-priced corporate securities may materially increase both their principal and their interest income by exchanging for Northern Pacifics.

JAY COOKE & CO.

New York, Philadelphia and Washington.

☞ The Philadelphia *Ledger* of 22d inst., reports the net anthracite coal tonnage for the week ending on the 14th inst., from all sources, at 424,664 tons, and for the year 13,712,251 tons, against 9,646,683 tons to the same date last year, being an increase in the tonnage of anthracite coal of 4,065,568 tons. The production of bituminous coal for the week was 50,638 tons, and for the year 1,772,976 tons, against 1,552,244 tons to the corresponding time last year—an increase of 220,732 tons. The total production of all kinds of coal for the week was 475,302 tons, and for the year 15,485,207 tons, against 11,198,927 tons to corresponding time last year, showing an increase of 4,286,280 tons.

Springfield and Illinois Southeastern Railway.

The First Mortgage Seven Per Cent. Gold Bonds of the Springfield and Illinois Southeastern Railway Company have recently been placed upon the market. This road, fully equipped and completed, extends from Shawneetown, on the Ohio River, to Beardstown, on the Illinois River, a distance of 228 miles, connecting with fourteen roads, with which business is interchanged. Arrangements are made for sending freight by this line without change of cars to Baltimore by the Ohio and Mississippi Road. The Cleveland, Columbus, Cincinnati, and Indianapolis Railway Company, by the terms of a traffic guarantee contract, will purchase at par and interest semi-annually the bonds of this company, selected by lot, to an amount which is estimated at $150,000 or $200,000 each year; the agreement being that the amount so bought shall be equal to 25 per cent. of the gross traffic interchanged between the two roads.

The amount of the mortgage is only $15,000 to the mile. The bondholders have the right to vote at all elections, and can control the company, in case of the non-payment of interest, without the usual legal formalities.

Rev. Dr. Field, editor of the New York *Evangelist*, in a letter recently published in his paper, speaks of this road as follows:

"After first going over the road myself, and forming my own opinion, I sought information from those connected with it. The president, Mr. T. S. Ridgeway, resides at Shawneetown. He is a banker, well known in the West as a man of wealth and of high character, as well as business experience. The directors, I am told, are all staunch, good men; the president and vice-president of the Cleveland, Columbus, Cincinnati, and Indianapolis Railroad being among the number. The vice-president, Mr. Beecher, and other officers, whom I saw at Springfield, struck me at once as practical men—not speculators nor visionaries, but plain, hard-working men, who have a great personal interest and pride in the success of this road. They spoke of it with the utmost freedom, and explained its working and management with such frankness and candor as could not but inspire a very strong feeling of confidence. Such proofs of character always win our respect, and make us feel that an enterprise is safe in such hands. Such is my feeling in regard to this new road. It has been completed and opened to bus-

iness but a few months; but already it starts off with excellent promise of success, and I feel sure that in a year or two it will have fully established its place as one of the carefully managed, prudent, safe, and prosperous roads of the West."

The financial agents, Messrs. JONES & SCHUYLER, invite attention to their advertisement, in another column.

Burlington, Cedar Rapids and Minnesota Railroad.

Before another six months, in all probability, there will be an unbroken railroad connection between Cedar Rapids and St. Louis, on the west side of the Mississippi river. A line is operated by the Chicago, Burlington and Quincy Company from Keokuk to west Quincy. About forty miles further, another line is in operation, called the Mississippi Valley and Western. From this point to St. Louis another line was surveyed, called the St. Louis, Hannibal and Keokuk Railroad, about forty miles in length, on which some work was done, but never completed. Last spring a company was organized in Cedar Rapids, called the Missouri and Iowa Railway Construction Company, with a capital stock of $3,000,000. They purchased this partly finished line and have since been pushing it toward completion. The track is being rapidly laid, and the whole distance is expected to be completed in six months. Negotiations have been made with the Chicago, Burlington and Quincy road to run trains over their line to Keokuk, and it is probable that as soon as the whole route is completed the trains on the Burlington, Cedar Rapids and Minnesota Railroad will run over it instead of through Illinois as at present.—*Cedar Rapids Republican.*

Hannibal and St. Joseph Railroad.

The earnings of this road for the years ending August 31, 1870 and 1871, compare as follows:

	1869-'70.	1870-'71.
From passengers	$1 258,225 25	$1,101,394 58
" freight	1,882,070 86	1,765,753 98
" mail	41,636 16	45,012 26
" express	43 094 38	36,692 45
" telegraph	3.539 87	3,985 41
" miscellaneous	35 519 87	30,367 80
" Kansas City Br. (tolls, &c.)	71,734 49	83,524 91

1871	3,104,969	2,015.934	1,089,035	577,884
Total	19,464,548	14,362.524	5,102,024	4,596,058
Ann.av.	2,433,068	1,795,315	637,753	574,507

The trustees of the Land Department expended during the year ended December 31, 1870	$406,166 00
And purchased the Land Bonds of the company to the amount of	869,600 00
Accrued interest and principal	$36,566 00

There was received for lots and sleeping cars sold, $9,500; and there was issued in excess of 5 years' notes and bonds exchanged, 15 years' 8 per cent. bonds, amounting to $571,500—the proceeds of which were applied to the extinguishment of the floating debt and payments for expenses of new equipment, construction, &c.

The assets of the Land Department are, the unsettled payments on contracts for the sales of lands, including interest to maturity amounting to $3,448,279 38, subject to cancelments of contracts which may be forfeited for non-payment; and the lands remaining unsold amount to about 109,500 acres, which, together with some of the lands already sold, are subject to claims under the Swamp Land Grant, which are or may be made in conflict with the claims of the railroad company, under the grant to them.

The Land Department account, since the commencement of sales, &c., sums up as follows:

	Principal.	Interest.	Total.
Sales	$5,508,268	$1,361,920	$6,870,188
Settlements	2,609,915	675,296	3,285,211
Unpaid	$2,898,353	$686,624	$3,584,977

A large proportion of the sales of lands are made on a credit of ten years. The maturities of the payments run through the whole period, and the entire gross receipts of money are under the control of the trustees for the purchase and cancelment of the land bonds of the company until the whole are retired.

The other assets of the company consist of the following working accounts which represent values but which are necessarily kept afloat in the ordinary transactions of business, and are not available for the payment of other than current liabilities and operating accounts, viz:

Uncollected revenue	$89,664 77
Stock of materials, &c	00.853 91
Sundry running accounts	28 812 13
Cash and cash assets	480,570 78
Total assets Aug. 31, 1871	$659,901 54

And the current liabilities at date consist of—

Unpaid charges	$6,971 82
Unpaid expenditures	250,402 83
Quincy Bridge Co.	19,054 95
Unpaid dividends	1,371 00
Floating debts	314,083 76
	$591,884 36
—and the interest due Sept. 1st	$144,612 00

The company also hold a number of county and other bonds and stocks received for subscriptions to the stock of the company and in payment for other things, and coupons to the amount at par of $373,886, which have no current market value, and would not at present sell at one-half their face value.

The condition of the road-bed, buildings and machinery are generally in good condition and the equipment is sufficient for present business. But the grades in many places are very high and much above the contemplated maximum of 52.8 feet per mile. A considerable part of the line is still unfenced and but a small part of the road bed is ballasted; and a freight-house is needed at Hannibal, and an engine-house at Kansas City. The Car-shops at Hannibal also require extensive repairs. Heretofore large sums have been expended in such improvements, and it is the intention of the company to continue outlays in this direction, for which purpose several millions of dollars will be required. Under these circumstances it is impossible that any dividends can be declared on the common stock for years to come.

As at present organized, the roads of the H. and St. J. Company consist of the following constituents:

Hannibal to St. Joseph	207 miles.
Palmyra to Quincy	12 "
Cameron to Kansas City	55 "

—making a total length of 277 miles. Bridges at Quincy and Kansas City connect the road with all the lines to the eastern markets and with the system of roads which traverse Kansas in the direction of the Gulf, New Mexico and the Pacific slope. A glance at the map will at once impress the mind that the roads of this company from their geographical position will secure to them a very important share of the trans-continental trade and travel, and almost a monopoly of a wide breadth of country on both sides of them.

The equipment of the road at the close of 1870-'71 was as follows: locomotive engines, 79; coaches, 41; baggage, mail express cars, 21; caboose cars, 36; coaches used a scaboose cars, 5; grain and merchandise cars, 162; combination, 745; open stock, 124, flat, 248, and coal, 122. The company also own—dump cars, 26; handcars, 75; snow plows, 3; wrecking cars, 2; pay car, 1; and steam pile driver on car, 1. Miles run by engines with passenger trains in 1870-'71, 564,972; with freight trains 1,174,568; with construction trains 140,309; switching 187,031—total miles run 2,066,880.

The cost per mile run in 1869-'70 was 26.1 cents; and in 1870-'71, it was 24 cents—showing a reduction in the latter year of 2.1 cents or 8.04 per centum. The number of miles run on a ton of coal in the years respectively was 41.7 and 47.5, and on a pint of oil 17.0 and 16 2. Coal average $2 75 per ton.

PASSENGER TRAFFIC.

Westward—	1869-'70.	1870-'71.
Local passengers	149,266	130,679
" " mileage.	6 055,482	4,367,163
" " revenue.	$281,778 32	$205,895 44
Through passengers	49,609	31,341
" " mileage.	10,908,941	7,000,770
" " revenue.	$441,711 62	$290,578 69
Total passengers	198,876	162,020
" " mileage.	16,974,423	11,367,933
" " revenue.	$723,489 94	$496,414 13
Eastward—		
Local passengers	137,079	152 555
" " mileage.	5,085,982	4,594,845
" " revenue.	$262,646 81	$217,044 77
Through passengers	23.387	44,318
" " mileage.	6,263.222	9.674,718
" " revenue.	$271,988 44	$387,935 68
Total passengers	165.497	196,873
" " mileage.	12,249,104	14,269,563
" " revenue.	$534,735 25	$604,980 05
East and West—	1369-'70.	1870-'71.
Total passengers	364,343	358,894
" " mileage.	29,223 527	25,627,496
" " revenue.	$1,258,225 25	$1,101,394 58

The average rate of fare per mile in the years respectively was 4.73 cents and 4.30 cents. The decrease in the number of passengers, mileage and revenue is due mainly to the competition of new roads, and the reduction of rates in consequence of said competition. The principal competing lines are the Chicago and Alton and the St. Louis, Kansas City and Northern, which have extensions to Kansas City.

FREIGHT TRAFFIC.

Westward—	1869-'70.	1870-'71.
Tonnage	302,175	299.409
Mileage	54,155,246	53 577,507
Revenue	$1,465,741 47	$1,342,455 95
Eastward—		
Tonnage	109,656	117,380
Mileage	18,703,608	18,580,166
Revenue	$416,329 39	$423,298 03
West and East—		
Tonnage	411,831	416,789
Mileage	70,858,854	72 097,673
Revenue	$1,882,070 86	$1,765,742 98

The aggregate tonnage and mileage have increased a small per centage, while the revenue has materially decreased; showing, as in the instance of passenger traffic, that rates have ruled lower than in the previous year. The same influences as noted in the passenger traffic have worked to this result.

The cattle and hogs, lumber and coal traffic in the two years compares as follows:

	1869-'70.	1870-'71.	Increase.
Cattle, head	84,433	107,257	22,284
Hogs, "	89,315	103,017	13,702
Lumber, M. ft	102,179	108,636	6,457

The amount of coal carried in 1870-'71 was 9, 784,700 bushels. The increase in cattle, hogs and lumber is very marked. The hog traffic however is not so large as in 1868-'69, the number carried in that year having been 116,116 head. In the last named year only 59,729 head of cattle were shipped.

The financial condition of the company, as shown on the General Balance Sheet of August 31, 1871, was as follows:

Capital stock	$4,167,700 00
Preferred stock	5,087.224 60
Bonds and notes	9,508,000 00
Land Fund, cost of securities purchased by trustees and delivered to company	2,679,806 38
Balance of account	375,496 99
Total	$21,818,227 37
Construction	$7,734,717 94
Engineering	192,614 35
Interest, discount, &c	6,443.116 76
Fencing	168,521 41
Contingencies	156,040 86
	$14 695,011 32
Equipment	2,948.433 18
Telegraph	17,156 44
Depot grounds	114.660 05
Depot buildings	553,012 45
Right of way	59,897 24
Quincy and Palmyra Railroad	339 703 97
Kansas City and Cameron Railroad	2,192.853 27
Pullman's Palace Car Shares 168	46,800 00
State Sinking Fund	1,900 00
Land department expenses	437,535 32
Fiscal agency account	411,264 13
Totol	$21,818,227 37

The several classes of the bonded indebtedness of the company at the close of the fiscal year 1870-'71 are fully described on page 1236 of this week's issue.

It will be observed that there are falling due and to be provided for within about five years from date, bonds to the amount of $1,680,000.

The following is a list of the directors elected November 7, 1871, and of the executive officers appointed by them.

President.—HENRY N. SMITH, New York.

Vice President.—B. F. CARVER New York.

Directors.—Henry N. Smith, B. F. Carver, Jay Gould, G. S. Higgins, A. N. Ramsdell, A. B. Baylis, Henry Smith, Daniel S. Miller and Jenkins Van Schaick.

Secretary and Treasurer.—JOHN L. LATHROP, Hannibal, Mo.

Superintendent, Engineer and Auditor.—GEORGE H. NETTLETON, Hannibal Mo.

Fiscal Agent.—JOHN P. ACKER, New York.

Toronto, Grey and Bruce Railway.

A report of six months' operations shows a gross traffic of $64,312 46, from which deducting the working expenses, $44,649 33, a net profit remains of $19,663 13. This sum is sufficient to pay the full amount of interest on the bonds issued on the section between Toronto and Orangeville, and more than half the interest on the remaining section between Orangeville and Mount Forest. The traffic is steadily increasing, and the directors are sanguine of success. It is now apparent that this is a very large and costly undertaking. The two great branches extending to Owen Sound on the Georgian Bay in one direction, and to Lake Huron on the other, added to the main line make the Toronto, Grey and Bruce Company the second or third largest railway corporation in the Dominion, in the extent and value of their property. Great disappointment has been experienced in reference to some half dozen locomotives which should have been received from England in April and May last, but are still in the hands of the makers, in consequence of the strikes among the workmen. On this account construction has been very much delayed, but it is still believed that Owen Sound will be reached before the 1st August, 1873, the time fixed upon by agreement with the County of Grey. There is a great deal of work to be done and difficulties to be surmounted before this enterprise shall be fully completed; and hence the Directors still need the support and confidence of the shareholders and the public. When the project is realized there is no reason to doubt of its fulfilling the bright anticipations formed by its projectors in the first instance.—*Monetary Times.*

☞ The contract for building the Lee and New Haven Railroad has been concluded with Davis & Kelley, of Poughkeepsie, N. Y.

Traffic Guarantee

AND

REDEMPTION BONDS

7 per cent. Gold Interest.

Mortgage $15,000 per mile.

COMPLETED AND FULLY EQUIPPED RAILWAY.

228 MILES LONG,

ENTIRELY WITHIN THE

STATE OF ILLINOIS.

FIRST MORTGAGE SINKING FUND. GOLD BONDS OF THE

Springfield and Illinois South-Eastern Railway.

INTEREST PAYABLE FEBRUARY AND AUGUST, FREE OF GOVERNMENT TAX, AT THE

Office of the Farmers' Loan and Trust Company IN NEW YORK.

PRICE 90 AND ACCRUED INTEREST.

These Bonds, representing an unusually light Mortgage upon a Finished Railway, fully Equipped, extending Centrally through one of the Richest, and most Populous States of the Union, remarkable for the great success of its different Railways, offer unusual inducements to the investor seeking a PROFITABLE AND SAFE SECURITY.

The Holder of this Bond has the right to vote at all Elections.

By the terms of a Traffic Guarantee Contract with the well-known CLEVELAND, COLUMBUS, CINCINNATI AND INDIANAPOLIS RAILWAY, (four of whose Directors, including the President and Vice-President, are also DIRECTORS IN THE SPRINGFIELD AND ILLINOIS SOUTH-EASTERN RAILWAY), A LARGE NUMBER OF THESE BONDS WILL BE PURCHASED BY LOT SEMI-ANNUALLY *AT PAR* and ACCRUED INTEREST, giving the fortunate holders Eleven per cent. Profit on their investment, besides nearly Nine per cent. Interest.

We respectfully invite the attention of all Capitalists to this Security as a particularly safe and desirable one.

Pamphlets and Maps with full particulars furnished by us on written or personal application.

JONES & SCHUYLER,
12 PINE STREET, NEW YORK.
Financial Agents of the Company.

Veneers and Fancy Woods.

The great increase in the furniture trade, and especially in the manufacture of fine furniture, that has taken place in the last few years, as well as the immense increase of our railways and that of piano manufacturing, which has of late grown to such gigantic proportions, has of course also given great impetus to other branches of business, such as the manufacture of furniture hardware, upholsterer's goods, varnishes, and various other kindred industrial pursuits. But in none of them has it infused such life, or led to such an extensive increase, as in that of the manufacture of veneers and the importation of fancy woods. The enterprising firms engaged in this business, by themselves or their agents explore nearly every region of the globe to supply the demands for the various costly fancy woods that are in such extensive use. Their sources of supply are literally located in all the points of the compass, but here the products of all are gathered together in profusion—mahogany from Honduras, rose wood and satin wood from South America, black walnut from France, cedar from Spain, ash from Hungary, laurel from California, and many other kinds from various counties.

Among the most prominent importers, manufacturers and dealers in these hard and fancy woods and veneers, may be mentioned the firm of Messrs. Geo. W. Read & Co., whose warerooms and offices are located at 170 and 172 Centre Street, the yards and factory being situated on Lewis street, between Fifth and Sixth streets, and embracing the numbers 186, 188, 190, 192, 194, 196, 198 and 200. The factory consists of a building on Sixth street, three stories high and 36x150 feet in area, having an L on Lewis street, a one story building, 31x200 feet, running the entire width of the property. The yard and all covers a space of 200 square feet, has a fine water front of 200 feet on the East River, and is well remembered as the old and extensive ship yard of Mr. Wm. H. Webb.

The building for manufacturing the veneers has one large floor throughout, 36x150 feet. All the cutting is done by steam and machinery of the most improved kind, the motive power being furnished by an engine of 175 horse power, and Mr. Read is just now placing shafting underneath and across Lewis street, to furnish steam power to buildings on the opposite side of that street, from this same powerful source of supply.

The machines for cutting the veneers are of the very finest and most recent kind introduced, among which may be mentioned one very large slicer, cutting 11 feet 2 inches long, and one smaller one cutting 5 feet long, one rotary machine cutting 4 feet long, one fine ripping machine and others of the latest and most improved construction. In fact there is nothing wanting in this respect to make the establishment perfect in every sense. The building on Lewis street adjoining the factory, is a long, one story brick, 31x200 feet, and is used for the storage of veneers, plank, boards, &c. Besides occupying the large yard of about 164x170 feet, not including buildings, there are fine and well-built sheds used for storing the fine woods when cut up for drying and seasoning. These sheds are about 50x175 feet, and have a strong substantial roof especially adapted for the same purpose, and are thus used.

This roof holds an immense quantity of stuff and is constantly crowded with it. In these sheds and yards are to be seen some of the finest woods that have ever been imported into this country.

Among the large variety to be found there we may mention a few of the choicest and most important ones, such as rosewood, mahogany, satinwoods, black walnut, tulips, zebra, ebony, dyed birdseye maple, white holly, Hungarian ash, plain ash, oak, birch, butternut burl, ash-burl, mahogany and black walnut crotches, California laurel, California red wood-burl, Spanish cedar, red cedar, cherry, black walnut and white wood, and many other choice qualities. These woods are sawed and cut in all the different sizes required. Many of them are kept in veneers and logs only, while others are kept in veneers, logs and planks. They keep all the different grades and qualities, varying in price from 1 to 50 cents per foot. Some of the logs are of great value, and when cut up into veneers are valued as high as from $3,000 to $4,000 each; and some of the fine logs when thus cut up contain as much as 10,000 feet *per stock*—or half a log.

As before stated, these woods are imported from all parts of the world—South America, Africa, Italy, Hungary, France, East and West Indies, &c., as well as being collected in various parts of our own country. The firm receive all these woods in the log, and then cut them at their factory into veneers, boards, and planks of the different shapes and sizes suitable to meet the requirements of the trade.

This firm keeps an immense stock of these woods constantly on hand, valued at from $100,000 to $125,000, and are therefore always in a position to meet any demands that may be made upon them. They supply a large part of the furniture and cabinet makers, as well as the piano-forte manufacturers and railroad corporations of this country.

They also largely supply builders with all the fine wood required in house finishing, such as doors, mantles, wainscoting, &c. In addition to these demands, which are very large, the firm also do an immense trade with dealers in fine woods all over this country, and export mahogany, oak, &c., to South America, and maple and other American woods even to Europe.

They have excellent arrangements for obtaining supplies of fine woods from every part of the world, having regular travelling agents in South America and Europe gathering for them, and shipping to them, the finest varieties to be found in the various markets. Their facilities for obtaining the choicest kinds of our native wood are also most excellent, having an agent travelling in the far West, purchasing the finest American woods to be found. Messrs. Read & Co., are thus constantly in receipt from all quarters, at home and abroad, of the choicest varieties of woods that the earth produces. They have abundant financial resources to carry out their enterprises, and with their spacious yards and manufacturing facilities, are not excelled in this business.

The business of the firm was originally located at No. 291 Monroe street and No. 398 Madison street, and the great and rapid increase in their trade made it necessary about eighteen months ago to secure more spacious quarters, when they moved to their present location, which in regard to size and capacity and from its convenience for shipping and receiving goods, is admirably adapted for the transaction of their extensive trade.

Mr. Read has been many years in this business, is thoroughly experienced in all its details—the most minute of which he pays vigilant attention to, and keeps the extensive establishment under his immediate supervision. Knowing the value of a thorough knowledge of the trade, he employs none but thoroughly experienced agents in the several departments of the business.

We willingly add that the firm, though comparatively young, ranks as one of the first in this line of trade, exhibiting a stock of these goods which as to beauty, variety and quantity are not excelled, if equaled, by any other establishment in the trade.

Railway companies, fine furniture and piano manufacturers, as well as builders and dealers throughout the country, should not fail to acquaint themselves with a house of such magnitude and enterprise, whose manufacturing facilities are extraordinary, and thus enable them to offer many advantages to the trade.

☞ The Wisconsin Central Railroad is completed to White River, five miles from Ashland, and the cars are running thereon, and still the work is progressing. The distance across from New Richmond, the present terminus of the West Wisconsin Road is only ninety miles, and in a short time a road will be built between those points.

Competing Railroad Lines for Western Freights.

The Chesapeake and Ohio Railroad Company, it would seem, have very nearly completed the work of construction on their line. Only about sixty miles of track remain to be laid, which will in the course of a few days be reduced to thirty. The locomotive is now passing through Big Bend Tunnel, the longest on the road (nearly 7,000 feet), and the grading is in such an advanced condition that it will be out of the way as the tracklayers progress. The new portion of the road, two hundred and twenty miles, has been built in the most thorough manner, double track tunnels, bridge foundations, substantial masonry, steel rails or the greater part, iron bridges, &c. The cost of the road when in running order, will be fully $30,000,000, but as a large part of it was constructed some years ago on a gold basis, and all of it contracted for before the recent rise in prices of labor and materials, it could not be reproduced for a far greater sum at this time.

When opened through from the Chesapeake Bay to the Ohio River, as it will be before the close of the year, a new and superior connection will be established between the 12,000 miles of cheap inland river navigation of the Ohio and Mississippi valleys, and the whole coastwise ocean navigation, the grades on which are remarkably light, the fuel abundant and the connecting water lines always unobstructed. At the same time Cincinnati and Louisville are pushing forward railroad lines to connect with the Chesapeake and Ohio trunk line, and through them with the vast railroad system of the West. The transportation of breadstuffs, provisions, cotton, tobacco, &c., from the Western States to the seaboard has assumed such enormous dimensions that the advantages of this route must tell greatly in its favor. The road passes through the very remarkable deposits of iron ore of Virginia, and crosses the coal fields of West Virginia, where the deposits are thickest and of best quality. This will lead to a large shipment of coal to Western cities, and also to the seaboard.

Iron and steel manufactories will also spring up along the road; all the elements needful for making the crude metal and its more finished products, existing in abundance and in close proximity to the line.

This line of road will compete, as soon as finished, with the four great through lines from the Atlantic coast to the West that have heretofore monopolized the immense East and West traffic passing across the Northern States. The gross earnings of the latter roads and their connecting lines to the West for their last fiscal years, respectively, were as follows:—The New York Central and Hudson River, $21,972,105; Lake Shore and Michigan Southern, connecting line to Chicago, $14,797,975; total New York to Chicago by this route, $36,770,080. Erie Railway, $17,163,005. Pennsylvania Central, Philadelphia to Pittsburg, $18,719,737; Pittsburg, Fort Wayne and Chicago, connecting line to Chicago, $8,393,978; Philadelphia and Trenton, and Camden and Amboy, connecting lines from Philadelphia to New York, $6,134,085; total New York to Chicago by this route, $34,556,293. Baltimore and Ohio Railroad, main stem and branch to Parkersburg, Va., $10,646,486; Marietta and Cincinnati, connecting line to Cincinnati, $1,690,968; Ohio and Mississippi, connecting line Cincinnati to St. Louis, $3,197,152; total on this route, Baltimore to St. Louis, $15,534,606. These figures are sufficiently forcible in themselves without any comment.

Piedmont and Potomac Railroad.

A correspondent of the Baltimore *Sun*, writing from Sperryville, Rappahannock Co., Va., under date September 21, 1872, says:

During the past summer the engineers of the Piedmont and Potomac Railroad Company have been engaged in this section surveying a route for the proposed road across the Blue Ridge. According to the terms of the charter the road is to leave the Potomac river at or near Georgetown, cross the Blue Ridge at Thornton's Gap, pass through Luray, in Page county, and move on to Staunton. The city of Washington, it will be remembered, voted to accept $600,000 of the bonds of the company when the latter shall have expended $1,000,000 upon the work. As the company is said to be a very powerful one, having money headquarters in New York, working mainly New York capital, and bent on beating all existing competition in the matter of western freights, there seems be no doubt that the initiatory million will be forthcoming. The president, Mr. Sheerer, who spent part of the summer here with Chief Engineer Pryor and his corps, replied to interrogatories of the people by assuring them that the road would certainly be built "if Col. Pryor could find a place to put it," and Col. Pryor has certainly found the place. Up to the beginning of the survey the idea of passing the great barrier of the Blue Ridge in this quarter without a tunnel was looked upon by many as preposterous. But the engineers have surveyed and staked off a route along the side of the ridge from the vicinity of Flint Hill, in this county, for a distance of ten or twelve miles up a grade of fifty feet to the mile, through Thornton's Gap, where a fifty feet cut is to be made; then for about twenty-five miles along the western side of the ridge, on a grade of only twenty feet to the mile, down to Conrad's Store, in Rockingham county. This, however, will not take the road to Luray, in accordance with the terms of the charter, but this difficulty, it is proposed, will be met by the construction of a branch road to that place.

The road, it is stated, is to have a double-track, and to be first-class in all respects through its entire length. Connecting with the Chesapeake and Ohio road at Staunton, the line to the West will be complete. The latter road will be finished to the Ohio river in October. Whether the Piedmont and Potomac road will ever be built or not—and there seems to be scarcely a doubt about its construction—is a question which will not affect the fact which the survey has brought out as to feasibility. Although much heavy work will have to be encountered in the mountains, it will scarcely come up to that of the Central Pacific, while the grade secured is not inferior to that of any other road of like character in the country.

Paper Car Wheels.

The Springfield *Republican* says the Connecticut River Railroad Company is about introducing, for trial, a set of paper car wheels under the forward truck of one of its engines. These wheels have been known to car builders for some time, but the demand for them has been moderate on account of their cost, notwithstanding the universally admitted fact that they are safe and easy-going. The wheels are manufactured by bringing a pressure of 350 tons upon sheets of common straw paper which forces them into a compact mass, which is then turned perfectly round and the hub forced into a hole in the centre, this requiring a pressure of 25 tons' weight. The tire is of steel and has a one quarter inch level upon its inner edge, thus allowing the paper filling to be forced in, 250 tons pressure being required in the process. Two iron plates, one upon each side of the paper, are bolted together, which prevents the possibility of the fillings coming out. The tire rests upon the paper only and partakes of its elasticity in consequence. Although these wheels are much more expensive than those in common use, the patentee claims that they are cheaper in the end, as they wear longer, injure the tracks less and run with less noise than wheels of any other pattern.

Ohio Falls Car Works.

Among the articles on exhibition at the "Industrial Exposition," now being held at Louisville, Ky., "there is nothing," says the *Courier Journal*, "more conspicuous or wonderful than the model representation of the grounds and buildings of the Ohio Falls Car Works of Jeffersonville, Indiana, which are said to be the largest works of the kind in the world. From the fact that the works were completely destroyed by fire in March last, since which time, of course, they have not been in operation, the company could not place specimens of their work on exhibition. They would probably have had difficulty in obtaining space sufficient to exhibit a number of cars, if they had been fortunate in having a few specimens on hand. It was important to them, however, that they should make some kind of a show of their great enterprise, and they luckily hit upon the plan of producing a miniature representation of their works, which they placed upon a huge platform between and a little below the gallieries in the north end of the building, a position in which the works can be seen to advantage and reached from the upper floor. The platform is an elegant piece of workmanship, having been gotten up regardless of cost and containing many kinds of wood, including ash, black walnut, butternut, amboine, Canada walnut, cherry, pine, linn, and poplar. Over the platform there is suspended a beautiful banner bearing the following inscription: 'Ohio Falls Car Works, Jeffersonville, Indiana, organized June, 1864; destroyed by fire March 20, 1872; rebuilt, 1872. Joseph W. Sprague, President; William Crichton, Secretary and Treasurer. Directors—D. Ricketts, M. L. Belknap, J. L. Symser, J. W. Sprague, S. A. Hartwell. Cash capital $500,000; twenty-six acres of ground; five and a half acres under roof; three and a half miles of track in yard; capacity, twelve freight cars per day; one hundred passenger cars per year; H. Walters, architect, Louisville, Ky.' The model represents thirty-two distinct buildings, and there is not a more meritorious exhibition in the building."

Crossing the English Channel.

The English people have devised numerous schemes for going from Dover to Calais without the horrors of sea-sickness, none of which as yet have been successful. Of one of the latest of these the London *Spectator* says:

Mr. Bessemer is said to be likely to crown a life crowded with original inventions by one of the most beneficent of human achievements. He has invented, it is said, an apparatus for keeping the saloon of a steamer immovable, however strongly the steamer herself may pitch and roll. The general principle is to suspend the saloon on an axis passing through the centre, about which the ship oscillates, and which, consequently though not absolutely immovable, is liable to very little movement itself. But to this Mr. Bessemer adds an application of one of his own previously invented hydraulic powers, by which a lad with his eye fixed on a spirit-level attached to the saloon to see whether its level is changing or not, can, by the mere turn of a handle, restore it to a perfectly horizontal line, before it has deviated from it by the smallest fraction of a degree. We are further told that Mr. E. J. Reed, the former Constructor of the Navy, is building two vessels three hundred and fifty feet long, with suspended saloons constructed on this principle, for the Channel service.

☞ Work on the Portage Lake and Lake Superior Ship Canal is approaching completion. The work is being pushed forward as rapidly as possible, and it is thought it can be used before the close of navigation.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.
$3,500,000.

This is an EAST AND WEST ROAD RUNNING ON THE 40TH PARALLEL FROM INDIANAPOLIS, IND., TO DECATUR, ILL., 152 miles; through the richest agricultural and mineral country of both states; and connecting at termini with the GREAT THROUGH ROUTES to the East and West.

It is the only East and West road in a belt averaging 30 miles wide, and passes through the best part of the rich

BLOCK COAL FIELD

of Indiana, in which the COMPANY OWNS 2,000 ACRES OF BLOCK COAL LANDS. It owns, also, 30,000 acres of Farming lands.

$1,400,000 IN CASH HAS BEEN ALREADY EXPENDED ON THIS ROAD, of which 30 miles in Illinois are finished and in operation. Fifty-five miles more, completing the Western Division, Decatur to the Coal Fields, will be completed this fall and the whole road in 1873.

Upwards of TWO MILLIONS OF DOLLARS more are pledged to the enterprise, partly by counties, towns and individuals along the line, but chiefly by wealthy capitalists, among whom are W. H. GUION (of WILLIAMS & GUION), SIDNEY DILLON, JAY COOKE & CO., CLARK, DODGE & CO., J. & W. SELIGMAN, VIBBARD, FOOTE & CO., and PAUL S. FORBES, of New York, BENJ. E. BATES, of Boston, HENRY LEWIS, of Philadelphia, and GEO. M. PULLMAN, of Chicago.

Bonds $1,000 each, payable in 30 years, principal and interest in *Gold, free of Government Tax*. Sinking Fund 2½ per cent. on Gross Earnings.

For sale at 90 and accrued interest by the Financial Agents of the Co. (of whom pamphlets and information may be obtained.)

Walker, Andrews & CO.,
NO. 14 WALL STREET.

☞ The consolidated New York, New Haven and Hartford Railroad has chosen E. M. Reed, of Hartford, General Superintendent. Mr. Charles S. Davidson of Hartford, for several years Mr. Reed's assistant, has been chosen Superintendent of the division extending from Springfield to New Haven; Mr. J. D. Moody of that from New Haven to New York, and Mr. S. S. Scranton, late President of the Shore Line Railway, retains his management of that line, which is now the New Haven and New London Division of the consolidated road.

☞ The track of the Ashtabula, Youngstown and Pittsburg Railroad has been laid as far as New Lyme, O., about 20 miles south of Ashtabula.

RAILROAD EARNINGS—MONTHLY.

Cotton Manufacture of the United States.

The complete and authentic statistics of the manufacture of cotton goods just sent to the press from the census office, show the number of distinct establishments in the United States to be 956, of which Massachusetts has 191, Rhode Island 139, Pennsylvania 138, Connecticut 111, New York 81, New Hampshire 36, Georgia 34, North Carolina 33, Tennessee 28, New Jersey 27, Maine 23, Maryland 22, Alabama 13, South Carolina 12, and Virginia 11. The number of steam engines, 448; aggregate horse power, 47, 117; the number of water wheels, 1, 250; aggregate horse power, 102,-409. The number of looms used, 157,310; frame spindles, 8,694,477; mule spindles, 3,437,938; hands employed, 42,790 males above 16; 69,637 females above 15; 22,942 children and youths.—Aggregate amount of wages paid during the year, $39,044,432. Materials used, 398,398,259 pounds of cotton; 6,222,189 pounds of cotton yarn; 136,-100 pounds of cotton warp; 5,234,260 pounds of cotton waste; value of mill supplies, $10,910,572; total value of all materials, $111,737,686. Articles produced, 478,204,131 yards of sheeting, shirtings and twilled goods; 34,533,462 yards of lawns and fine muslins; 489,250,053 yards of print cloths; 30,501,087 pounds of yarn; 11,560,-241 dozen of spool thread; 73,018,945 yards of cotton warps; 11,128,127 pounds of batts, wicking and wadding; 93,892 table cloths, quilts and counterpanes; 2,767,060 seamless bags; 5,057,454 pounds of cordage, lines and twines; 906,066 pounds of thread; 8,390,050 yards of cotton flannel; 32,275,244 yards of ginghams and checks; 6,921,449 pounds of waste; 484,400 pounds of tapet wadding; 405,585 pounds of seamless bags; 13,940,895 yards of cassimers, cottonades and jeans; 10,811,028 pounds of miscellaneous products; aggregate weight of the goods produced 349,314,592 pounds; aggregate value of the product $177,489,739.

Dayton, Piqua and Toledo R. R.

A meeting of the friends of this enterprise was recently held at Spencerville, Ind., at which addresses were made showing the origin and history of the undertaking, and its progress. Speeches were also made by gentlemen interested in the Toledo, Delphos and Indianapolis railroad, showing the amount of labor done and money subscribed to that road. The Delphos (Ohio) *Herald* says:

The endorsement that is secured for that road by strong railroad interests coming into Toledo, and the working, enterprising men that are conducting it, make it a success in a very short period. The President, Colonel Marble, stated that all the efforts of his company would be directed to the completion of the northern division of the Toledo, Dayton and Indianapolis Railroad, in order to give the Dayton, Piqua and Toledo road an outlet from Delphos north, and give Delphos a direct outlet south. The natural unity of interests of these projects causes them to work in unison and foster each other. When the two enterprises are completed, considering the country through which they pass, the endorsement and connections with wealthy and successful railroad companies already pledged them, these lines cannot fail to be among the great and successful railway lines of Ohio and Indiana.

☞ H. P. Nichols, of Worcester, has been appointed Assistant Superintendent of the Boston and Worcester division of the Boston and Albany road, in place of A. Firth, resigned.

Russian Railways.

The Great Russian has held its annual meeting at St. Petersburg. The rough receipts of the St. Petersburg and Warsaw line amounted in 1871 to 9,112,844 roubles. In 1868, the corresponding revenue was 8,287,747 roubles; in 1869, 8,153,401 roubles; and in 1870, 9,882,960 roubles. The exceptionally large traffic of 1870 was attributable to the war of that year, which diverted goods from navigations on to the line. The net revenue of the St. Petersburg and Warsaw line in 1871 was 1,982,980 roubles, or 424,331 roubles less than in 1870. Upon the Moscow and Nijni-Novgorod line the rough receipts amounted last year to 6,-462,759 roubles, or 434,430 roubles more than in 1870. On the other hand, the working expenses of this line were reduced last year, as compared with 1870, to the extent of 131,315 roubles, so that the ratio of the working expenses to the traffic receipts declined last year to 55 per cent., as compared with 60 per cent. in 1871. The net revenue realised upon the St. Petersburg and Warsaw and Moscow and Nijni-Novgorod lines, taken together, amounted to 4,941,682 roubles, showing an increase of 141,727 roubles, as compared with 1870; the guarantee of interest given by the Government was not, however, completely covered. The rough receipts of the Moscow and St. Petersburg or Nicholas line last year were 17,-583,896 roubles, and the net receipts of the same line last year were 10,019,304 roubles, or 612,407 roubles more than in 1870.—*Herapath.*

☞ The work on the St. Louis, Salem and Little Rock Railroad, which is 40½ miles in length, and is to connect the Simmons Iron Mountain, at Salem, Dent county, Mo., with the Atlantic and Pacific road at Cuba, 90 miles from St. Louis, is progressing very rapidly. Thirteen miles of this line will be finished and in operation by the first of December next, and the remainder by the first of July, 1873. The corporators of the road are, A. L. Crawford, New Castle, Pa., President; Wm. L. Scott, Erie, Pa.; A. S. Crawford, Terre Haute, Ind.; and E. C. Simmons, St. Louis, Mo. J. W. Blanchard, of Steelsville, Crawford Co., Mo., holds the office of General Superintendent.

☞ The Toledo *Blade* says that the Continental Railroad is under construction between Tiffin and the Indiana State line, and between Rochester and Rensselaer, Ind. It is expected that the entire grading between Tiffin and Chicago will be finished by February, 1873, with a double track. From Tiffin east to Akron, Ohio, surveys have been ordered to be made, and are now supposed to be going on, so that by February next the grading will be so far advanced that by July following there will be a new connection between Chicago and New York, via the Atlantic and Great Western and the Erie, which are to have a third rail.

☞ The *Railroad Record* says that the contract of the Terre Haute and Southwestern Railroad, from Terre Haute to Robinson, Ill., a distance of 40 miles, has been let to Darius C. Jackson, of New York. The road is intended to connect Terre Haute with the Chester and Tamaroa Railroad in Illinois, and, by a line yet to be constructed, with the Iron Mountain Railroad in Missouri.

☞ The following are the new officers of the White River Valley Railroad company: Wm. C. Hazledine, president; E. M. Phillips, secretary; O. S. Dillon, treasurer; T. D. W. Yonley, attorney; J. G. Botsford, general superintendent; G. P. C. Rumbough, chief engineer.

CANADA SOUTHERN

First Mortgage Sinking Fund

30 Years'

7 PER CENT. GOLD BONDS

INTEREST PAYABLE APRIL AND OCTOBER AT THE UNION TRUST COMPANY,

—AT—

90 AND ACCRUED INTEREST.

This road is the western link in the new AIR LINE from BUFFALO to CHICAGO, and runs from the Detroit River to Chicago in nearly a straight line.

The road is a part of the same line as the Canada Southern, and is being built by the same men, viz.: Milton Courtright, John F. Tracy, David Dows, Wm. L. Scott, Henry Barnham, R. A. Forsyth, John M. Burke, M. L. Sykes, Jr., all Directors either in the Chicago and Northwest, or the Chicago, Rock Island and Pacific; Geo. Opdyke, of the Midland Road; Sidney Dillon, Daniel Drew, John Ross, David Stewart, Samuel J. Tilden, Kenyon Cox, and other prominent railroad men.

The Road, like the Canada Southern, will have steel rails (60 pounds to the yard) throughout; is practically STRAIGHT AND LEVEL; MUCH SHORTER, and can be run with greater speed and safety than any other road connecting Buffalo and Chicago.

The builders of the road control enough of its Chicago feeders to obtain for it a profitable business from the start, having projected the line to accommodate existing business, and having seen the necessity for another trunk line between Chicago and the Atlantic seaboard, located expressly with the view of obtaining the cheapest transportation practicable. Rapid progress is being made in the construction of the Road, and it will be finished at the earliest practicable period.

The branch lines will make the shortest connections between Chicago and Toledo, and Chicago and Detroit, as well as between all these points and Buffalo.

The Canada Southern Bonds, in every particular like these, were eagerly taken, the last of them several weeks ago, by the best class of investors, and were on the market a shorter time than any other railroad loan of like amount for years past.

The proceeds of these bonds will complete the entire line, and we recommend them with the same confidence as we did the Canada Southern, and regard them as in every way a choice security.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 28, 1872.

Stock Exchange and Money Market.

Money has been quite brisk through the week. The speculative inquiry has been active, generally on the basis of the full legal rate of 7 per cent. on call. The main demand has been for use at the Stock and Gold Boards, and at times has been decidedly sharp and urgent, due, in part, to the manipulations of the operators for a lower range of Stock values. Early in the week, some of the strongest of the city banking institutions took ground against the contraction schemes of the speculators at the Gold and Stock Boards. Two of these institutions declined to respond to certified checks, calling for legal-tender notes, unless received through the Clearing-house. The Bank of Commerce and the City Bank adopted this course. Though popular sentiment sided with the banks, the law was against them, and a day or two later, they agreed to a compromise, by promptly honoring the checks on presentation. The fluctuations in Stock values led to the stoppage of several brokerage firms, but none of any great prominence. The discount market was comparatively lifeless, within a nominal range of 8@12 per cent. per annum, for the best to very good grades of commercial paper. Some mercantile troubles were reported. One old and eminently respectable grocery-house was forced to suspend on liabilities variously estimated up to $600,000. At the close, there was a renewal of the pressure for aid, from speculative borrowers, and a fractional commission, in addition to the legal rate of interest, was exacted, for accommodation.

The U. S. Sub-Treasury office last week received $6,535,826 of currency, and $4,265,661 of gold, the latter including $3,053,000 from customs; and disbursed $5,604,495 of currency and $3,120,818 of gold, the latter embracing $218,406 of coin interest. The city banks reduced their loan and discount average nearly 8½ millions during the week, and again enlarged their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $17,884,477, and a coin reserve of $54,155,225.

The city banks, in their latest return, show a further reduction of $3,638,600 of legal tender notes, $387,700 of specie, and of $8,418,200 of deposits, also a contraction of $3,805,000 in their loan and discount averages, and an increase of $41,700 in their item of circulation. The city bank exchanges, last week, averaged 127½, and thus far, this week, about 136 millions daily. The banks now hold $332,475 of specie and legal tender notes less than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $12,399,500, against $9,572,100 same time last year. The city bank deposits are now $201,127,800 against $237,127,400, week ending Sept. 23, 1871. The legal tender reserve amounts to $44,467,000, against $58,428,300 same time last year. The circulation now stands at $27,668,100 against $30,201,200 same time last year. The loans are now $280,845,300 against $309,164,700 at this date last year.

The coin reserve of the city banks is now about 12¾ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 44½ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 201⅛ millions, against 247¼ millions on the 20th of July.

Government revenues have been yielding satisfactorily, since our last. The excises yielded within the week about two millions, and thus far in the current fiscal year beginning with July 1, 1872, $32,696,213. The customs at the port of New York last week were $2,950,737; and at the outports, equal to about a million, all in coin or coin certificates.

Gold has been more than usually variable, on a brisk speculative movement and moderate customs and export drain. The later dealings indicated less animation, and less buoyancy in the price.

The range of the price during the week has been from 113⅝@115⅝ and the closing quotation on Wednesday was 114 against 114 the preceding Wednesday. The specie outflow last week, was only $315,358. The Gold Exchange Bank clearances have averaged about 94½ millions per day during the week.

The customs demand for Gold last week, averaged $509,000 a day; thus far, this week, it

has averaged $496,935 a day, or equal to a weekly aggregate of $2,981,610. The arrivals of specie from Europe, Havana and other foreign ports last week were $22,561, and since Jan. 1, 1872 $2,938,499 against $7,688,254 same time in 1871 The total customs revenue of the Government, in coin, at this port, since January 1, has been $115,199 520 against $119,284,167 during the same time in 1871.

Government has disbursed through the U. S Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $58,927,938, against $65,184,021 during the same time in 1871.

The export drain of specie was $315,358 last week, against $400,599 same week preceding year. The shipments since January 1, 1872, have been $57,568,178 against $55,218,501 during the same portion of 1871.

Foreign Exchange has been depressed and irregular, through the week, closing, however, rather more steadily. Bankers' sixty day bills on London closed on Wednesday at 107¾@107⅞; sight bills on London, 108⅞@109⅛.

The week's exports hence of domestic produce have been to the currency value of $4,860,218.

Government securities have been in generally better request, chiefly on investment account, at the ruling figures, which showed more firmness for the later issues of the Five Twenties, especially the 1867 bonds.

On Wednesday, Government bought in a million of Five-Twenties at 111 95@112 10 out of an aggregate offering of $3,410,150.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 115⅜@115⅝. U. S. Five-Twenties of 1862, 114⅛@114¾; U. S. Five-Twenties of 1864 at 114⅛@114¾; U. S. Five-Twenties of 1865, 114¾@115¼; U. S. Five-Twenties of 1865 consolidated, 113⅜@113⅝; U. S. Five-Twenties of 1867, 113⅛@113⅜; U. S. Five-Twenties of 1868, 113⅛@113¾; U. S. Ten-forties at 107¾@108¼ U. S. Fives of 1881 (Funding Loan) 110¾@111¼; Six per cent. currency bonds, 111⅞@112¼.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Sept. 11.	Sept. 18.	Sept. 25.
Consols	92⅝	92¼	92⅜
U. S. 5-20s, 1865	93¼	93¼	93⅛
" 1867	92¼	91⅞	92
" 10-40s	87½	87¾	87⅝
New Fives of 1881...	89¼	89¼	89¼
Erie.	40	39	39¼

State bonds have been quite moderately inquired for and unsettled in values.

Railway and Miscellaneous share property has been decidedly active, chiefly in the speculative line, with wide and frequent fluctuations as to prices, under the manipulations of the conflicting speculative operators. Erie shares have been kept scarce for prompt deliveries, and prices for "Cash," stock have been maintained relatively much higher than those in the regular way. Panama shares have been rapidly advanced, since the announcement of the dividend, on free dealings. The general market closed less briskly.

Railway Mortgage Loans have been moderately inquired for at fairly steady figures. Central Pacific Sixes have been in demand, on investment account, closing firmly at 100¼@100½. The work of marketing the small remnant of the Chesapeake and Ohio Loan has been progressing satisfactorily, through private negotiations.

There has been much less animation in the Metal line. Ingot Copper has receded to 33½c.; sales, 200,000 lbs. Pig iron has been less active but steady; sales, 100 tons Eglinton, and 100 tons Glengarnock on private terms. American as before. Iron Rails have been in fair request, and 2,000 tons English have been sold on private terms; market firm. Lead, Spelter and Zinc very quiet at former nominal figures. Pig Tin dull at 33½c., gold, for Straits; 100 Slabs sold. Tin Plates inactive and weaker; 250 boxes Charcoal sold at $13, gold.

General business has been active, in most kinds of produce. Flour, Wheat, Oats, Hops, Cotton, Pork, Lard and Bacon closed cheaper. Corn, Rye, Butter, Eggs, Petroleum, Naval Stores, Fish, Hemp, Hides, and Spices more firmly. Middling upland cotton closed heavily on Wednesday at 18¾ cts. per lb. The receipts at all the ports, since Sept. 1, have been 128,927 bales, against 63,520 bales same time in the preceding year; exports 7,792 bales against 24,513 bales in the previous year; stock at the ports at latest dates, 69,832 bales against 87,943 bales same date 1871.

At the Live Stock Markets, Beeves have been in liberal supply and less demand at 9½@14½ cts.; Veals at 7@10 cts.; Sheep at 5@7¼ cts.; Lambs, 6@9 cts.; Swine, at 5¼@5½ cts. per lb., all live weight. The week's receipts were 11,255 Beeves, 3,091 Veal Calves, 38,486 Sheep and Lambs, and 43,184 Swine.

Foreign goods have been in active request at generally firm prices. The week's imports of foreign goods reached the amount of $9,071,599 including $3,250,871 of dry goods.

Ocean freights have been fairly active, particularly for Grain, Cotton and Petroleum, rates steadily favoring shipowners.

At the auction sale of Scranton Coal on Wednesday, 75,000 tons were disposed of at a sharp advance, the range having been from 3.65@4.35, as against 3.15@3.80 in August.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The San Antonio (Texas) *Herald*, says the Missouri, Kansas and Texas Railroad bridge across Red river is being pushed forward, the right of way cleared to the river, and pile-drivers and stone-masons at work on the bridge. The cars are running, carrying freight and passengers, to Middle Boggy, some fifty miles from Red river. The company expect to be running cars to Red river by the middle of October.

☞ The Zanesville (Ohio) *Courier* says that the contract for the construction of the city's portion of the Zanesville, Cumberland and Caldwell Railroad, based upon the bids received by the city, is being prepared by Judge Granger. The road is to commence at the depot of the Baltimore and Ohio Railroad, and follow the line of that road to the Blast Furnace, and then pass up Mill run, eastward.

☞ Turkey in Europe has now 242 miles of line in operation, and 64 miles more will be shortly opened. Further sections to the aggregate extent of 477 miles more are in course of construction.

BANKING AND FINANCIAL.

BANKING HOUSE OF FISK & HATCH,
No. 5 NASSAU ST.
NEW YORK, Sept. 18, 1872.

DEPOSITS received, on which we allow interest at the rate of four per cent. per annum. Special arrangements made with Savings Banks and others depositing large amounts.

We issue CERTIFICATES OF DEPOSIT available in all parts of the country, and bearing interest in case of special deposit.

We make COLLECTIONS for merchants and others in all parts of the country.

Orders for INVESTMENT STOCKS and BONDS executed at the Stock Exchange, on commission, for cash.

We deal in GOVERNMENT and other FIRST CLASS SECURITIES, such as CENTRAL PACIFIC and CHESAPEAKE and OHIO Bonds.

The Chesapeake and Ohio Loan having been withdrawn from the market by the Company, the small amount remaining on hand will be disposed of at private sale, giving investors an opportunity to purchase this favorite security upon terms which should insure an advance upon the completion of the road and their introduction at the Stock Exchange.

FISK & HATCH.

Locomotive Pressures.

The great efficiency and economy of high pressures in locomotives seems likely to finally compel the adoption of what may be called "American" pressure on European Railroads. A recent laudatory account of the great tractive power of a Fairlee engine on a Belgian road says incidentally that the steam was maintained at 130 pounds. It seems only a few years since an American locomotive constructed on the order of August Belmont, Esq., for shipment to Europe had to be laid aside and another constructed to fulfill the requirement that it should work with a steam pressure not exceeding sixty pounds.

☞ The Boston *Journal* says the Old Colony and Newport Railroad is one of the best managed roads running out of Boston. It has, with its branches, about 250 miles of track, more than any road in the State, and has commenced the extension of the Granite Branch from West Quincy to Braintree, thus giving a third track from Atlantic to Braintree. Messrs. John B. Dacey & Co., the enterprising railroad builders, have the contract.

☞ The Millersburg (Ohio) *Farmer* says that the engineers on the line of the Zanesville extension of the Cleveland, Mt. Vernon and Delaware railroad have arrived at Dresden. They report an excellent route, with easy grades. One high hill is to go through with a cut or a tunnel of about eight hundred feet, and this is about all the heavy work on the line. This line runs by way of Warsaw.

☞ The Detroit *Tribune* says the Toledo, Ann Arbor and Northern Railroad will have trains running from Toledo to Ann Arbor this season, and the line will be extended to Owosso next year. The $25,000 required of Isabella county to the Owosso and Northwestern Railroad is already guaranteed and the line will soon be graded to Mount Pleasant. It is thought that it will be in operation as far as Alma this year.

ELEVEN PER CENT
INVESTMENT.
FIRST-CLASS SECURITY.
State Loan of Arkansas,
7 per cent Thirty-Year Bonds.
A LIMITED NUMBER OFFERED
AT 70 CENTS
AND ACCRUED INTEREST.

In these Bonds "the faith and credit of the State are solemnly and irrevocably pledged for the payment and redemption of the principal and interest on each and every bond.

THE
Arkansas Central Railway,
BY
Special Mortgage Indorsement,

pledge their splendid endowment of Lands, Railroad Rolling Stock, Station Houses and all other property for the faithful payment of interest and principal, making this a
Double and Undoubted Security.

Interest payable April and October, at the Union Trust Company New York.

Maps, circulars, pamphlets, giving full particulars of the loan, to be had by addressing the undersigned, who unhesitatingly recommend these Bonds.

A Good Appointment.

We observe that WM. K. LOTHROP, the energetic and competent Secretary of the Washington Fire Insurance Company, has just been made Receiver of the former Washington Insurance Company, in place of the late and much-lamented GEO. C. SATTERLEE—an appointment which must give very general satisfaction. The marked success which has greeted the Washington Fire, is the best evidence of its popularity with the business public.

☞ Mr. Albert Mapes has been appointed division superintendent of the Missouri Pacific Railroad vice Mr. M. C. Whitbeck resigned.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY AS CARRIERS, AND AS WAREHOUSEMEN FOR BAGGAGE—INTEREST ON DAMAGES RECOVERED.

The facts in the late case of Mote, *vs.* the Chicago and Northwestern Railroad Company, (27 Iowa, 22,) are fully and clearly stated in the following opinion by—

BECK, J.—I. The plaintiff was a passenger upon the train of defendant, going from Marshall to Le Grand, a small village and unimportant station upon defendant's railway. He had with him a trunk containing wearing apparel, which was "checked," as was the custom upon the railway, to be delivered at Le Grand, the place of destination. Before the train reached the station House at Le Grand, plaintiff left the car, being enabled so to do on account of the slow rate at which the train was running, and his trunk was taken to the station house and left by the baggage master of the train upon the platform, where it remained several hours; not being called for, it was removed by the agent of defendant in charge of the station house into a room, the only place for storing such baggage connected with the station.

It appears that this building was temporary in its construction, and was not, in fact, a secure place for keeping such property. The door was left unlocked, or was secured in such a manner that it was no hinderance to any one wishing to enter the building. It could be readily opened by any one. At night the building was left without a guard or watch, and no one occupied it. During the night time the trunk of the plaintiff was broken open, and wearing apparel to the value of seventy-one dollars and fifteen cents was stolen therefrom. The plaintiff did not call for his trunk until the second morning after it had been left at the station.

The counsel of defendant insists that under this state of facts no liability arises against defendant, on account of the loss sustained by plaintiff. It is claimed that it was the duty of plaintiff to call for and receive his trunk at the station within a reasonable time after the arrival of the train; and that his leaving the train before its arrival at the station, and failing to call for his trunk for so long a time, amount to negligence, which defeats his right to recover; that defendant, if liable at all, is liable only in the character of the warehouseman; and as the loss was the result of theft and burglary, defendant cannot be held to respond therefor. Instructions to the jury, embodying these views, were asked for by defendant, and refused by the Court. The Court instructed the jury as follows:

"5. If the jury find from the evidence in the case, that defendant safely transported plaintiff's baggage from Marshalltown to Le Grand, and safely deposited said baggage at their depot, and held the same ready for delivery from 3 o'clock P. M., to 6 o'clock, P. M., of that day, and that plaintiff did not call for it within that time, defendant is discharged as a common carrier and can only be held liable as an ordinary bailee, if at all."

"6. If the plaintiff did not call for and remove his trunk within a reasonable time after its arrival at Le Grand, it was the duty of the defendant to take possession of the said trunk and hold the same as an ordinary bailee, according to the usual custom, and was required to exercise reasonable care and prudence to safely protect and keep said trunk until called for."

"7. If the jury find, from the evidence, that defendant did not exercise ordinary care and prudence, and that by reason of the negligence of defendant to put said trunk in the ordinary safe place, it was broken opened and rifled of its contents, defendant would be liable to plaintiff for the fair cash value of the property lost."

These instructions, and the refusal to give those asked for by the defendant, are the grounds of the errors assigned so far as they relate to this branch of the case. Other instructions upon the same points of law affecting the defendant's liability were given, but are not objected to.

II. The question here presented is, as to the nature and extent of the liability of railway corporations for the baggage of a traveller, at and after the completion of the journey upon which it contracts to transport him. The liability of such a carrier terminates as such upon the expiration of such a reasonable time after arriving at a place of destination as will enable the traveler to receive and take charge of his baggage.

In determining what will be a reasonable time, the customs of the railway and of the station, the manner of transporting baggage therefrom, in short, the peculiar circumstances surrounding each case, must be considered, and the jury were so instructed in a separate instruction.

III. But the care and liability of the company did not terminate upon arrival at the place of destination, and holding there, for a reasonable time, the baggage of the traveler for delivery. If the baggage is not call for, the carrier cannot abandon it. It must be stored and kept with proper care until claimed. This rule is not only the result of sound reason, but is required by the customs and habits of public carriers, and of travelers who are transported by them. It is not always practicable or convenient for the traveler to call within the required time for his baggage, and frequently he may, for convenience, permit his baggage to be carried in advance to the place of destination. This may result from his stopping over on the way, a practice that is permitted by the customs of railways. The system of "checking" baggage, by which it is taken from under the personal control and oversight of the traveler, and held until the return of the "check," secure the carrier from loss by delivering it to an improper person, and renders its identification certain. This system renders the transfer of baggage from one carrier to another obligatory, and makes necessary proper and secure places for storing and keeping it until transfered. Such places for storage the law requires these carriers to provide.

When baggage is unclaimed within the proper time, it is the duty of the carrier to store it in such proper and secure place until called for or otherwise disposed of, as required by law. When the baggage is thus stored, the carrier becomes liable therefor as a warehouseman, mere bailee in deposit, and his liability as a carrier ceases.

The obligation of a warehouseman is to take common and responsible care of the property intrusted to his charge, and exercise toward it such diligence as men usually exert in respect of their own concerns. Story on Bailments, §§ 444, 11. He is not liable for theft unless it is the result of want of proper care.

IV. The act of plaintiff in permitting his trunk to remain in charge of defendant's agents so long without calling for it, was not such negligence on his part as will relieve defendant of responsibility for its loss. He did properly rely upon the obligation of defendant to take ordinary care of it until called for, and if the care and diligence required by law was not extended toward it, defendant is liable therefor. In the light of these doctrines the jury were correctly instructed, and the court properly refused the instructions asked by the defendant.

V. The court directed the jury that, in case they found for plaintiff, he was entitled to recover the value of the property, and interest thereon, from the day of loss, at the rate of six per centum per annum. There was no dispute nor conflict of the evidence as to the value of the property, which was $71 15. The verdict is for $84 12. The jury, therefore, in obedience to the instructions, allowed interest upon the same, which was found to be the true value of the property.

It was formerly a general rule, that interest could not be recovered on unliquidated damage; but this rule has been much modified by modern decisions. And it appears to us that under the rule as now understood, and the provisions of the statutes, interest is recoverable in the case, at the rate fixed by the instructions.

The amount of the value of the property lost by plaintiff became due from defendant upon the day of the loss, and was from that moment an indebtedness. It was an indebtedness, too, originating upon a contract, the contract between the bailor and the bailee, and the action was brought thereon. We are of the opinion, therefore, that interest is recoverable thereon, and that the instruction upon the subject is correct.

Judgment affirmed.

Baltimore and Ohio Railroad Extension.

The Baltimore and Ohio Railroad Company is about to commence the construction of the Baltimore, Pittsburg and Chicago Railway, which is to be an extension of the Pittsburg, Baltimore and Washington Railroad (better known as the Connellsville.) The surveys and locations of the western portion of this line having been completed, some one hundred miles, extending from Havana, on the Lake Erie or Sandusky division, to Defiance, O., is to be placed under contract at once, and the remainder to Chicago—some one hundred and sixty-three miles—in a few weeks, or as soon as the right of way is perfected in a few additional sections in Indiana. The work on this portion of the line being light, can be quickly finished, and in connection with the Lake Erie and Central Ohio divisions, will give a continuous rail from Baltimore to Chicago entirely under the control of the Baltimore and Ohio Railroad Company, in the shortest time possible. This will be by the use of the entire main stem of the Baltimore and Ohio, crossing the Ohio river at Benwood, but when the Hempfield extension of the Connellsville road is completed, starting from a point on the latter road, one hundred miles beyond Cumberland and terminating at Wheeling, the route will be materially shortened, and constitute a line placing Baltimore nearer to Chicago than by any other route. Meantime, the building of the portion of the new road from Havana to Defiance is one of the most important enterprises for Baltimore that has been entered upon in many years. At Defiance the line will connect with the Toledo, Wabash and Western Railroad, with varied extensions, draining upwards of 12,000 miles of fertile

territory. Havana is some twenty-five miles south of Sandusky, and Defiance about fifty miles south of Toledo, and the new line will thus draw traffic from the lake ports as well as the vast interior region with which it will be placed in connection.—*Baltimore Sun, Sept.* 19.

Fairlie's Narrow Gauge System.

The success in Russia of the narrow gauge system with the Fairlie engine appears to have been complete, and the subjoined acknowledgment has just been received by its inventor:—

"St. Petersburg, 1872.

"Dear Sir,— His Majesty the Emperor, my master, has authorized me to have a medal stamped in commemoration of the construction of the Imperial Livny Narrow Guage Railway, which medal is to be distributed to the persons who have taken an active part in the construction of the line.

"The success of the Livny railway is in a large measure owing to your system of engines, and to your careful inspection; therefore it is a great pleasure for me to forward to you herewith one of the medals which you have so well deserved.

"I remain, dear Sir, sincerely yours,
"Count ALS. ROBRKINSKOY.

"Mr. Robert Fairlie."

☞ The entire earnings of the Baltimore and Ohio Railroad, main stem and branches, in August last amount to $1,253,976 25 against $1,147,241 99 in the corresponding month last year. The earnings of the Washington Branch, both in freight and passengers, show an increase, notwithstanding the opening of the rival road, the Baltimore and Potomac, of some $2,500. These aggregate earnings for August are equal to any ever heretofore earned by the road.

☞ The North and South Alabama Railroad, recently completed, forms a direct communication by rail via the Louisville and Nashville Railroad between Louisville, Ky., and Montgomery, Ala., a distance of about 500 miles. This is expected to become soon a thoroughfare of great importance between the northern and southern portions of the country east of the Mississippi. A grand excursion is soon to be made from Louisville to Montgomery and back in honor of this enterprise.

LOCOMOTIVES FOR SALE.

SEVERAL SECOND HAND LOCOMOTIVES for sale by the Philadelphia and Reading Railroad Co. Weights ranging from twelve to twenty-nine tons. Further information can be obtained upon application to

W. S. WILSON, Purchasing Agent,
227 South Fourth Street.
Philadelphia, Pa.

FOR SALE.

Four new passenger Coaches for sale; two 60 passenger each, price $5,250; two 76 passenger, price $7,000 each, now ready for lettering. Also a 30 ton new Locomotive ready for use.

Apply to

A. W. LADD,
35tf 5 and 7 DEY STREET, NEW YORK.

DREDGING MACHINES AND SCOWS
FOR SALE.

One (Osgood Pattern) Second Hand. Price $10,000.
One, Almost New. Price $22 000.
Two Large Dumping Scows, $3,500 Each.
Apply to

A. W. LADD,
5 and 7 Dey Street.

Board of Engineers of the Fourth Avenue Improvement.

Office, Grand Central Depot.
NEW YORK, September 5th, 1872.

Notice to Contractors.

SEALED PROPOSALS will be received by the undersigned at this Office until Two O'Clock of the thirtieth day of September 1872, for all the work on the Fourth Avenue Improvement between 79th Street and Harlem River, embracing a large amount of heavy work, Excavation, Tunnels, Walls, Bridges, &c.

Plans, Specifications and Blank Proposals will be in readiness at this Office on the eleventh day of September, on and after which time the Engineers will be present to make explanations.

ALLAN CAMPBELL,
ALFRED W. CRAVEN,
EDW. H. TRACY,
J. C. BUCKHOUT,
} Board of Engineers 4th Avenue Improvement.

To Railroad Contractors.

PROPOSALS will be received until 1st October, at the Engineer's Office, Tiffin, Ohio, or Camden Station, Baltimore, for the Graduation and Masonry of the Ohio Division of the Baltimore, Pittsburg and Chicago Railroad, from the Lake Erie Division of the Baltimore and Ohio Railroad, near Havana, to the crossing of the Toledo, Wabash and Western Railroad, in Defiance, Ohio.

Profiles and speculations can be seen at the Engineer's Office, in Tiffin, Ohio.

Payments monthly, in cash, deducting one-eighth as security for completion.

The, company reserves the right to reject any or all bids.

JAMES L. RANDOLPH,
Chief Engineer,
Baltimore and Ohio Railroad Company.

Notice to Contractors.

OFFICE KENTUCKY AND TENNESSEE R. R.
MOBILE, ALA., August 13, 1872.

THE KENTUCKY AND TENNESSEE RAILroad Company desire to contract for the construction of their Road from Columbus, Ky., to Fillmore City on the Ohio River, opposite to the City of Cairo, Illinois, a distance of about twenty-one miles.

The road runs up the Valley of the Mississippi River, and, for the greater part of its length, will require heavy embankments, trestle work, and pile bridging.

Maps, profiles, specifications, and any other information, may be obtained at this office after the first of September next.

The work is required to be completed within six months after the ratification of the contract, and is worthy of the attention of large contractors.

L. J. FLEMING,
6t34 Chief Eng. Ken. and Tenn. R.R.

RAILS MADE BY THE

W. BAILEY LANG & CO.,
54 CLIFF STREET, NEW YORK,
No. 9 LIBERTY SQUARE, BOSTON.

PROPOSALS
FOR THE CONSTRUCTION
OF THE
TEXAS AND PACIFIC RAILWAY.

Proposals will be received up to the 1st of October, 1872, at the office of the Texas and Pacific Railway company at Marshall, Texas, for the grading, bridging, tieing and tracklaying of about five hundred (500) miles of the Texas and Pacific railway, divided into the following divisions:

The southern division, extending from Longview through Dallas to Fort Worth—155 miles.

The Jefferson division, extending from Marshall through Jefferson to Texarkana—65 miles.

The east half of the trans-continental division, extending from Texarkana to the crossing of the Houston and Texas Central railroad, near Sherman—156 miles.

The west half of the trans-continental division, extending from the crossing of the Houston and Texas Central railroad to Fort Worth—68 miles.

The grading and bridging will be let in one mile sections; the tracklaying by the mile; the ties by one thousand and upwards.

Each class of work to be bid for separately.

The time for completing the grading, bridging and tieing extends from sixty days to nine months.

The company reserves the right to reject any or all bids, and in letting the work will be the judge of the responsibility of parties bidding, and will give preference to contractors having outfits on the ground ready to commence work within ten days after the date of contract.

Profiles, estimates and specifications can be seen at the office of the company, in Marshall and Jefferson, Texas, and at the Pacific National bank, Council Bluffs, Iowa.

Contractors, upon arriving on the ground, can obtain work up to the date of general letting, on the fifty miles west of Longview.

Address, until September 20th, Council Bluffs, Iowa—after that date, Marshall, Texas.

G. M. DODGE,
Chief Engineer.

HEYERDAHL, SCHONBERG & CO.
31 Pine Street,

CAMP'S IMPROVED DUMPING CAR.

(Used by the American Dredging Company.)

RIGHTS FOR SALE BY

N. H. CAMP,

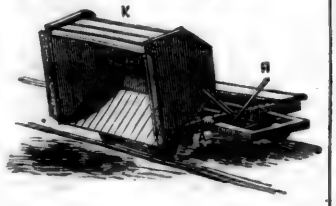

Fig. No. 1, Car Loaded. **TO DUMP THE CAR.** Fig. No. 2, Car Dumped.

The Brakeman seizes the lever H, and raises it, thus removing the step from under the box-support A, when the weight of the load causes the box to roll over to the position shown in Fig. 2.

To replace the box in readiness for another load.

The Brakeman, standing on the platform, reaches over, and grasping the corner of the box, pulls it back to its place.

Address, N. H. CAMP,
Care N. C. MILLER, 61 Broadway, New York City:
or HAWKINS, WILLARD & CO., 28 Market St., Chicago.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

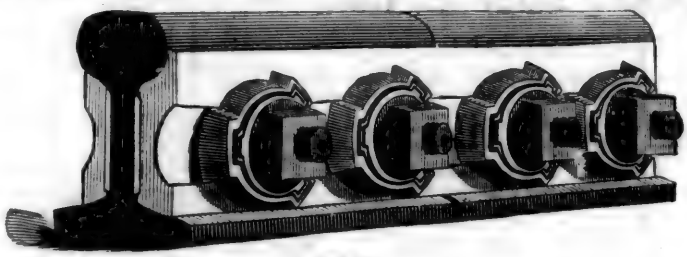
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, October 5, 1872.

Portland and Ogdensburg Railroad.

Fine progress is making in the construction of this road, the line of which extends from Swanton, near the foot of Lake Champlain, to Portland in Maine. All the heavy work on the Vermont Division has been done. The remaining work, the road bed in the three river valleys which the line follows, is very light. The road is in operation from St. Johnsbury to Hardwick on the west, 46 miles, and eastward to West Concord, some eight miles. From West Concord to the Connecticut, the distance is small and the work light, and some 57 miles, with grading, &c., mostly finished, remain to complete the line to Lake Champlain. On the Portland Division of this road, which extends from the Connecticut river to Portland, work is now in progress above North Conway in the Valley of the Saco, six passengers trains having been running the past season between that point and Portland.

☞ The Pennsylvania Railroad Company will shortly begin building the Litchfield and Western railroad through Carlinville and Carrollton to Louisiana, Mo., as a branch of the Indianapolis and St. Louis railroad.

BANKING HOUSE OF

JAY COOKE & CO.,

No. 20 Wall St., New York.

We continue to sell at par, adding accrued interest, the First Mortgage Gold Bonds of the Northern Pacific Railroad Company. On the completion of this season's contracts there will be FIVE HUNDRED AND SEVENTEEN miles of the main line of the road in operation, uniting Lake Superior with the Missouri River, and securing the large traffic of the Northwest. This amount of road also entitles the Company to ten million four hundred thousand acres of land located in Central Minnesota, Eastern Dakota, and in the Columbia Valley, on the Pacific coast. The bonds are secured by a first mortgage on the road, its traffic and franchise, and on the entire land grant received from the government. The rate of interest is Seven and Three-tenths, Gold, equivalent to about Eight and a Quarter per cent in Currency. Believing the security to be ample and the rate of interest satisfactory, we recommend these bonds as a desirable investment. Holders of United States 5-20's and high-priced corporate securities may materially increase both their principal and their interest income by exchanging for Northern Pacifics.

JAY COOKE & CO.

New York, Philadelphia and Washington

☞ The Philadelphia *Ledger* of 30th inst., reports the net anthracite coal tonnage for the week ending on the 21st inst., from all sources, at 428,300 tons, and for the year 14,133,173 tons, against 10,120,784 tons to the same date last year, being an increase in the tonnage of anthracite coal of 4,012,389 tons. The production of bituminous coal for the week was 50,021 tons, and for the year 1,882,497 tons, against 1,592,850 tons to the corresponding time last year—an increase of 229,647 tons. The total production of all kinds of coal for the week was 488,320 tons, and for the year 15,955,670 tons, against 11,718,634 tons to corresponding time last year, showing an increase of 4,242,036 tons.

New Orleans, Little Rock and St. Louis Railroad.

The directory of the New Orleans, Little Rock and St. Louis Railroad met in this city yesterday. Gen. Dockery, the president of the road, made a report as to the amount of assets raised so far, after which a resolution was passed levying an assessment upon the steockholders, and directing the president to proceed at once with a preliminary survey of the road from this city to Camden, Shreveport and Alexandria.

Every county from Pulaski to the Louisiana line with one exception (and that will do so when the election comes off) has voted aid to this enterprise, while the land subscriptions are very large.

If the people desire this road built speedily they have only to do their duty by donating their surplus lands to the enterprise, which are now worthless. The company is in earnest, and intends that the road shall be built as early as possible. They only ask the hearty co-operation of the people to accomplish it. In less than twenty days a corps of engineers will be in the field, and other steps taken to forward the good work.

As soon as Gen. Dockery, the president of the road, can organize and place his engineer corps in the field, he will proceed to Shreveport and Alexandria in the interest of the enterprise.

We have been shown a letter of a recent date from Judge Boyce, president of that portion of the line between Alexandria and the Arkansas line, written to Gen. Dockery, in which he speaks very hopefully of the enterprise in Louisiania. He regards this road of more importance to Arkansas than any other, giving us as it does direct communication with New Orleans and the gulf at Bashear City, as well as direct connection with Galveston through Shreveport.

As soon as the survey is completed the first section of the road between this city and Camden will be placed under construction. From what we know of the energy of those who have this enterprise in charge, we are very sanguine of its early completion.—*Little Rock Gazette, Sept. 24.*

☞ The State board of assessment of New York has just finished its labors, and has reported the aggregate equalized valuation of the taxable property in the State at $2,088,627,445; or, real estate, $1,641,379,410, and personal estate, $447,248,035. In New York city and county the aggregate equalized valuation of taxable property amounts to $1,041,253,633, or very nearly one-half of that of the entire State. In New York the real estate is valued at $734,306,410, and the personal estate valued at $306,947,223.

Chicago, Burlington and Quincy Railroad.

	2,352 607 15	
Leaving balance to credit of income account, April 30, 1872		$2,092,735 01

It will be seen that the gross earnings of the company for the year ending April 30, 1872, including interest and exchange, were $7,569,009 58; and that the operating expenses, including taxes were $4,949,832 75, leaving net earnings $2,619,176 83; from which deduct amount of interest paid on bonds, $324,351 52, leaving a balance of $2,294,825 31; out of which have been paid: dividends, $1,782,944 87; rent of track, $12,187 49; transfer office expenses, $1,000—leaving of net earnings for the year to the credit of income account $498,692 95. To which add surplus at the commencement of the year, $1,594,042 06—making the surplus to credit of this account $2,092,735 01. The amount to the credit of sinking fund, taken from earnings of previous years, is $1,179,744 88, which added to income credits, makes the amount of surplus $3,272,479 89. The gross earnings have been in excess of those of last year $361,324 38, but the net earnings are less than they were last year by $152,833 49. The president in his report says:

The Illinois Grand Trunk Branch, from Mendota to Prophetstown, forty-five miles, and that portion of the Fox River Valley Branch between Aurora and Geneva, ten miles, were opened for business in May, 1871, making the whole number of miles operated during the year, 761—an increase over last year of fifty-five miles.

The number and mileage of passengers carried do not differ materially from those of last year. The earnings are substantially the same, being only about one fourth of one per cent. less.

The amount of freight transported is largely in excess of that of last year, the tonnage having increased in amount something over twenty-two per cent., or more than one-fifth.

The operating expenses, compared with those of last year, are as 62.32 to 58.31 exclusive of taxes, and, with taxes included, are as 65.39 to 61.85 per cent.—an increase over last year of about four per cent. of the gross earnings.

From this statement it will be seen that, while there has been an increase in the percentage of operating expenses as compared with the amount of gross earnings, when considered with reference to the length of road operated and the amount of freight transported, they have been somewhat less than those of the previous year. The magnitude of the business has been much greater, but the rates upon which it has been done have been less.

This reduction of rates is attributable, to some extent, to the fact that the business has been done under an increased competition, which, for some years, has been growing more intense, and making it more difficult to maintain rates.

But it has been mainly produced by a combination of causes, rather than by any one single circumstance.

The destruction of Chicago by fire, on the 9th of October, occasioned an almost complete interruption to the freight business, especially that which was local to the road. The merchandise, lumber and other freight out of and the production of the country into Chicago were reduced almost to a nominal amount.

When this freight traffic began to revive, its character was largely changed from a local, upon which reasonable rates would have been had, to a through business from the Atlantic cities, received by Eastern Roads, under strong competition and at low rates, thereby reducing the share of this company to an amount much less than it would have been, had the traffic originated in Chicago, and, in many cases, leaving no profit above the cost of transportatien.

The same cause, together with the lack of transportation eastward from Chicago, during the winter, because of the inability of Eastern lines to receive the traffic which your road would otherwise have brought in and delivered to them, continued to operate until the close of the year, and had the effect to depress the local freight traffic of the road.

Had it not been for these causes, there would have been a marked increase in the local traffic, and one which would have compared favorably with the increase of through business, and the general increase, instead of being twenty-two per cent., would have been greatly more, the rates of the previous year substantially maintained, the gross earnings, it is believed, larger by one-fifth, the cost of operating reduced, and the net earnings correspondingly increased.

Since the opening of navigation (which, however, was not till after the close of the fiscal year), the causes mentioned have ceased to operate so effectively, and the local traffic has revived; and last year's rates are being more nearly realized.

The capital stock of the company has been increased during the year, by sale to the stockholders, at par, of twenty thousand five hundred and ninety-four shares; and the net earnings of the road for the year, above operating expenses, taxes and interest on the bonds of the company, have been equal to $12 23 per share of the capital stock thus increased.

The length of the road operated during the year has been 759¼ miles, and the gross earnings on the 400 miles of Main Line have been $17,231 59 per mile, and upon the whole line, including the branches, the earnings have been at the rate of $9,969 00 per mile of road operated.

From the close of navigation, late in November, to the end of the fiscal year, the lack of storage in Chicago, and the incapacity of Eastern roads to receive the freight from your road, operated unfavorably, not only to the business local to the road, but to a large extent, made it impossible for it to receive freight from its connections west, at the Mississippi.

The amount of traffic received from these connections, and transported over your road, shows the magnitude of this business and the value of these connections. Attention is called to two of them.

The earnings on your road, on the traffic to and from the Hannibal and St. Joseph Railroad, have been:

Freight	$691,299 02
Passengers	274,044 75
	$965,343 77

The earnings on the traffic to and from the Burlington and Missouri River Road, have been:

Freight	$769,742 32
Passenger	220,849 20
	$990,591 52

Showing that, on the business to and from the former, there has been a decrease in earnings of $342,178 62, and to and from the latter an increase of $140,760 74, from those of last year.

The magnitude of the business to and from the several branches has been very considerable during the year, the revenues derived therefrom increased, and the value of these branches to the Main Line made more apparent.

The following statement will show the earnings local to each of those branches, the earnings on the Main Line upon the business to and from them, respectively, and the total earnings which your company derives from such business:

	Local and proportion of Joint Earnings on Branches.	C. B. & Q. proportion of Joint Branch Earnings.
O., O. & F. R. V. pass.	$56,486 72	$22,416 25

	$47,736 22	$18,228 78
Total		$65,965 00
P. & H. R. R. pass	$13,584 10	$9 699 72
" " freight	17,668 81	71,783 52
	$31,252 91	$81,483 24
Total		$112,736 16
Total gross earnings		$1,718,633 85

From this statement, it will appear that, of the entire gross earnings, 22.77 per cent., or more than one fifth part thereof, have been derived from the business on and to and from these branches, and of the earnings by the Main Line, $1,061,691 64, or about one-seventh of the whole, were received from the business of the branch roads transported over the Main Line.

The total bonded indebtedness of the branch roads is $6,758,000, and the annual interest thereon amounts to $540,640. The net earnings from the business of these branches, estimating the cost of operating them at 60 per cent., which is, perhaps, as large as the facts will warrant, amount to $689,453 34, being, in excess of the amount required to pay the interest on the bonds of the branch roads, $148,813 34.

In the division of earnings on the joint business with Western connecting roads, under contracts for several years in force, allowances are made in favor of these roads, because of the greater expense to them in gathering up and delivering the business to your road, ranging from 20 to 40 per cent., and averaging 30.

If the same rule were applied to the branches, the aggregate earnings of the branch roads during the year would have amounted to $1,136,690 03; and, after deducting operating expenses, there would have remained a balance of $434,676 01, or wanting less than one-fifth of an amount sufficient to pay the annual interest on the bonded indebtedness of those roads.

When it is remembered that most of these branches have been opened for business but a comparatively short time—two of the most valuable within the year—and that upon none of them has the business reached its maximum, and, on most of them, is but partially developed, it will be easy to conclude that, within a short period, they will not only take care of themselves, meeting their annually accruing interest, but will add largely to the net revenues of the company.

And when it is further understood that these branches were not projected by this company, but were only taken in hand after they had been originated and were sure to be completed and operated by other parties; in which case a large amount of the business which they gather up would have been carried to other lines; and that, under the strong competition they would have created, rates would have been reduced in the territory along and tributary to the Main Line at almost every point, there can be no doubt about the wisdom of the course pursued in gathering them up and attaching them to your road.

Of the new construction during the year, your directors would call attention to the second track, now nearly completed, from Riverside to Aurora—twenty six miles. The flood of business on this portion of road rendered the construction of this track indispensable.

It is laid with steel rail. Iron bridges are used, and the track fully ballasted, so as to make it at once, in all respects, equal to the old track, as near as may be, and put in a condition to bear the heavy traffic to pass over it.

This completes the double track from Chicago to Aurora, and, with the 25.32 miles between Aurora and Mendota, make, in all, of second track, 61.36 miles.

There have been eight miles of side track constructed during the year, making whole length of side tracks 160.11 miles.

The ten miles of the Fox River Valley Branch, between Aurora and Geneva have been opened for business since the last report. This completes this branch, extending from Geneva to Streator, its southern terminus, and 100 miles from Chicago.

The extensive coal mines at Streator, now being rapidly developed, already furnish a very considerable amount of freight over this branch and on to the Main Line, to be largely increased during the ensuing year.

The Chicago, Pekin and Southwestern Railroad, extending from Streator to Pekin—sixty miles—is in process of construction, and to be completed early in the fall.

At Pekin, connection is made with the Peoria, Pekin and Jacksonville Road, and with your road to Streator and other connecting roads, south of Jacksonville, a route is to be opened to St. Louis, passing through a thickly-populated and wealthy portion of the State, and making the distance nearly as short as by other routes.

The Fairbury, Pontiac and Northwestern Road, also commencing at Streator and running southwardly through Pontiac to Fairbury, and thence, with its connections, to Paducah, on the Ohio River, where a bridge is to be constructed and this road brought into connection with the Southern system of railroads, will be completed during the present year, and it is expected that this company will have the business to and from these roads.

From these two long routes, traversing the State for so great a distance, and with such connections, a very considerable amount of freight and passenger traffic will be gathered up to pass over your road between Streator and Chicago.

The Illinois Grand Trunk Branch has been extended from Prophetstown to the Mississippi River, opposite Clinton—eighteen miles.

At Clinton, this Branch comes into connection with the Chicago, Clinton and Dubuque Road, extending from Clinton to Dubuque—sixty miles—which, over the Chicago, Dubuque and Minnesota Road—117 miles in length—is brought into connection with the system of Roads in Minnesota.

It is expected that the Chicago, Clinton and Dubuque, and also the Chicago, Dubuque and Minnesota Roads will be completed and opened for business during the summer.

A road has been projected, and is now in process of construction, and has been partially graded, called the Iowa Southwestern Railroad, extending from Clinton to Oskaloosa, on the Des Moines River, about 150 miles. This Company has neither assumed nor incurred liability in the construction of these Roads west of the Mississippi, but arrangements have been concluded with the two roads terminating at Clinton, by which, it is expected, the entire business to and from them will pass over your Road from Clinton to Chicago—146 miles—making this Illinois Grand Trunk Branch, in some sense, a Trunk Line.

It was expected that this Company would obtain the right, from the Chicago and Northwestern Railway Company, to use their bridge at Clinton for the passage of its trains and the transaction of its business; but that Company being disinclined to grant permission to this effect, it is probable that another bridge will need to be constructed across the Mississippi River at that point. For this purpose, a Bridge Company has been organized, stock subscribed, and the necessary State and Federal legislation obtained, so that a bridge may be completed for the accommodation of this business at the earliest possible day.

The Chicago and Iowa Railroad has been completed and opened for business during the year, extending from Aurora to Foreston—eighty-three miles—where it forms a junction with the Main Line of the Illinois Central Railroad.

This Company has made a traffic arrangement with the Chicago and Iowa Railroad Company, by virtue of which this Company is to set aside 40 per cent. of the gross earnings on its Road accruing from the business to and from that Road for the annual purchase of the Bonds of that Company at the lowest price at which they may be had, but not above par and accrued interest; in consideration of which, that Company is to send all its business over your Road between Aurora and Chicago. In order that the rights of this Company under that contract may be made as secure and permanent as possible, there has been assigned and delivered to James F. Joy, in trust for this Company, one-half of the Capital Stock of the Chicago and Iowa Railroad Company.

Contracts between this Company, the Chicago and Iowa, the Illinois Central, and the Chicago, Dubuque and Minnesota Railroad Companies, have been concluded during the year, by which a line has been formed from Chicago to Dubuque, over which the business of the Chicago, Dubuque and Minnesota, the Illinois Central north of Foreston, including that of the Dubuque and Sioux City Road, is to pass over the Chicago and Iowa and your Road, between Foreston and Chicago.

The contract heretofore subsisting between this Company and the Illinois Central Railroad Company, under which the business of the Illinois Central has been done over your Road, between Mendota and Chicago, for several years, has been modified into the arrangement above mentioned. Under this arrangement, the transportation for that Company, between Foreston and Chicago, and between Mendota and Chicago, will be conducted substantially as heretofore.

This Company has acquired the Chicago and Rock River Railroad, by a purchase of all outstanding bonds of that Company, amounting to $900,000, and its other property, together with the greater portion of its Capital Stock.

The route of this Road extends from Rock Falls, on Rock River, opposite Sterling, crossing the Illinois Central Railroad at Amboy, and running nearly parallel with and in the vicinity of your Road into Chicago. Since its acquisition by this Company, it has been terminated at Shabbonnas Grove, a point on the Chicago and Iowa Road, a distance from its western terminus, at Rock Falls, of forty-five miles; and it will be completed and opened for business before the end of July.

The cost of this Road to this Company, with all necessary station houses, side tracks, water stations, completely fenced and ready for use, including $3,000 per mile of equipment and the Bonds and Stock above mentioned, has been $720,000.

The acquisition and possession of this Road, constructed within your territory, instead of dividing the business and destroying rates, as would be done if in other hands and operated in hostile interests, will now contribute to the revenues of this Company.

The growth of the equipment made additional accommodations necessary at Aurora. Accordingly, twenty-five new stalls have been added to the round-house, and a new foundry erected, during the year. These structures are of brick, stone and iron, as nearly fire-proof as possible, thoroughly well built, with all necessary appointments, and sufficient for the requirements of the Company for some time to come.

A new passenger house at Riverside, to accommodate the business rapidly developing in that suburban town, and a grain house, made necessary by the increase of business at Peoria, have also been erected during the year. The latter, however, was constructed under a local charter for that purpose, in which the Toledo, Peoria and Warsaw Railroad Company, certain individuals of Peoria, and the President, in trust for this Company, took each one-third of the Stock.

This Company, by contract, is secured a prior and full use of one-half of the structure for the accommodation of its business.

The cost to this Company for this elevator has been $10,000. In addition to furnishing indispensable depot facilities at that place, it will return a large percentage on the amount of money expended therefor.

In pursuing the policy heretofore adopted by your Board in the maintenance of the Main Track, steel rails have been used, during the year, in its repair and in the construction of the second track. At the close of the fiscal year, there were, of steel rails in the track, including second track, about seventy-eight miles.

During the ensuing year, it is expected that at least seventy miles of iron in the main track of the Road will require replacement, and contracts have been accordingly made for the purchase of steel rail to be substituted therefor.

The equipment of the Road has been increased by the addition of seventeen locomotives, fourteen passenger coaches, four hundred freight cars, one hundred and eighty-eight platform and coal cars, eight drovers' and conductors' cars, thirty-two hand and thirty-eight rubble cars.

The total equipment at the close of the year is one hundred and nine-two engines, eighty-four

passengers cars, one pay car, forty-four baggage, mail and express cars, two thousand five hundred and fifty house freight and cattle cars, nine hundred and seventy-nine platform and coal cars, eighty-two drovers' and conductors' cars, one refrigerator car, forty dump cars, three tool cars, one pile driving car, two hundred and eighty-six hand cars and two hundred and twenty-eight rubble cars.

The entire Road is now under fence, with the exception of the extension between Prophetstown and Clinton. Upon this eighteen miles of Road the work of fencing is now going along. The ballasting of the Road during the year has proceeded as usual, and a large amount has been accomplished. At the same rate of progress within a comparatively short period, the whole line including the branches will be ballasted.

Notwithstanding the heavy traffic upon the Road, the track and entire equipment have been fully kept up, and it is believed that the end of the year found them in better condition and more efficient for service then at the commencement.

The bonded debt of the Company has been increased during the year by the sale of seven per cent. Bonds of the Company, to the amount of $720,000, the proceeds of which were used in the acquisition of the Chicago and Rock River Railroad, above mentioned.

As above stated, the capital stock has been increased by issue and sale to the stockholders at par, of twenty thousand five hundred and ninety-four shares, the proceeds of which have been used to meet the liabilities of the Company, incurred on account of construction during the last and previous years.

By reference to the Treasurer's Report, General Account "A," it will be observed that the permanent investment of this Company for construction, equipment, cost of Branch Roads, Railroad Bonds, stock and materials for future use, and teams amounts to..... $35,444,490 08

Present capital stock is	$18,649,010 00	
Bonded debt bearing interest.....	5,083,000 00	
Scrip issued to pay for Northern Cross Road from Galesburg to Quincy, not bearing interest	195,750 00	
Amount due bondholders, Northern Cross Road as per settlement with them	256,206 95	
Amount of bills payable over bills receivable	1,231,143 24	
Amount contingent liabilities for b'ds on Branch Roads upon which the liability primarily rests	6,756,000 00	
		32,172,010 19
Leaving a surplus of.....		$3,272,479 89

above the amount of its indebtedness and capital stock.

The above estimate of property is based upon the cost to this Company. As the various branches and portions of the Main Line were constructed by other corporations, and acquired by this Company after their completion, the actual cost of the property has been very much greater.

This Company now owns of the capital stock of the Burlington and Missouri River Railroad Company, 9,843 shares, which it has acquired at a cost of $924,887 77, as will appear by the Treasurer's Report.

For a more full and particular statement of affairs relating to the general management and connected with the operating department, reference is had to the Reports of the Superintendent and other heads of departments, herewith submitted.

Notwithstanding the additions made to the rolling stock during the year, the Company has not yet enough to meet the demands of the increasing business. In the winter, contracts were made for fifteen additional locomotives, which are not yet built, but which are to be on the Road before September.

With a single exception, there are no new works of construction, of any considerable amount, now or likely soon to be required.

Expenditures in this regard, being limited to works of a minor character, common to all Roads, will not be as great as for the last and previous years.

It is known to the stockholders that by the October fire, in which Chicago was destroyed, the passenger house of the Michigan Central and Illinois Central R. R. Companies, in which this Company had its passenger accommodation and its offices, was also destroyed. Since that time this Company has been without depot accommodations suitable or adequate to its passenger business at Chicago.

It will be remembered that in 1869, the Legislature of the State granted to this Company, in connection with the Michigan Central and Illinois Central R. R. Companies, a tract of land on the lake shore, in front of the city, about 1,800 feet in length by 290 in width, for the purpose of erecting thereon a passenger house, for the accommodation of the business of the three Companies. Objections were made and difficulties raised on the part of abutting owners, which have hitherto prevented the commencement of this work. These have now to a large extent been overcome, and it is expected that very soon all obstacles will be removed so that the work of construction of this passenger depot, so much needed by the three Companies, may be commenced.

Towards the purchase money of these grounds, the three Companies have paid $200,000, to which each contributed equally. A balance of $600,000 will have to be paid within a reasonable time after the work of construction commences, and the additional expenditure for the erection of this depot will need to be made and provided for from time to time, as the funds shall be required in the process of construction.

In concluding this report, your Directors would congratulate the stockholders upon the result of the year's business now closing, and the opening prospects of the ensuing one. In view of the misfortunes and calamities of the year, affecting your business, which have been such and so great, as to have been public in their character, and not likely to recur, it was scarcely to be expected that a conclusion alike successful and satisfactory would have been reached. The new year now commencing with a grain freight upon the line unprecedented in amount, and of itself sufficient to require the entire equipment of the Road months to move, added to other freights already equal in amount to the entire traffic of any former year at this period, and with the Road in a thoroughly efficient condition to meet the demands upon it, the prospects of a large increased business were never more promising, nor a successful result with more reason to be looked for.

There were in operation at the commencement of the fiscal year 1871-'72, 716 miles; to which were added during the year (Mendota to Prophetstown, opened May 14, 1871,) 45¼ miles—making the total length in operation at the close of the year 761¼ miles. The average length of road in operation during the past year was 759¼ miles against 642 miles in the previous year—an increase of 117¼ miles.

The company have 192 locomotives, 25 twelve-wheel and 58 eight-wheel passenger coaches; 15 twelve-wheel and 29 eight-wheel baggage, mail and express, 1 pay, 1 directors', 2,550 house freight and stock, 979 platform and coal, 82 drovers' and conductors', 40 dump, 3 tool, 1 pile driving, 228 rubble, 268 hand and 1 refrigerators cars.

Number of miles run by locomotives on passenger trains, 1,399,638; on freight trains, 2,086,585; on miscellaneous trains, 1,335,492—total, 4,821,715. Average cost per mile for repairs, 9.94; for oil and waste, 0.84; for fuel, 10.05; for engineers, etc., 7.67—total cost per mile run, 28.50. Miles run to pint of oil, 13.31; to ton of coal, 43.69. Coal is rated at $4 per ton; wood at $6 per cord.

The number of passengers carried during the year was 1,429,504; of these 709,329 went west, and 720,175 east. Total mileage of passengers, 56,510,994; average do., 39.53. Earnings per passenger per mile, 3.072 cents.

The whole tonnage moved over the entire line during the year, exclusive of company freight and Illinois Central business, was 1,689,104 tons; of which 462,919 tons were moved westward, 790,866 eastward and 435,319 to local points. Number of tons hauled one mile, 240,856,973. Average earnings per ton per mile, 2.19 cents. Illinois Central tonnage moved, 347,518; do., moved one mile, 29,191,512.

President.—James M. Walker.

Directors.—Erastus Corning, James F. Joy, Chauncey S. Colton, John C. Green, Nathaniel Thayer, John M. Forbes, Sidney Bartlett, John W. Brooks, Robert S. Watson, John N. Denison, John A. Burnham, and James M. Walker.

Chairman of Board.—John N. Denison.

Gen'l Superintendent.—Robert Harris.

Secretary and Treasurer.—Amos T. Hall.

BOOK NOTICE.

ILLUSTRATED CATALOGUE OF LOCOMOTIVES.—BALDWIN LOCOMOTIVE WORKS. Press of J. B. Lippincott & Co., Philadelphia, 1872.

This elaborately illustrated large octavo volume of 134 pages, is unique as an American production. Probably none of the illustrated circulars, so liberally issued by the mammoth English manufacturing establishments, can compare with it in point of taste, in execution, general information to the trade, and apparent fairness throughout. A record of the important labors of the founder of the works, M. W. Baldwin, who died in 1866, occupies the first 45 pages. As here developed it embodies a nearly complete history of this potent engine of civilization in America and in the world. With characteristic modesty the volume claims only that "the Baldwin Locomotive Works has borne its part;" while as a matter of fact it cannot be denied that the patented and other improvements of the remarkably energetic and skillful founder if those works, and the business talent which he organized for their practical development have been very conspicuous. Over 2600 locomotives have been built in the establishment.

The world needs more of such men, such manufactories, and such books.

Photographs, eight by five inches, illustrate several specimens of each of the several classes of locomotives, which are divided into eight classes apart from the classification by letters according to the number of pairs of driving wheels; B for single pairs, C for double pairs, (the ordinary type of express passenger locomotive,) D for three pairs, and E for four.

The first engine built by Mr. Baldwin, with the exception of a miniature run on a circular track in the Philadelphia Museum, was run on the Philadelphia, Germantown and Norristown Railroad, under the following announcement, dated Nov. 26, 1832:

"*Notice.* The locomotive engine, (built by M. W. Baldwin, of this city,) will depart daily when the weather is fair, with a train of passenger cars. On rainy days, horses will be attached."

These works completed 5 locomotives in 1834, 14 in '35, 40 in '36, 40 in '37, 23 in '38, 26 in '39, and 9 in '40.

From April 8, 1839, the business was conducted under the firm name of Baldwin, Vail & Hufty. In 1841, it became Baldwin & Vail; and in 1842, Baldwin & Whitney.

The present head of the firm, Mr. Matthew Baird, was connected with the works from 1836 as one of its foremen. He entered into partnership with Mr. Baldwin in 1854, and the style of the firm was then made M. W. Baldwin & Co.

Twelve engines were constructed in 1843, 22 in '44, and 27 in '45. Since the organization of the present firm, M. Baird & Co., the capacity of the Works has been very greatly increased. They turned out 118 locomotives in '66, 127 in '67, 124 in '68, 235 in '69, 280 in '70, and 331 in '71.

The book is a valuable one, as a record of a successful contest with difficulties by a courageous man; a record of the history of the link motion, Bissell and other trucks, hard tires, variable exhaust, devices for coal burning, and for increasing traction, &c, and as a collection of specifications elaborately classified of 41 present styles of American Locomotives.

The Puget Sound Lumber Trade.

It has been generally understood that a considerable lumber trade has grown up within the last few years on our northern Pacific coast, but few have been aware, except those immediately interested, how extensive and far-reaching that commerce has become. The Puget Sound basin in Washington Territory is mostly covered by dense forests of fir or "Oregon pine," invaluable for ship-building and other uses. Much of it can be cut on tide waters, and the rivers emptying into Puget Sound afford numberless water-powers for sawmills. It is estimated that Western Washington has 15,000 square miles of heavily timbered lands, which will yield an average of 30,000 feet of merchantable lumber to the acre. It seems likely that this vast timber preserve is now to be drawn upon to supply the markets of the world.

From official returns it appears that the shipments of fir from the Puget Sound district reached in 1849 the figure of 136,692,512 feet. For the six months ending July 1, 1872, these shipments were 118,856,561 feet, or at the rate of 237,713,122 feet for this year. This shows an increase which will considerably more than double the trade in four years. It is well understood that the business has been much curtailed this year by scarcity of tonnage and high freights. As shipowners are learning that they can find regular and desirable employment for vessels at Puget Sound ports, it is expected this difficulty will soon disappear. The Sound is a great land-locked harbor, having a shore line of 2,000 miles, ramified by bays, channels, and inlets in every direction, and safe as a mill-pond in every part. The water is very deep and the shore bold, so that ships make fast alongside the mills, and timber is often run from the saw into the hold.

The Custom House records show that during the six months above referred to, vessels have been loaded for almost every accessible part of the civilized world, Callao, Tahiti, London, Mexico, Australia, Russia, New York, China, Valparaiso, Honolulu, Panama, Calcutta, and Victoria, being among the names found in the columns denoting destination of cargo. The home consumption is also large, and is rapidly increasing. Kalama, Olaqua and many other new towns are springing up, and Seattle, Olympia, Portland and the older cities are enlarging their boundaries. The building of the railroad from Kalama on the Columbia to Puget Sound has given a new impetus to the development of this whole region. This road is the north and south section of the Northern Pacific Railroad, and will connect the two Pacific coast terminal points of the main line. The Northern Pacific Land Grant in Washington and Oregon includes several million acres of these fir forests, and the opening of the country as the road advances must still further increase the growing timber trade of Washington.

☞ Tippah county, Miss., has completed the first narrow gauge road in that State, three feet wide, through a fertile country abundantly supplied with timber, and intersecting the Memphis and Charleston road at Middleton, Tennessee, twenty miles east of Grand Junction and four miles north of the northern boundary of Mississippi. The distance from Middleton, Tenn., to Ripley, Miss. is twenty-four and three-quarter miles. There are two stations between Middleton and Ripley. The first is Hopkinsville, nine miles south of Middleton, the other is Falkner, by a resolution of the stockholders, being named after the president, and is nine miles north of Ripley.

☞ At the annual election of the Massawippi Valley Railway Company, held in Stanstead, Quebec, September 4, the old board was re-elected, as follows: Sir A. T. Galt, President, Montreal; Colonel B. B. Pomroy, Compton, Province of Quebec; B. P. Cheney, Boston, Mass.; C. Brooks, Lennoxville, Quebec; C. C. Colby, Stanstead, Quebec; E. Raymond, Thos. Upham, Cambridge, Mass.; Albert Knight, Stanstead, Quebec; E. Cleveland, Coventry, Vt. A. P. Ball, of Stanstead, was re-elected Secretary, and S. Foster, of Stanstead, Treas. The Connecticut and Passumpsic Rivers Company leases and works the road.

☞ The first through train from Louisville reached Montgomery, Ala., on the 30th ult. Through trains will now run regularly between the two cities. This route is formed by the completion of the South and North Alabama railroad. The distance from Montgomery to Louisville, by this route, is 490 miles, and gives the West a short cut to the southern seaboard at Mobile and Pensacola.

☞ The Canada Central Railroad Company are at present negotiating for the extension of their line to Pembroke at an early date. The branch to Renfrew will be opened the 15th of October.

RAILROAD EARNINGS—MONTHLY.

Central Pacific (in gold):	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

(1) Since completed between Putnam and Willimantic 26 miles.

(2) An extension from Bethel to Hawleyville on Shepaug Valley Railroad (6 miles) is being built.

(3) Since completed between Middletown and Willimantic 27 miles, and thus opening up a new route between New York and Boston. No returns of operations for 1871.

(4) By agreement dated Sept. 7, 1870, the New York and New Haven and the Hartford and New Haven Companies consolidated their business; and their roads are now operated under a central directory. The profits from operations are divided in the proportion of 43 to the H. and N. H., and 57 to the N Y. and N. H. Companies respectively. The N. Y. and N. H. Company leased the Shore Line for 99 years from Nov. 1, 1870 at an annual rental of $100 000.

(5) Leased to Vermont Central Company for 20 years from Dec. 31, 1871 at an annual rental of $150,000.

(6) Leased to Boston, Hartford and Erie Company for 100 years from February 1, 1869 at an annual rental of 10 per cent. on capital.

(7) Leased to Hartford, Providence and Fishkill Company.

(8) Leased without rent to Hartford, Providence and Fishkill Company.

(9) Leased to Naugatuck Company for 5 years from November 1, 1870—no rental.

(*) Dividends on preferred stock only.

THE

CHICAGO

AND

CANADA SOUTHERN

First Mortgage Sinking Fund

30 Years'

7 PER CENT. GOLD BONDS

INTEREST PAYABLE APRIL AND OCTOBER

AT THE UNION TRUST COMPANY,

—AT—

90 AND ACCRUED INTEREST.

This road is the western link in the new AIR LINE from BUFFALO to CHICAGO, and runs from the Detroit River to Chicago in nearly a straight line.

The road is a part of the same line as the Canada Southern, and is being built by the same men, viz: Milton Courtright, John F. Tracy, David Dows, Wm. L. Scott, Henry Farnham, R. A. Forsyth, John M. Burtle, M. L. Sykes, Jr., all Directors either in the Chicago and Northwest, or the Chicago, Rock Island and Pacific; Geo. Opdyke, of the Midland Road; Sidney Dillon, Daniel Drew, John Ross, David Stewart, Samuel J. Tilden, Kenyon Cox, and other prominent railroad men.

The Road, like the Canada Southern, will have steel rails (60 pounds to the yard) throughout; is practically STRAIGHT AND LEVEL; MUCH SHORTER, and can be run with greater speed and safety than any other road connecting Buffalo and Chicago.

The builders of the road control enough of its Chicago feeders to obtain for it a profitable business from the start, having projected the line to accommodate existing business, and having seen the necessity for another trunk line between Chicago and the Atlantic seaboard, located expressly with the view of obtaining the cheapest transportation practicable. Rapid progress is being made in the construction of the Road, and it will be finished at the earliest practicable period.

The branch lines will make the shortest connections between Chicago and Toledo, and Chicago and Detroit, as well as between all these points and Buffalo.

The Canada Southern Bonds, in every particular like these, were eagerly taken, the last of them several weeks ago, by the best class of investors, and were on the market a shorter time than any other railroad loan of like amount for years past.

The proceeds of these bonds will complete the entire line, and we recommend them with the same confidence as we did the Canada Southern, and regard them as in every way a choice security.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, October 5, 1872.

Stock Exchange and Money Market.

There has been a decidedly urgent speculative inquiry for Money, chiefly for use at the Stock and Gold Boards, during the week; and, under the manipulations of the operators for lower Stock values, the rates of accommodation have been very generally kept up to 7 per cent in currency and gold, with, in many instances, a fractional commission added to the legal interest, for the use of funds, from day to day. The city banks have been reserved in their offerings, in view of their diminished resources; while private lenders have manifested less liberality. The discount business has been kept within very narrow limits, to the serious inconvenience of the mercantile classes, and rates have been quoted as high as from 10 per cent. for the very best to 15@18 per cent. per annum for good grades of commercial paper.

The outstanding amount of all kinds of U. S. currency at the close of September was $397,311,890.

The U. S. Sub-Treasury office last week received $5,312,477 of currency, and $3,975,849 of gold, the latter including $2,927,000 from customs; and disbursed $4,110,596 of currency and $3,405,477 of gold, the latter embracing $142,903 of coin interest. The city banks reduced their loan and discount average over 8½ millions during the week, and again enlarged their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $17,009,664, and a coin reserve of $56,022,292.

The city banks, in their latest return, show an increase of $515,800 of legal tender notes, with a further reduction of $436,000 of specie, and $5,677,800 of deposits, also a contraction of $8,551,500 in their loan and discount averages, and an increase of $67,000 in their item of circulation. The city bank exchanges, last week, averaged 109½, and thus far, this week, about 121 millions daily. The banks now hold $1,150,025 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $11,963,500, against $13,130,300 same time last year. The city bank deposits are now $195,450,000 against $228,138,000, week ending Sept. 30, 1871. The legal tender reserve amounts to $44,982,800, against $55,272,300 same time last year. The circulation now stands at $27,735,100 against $30,253 800 same time last year. The loans are now $272,293 800 against $301,356,100 at this date last year.

The coin reserve of the city banks is now about 11⅞ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 44⅞ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 195½ millions, against 247½ millions on the 20th of July.

Government revenues show a fair yield, in view of the reduction of the internal taxes, and of the customs duties, under recent legislation. The excises yielded within the week about two millions, and thus far in the current fiscal year beginning with July 1, 1872, $34,698,828. The customs at the port of New York last week were $2,833,773; and at the outports, equal to about $950,000, all in coin or coin certificates.

The aggregate receipts of the U. S. Sub-Treasury, in this city, in September, were $57,147,256, including $13,801,688 from customs; aggregate payments, $44,501,589, including $3,725,223 of coin interest.

Gold has been again advanced, and been made very scarce for prompt delivery, in the open market, by speculative manipulations which have also had the effect of working up the borrowing rates on gold, to extremely high figures to the serious embarrassment of parties needing Gold for legitimate use, either in payment of custom duties, or in the purchase of foreign exchange. The offerings of Gold at the Exchange have been unusually light at even the extreme quotations registered especially toward the close. The export drain of specie was less than half a million for the week. The customs call absorbed nearly three millions.

The range of the price during the week has been from 113⅝@114⅞, and the closing quotation on Wednesday was 114¼ against 114 the preceding Wednesday. The specie outflow last week, was only $406,627. The Gold Exchange Bank clear-

ances have averaged about 49 millions per day during the week.

The customs demand for Gold last week, averaged $488,000 a day; thus far, this week, it has averaged $491,000 a day, or equal to a weekly aggregate of $2,946,000. The arrivals of specie from Europe, Havana and other foreign ports since Jan. 1, 1872, were $2,938,499 against $7,688,254 same time in 1871. The total customs revenue of the Government, in coin, at this port, since January 1, has been $117,176,443 against $122,692,769 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $59,070,841, against $65,572,012 during the same time in 1871.

The export drain of specie was $406,627 last week, against $483,601 same week preceding year. The shipments since January 1, 1872, have been $57,974,805 against $55,702,102 during the same portion of 1871.

Foreign Exchange has been depressed and unsettled by the Gold embarrassments, and an unusually light business has been transacted. Bankers' sixty day bills on London closed on Wednesday at 107¼@107½; sight bills on London, 108½@108¾.

The week's exports hence of domestic produce have been to the currency value of $4,716,438.

Under the Treasury programme for October, Government proposes to sell, at least, five millions of Gold, as follows: Thursday, Oct. 3rd, $1,000,000; Thursday, Oct. 10th, $1,000,000; Thursday Oct. 17th, $1,000,000; Thursday Oct. 24th, $1,000,000; Thursday, Oct. 31st, $1,000,000. And to buy in, at least, five millions of Five Twenties, as follows: Wednesday, Oct. 2nd, $1,000,000; Wednesday, Oct. 9th, $1,000,000; Wednesday Oct. 16th, $1,000,000; Wednesday, Oct. 23nd $1,000,000; Wednesday, Oct. 30th, $1,000,000.

Government securities have held their own well as to values, closing stronger and buoyant, on a fair investment business. The public debt exhibit of Oct. 1, shows a further liquidation, in September, of $10,327,000.

On Wednesday, Government bought in three million of Five-Twenties at equal to full market rates out of an aggregate offering of $3,168,000.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 116@116¼; U. S. Five-Twenties of 1862, 115½@115¾; U. S. Five-Twenties of 1864 at 115½@115¾; U. S. Five-Twenties of 1865, 115½@116; U. S. Five-Twenties of 1865 consolidated 114⅜@114⅝; U. S. Five-Twenties of 1867, 114⅜@114⅝; U. S. Five-Twenties of 1868, 114⅜@114⅝; U. S. Ten-forties at 108@108¼ U. S. Fives of 1881 (Funding Loan) 110½@111; Six per cent. currency bonds, 111⅞@112⅛.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Sept. 18.	Sept. 25.	Oct. 2.
Consols	92¼	92⅜	92⅝
U. S. 5-20s, 1865	93¼	93⅛	93⅜
" 1867	91⅞	92	92⅛
" 10-40s	87¾	87⅝	87⅞
New Fives of 1881	89¼	89¼	89¼
Erie	39	39¼	38½

Government has given notice that it will redeem three millions of the three per cent. Loan Certificates of specified numbers.

State bonds have been in very moderate request and unsettled in price.

Railway and Miscellaneous share property has been quite brisk, with frequent fluctuations in values, though the leading speculative favorites, of which Pacific Mail, and Western Union Telegraph were the most prominent, have shown unexpected strength, in the face of the activity and extreme stringency in Money.

Railway Mortgage Loans have been in fair demand at generally steady figures. Central Pacific Sixes have been rather more sought after on investment account, closing firmly at 99¾@100.

General business has been unusually active in most departments, with however, prices of Produce quoted irregular. Middling upland cotton closed heavily on Wednesday at 18⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 198,679 bales, against 97,599 bales same time in the preceding year; exports 30,500 bales against 38,300 bales in the previous year; stock at the ports at latest dates, 137,839 bales against 100,293 bales same date 1871.

At the Live Stock Markets, Beeves have been plenty and in demand at 8@13½ cts.; Veals in fair request at 7½@10½ cts.; Sheep at 4½@7 cts.; Lambs, 5¾@8¾cts.; Swine, at 5@5¼ cts. per lb., all live weight. The week's receipts were 9,721 Beeves, 3,050 Veal Calves, 35,061 Sheep and Lambs, and 44,964 Swine.

Foreign merchandise has been in active request and generally firm, for seasonable supplies. The week's imports of foreign goods reached the amount of $8,387 021 including $2,667,740 of dry goods.

Ocean freights have been quite active, particularly for Grain, Cotton and Petroleum, at much firmer rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Mississippi Central Railroad.

The work on the Mississippi Central Railroad, from Jackson, Tennessee, directly through to Cairo, has been commenced, and is to be pushed forward to an early completion, so that next summer cars will run directly through from New Orleans, via Jackson, Tennessee, to Cairo, and thence northward over the Illinois Central Railroad. The length of the road from Jackson to Cairo is one hundred and seven miles, and the route crosses the Louisville road at Milan, eight miles beyond Humboldt, and the Nashville and Northwestern near Garner's Station, eight miles west of Dresden. The whole route is under contract and labor upon it will be ceaseless until the cars commence running upon it and the through route is established. Work on the Paducah and Memphis road is also going on rapidly.

☞ Track laying has commenced at Newport, Vt., on the Missisquoi Valley Railroad. Work has also been commenced at Richford, and it is expected to meet at Troy. It was hoped to have the track laid to Troy this fall, but the rainy weather has delayed the grading in the clay cuts, and it is doubtful if the iron is all laid before another year. It is proposed when this road is completed to extend it to Island Pond.

☞ Engineers have begun the permanent location of the extension of the Worcester and Gardner Railroad to Winchendon, in Worcester Co., Mass.

Public Debt of the United States.

By the monthly report of the public debt for September we learn that the debt was reduced during the month $10,327,343 09. The total principal of the debt outstanding is $2,236,319,190 06, on which there is due and unpaid of interest $33,221,901 86—giving a total of principal and interest of $2,269,541,091 90. There was at the same time cash in the Treasury, of coin, $78,417,220 91, of currency, $8,499,193 53, and special deposits, for redemption of certificates, $15,630, giving a total of $102,546,414 44; reducing the total debt, less cash in the Treasury, to $2,166,994,677 46. Debt, less amount in the Treasury on 1st of September, 1872, $2,177,322,020 55—showing a decrease during the past month of $10,327,343 09. Decrease of the debt from March 1, 1872, $58,818,820 50. Decrease of the debt since March 1, 1869, to March 1, 1872, $299,649,762 03. Bonds issued to Pacific Railroad Companies, interest payable in lawful money, principal outstanding, $64,623,612; interest accrued and not yet paid, $966,352 00; interest paid by the United States, $16,570,575; interest repaid by transportation of mails, etc., $3,828,038 00; balance of interest paid by United States, $12,742,447 00.

☞ The Maysville *Republican* says: "We learn from a gentleman from the line of the Chesapeake and Ohio Railroad that if sufficient inducements are offered that company they will, at an early day, undertake to build the road from the Big Sandy to Newport. The line on this side of the river can be constructed at much less cost than the proposed route through Ohio, as the expense of bridging the Ohio river and the country through which the road will have to pass on that side of the river will be very great, while on the Kentucky side $300,000 in work has been done, and the grade is much easier."

☞ The ten and a half million loan which the Reading Railroad Company gave the shareholders the privilege of subscribing to at the rate of 30 per cent. at par, has been very largely availed of. We learn that the holders of nine-tenths of the stock subscribed for $9,350,000 of the loan, and also for $4,250,000 more than the amounts to which they were respectively entitled at the rate of 30 per cent.—making the total subscription $13,600,000—an excess of $3,100,000 over the total loan to be awarded.

☞ The earnings of the Burlington, Cedar Rapids and Minnesota Railroad in August, 1872, were $93,420 03, against $67,194 82 in August, 1871—an increase of $26,225 21. From January 1 to August 31, 1872, the earnings were $571,942 63, against $269,741 17 in the corresponding period of 1871—an increase of $302,202 46.

☞ It is stated that the Wilmington and Weldon Railroad Company have consummated a lease of the North Carolina road from Goldsboro' to Greensboro'.

☞ Track-laying has been recommenced on the Appleton branch of the Milwaukee, Lake Shore and Western Railroad, and will be vigorously prosecuted until completed.

☞ Trains have commenced running on the Williamstown (N. J.) Railroad between Atco and Williamstown. The laying of the track will be continued as rapidly as possible to Glassboro.

ELEVEN PER CENT INVESTMENT.

FIRST-CLASS SECURITY.

State Loan of Arkansas,

7 per cent Thirty-Year Bonds.

A LIMITED NUMBER OFFERED

AT 70 CENTS

AND ACCRUED INTEREST.

In these Bonds "the faith and credit of the State are solemnly and irrevocably pledged for the payment and redemption of the principal and interest on each and every bond.

THE

Arkansas Central Railway,

BY

Special Mortgage Indorsement,

pledge their splendid endowment of Lands, Railroad Rolling Stock, Station Houses, and all other property for the faithful payment of interest and principal, making this a

Double and Undoubted Security.

Interest payable April and October, at the Union Trust Company New York.

Maps, circulars, pamphlets, giving full particulars of the loan, to be had by addressing the undersigned, who unhesitatingly recommend these Bonds.

WILLIAMS & BOSWICK,
Bankers, 49 Wall-st.,
NEW YORK.

HOUSTON AND TEXAS CENTRAL

RAILWAY COMPANY'S

FIRST MORTGAGE

Land Grant Sinking Fund

7 PER CT. GOLD BONDS,

AT 90 AND ACCRUED INTEREST IN CURRENCY,

Yielding over Nine per Cent. on the Investment.

WILLIAM E. DODGE, of New York, President.

SHEPHERD KNAPP and WILLIAM WALTER PHELPS, Trustees for Bondholders.

Principal and Interest payable in Gold at the National City Bank, New York. We confidently assure investors that these Bonds are in every respect first-class, and we recommend them as an entirely safe investment. All securities taken at Board prices in exchange. Circulars and information may be obtained at our office.

JOHN J. CISCO & SON,

No. 59 Wall-st., New York.

☞ Track-laying on the Chicago, Dubuque and Minnesota Railroad has been resumed, and will be pushed rapidly to LaCresent, in Houston Co., Minn., where it will form a junction with the Milwaukee and St. Paul Railroad. Men are busily engaged in surveying the track between Turkey River and Elkport.

☞ Work on the Baltimore and Potomac tunnel is fast approaching completion, about one-half of the tunneling having been finished, and one-half of the remaining excavations being so far completed as to admit of the foundation walls being laid. About two hundred men are at work in the tunnel.

Journal of Railroad Law.

COMMON CARRIERS—NEGLIGENCE IN HANDLING FREIGHT—INSTRUCTIONS.

The facts in the late case of Thompson and Soleman *vs.* The Chicago and Northwester Railway Company, (27 Iowa, 561,) are as follows:

The plaintiffs shipped a barrel of Linseed Oil by the defendant's railway, from Chicago, Ill., to Iuka, Iowa, and on its arrival at the latter place it was found that one hoop was off the barrel, and the oil had nearly all leaked out. This suit was brought to recover the value of the oil thus lost to plaintiffs. There was a jury trial, with verdict and judgment for the plaintiffs for sixty dollars, the value of the oil. The defendant appeals.

The following is the opinion of the court delivered by—

COLE, J.—The evidence tended to show that the barrel of oil was in good order when received by the defendant, though the barrel was quite old and the hoops badly rusted; that the usual and proper way of storing barrels of oil in freight cars was to lay them on the bilge with the bung up; that this barrel was set on end, that one of the iron hoops was off the barrel and laying on the car floor when it arrived at Iuka; that the oil was shipped at the owner's risk of leakage; that the car was full of barrels of oil, stowed on the bilge with the bung up, and none of the others had leaked much; that the value of this barrel of oil was sixty dollars.

The Court then instructed the jury in substance: 1st. That if they found the oil was shipped at the owner's risk of leakage, they could not find for plaintiffs, unless they found that defendant negligently loaded it and that the barrel leaked for that reason; and 2nd. That if there was no such contract, they should find for plaintiffs, unless they found that the barrel, when received by defendant, was old and defective, so that the oil leaked out by reason thereof, and not by reason of defendant's negligence. The instructions asked by defendant and refused were substantially embodied in those given by the court.

The counsel for defendant, in their printed argument, admit that, "in ordinary litigation between parties, were juries are impartial, there is nothing perhaps to complain of in the instructions given in this case." We do not see any ground for complaint, as to the instructions, by defendant, even on its hypothesis in this case.

The council argue also, the question of fact, and claim that the verdict was contrary to the evidence. The pivotal fact of the case, as it was presented to the jury, was as to the negligence of defendant in the manner of loading or stowing the barrel of oil. The evidence tended to show that the manner in which this barrel was stowed in the car was not the best or safest manner of doing it, and it did establish the fact that it was not the usual manner. And taking the whole evidence together, we cannot say that the verdict was wrong.

The fact that the barrel was old and defective would not excuse the defendant from the legal measure of diligence in the loading and transporting of it; and unless the leakage was the result of the condition of the barrel, or other cause than the defendant's negligence, the defendant is both justly and legally liable. What we hold is, that the instructions were not erroneous, to the defendant's prejudice; and that the verdict was not contrary to the evidence.

Judgment affirmed.

Roumelian Railways.

The *Levant Herald* states that "a decided impetus has been given to the Roumelian railway enterprise by the new convention concluded between the Porte and Baron Hirsch, and many of the sections of the European network have in consequence made marked progress. During the past three months a branch line of 102 kilometres [a kilometre is about ⅝ of an English mile] from Salonica to Uskup has been run over and accepted; the section of 72 kilometres from Sirkedji-Iskelessi to Tchataldja has been completed and opened for public traffic; and the branch line of 145 kilometres from Adrianople to Dedeatch, as also 60 kilometres of the line to Philippopoli, as far as Harmanly, have both been formally inaugurated. Harmanly has been selected as the starting point of the loop line which is to unite the Philippopoli with the Varna line, and which must, by the stipulations of the convention, be ready for public traffic within 18 months. Furthermore, early next month, some 100 kilometres of railway will be opened in Bosnia, between Novi, on the Austro-Croatian frontier, and Banialuka. The working of the metropolitan section of the Roumelian lines since its opening has been satisfactory."

☞ The New Orleans and Carrollton Railroad Company are running their cars by a novel motive power, which the *Picayune* says is obtained by means of the compression of steam in water, the steam being taken from a stationary boiler at the depot, only three or four minutes being consumed in charging, thus doing away with fire to keep up the pressure. The steam thrown in this reservoir is sufficient (according to the capacity of the reservoir), to make the car perform a trip of from ten (10) to fifteen (15) miles. The management of the car is so simple that ordinary drivers are employed. There is no fear of explosion as the steam is being constantly exhausted, and the pressure consequently lessened.

☞ Work has been commenced on the railroad from Northwood to Albert Lea, Minn. The road is to be completed in ninety days. Owing to a failure to make terms with the Northern Pacific Company, in the transfer of their interest in the old Minneapolis and St. Louis line, a new company has just been organized, under the general law, with F. Hall, A. Armstrong, E. C. Stacy, Wm. Morin, and H. McNeil as corporators, with capital stock limited to $500,000, until the road is extended north when the stock may be increased not exceeding $40,000 per mile.

☞ The improvements made on the Maine Central Railroad this season have been very extensive. Seventy miles of track have been graveled, twenty five miles of new iron laid, and five miles more to be laid before snow comes, one hundred and thirty thousand new sleepers have been put down, and one hundred tons of spikes used to fasten down the rails.

☞ The division of the Milwaukee and St. Paul Railroad known as the McGregor and Missouri River railroad, is to be extended eighty miles from Algona to intersect the St. Paul and Sioux City Railroad in the northwest corner of O'Brien county, Iowa. Work will be commenced forthwith.

Great Western (Loup Line) Railway.

The following information respecting the Great Western Air-Line Railway has been furnished to the press:

The road is all graded and the bridges finished ready for track laying from Glencoe to the junction with the Grand Trunk Railway at Canfield, a distance of 103 miles and about 42 miles from Buffalo. The laying of the track was begun in July, and is being rapidly pushed forward. The extension from Canfield junction to the International Bridge, now in course of construction across the Niagara River from Fort Erie to Buffalo, is now being rapidly graded, and will be ready for the track before the 1st of November next. The whole 145 miles are nearly straight; the excess in length over an air line being only four miles. There are few curves on the line and none sharper than two degrees. The banks are all graded to 16 feet wide, and the cutting are 22 feet in width at the bottom. The grades on the road are extremely favorable, upwards of one-half of the line being either level or less than five feet per mile above or below the level. There are a few grades of short lengths of from 30 to 35 feet per mile, but nothing steeper. The bridges are either of first-class masonry or of the best quality of pine timber truss and trestle work. Special attention has been paid to drainage to secure the best possible foundation for the steel track. The track is to be laid entirely of the best quality of Bessemer steel, weighing 66 lbs to the yard. The joints of the rails to be fished with four bolts and nuts, with a wrought-iron chair in addition, to increase the bearing on each joint tie. The ties are 8 inches wide on the face, 9 feet long, and laid 2 feet apart from center to center. The ballast throughout will be 12 inches in depth under the ties. The steel track of this road will be certainly superior to any yet laid on this continent. With respect to the main line track, we have now 125 miles of steel rails laid, and before the 1st December will have 160 miles out of the 229. The water tanks will be of Burnham's most approved patent frost-proof, each tank having a capacity of 30,000 gallons. Fifty-seven locomotives are under contract, 36 at the Locomotive Works, Providence, Rhode Island; 10 at Baldwin's Works, Philadelphia; and 11 at the Canadian Engine and Machinery Company's Works, at Kingston, Ontario. Eighteen coaches and 14 baggage and post office cars are being constructed at Wilmington; 30 freight train conductors' cars at Toronto; 200 freight and stock cars at London, Ontario; and we are adding ourselves 150 flat and 50 stock cars. The whole Great Western system is now of the American or 4 feet 8½ inch gauge, all the car stock has been changed, and before snow falls all the broad gauge engines and the third rail will be removed. Our passenger coaches, second class and smoking cars, are being rapidly improved and modernized, and large additions are being made to our stock of freight cars.

☞ The Brownsville, Fort Kearney and Pacific Railroad, the connecting line of the Quincy, Missouri and Pacific Railroad at Brownsville, Neb., is progressing very rapidly, and the company have in operation forty miles of road. Some sixty miles more of road will soon be ready for the contractors, and will be completed at an early date. A fine depot is being erected for the company at Brownsville. The road, when completed, will run to Denver.

☞ The contract for the wrought iron superstructure of the Congress street bridge, Troy, N. Y., has been awarded to the Phillipsburgh Manufacturing Company, of Phillipsburgh, New Jersey, for the sum of $145,000.

☞ Work has been resumed on the New Castle and Franklin Railroad, at Mercer, Pa.

Valley (Va.) Railroad.

At a meeting of the stockholders of this company at Salem, Va., on the 25th ult., the following gentlemen were elected directors, viz: Robert Garrett, Johns Hopkins, Wm. Keyser, P. P. Pendleton, R. T. Baldwin, D. H. Miller, and R. Norris, Jr., of Baltimore; Edmund Pendleton, of Botetourt; M. G. Harman, of Staunton; Wm. Allen, of Rockbridge, and Geo. W. Hansbrough, of Roanoke. Robert Garrett was re-elected President. The report of the treasurer stated that there had been paid, cash, by Baltimore and Ohio Railroad $300,090, Staunton $54,000, and individual subscriptions $32,777, and that $93,552 17 had been expended, leaving a balance of $293,224 83. The cost of the road with iron bridges is estimated by the engineer at $5,700,000.

Riviere du Lonp Railroad.

Notwithstanding the delay in receiving a locomotive or two for the Riviere du Lonp, track-laying is progressing very favorably, five miles being now completed. There seems to be a good prospect now that the road will be open for business to the Nackawick by the 17th December. The only drawback is the want of a locomotive, and this will be supplied within the course of a few weeks. Forty or fifty men have recently gone to work on the road, in addition to those who have been at work all summer, and more are daily expected.—*Fredericton Express.*

☞ At a meeting of the Baltimore, Pittsburg and Chicago Railway, Indiana Division, at Auburn, Ind., on the 26th ult., Walter C. Quincy, of Columbus, Ohio, was elected President; Wm. Wing, Secretary; W. H. James, of Baltimore, Treasurer, and Jas. L. Randolph, Chief Engineer. The Chief Engineer was directed to advertise work for contract as soon as right of way was obtained.

☞ The St. Louis and Carondelet Railroad was formally opened on the 26th ult. This line was built for the purpose of effecting a closer union between the places on the shores of the Mississippi, in St. Clair county, Illinois, and St. Louis, and is now under the supervision of the following officers: T. B. Livingston, President; S. B. Bowman, Secretary; Th. Winstenberg, Treasurer; and T. M. Conlogne, Contractor.

☞ The Green Bay and Lake Pepin Railroad has been completed to Ogdensburg, a distance of 75 miles west of New London, in Waupaca Co., Wis., which place is the present terminus of the telegraph line on that road.

☞ The Southern Maryland Railroad, it is announced, will be finished in May next. Col. Smout is president of the company. The office of the company is to be located on Four-and-a-half St., Washington, D. C.

OFFICE OF THE

Toledo, Peoria & Warsaw R. R. Company,

No. 80 BROADWAY,

NEW YORK, Sept. 30, 1872.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**
PLAINFIELD, N. J.

STATE AND COUNTY RIGHTS FOR SALE.

Safe Car Lamp,
MINERAL SPERM OIL.

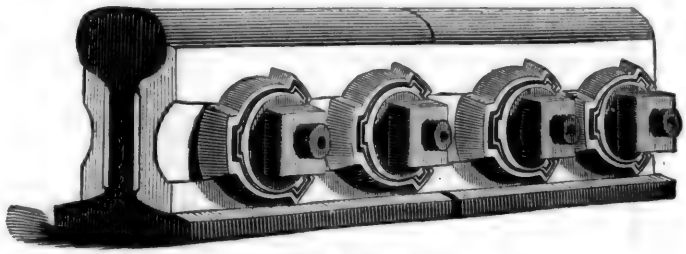
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Arkansas Central Railway.

A special to the Memphis *Appeal*, from Helena, Ark., dated Sept. 27th, gives the following account of the formal opening of this road from Helena to Clarendon:

The formal opening of the first division of the Arkansas Central Railway, from Helena to Clarendon, a distance of fifty miles, took place yesterday with great eclat and a grand excursion. This is the first narrow-guage railroad ever built in Arkansas, and its construction and completion between the above cities has been watched with great interest. The road passes through one of the most fertile districts in the State, comprising prairies, pineries and excellent cotton lands. Farms in the vicinity of the railroad are already very valuable, and, since its completion numerous inquiries have been made by actual settlers, and already sites for towns have been laid out at various points on the line. The road has already been thoroughly equipped with sufficient rolling stock for the coming Fall and Winter trade, and it is fully anticipated that the road will carry ten thousand bales of cotton during the season, a great portion of which will find its way to the Memphis market.

☞ Wm. T. Thelin has been appointed auditor of the Baltimore and Ohio Railroad Company, in place of S. H. Dunan, resigned.

BANKING HOUSE OF

JAY COOKE & CO.,

No. 20 Wall St., New York.

We continue to sell at par, adding accrued interest, the First Mortgage Gold Bonds of the Northern Pacific Railroad Company. On the completion of this season's contracts there will be FIVE HUNDRED AND SEVENTEEN miles of the main line of the road in operation, uniting Lake Superior with the Missouri River, and securing the large traffic of the Northwest. This amount of road also entitles the Company to ten million four hundred thousand acres of land located in Central Minnesota, Eastern Dakota, and in the Columbia Valley, on the Pacific coast. The bonds are secured by a first mortgage on the road, its traffic and franchise, and on the entire land grant received from the government. The rate of interest is Seven and Three-tenths, Gold, equivalent to about Eight and a Quarter per cent in Currency. Believing the security to be ample and the rate of interest satisfactory, we recommend these bonds as a desirable investment. Holders of United States 5-20's and high-priced corporate securities may materially increase both their principal and their interest income by exchanging for Northern Pacifics.

JAY COOKE & CO.

New York, Philadelphia and Washington.

☞ The Philadelphia *Ledger* of 7th inst., reports the net anthracite coal tonnage for the week ending on the 28th ult., from all sources, at 439,646 tons, and for the year 14,575,550 tons, against 10,627,765 tons to the same date last year, being an increase in the tonnage of anthracite coal of 3,947,785 tons. The production of bituminous coal for the week was 53,849 tons, and for the year 1,876,848 tons, against 1,646,225 tons to the corresponding time last year—an increase of 230,623 tons. The total production of all kinds of coal for the week was 493,495 tons, and for the year 16,452,398 tons, against 12,273,990 tons to corresponding time last year, showing an increase of 4,178,408 tons.

Louisville and Nashville Railroad.

The following statistics of the Louisville and Nashville Railroad are from the president's report for the year ending June 30, 1872, presented at the recent annual meeting:

Earnings—Louisville and Nashville and branches, $3 209,944 53; Memphis, Clarksville and Louisville (12 months), $505,358 78; Memphis and Ohio Railroad, $938,576 68. Total earnings, $4,653,779 99.

Expenses—Louisville and Nashville and branches, $1,997,125 57; interest, $266,995 10; dividends, $628 541; expenses Memphis, Clarksville and Louisville (12 months), $496,840 07; interest M. C. and L. (9 months), $74 128 57; expenses Memphis and Ohio, $242,487 38. Total expenses, including interest and dividends, $4,403,926 04; showing a net profit of $249,453 95.

The bonded debt, as per last report, was $8,752,000. Total bonded debt June 30, 1872, $8,744,000. In this sum is included city of Louisville bonds, without mortgage, $849,000; making the total debt for which the road is mortgaged $7,896.000. Memphis and Ohio Railroad bonds mortgage on that road, $3,500,000. Total mortgage on all, $11,395,000.

During the year 7 per cent. cash dividend on the capital stock has been paid.

The report of the vice-president and general superintendent for the past year shows an increase of gross earnings on all the lines operated by this company of 1.49 per cent.; decrease of operating expenses of 2.52 per cent., and an increase of net earnings of 14.97 per cent.

The company took possession July 1, 1872, of the Nashville and Decatur Railroad, which will be run under lease. This will give a direct line to Montgomery (when the south and north road is opened) of 490 miles.

On and after October 1, 1872, the company will operate 920 miles of road.

Little Rock, Memphis and Norfolk.

Within two weeks or less freight and passenger trains of the Memphis and Ohio and Memphis and Little Rock roads will be interchanged across the Mississippi by transfer boats. Trackways on the shores of the river are perfected down to low-water mark, and will remain unaffected by the rise and fall of the river. Meanwhile, M. Greenlaw spends his whole time in the lowlands ballasting the road-bed between the St. Francis and Mississippi rivers. When this task is done the Little Rock road will become most profitable. Its value is greatly enhanced by the early completion of the road from Richmond, Va., to Elizabethtown, Ky. By this means Memphis and Little Rock secure the two shortest possible routes

from the valley of the Mississippi to the Atlantic, and the wealth of the west will surely follow these lines in seeking access to Europe. There is a difference, too, in the highest gradients of fifty feet to the mile in favor of this route over the more northern lines. Trade will not be diverted from the Memphis and Little Rock road to any other more northern route through St. Louis to New York or Baltimore. In fact, wealth in its movements, like population, adheres to its original parallels of latitude, and Norfolk, by the riches of this and adjacent states, will be made a magnificent commercial emporium.—*Memphis Appeal.*

Connecticut and Passumpsic Rivers R. R.

The earnings of this road for the years ending June 30, 1871 and 1872, were as follows:

	1871.	1872.
From passengers	$233,424 87	$260,721 09
" freights	436,637 86	524,488 34
" mails	13,222 85	13,345 08
" express	7,000 00	7,800 00
" rents	5,101 44	6,413 28
	$695,587 02	$812,767 79
Expenses, viz:		
Maintenance of road	$150,317 80	$182,784 46
Stations and buildings.	12,118 53	18,861 61
Bridges	8,391 08	9,015 45
Wood	50,227 31	56,505 21
Car and locomotive repairs	69,897 86	100,027 23
Oil and waste	6,107 73	6,893 81
Passenger expense	29,696 28	33,160 88
Freight expense	36,404 91	53,508 79
Losses and bad debts	20,120 35	5,113 64
General expense	21,070 92	21,057 11
Tools and machinery	3,070 27	3,984 95
Shop expense	2,807 33	6,170 69
Stationery and printing	1,691 45	6,381 94
	$411,921 82	$503,865 87
Net earnings	$283,665 20	$308,901 92
Add balance of income per last report		5,848 84
Total		$314,750 76
Disbursed as follows:		
Paid trustees of sinking fund		$25,990 00
Interest and coupons		72,756 50
U. S. taxes		2,058 96
Coupons on Massawippi Railroad b'ds		26,869 59
Dividends, February and August, 1872		127 287 00
Dividends on Massawippi shares		24 000 00
Interest balance		867 50
Balance of income		34,921 21
Total, as above		$314,750 76

The increase in gross earnings of the last over the previous year has been $117,180 77; with an increase in expenses of $91,544 05—making the increase in net earnings $25,636 72. The increase of sinking fund for the year is $40,066 03.

The equipment of the road consists of 22 locomotives, 15 passenger, 7 baggage, 320 platform, 10 ore, 10 horse, 55 hay, 93 rack, 170 box, 7 saloons, 20 gravel, 3 crane, 24 push, 24 wood and 38 hand cars. Number of miles run, 458,581. Number of passengers carried, 167,112; do. carried one mile, 5,595,036. Tons of merchandise carried, 171,923; do. carried one mile, 12,253,160. The increase of business on the road is about 25 per cent. on tonnage, and about 11½ per cent. on passengers as compared with the previous year. The increase in mileage has been 121,117, or about 36 per cent. 1,428 tons of new rails, and 37,781 new sleepers have been laid; and 5,720 rails taken up, repaired and relaid. The increase in construction account during the year has been $244,514 83. The report says:

The Passumpsic Road was originally started with the purpose and expectation of making a through line of railroad from Boston to Montreal, by connecting with the Shefford and Chambley Road at the Province line. When, after many years of hard toil and struggling, it reached that point, that road had failed to meet us, and the portion of it which had been constructed, had passed into hands whose interest would not dispose them to connect with the Passumpsic at that point. Being there in the woods, with no prospect of a connection, in a direct line, with Montreal, and being determined in some way to form one with the great lines of railway in Canada, surveys were caused to be made in the valley of the Massawippi Lake, which have resulted in the construction of the Massawippi Valley Railroad, connecting us with the Grand Trunk Railway at Lenoxville, and subsequently extended to Sherbrooke; thus giving us the shortest and most direct line from Boston, as well as the Connecticut Valley and New York, to Quebec and Eastern Canada, and proving of great importance to the road in the increase of both passengers and freight.

The Directors, however, have never lost sight of the original aim and intent of securing a direct line to Montreal. With that in view, they proposed, at the last annual meeting of the stockholders, the following vote, which was unanimously passed:—

"That, should the Directors deem it expedient, and for the interest of this corporation, to assist the Massisquoi and Clyde Rivers Railroad Company in the construction of their road, to connect with a railroad now being built from West Farnham, P. Q., in the direction of Newport, Vt., in order to secure an advantageous business compact with said road, they are hereby authorized to issue the notes of this corporation, to an amount not exceeding the sum of three hundred and fifty thousand dollars, payable at the Treasurer's office, in the city of Boston, in ten years from the first day of July, 1871; with coupons attached, bearing seven per cent. interest, free of United States tax, payable semi-annually on the first days of January and July, in each year; and that the Directors be authorized to dispose of the above notes, for the above purpose, and no other, on such terms as they may think for the best interests of this corporation."

A portion of the notes above authorized have been negotiated, and about $90,000 paid over, agreeable to contract, as the work has progressed.

In accordance with the above vote, negotiations have been carried on with Missisquoi and Clyde River Railroad, which have resulted in a business contract which is deemed of great importance and benefit to the Passumpsic Road, in securing a direct and continuous through line to Montreal. The Passumpsic Road agrees to loan the Missisquoi and Clyde River Road $350,000, to enable it to complete the construction of its Road from Newport to Richford, where it connects with the South-Eastern Counties Junction Railway of Canada, which is now in operation from Richford to Montreal.

By this connection we secure a continuous and direct line from Boston and New York, over the Passumpsic Road, to Montreal, equal, to say the least, to any now existing.

And when we consider the beautiful and fertile valleys of the Connecticut and Passumpsic Rivers, through which it passes, and the magnificent Lake Memphremagog, with the hotel accommodations and other attractions of Newport, we feel that we may reasonably expect a fair share of the travel, both for pleasure and business.

We also confidently expect, by the opening up of this line, a very large accession to the freight business of the road.

On the whole, we feel warranted in congratulating the Stockholders on the condition and future prospects of the road,—that after so many years of hard struggling, we are about to accomplish the end for which the road was at first started, and that we have at the same time secured a good substantial property.

BALANCES, August 22, 1872.

Superintendent.—L. W. PALMER.

Texas and Pacific Railroad.

The Dallas (Texas) *News*, in referring to the progress being made in the construction of this road, says:

The projection and completion of this great national work by Col. Thos. A. Scott, Vice President of the Pennsylvania Railway Company, a corporation controlling nearly four thousand miles of railroad in the United States, is almost overshadowing the Presidential campaign in its magnitude and importance, and is the chief topic in railway circles as well as the South. There are already some supplies, iron, &c., in Galveston, and several locomotives and some rolling stock at Corsicana. The company is bringing in corn, grain and bacon from the West, and St. Louis for the East end of the road. Corn is being bought in large quantities on the Brazos, to be brought here by the Houston and Texas Central Railway. In four weeks fifty thousand ties will be here from Calcasieu, La., and one thousand tons of hay are now being cut between here and Cedar Grove, both contracted for by Maj. Adamson, the chief of the tie and forage department here. Five hundred miles of the road, including the distance between Fort Worth, Dallas and Longview, are to be completed within fifteen months. Work is to commence from Dallas with an immense force, going East and West at the same time, on the 1st of October. There are a large number of laborers already coming in and scattering themselves along the line of the road, but there is room for many more tie cutters, laborers and teams. The company have erected a commodious office on Elm Street for the officers of the road stationed here, and the work inaugurated by that railway Titan, Colonel Scott, goes bravely on.

☞ A Pennsylvania coal company has recently purchased sixty-five acres of land at India Point, Providence, R. I., for a coal depot, and will begin work, preparing the docks, tracks, etc., immediately. It is understood that the Providence and Worcester Railroad Company will build a branch road from Valley Falls to India Point to accommodate its coal business.

Vermont Central and Vermont and Canada Railroads.

At a meeting of the stockholders of the Vermont and Canada Railroad, and the holders of the bonds and other securites of the Vermont and Canada and Vermont Central Railroads, held in Boston on the 1st inst., ex-Governor Smith presented the Report of the Managers, prefacing it with the following remarks:

GENTLEMEN: Before I read the report it may be proper for me to say that the extraordinary character of the assults which have been made upon the managers of the Vermont Central and Vermont and Canada Roads seem to demand from them as full an exposition of the affairs of the company as it was possible for them, in the limited period of time allotted to them, to make to you: and, therefore, if the report of the managers is somewhat lengthy, I have only to ask your patient indulgence while I submit to you the

REPORT OF THE TRUSTEES.

To the Security Holders of the Vermont and Canada and Vermont Central Railroads:

GENTLEMEN—In submitting their report the trustees and managers do not feel called upon to reply to the wanton attack made upon their personal character, nor to attempt any specific refutation of the charges of corrupt practices preferred against them in the public press further than a simple statement of facts and a truthful history of the administration of their trust may in themselves afford a denial of the truth of these charges.

The duties of the trustees and managers are of a higher character than a simple vindication of themselves. The charges which have been made so publicly of maladministration strike a fearful blow at parties and interests beyond and of higher importance than the personal status of the individuals who compose the board of management. They affect the values of all the securities of the road held by innocent parties. They strike at the vital energies of a great public enterprise, valuable to the State and community through which it runs, and of immense importance to all the commercial relations and interests of a great city. Wanton assaults upon it, therefore, and in such a public manner, even if the grounds for such charges were true, cannot be justified upon any principle of sound policy, and when, as in this case, these sweeping charges of corruption and personal aggrandizement are without real foundation, it becomes only the more reprehensible and inexcusable. If wrong existed in the management it was easy to reach and correct it without runing the enterprise; it was easy to reach and punish the wrongdoers without utterly prostrating all the securities held by innocent parties. It is a source of regret, therefore, to the managers that any public journal claiming a position of respectability should lend its columns and its influence to assail in so violent a manner the standing and credit of a road like this, until at least it was well assured from a proper examination of all the facts that its charges could be sustained and were, in fact, true.

A brief reference to the history of the road from the date of the first connection of a portion of the present managers with it is necessary to a proper understanding of the true position of the road and its relations to its security holders.

At the date of their entering upon the management of the property the road was deeply involved in litigation. The rent of the Vermont and Canada Road was largely in arrears and a bill in Chancery was pending to establish the right of that company under the lease to the possession of its own and of the Vermont Central Road.

The first and second mortgage bondholders, parties defendant to this bill, denied the validity of the Vermont and Canada lease and their right to the possession of the Vermont Central for the recovery of their over-due rents.

The first mortgage bondholders also had a bill in Chancery pending to foreclose their mortgage and various other suits growing out of and incidental to these were pending. In addition to this the Legislature of the State of Vermont had at its previous session passed an act imposing upon the Vermont and Canada Company, as a condition to the preservation of its charter, the necessity of constructing a branch into Burlington to connect with the Rutland and Burlington road by a circuitous and expensive route, which, according to the estimate made, would involve the Vermont and Canada Company in the expenditure of over a million of dollars.

In this condition of the affairs of the company the road had become greatly impoverished; its road-bed and track were in a sadly depreciated condition, the iron hardly safe to run over, nearly two-thirds of the Vermont Central between Windsor and Burlington at sub-grade, and nearly all the Vermont and Canada without ballast, and a portion of it on trestles, the equipment largely depreciated, the bridges badly decayed and many of them requiring immediate reconstruction. The attention of the managers was absorbed and distracted in attending to the lawsuits which were prosecuted with great bitterness, and no time left them to look after the business of the road nor to develop its resources and traffic.

At this juncture of its affairs an effort was made to compromise and settle on a satisfactory basis all the then pending litigation. After a protracted negotiation a settlement was effected establishing the validity of the Vermont and Canada lease and providing for the payment of its accruing rents and also for the rents overdue which had accumulated during the period of litigation. Provision was also made for the construction of the branch into Burlington on an improved line and at a reduced cost. The change in the route reduced the cost to less than $400,000. To accomplish this change in the route, however, the sanction of the Legislature was necessary and the consent of the Rutland and Burlington Road was required. These were obtained in the Fall of 1859, but on condition that the branch should be completed within a brief period.

Subsequently a new compromise between the bondholders of the first and second mortgages and the Vermont and Canada was made, by which the over-due rents of the Vermont and Canada Railroad were capitalized in part and the capital of that company increased from one million three hundred and forty-eight thousand five hundred dollars to two millions of dollars, and the over due coupons of the first mortgage bonds, amounting to over a million of dollars, were funded and the first mortgage increased from two millions to three millions of dollars and extended for twenty years. The trustees and managers were also required to pay to the Vermont and Canada stockholders the sum of $97,000, balance of overdue rent, in three years after date, with interest. The second mortgage was to surrender its coupons, all of which, together with the principal of the mortgage, were overdue, and the same was to be extended for twenty-five years.

The stock of the Vermont and Canada was also further increased to the extent of $250 000, to be distributed among the holders of the first mortgage bonds in payment of their coupons.

This compromise, effected by negotiations of leading representatives of the various classes of securities, was subsequently embodied in a decree of the Court of Chancery of the State. The decree of the court, however, being only professedly an aid to the parties in carrying out the compromise, could not, of course, become binding upon all so as to permanently establish the rights of the parties except in one or two ways; 1st, by the individual assent of all the holders of the securities embraced within the scope of the decree, or, 2d, by the acquiescence of the parties.

In order, therefore, to give validity to this decree and so render it obligatory upon all, the several stockholders and bondholders as they received the new shares allotted to them in the Vermont and Canada stock under the decree, and the new coupons under the two mortgages by which the time on each was extended, were invited to execute their receipt therefor, and assent to the conditions of the compromise. In this way the decree became of binding force upon all.

By the terms of this compromise it was provided that the road should be held permanently in the hands of the Court of Chancery, and the earnings, after paying the expenses of operating and maintaining the property, should be distributed among the holders of the several classes of securities according to their order of priority.

By the provisions of this last decree the status of the parties became fixed and the relations of the trustees and managers to the property and to the security holders were established, while at the same time their relations to the public as common carriers charged with the duties and incidents attaching to such a position were defined.

From the date of the settlement of the conflict among the security holders the road began to develop its business.

The fact that harmony was restored inspired confidence, the public were reassured and all the material elements of growth and prosperity began to manifest themselves along the whole line. The stimulus thus given to the business created new and constantly increasing demands for enlarged facilities, and these in their turn created the necessity for increased expenditure. The limited and depreciated equipment was soon found to be inadequate to meet the demands of the increasing business. Additional trains were required, and as these increased in number the necessity for improved track in order to secure an economical working of the road was rendered more imperative.

These improvements and enlargements required a large outlay of money, and with a road under corporate management would have been supplied by an increase of its capital account and thus the earnings of the road would have been held legitimately to be applied to the payment of dividends. But under the peculiar management incident to a road in the charge of the court, the road has no means out of which to meet these necessary expenditures but the earnings of the road itself, except as money was from time to time obtained upon the credit of the management. As these necessities forced themselves upon the managers, authority was given by the court to make, in some instances, long loans, or to convert temporary loans into funded loans, and these loans now constitute the trust liabilities of the management, and are from the very necessities of the case a first charge upon all the property in the hands of the managers.

The branch into Burlington was constructed out of the earnings of the road. The wharves at Burlington to accommodate the large lumber business were built. Then followed the purchase of the Stanstead, Shefford and Chambly Railroad, and immediately thereafter came the demand for the construction of the new road to Canada line in the town of Highgate, in compliance with the charter of the Vermont and Canada.

In 1865 the wants of the road, thus rapidly expanding by the opening of new avenues for business, demanded large increase of facilities, and for this purpose authority was given to make a loan on ten years time and the first equipment bonds were issued. This loan, as stated in the order made by the chancellor, was for the purpose of purchasing equipment and for necessary improvements.

In 1867 an additional increase of the capital stock of the Vermont and Canada Road was authorized to the extent of two hundred and fifty thousand dollars, which was to be expended first in payment of the $97,000 and interest, amounting in all to about $114,500, due that company under a former decree and which was about maturing and to pay dividends falling due 1st June, 1867, and the balance was to be sold to apply to the extinguishment of trust liabilities.

Authority was also given to issue the notes of the trustees and managers to the amount of five hundred thousand dollars, and to secure the same by a pledge of the stock and first mortgage bonds

of the Stanstead, Shefford and Chambly Railroad, in the hands of the trustees and managers and which are now held by the managers as assets for the security of these notes.

The said notes thus issued were to be delivered to the holders of the first and second mortgage bonds in payment of coupons maturing in June and December then following. Of these notes $448,800 have been issued and disposed of in accordance with the decree of the court. The balance are now in the hands of the trustees and managers as assets.

The trustees and managers were also authorized to borrow three hundred thousand dollars to extinguish the liabilities of the trustees and managers incurred in the development and improvement of the property.

In 1869 a further loan of five hundred thousand dollars was authorized, and if approved by the Committee of the First and Second Bondholders and the necessities of the road required it, an additional five hundred thousand, making in all one million of dollars.

In 1871 authority was granted the Vermont and Canada to further increase their capital stock to to the amount of five hundred thousand dollars and to deliver the same to the trustees and managers in settlement of certain expenditures made by the trustees and managers for and in behalf of the Vermont and Canada Road, and also authorized and empowered the trustees and managers to issue their notes to the amount of one million of dollars, to be endorsed and guaranteed by the Vermont and Canada Company, for the purpose of paying the liabilities incurred by the trustees and managers in supplying equipment and in other necessary improvements of the property.

All these several orders and decrees were made by the consent and with the approbation of the Vermont and Canada Company and the Committee of the First and Second Mortgage Bondholders.

The amount of all these securities may, therefore, be stated thus:

Vermont and Canada original stock ...		$1,348,500
Addition by compromise decree to pay back rents		651,500
Addition to pay bondholders		250,000
Towards building Swanton Branch		250,000
To reimburse trustees and managers for expenditures on their account		500,000
		$3,000,000
Original first mortgage	$2,000,000	
Increase to pay back coupons	1,000,000	
S. S. and C. bonds to pay coupons of first and second mortgages	500,000	
Equipment bonds	2,000,000	
Vermont and Canada guaranteed 8's	1,000,000	
		6,500,000
		$9,500,000

The interest on this debt chargeable upon the funds of the road, is as follows:

Vermont & Canada stock	$3,000,000	8 per ct.	$240,000
1st mortgage bonds.	8,000,000	7 " "	210,000
S. S. and C. bonds..	500,000	7 " "	35,000
Equipment loan....	2,000,000	8 " "	160,000
Vt. & Can. guaranteed 8 per cent...	1,000,000	8 " "	80,000
	$9,500,000		$725,000

Of this sum there is properly chargeable to the trust, as funds for which they should account, the following:

1. Issue Vermont and Canada stock towards constructing Swanton Branch. $250,000
2. Issue of Vermont and Canada stock to reimburse fund for building Burlington Branch, and other expenditures 500,000
3. Equipment loans 2,000,000
4. Vermont and Canada 8s 1,000,000

The bonds known as the Stanstead, Shefford and Chambly Bonds, although perhaps properly a Trust debt, are nevertheless secured by the bonds of the S. S. and C. Railroad, amounting to over six hundred thousand dollars, and about five hundred thousand dollars of the stock of that road.

The bonds and stock of the S. S. and C. Railroad thus held by the trustees and managers carry in fact the title to that property, and the notes of the trustees and managers issued on the strength of the pledge of these are therefore substantially the First Mortgage Bonds of the S. S. and C. Railroad, and having been issued for the specific purpose of distribution to the bondholders, ought not in fairness to be reckoned as part of the trust debt against the management.

These bonds and stocks are, however, entered properly as assets in the statement of the Treasurer given below, and it is believed that they are a good and ample security for the notes of the trustees and managers.

There should be added to the above interest account the interest on the Missisquoi Bonds, so called. The principal of these bonds is not a trust liability. The bonds are issued by the Missisquoi Railroad, and secured by a first mortgage on that road. The road is about twenty-eight miles in length, extending from St. Albans to Richford, and runs through the rich and fertile valley of the Missisquoi river, the great dairy producing portion of Franklin county. The trustees and managers have leased the road on a durable lease, agreeing to pay therefor as rental forty per cent. of the gross receipts of the road, and have guaranteed that the forty per cent. shall be equivalent to the interest on the $500,000 of the First Mortgage Bonds.

If in any year the forty per cent. of the gross receipts shall be insufficient to pay this interest, then the deficiency advanced by the trustees and managers constitutes a debt against the road, to be paid back out of the earnings.

The Road is one that can be economically operated. The country through which it passes is thickly populated and is an exceedingly rich one. Besides the dairy products there are extensive timber districts, composed principally of the finest spruce and hemlock which will thus be opened to market. There are also rich mineral deposits along the line, prominent among which are iron ore and yellow ochre, existing, it is believed, in large quantities and of the richest quality.

The towns on the line of the road contributed by way of town bonds authorized by act of the Legislature, to the extent of two hundred and twenty-four thousand dollars, the proceeds of which were expended upon the road and formed the basis of the first mortgage bonds. It is a valuable feeder and will soon be a remunerative one.

The interest on these bonds, therefore, added to the above interest to be provided for, makes the total sum annually chargeable upon the earnings of the road at the present time seven hundred and sixty thousand dollars.

It will be noticed that in this calculation the second mortgage bonds are omitted, for the reason that in the compromise above referred to it was the understanding that these bonds should not be considered until the development of the road fully justified their being taken on as an interest bearing security.

Adding these, however, and the total capital chargeable to the Vermont and Canada and Vermont Central roads proper with their extensive and valuable properties and business relations stands at $11,500,000. From this deducting the S. S. and C. bonds, which in fairness should not be reckoned as part of the Vermont Central capital, $500,000, and we have $11,000,000. From this deducting again the second mortgage bonds, and we have a capital chargeable at this present time to the road for interest and dividends, $9,500,000.

On this latter basis the average per mile of the two roads—Vermont Central and Vermont and Canada Railroads, 184 miles—is about $51,000; or, including the second mortgage at its full face value, the average per mile would be about $58,700.

The Managers submit to any candid mind whether even on the latter and fairest basis of the computation the road in its high condition, with its equipment and its valuable real estate and wharf property, does not stand at a very low average of cost.

The injustice and untruthfulness of the criticisms which have been so freely indulged in recently, is made most glaringly apparent when it is remembered how much the road has had to contend against to attain its present position of power and productive capacity.

Forced by the requirements of the charter to build two expensive branches to the main line, obliged to ballast almost the entire length of the track of both roads, to reconstruct almost the entire rolling stock and equipment and at the same time to more than double both the cars and motive power, to construct new and enlarged shops, to rebuild almost every bridge on the line, and at the same time to meet with regularity and promptness the dividends and interests on all the securities, while the only resources at the command of the Managers have been the earnings of the road and the comparatively small amount of loans which they have been enabled to make; when all these are considered the Managers do not hesitate to say that but few if any roads in the country can show a more rapid or a more satisfactory and successful development, nor do they believe that any evidence of a want of fidelity to their trust can be discovered.

The argument that because the annual reports do not show a large net over the operating expenses, that therefore it is to be accepted as proof of mismanagement, and that the road does not and cannot earn its dividends and interest, is not altogether sound.

The construction account was closed on their assuming the management, and all expenditures were charged to operating expenses. The reports have therefore, always shown the worst against the Managers.

Nevertheless the fact remains that as each half year revolved, the dividends and interest on all the securities chargeable upon the trust have been regularly paid. The additional fact also remains that each year has exhibited a steady improvement in the condition and value of the property. Each year has exhibited a growth of its business, an increase of its earnings, and a large augmentation of tonnage; while the other and not less important fact remains that the only source of supply from which to create all this was simply the earnings of the road, and the money borrowed and funded from time to time. How small a portion of the amount expended in developing this property was derived from added capital will fully appear from the report of the Treasurer herewith submitted—while on the other hand the question whether the road has legitimately earned its dividends and interest will find a ready and affirmative solution. The managers commend the statement so carefully prepared by the Treasurer to the thoughtful consideration of the security holders, as also to those who, from whatever motive, are so ready to malign and disparage the management.

In consequence of the continued and persistent assault of the enemies of the Road upon its credit, and the stringent close money market, the Trustees and Managers were compelled temporarily to pass their maturing obligations. With resources more than abundant to pay all its liabilities, but not for the moment available, with a Road never in all its history more prosperous, with business and earnings in excess of any former period, in all its appointments in the highest state of efficiency, it was nevertheless forced to yield to the combined pressure.

With the motives which have actuated those who have thus assailed the character and standing of a great and successful enterprise, the Managers have at this time and in this place nothing to do. They have here to do only with the causes which produced the result so far as they themselves are concerned in it.

The statement of the Treasurer accompanying

this will give the amount of the floating debt and the cause of it, together with the resources of the Road.

From this report it appears that on the 1st day of June the total floating debt was $2,278,164 42, and the available assets were $1,349,249 57, leaving the actual floating debt $1,528,915 85.

This debt consists in large part of the deficiencies in the earnings of the Ogdensburg and Rutland Roads to meet the expenses of the rentals.

The reasons which existed at the time for making the contract for operating the Ogdensburg and Lake Champlain Road were considered good and sufficient by all the parties to the negotiation.

The subject was well and carefully matured and the value and importance of the road to the Vermont Central and Vermont and Canada roads as well as to the interests of the whole line, were fully conceded.

Present at the negotiation and participating with the Trustees and Managers were the Committee of the Vermont and Canada Company, specially appointed by the Board of Directors for that purpose.

After the completion of the negotiations and the terms of the contract had been agreed upon and the preliminary contract had been drawn, the Directors of the Vermont and Canada Company called a special meeting of their stockholders specifying the object of the meeting to be the consideration of the question of authorizing the lease.

At this meeting the whole question was fully discussed by the stockholders, and they voted unanimously to authorize the execution of the contract.

The contract is in the name of the Vermont and Canada Company, the Trustees and Managers joining in the contract and agreeing to carry out its terms and provisions.

The rental paid for the road, while considered large at the outset, and with a full recognition of the fact that loss would ensue in all probability for the first few years, yet as the term of the period of management extended for twenty years, it was believed that the growth and development of the property during that period would fully justify the undertaking, and that all losses which might arise for the early period of the contract would be more than covered during the whole term, and a handsome profit result to the Vermont Central and Vermont and Canada Roads.

In this view the other roads in the line from White River Junction to Boston, who are also in interest in the contract, fully shared. Yet with this fact fully in view it was thought advisable to secure the control of the road, and the contract was accordingly executed by the Vermont and Canada Company by their committee appointed for that purpose, and by the Trustees and Managers.

The deficiencies, therefore, have not come unexpectedly; nor are the Trustees and Managers surprised; nor is their faith and confidence in any manner shaken in the value of the contract; nor are their views changed as to the wisdom of making it. The deficiencies are by no means altogether losses, as has been erroneously stated. On the contrary, while the deficiencies go to constitute a portion of the present debt of the Trustees and Managers, a large sum should be charged in account of assets.

Precisely to what extent this should be done can only be determined by a revaluation and appraisal of all the property embraced in the contract. Certain it is that to the extent of the new equipment added, and the large amount of wood and other materials on hand, together with the new station and other buildings added to replace old ones burned or otherwise destroyed, the improved condition of the track, expenditures on wharf and terminal property, all these, which constitute a large expenditure, enhancing the value of the property and are embraced in the current operating expenses of the road, are in fact assets, and should not in any sense be charged to the account of loss, as at the final or other sooner determination of the lease the whole property is to be revalued and appraised, and the lessees have the full benefit of the improvements and enhanced valuation.

The same remarks hold true in reference to the lease of the Rutland road. The deficiency there is larger in proportion than on the Ogdensburg and Lake Champlain Railroad. Yet large expenditures have been made which are property assets, and to some extent available to apply toward the rents to be paid.

The account of the Trustees and Managers for work done on the Addison road in order to put it in proper condition to be operated, is a clear asset, and applicable in the hands of the Trustees and Managers to the rents to become due to the Rutland road. Yet this sum is included in and constitutes a part of the operating expenses of the road, and hence swells the deficit against the Trustees and Managers, and constitutes a part of their present debt.

In addition to this a considerable outlay of money has been required to complete and protect the road where it was washed away by the terrible freshet of 1869.

Equipment has also been added, the track greatly improved, two old station houses which were burned rebuilt in substantial form—all embraced in operating expenses, yet not chargeable to loss.

Thus reduced, the actual losses on these roads will fall below the amount estimated by the trustees and managers at the time of taking the lease. The trustees and managers do not by this mean to underestimate the real losses on these roads, yet the extravagant statements made in reference to them in the public prints are not justified by the facts in the case. The large expenditures immediately demanded are, however, made, and will not probably be required again to anything near the same extent, while on the other hand both roads are improving in their earnings, and it is not unreasonable to believe that the coming year will show a large and favorable reduction of deficit. Indeed, at the present ratio of increase of earnings and such reduction of expenses as can now be safely made there is good ground for hope that the Ogdensburg at least will be self-sustaining, and that the Rutland proper, the Vermont Valley and Vermont and Massachusetts will also pay the rents out of the earnings, leaving the deficiency, if any, to fall upon the other branches.

Another item in the floating debt of the trustees and managers is the amount paid for the wood, shop stock and materials on hand on the Rutland road at the date of their taking possession of the same. This was largely in excess of what was estimated by the parties. It was taken at an appraised value and was worth what it was valued at. This amounted to $418,000.

The question of attempting to retain these leases or of abandoning them is one of too much importance to be lightly passed upon. They were assumed not by the trustees and managers alone, but as the deliberate sense of the stockholders and bondholders as under all the circumstances the wisest and best thing to be done.

Not after a proper and careful examination of all the facts, it may be the most desirable thing to negotiate with the parties for a surrender of them. But the question is of too grave importance to be disposed of rashly. Even if thought advisable under all the circumstances to seek a release, it should be done as a matter of negotiation with the parties in interest in those roads. To seek to accomplish it by a rash forfeiture under a momentary excitement would only be to expose the trust property and the Vermont and Canada Company to excessive demands for damages and seriously impair and retard their claims for reimbursement for the moneys expended in the improvements made upon both roads.

The trustees and managers have at this time no opinion to express in reference to the question of what action is wisest.

They simply acted in concert with the other parties in interest in the property which they manage in making the leases, and therefore can only signify their readiness and willingness to confer, if desired, with the same interest, in carefully considering the question of release.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.
$3,500,000.

This is an EAST AND WEST ROAD RUNNING ON THE 40TH PARALLEL FROM INDIANAPOLIS, IND., TO DECATUR, ILL., 152 miles; through the richest agricultural and mineral country of both states; and connecting at termini with the GREAT THROUGH ROUTES to the East and West.

It is the only East and West road in a belt averaging 30 miles wide, and passes through the best part of the rich

BLOCK COAL FIELD

of Indiana, in which the COMPANY OWNS 2,000 ACRES OF BLOCK COAL LANDS. It owns, also, 30,000 acres of Farming lands.

$1,400,000 IN CASH HAS BEEN ALREADY EXPENDED ON THIS ROAD, of which 30 miles in Illinois are finished and in operation. Fifty-five miles more, completing the Western Division, Decatur to the Coal Fields, will be completed this fall and the whole road in 1873.

Upwards of TWO MILLIONS OF DOLLARS more are pledged to the enterprise, partly by counties, towns and individuals along the line, but chiefly by wealthy capitalists, among whom are W. H. GUION (of WILLIAMS & GUION), SIDNEY DILLON, JAY COOKE & CO., CLARK, DODGE & CO, J. & W. SELIGMAN, VIBBARD, FOOTE & CO., and PAUL S. FORBES, of New York, BENJ. E. BATES, of Boston, HENRY LEWIS, of Philadelphia, and GEO. M. PULLMAN, of Chicago.

Bonds $1,000 each, payable in 30 years, principal and interest in *Gold, free of Government Tax*. Sinking Fund 2½ per cent. on Gross Earnings.

For sale at 90 and accrued interest by the Financial Agents of the Co. (of whom pamphlets and information may be obtained.)

Walker, Andrews & CO.,
NO. 14 WALL STREET.

☞ The land sales of the Burlington and Missouri River Railroad Company for September amounted to 18,444 acres, aggregating $168,482 36. The total sales to October 1 were 446,070 acres, aggregating $4,367,053 37, and the company have a million and a half more acres for sale.

☞ Mr. T. B. Edgar, of St. Louis, has been elected President of the Pacific Railroad of Missouri, in place of Hon. Joseph Brown, resigned; and Mr. John I. Taussig, of the banking house of Taussig, Gempp & Co., Vice President.

RAILROAD EARNINGS—MONTHLY.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of September, were :

ENTERED FOR CONSUMPTION.

	1871.	1872.
Manufactures of wool.....	$3,427,466	$2,478,180
" cotton...	1,432 826	1,492,261
" silk	2 721,685	2,009,211
" flax	1,082,125	973,468
Miscellaneous dry goods..	923,189	622,092
Total entered for consump.	$9,587,291	$7,575,162

WITHDRAWN FROM WAREHOUSE.

	1871.	1872.
Manufactures of wool	$1,527,742	$3,251,822
" cotton ...	412,339	758,396
" silk.....	1,036 503	1,359,851
" flax	362,972	470,900
Miscellaneous dry goods..	104,818	221,063
Total withdrawn from warehouse	$3,444,374	$6,061,532
Add entered for consump.	9,587,291	7,575,162
Tot. thrown on the market.	$13,031,665	$13,636,694

ENTERED FOR WAREHOUSING.

	1871.	1872.
Manufactures of wool	$1,181,253	$1,707,557
" cotton ...	298,300	621,012
" silk.....	649 252	884.784
" flax	369,095	588.717
Miscellaneous dry goods..	109,805	142,422
Total entered for wareh'g..	$2,607,705	$3,944,492
Add entered for consump.	9,587,291	7,575,162
Total entered at the port.	$12,194,996	$11,519,654

The imports of foreign dry goods at New York for eight months from January 1, were:

ENTERED FOR CONSUMPTION.

	1871.	1872.
Manufactures of wool...	$23,516,281	$19,722,255
" cotton.	16,764,793	17,132,202
" silk ...	2?,884,153	21,543.641
" flax ...	9,724,632	10,114,698
Miscellaneous dry goods	8,306,982	7,563,529
Total entered for cons'p.	$82,196,841	$76,076,325

WITHDRAWN FROM WAREHOUSE.

	1871.	1872.
Manufactures of wool ...	$10,284,903	$15,886,288
" cotton..	4,410,955	7,246,590
" silk	6,116,737	8,276,083
" flax	4,234,589	5,026,893
Miscellaneous dry goods.	1,187,394	1,654,849
Total withdrawn from warehouse	$26,234,578	$38,090,703
Add entered for consump.	82,196,841	76,076,325
Total thrown on the market....	$108,431,419	$114,167,028

ENTERED FOR WAREHOUSING.

	1871.	1872.
Manufactures of wool....	$11,038,437	$17,497,619
" cotton..	4,835,378	7,737,092
" silk	6,760,233	9,468,967
" flax	3,553,514	5,557,365
Miscellaneous dry goods.	1,487,301	2,115,550
Total entered warehouse.	$27,674,863	$42,376,593
Add entered for consump.	82,196,841	76,076,325
Total entered at the port.	$109,871,704	$118,452,918

☞ The earnings of the Central Pacific Railroad company in September, 1872, were $1,332,-220, against $995,921 in September, 1871, and $787,183 in September, 1870—an increase over 1871 of $336,299, and over 1870 of $545,037. For the first nine months of 1872 the earnings were $9,304,428, against $6,916,474 in 1871, and $5,-805,463 in 1870—an increase over 1871, of $2,-387,954, and over 1870 of $3,498, 965.

Maryland and Pennsylvania Railroad.

This company, which proposes to build a double track narrow gauge railway from Baltimore city to the Pennsylvania State line, there to connect with the "State Line and Juniata Railroad," making a through line to Philadelphia, has been making preliminary surveys in Baltimore county for some time, and ascertaining, through its agents, what material aid can be relied upon in our country. Sufficient foreign capital has already been secured to put the road under contract and to pay fully one-half the cost of it. We learn from a conversation had with a gentleman connected with the enterprise that no subscription to the capital stock is solicited from our citizens, but merely an investment in the company's seven per cent. gold interest bonds, secured by mortgage on the road. This aid is not required until the road shall have been graded and ready to receive the rails.—*Towsontown Herald.*

Interest paid by United States, $16,570.575 54; interest repaid by transportation of mails, &c., $3,828,026 51; balance of interest paid by United States, $12,742.547 03.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, Sep. 30, 1872.

WILLIAM. A. RICHARDSON,
Acting Secretary of the Treasury.

☞ The earnings of Union Pacific Railroad in August, 1872, were $789,767 56; and the expenses, $358,525 52—leaving net earnings $431,-042 04. In August, 1871, the earnings were $681,865 83, the expenses $299,624 74, and the net earnings, $382,241 09—showing an increase in earnings of $107,701 73, in expenses of $58,-900 78, and in net earnings of $48,800 95. From January 1 to August 31, 1872, the earnings were $5,374,566 80; and the expenses, $3,102,509 10—leaving net, $2,271,057 70. For the corresponding time in 1871 the earnings were $4,765,-843 53, the expenses $2,304,814 40, and the net earnings, $2,461.029 13—showing an increase in earnings of $608,723 27, with an increase in expenses of $798 694 70—making the decrease in net earnings $189,971 43.

☞ The sales of the Land Department of the Union Pacific Railroad Company for the month of September, 1872, were 14,086 acres, amounting to $71,207, at an average of $5 05 per acre. The total sales from July 28, 1869, to the present date, are 628,394 acres, amounting to $2 664,431, at an average of $4,24 per acre. Number of purchasers in September, 1872, is 155; average to each, 91 acres.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State and Railroads are distinguished by a "S."

American Railroad Journal.

Saturday, October 12, 1872.

Stock Exchange and Money Market.

Through the earlier part of the week Money was very close and dear to most of the borrowing classes, chiefly through speculative manipulations of the supply, though the city banks did their utmost to aid their customers to work through the pressure with the least possible inconvenience. On Monday, Secretary Boutwell announced the prompt sale of five millions of Gold, and the purchase of five millions of bonds, on Government account, outside of the previously published October programme, with the view of relieving the Gold pinch, and the Money stringency. The Treasurer, it was said, in making the extra sales of Gold, decided to leave the proceeds with the National Banks to the credit of the United States Treasurer, and in making the extra purchases of United States 5-20s (within the usual limit as to price,) for the Sinking Fund, to pay therefor in Greenbacks out of the hoard in the Treasury. The bids for the Gold in the aggregate reached the large sum of $17,679,000, at prices ranging from 111 to 113.01. The offers of bonds were $6,930,200 in the aggregate at 112.74 to 115. These operations were discussed with much spirit in financial and commercial circles. The demand in each instance reached the specified amount of five millions. On Tuesday and Wednesday, Money was in much better supply in the open market, and call loans were more easily negotiated, the closing figures having been equal to the legal rate of 7 per cent. though with exceptions under this quotation. Mercantile credits were also in freer currency at from 9@12 per cent. per annum for the best paper. The City banks, last week, had all their averages reduced materally, though closing the week with a tendency toward renewed accumulation, especially of currency. The Sub-Treasury cut down its currency balances a quarter of a million, and enlarged its coin reserves about ¾ths of a million.

Under the Treasury programme for October, Government proposes to sell, Gold, as follows: Thursday Oct. 17th, $1,000,000; Thursday Oct 24th, $1,000,000; Thursday, Oct. 31st, $1 000,000. And to buy in, Five Twenties, as follows: Wednesday, Oct. 16th, $1,000 000; Wednesday, Oct. 23nd $1,000,000; Wednesday, Oct. 30th, $1,000,000.

The U. S. Sub-Treasury office last week received $7,952,401 of currency, and $3,767,378 of gold, the latter including $2,950,000 from customs; and disbursed $8,230,429 of currency and $3,052.159 of gold, the latter embracing $290,480 of coin interest. The city banks reduced their loan and discount average nearly 2½ millions during the week, and contracted their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $17,154,052, and a coin reserve of $56,230,013.

The city banks, in their latest return, show a falling off of $3.067,100 of legal tender notes with a further reduction of $2,019,600 of specie and $9.229,800 of deposits, also a contraction of $2,483,500 in their loan and discount averages, and of $130,900 in their item of circulation. The city bank exchanges, last week, averaged 129½, and thus far, this week, about 133½ millions daily. The banks now hold $1,596,500 of specie and legal tender notes less than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $9,943.900, against $10,276,100 same time last year. The city bank deposits are now $186,150,200 against $222,583,100, week ending Oct. 7, 1871. The legal tender reserve amounts to $41,915.700, against $54,596 100 same time last year. The circulation now stands at $27,604,200 against $30,260 100 same time last year. The loans are now $269,810 300 against $298,156,200 at this date last year.

The coin reserve of the city banks is now about 9⅞ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 41⅞ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 186½ millions, against 247½ millions on the 20th of July.

A moderate yield has been reported in the line of customs and excises, since our last. The excises yielded within the week about 2¾ millions and thus far in the current fiscal year beginning with July 1, 1872, $37,359,085. The customs at the port of New York last week were $2,182,-

American Railroad Journal

Saturday, October 12, 1872.

Stock Exchange and Money Market.

Through the earlier part of the week Money was very close and dear to most of the borrowing classes, chiefly through speculative manipulations of the supply, though the city banks did their utmost to aid their customers to work through the pressure with the least possible inconvenience. On Monday, Secretary Boutwell announced the prompt sale of five millions of Gold, and the purchase of five millions of bonds, on Government account, outside of the previously published October programme, with the view of relieving the Gold pinch, and the Money stringency. The Treasurer, it was said, in making the extra sales of Gold, decided to leave the proceeds with the National Banks to the credit of the United States Treasurer, and in making the extra purchases of United States 5-20s (within the usual limit as to price,) for the Sinking Fund, to pay therefor in Greenbacks out of the hoard in the Treasury. The bids for the Gold in the aggregate reached the large sum of $17,679,000, at prices ranging from 111 to 113.01. The offers of bonds were $6,930,200 in the aggregate at 112.74 to 115. These operations were discussed with much spirit in financial and commercial circles. The demand in each instance reached the specified amount of five millions. On Tuesday and Wednesday, Money was in much better supply in the open market, and call loans were more easily negotiated, the closing figures having been equal to the legal rate of 7 per cent. though with exceptions under this quotation. Mercantile credits were also in freer currency at from 9 @12 per cent. per annum for the best paper. The City banks last week, had all their averages reduced materially, though closing the week with a tendency toward renewed accumulation, especially of currency. The Sub-Treasury cut down its currency balances a quarter of a million, and enlarged its coin reserves about ¾ths of a million.

Under the Treasury programme for October, Government proposes to sell, Gold, as follows: Thursday Oct. 17th, $1,000,000; Thursday Oct 24th, $1,000,000; Thursday, Oct. 31st, $1,000,000. And to buy in, Five Twenties, as follows: Wednesday, Oct. 16th, $1,000,000; Wednesday, Oct. 23nd $1,000,000; Wednesday, Oct. 30th, $1,000,000.

The U. S. Sub-Treasury office last week received $7,952,401 of currency, and $3,767,378 of gold, the latter including $2,950,000 from customs; and disbursed $8,230,429 of currency and $3,052,159 of gold, the latter embracing $290,480 of coin interest. The city banks reduced their loan and discount average nearl 2½ millions during the week, and contracted their outstanding circulation slightly. The U. S. Sub-Treasury held a currency balance on Wednesday morning of $17,154,052, and a coin reserve of $56,230,013.

The city banks, in their latest return, show a falling off of $3,067,100 of legal tender notes with a further reduction of $2,019,600 of specie and $9,229,800 of deposits, also a contraction of $2,483,500 in their loan and discount averages, and of $430,900 in their item of circulation. The city bank exchanges, last week averaged 129½, and thus far, this week, about 133½ millions daily. The banks now hold $1,596,500 of specie and legal tender notes less than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $9,943,900, against $10,276,100 same time last year. The city bank deposits are now $186,150,200 against $222,583,100, week ending Oct. 7, 1871. The legal tender reserve amounts to $41,915,700, against $54,596,100 same time last year. The circulation now stands at $27,604,200 against $30,260,100 same time last year. The loans are now $269,810,300 against $298,156,200 at this date last year.

The coin reserve of the city banks is now about 9⅞ millions as against about 29½ millions on the 20th of July; the legal tender reserve is about 41⅞ millions against about 55½ millions on the statement of June 15th; and the deposits are now down to 186⅛ millions, against 247⅛ millions on the 20th of July.

A moderate yield has been reported in the line of customs and excises, since our last. The excises yielded within the week about 2¾ millions and thus far in the current fiscal year beginning with July 1, 1872, $37,359,085. The customs at the port of New York last week were $2,182,-

419; and at the outports, equal to about $750,000, all in coin or coin certificates.

Gold fluctuated widely through the week, on an enlarged volume of dealings, mainly of course, speculative. The customs call was moderate, and the direct export drain, light. The Government sale of five millions on Monday added materially to the available supply in the open market, and seriously depressed the price. The later transactions showed decidedly less buoyancy in the speculative movement.

The range of the price during the week has been from 112¼@115¼, and the closing quotation on Wednesday was 112⅛ against 114¼ the preceding Wednesday. The specie outflow last week, was $2,101,404 (including $1,992,898 of Mexican silver in transit). The Gold Exchange Bank clearances have averaged about 77 millions per day during the week.

The customs demand for Gold last week, averaged $492 000 a day; thus far, this week, it has averaged $495,000 a day, or equal to a weekly aggregate of $2,970.000. The arrivals of specie from Europe, Havana and other foreign ports last week were $2,012,721 and since Jan. 1, 1872 were $4,978,600 against $8,256,415 same time in 1871. The total customs revenue of the Government, in coin, at this port since January 1, has been $119,529 941 against $125,752,279 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $59,361,321, against $65,754,791 during the same time in 1871.

The export drain of specie was $2,101,404 last week, against $500,127 same week preceding year. The shipments since January 1, 1872, have been $60,076,209 against $56,202,229 during the same portion of 1871.

Foreign Exchange has been in more demand and decidedly stronger in price, closing buoyantly. Bankers' sixty day bills on London closed on Wednesday at 108⅛@108⅜; sight bills on London, 109¼@109⅜.

The week's exports hence of domestic produce have been to the currency value of $6,225,767.

There has been a livelier business reported in Government securities at firmer and more buoyant prices, on much lighter offerings of the favorite issues.

On Wednesday, Government bought in none of the offered Five-Twenties as none of the offerings were within the Treasury limit. The aggregate offering was only $1,222,300 at from 112 87@112 90.

U. S. sixes of 1881 at the close on Wednesday of the current week were quoted at 115¾@116; U. S. Five-Twenties of 1862, 115@115¼; U. S. Five-Twenties of 1864 at 115@115¼; U. S. Five-Twenties of 1865, 115@115¼; U. S. Five-Twenties of 1865 consolidated, 114@114⅛; U. S. Five-Twenties of 1867, 114@114¼; U. S. Five-Twenties of 1868, 114@114¼; U. S. Ten-forties at 107¾@108 U. S. Fives of 1881 (Funding Loan) 110¼@111¾; Six per cent. currency bonds, 111⅞@112.

The aggregate exchanges at the City Bank Clearing House during the year ending with Sept. 30, were as follows: Currency exchanges, $32,636,997,403; Gold exchanges $1,207,872,164; Currency balances, $1,213,293,827; Gold balances $215,288,880. The total transactions since the organization of the Clearing House—October 11, 1853—amount to $350,652,243,177 84.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Sept. 25.	Oct. 2.	Oct. 9.
Consols	92⅜	92⅝	92⅛
U. S. 5-20s, 1865	93⅛	93⅜	93⅞
" 1867	91⅞	92	92¾
" 10-40s	87⅝	87¾	88
New Fives of 1881	89¼	89¼	89⅛
Erie	39¼	38½	38⅞

State bonds have been in rather more demand at firmer but irregular prices.

Railway and Miscellaneous share property has been decidedly brisker, and toward the close much stronger in price, influenced by the renewed ease in Money. The chief dealings have been in Western Railway shares, and Pacific Mail, and Western Union Telegraph, especially the latter two properties.

Railway Mortgage Loans have been in more general demand on investment account at firm prices, in the instances of the leading lines. Central Pacific Sixes have been in fair request closing firmly at 99¼@99½.

In the Metal line, trade has been light. Ingot Copper has been quiet at yielding prices; sales, 250,000 lbs. at 32½c., cash, 33c. for forward delivery. Scotch Pig-iron has been quoted firm on a moderate business; sales, 150 tons Glengarnock on private terms, quoted at $54 50@55; 100 tons Eglinton at $53 50; 100 tons Gartsherrie at $57; 250 tons Summerlee at $56@57. American Pig-iron less active but quoted steady. Of Wrought Scrap-iron 145 tons sold at $45. Lead dull on the basis of $6 45, for ordinary foreign. Spelter quiet with Siberian quoted at 6¼c.@7⅛c., gold. All kinds of Tin dull, with Straits quoted at 33½c.@33¾c., gold. Sales, 250 boxes Charcoal Plates sold on private terms, with $12 75@$13, gold, given as the current quotation. Zinc inactive at old figures.

General business has been rather less active, in the leading kinds of domestic produce, Cotton, Flour, Wheat, Corn, Rice and Whisky closed cheaper. Pork, Lard, Bacon, Cheese, Hops, Petroleum and Coal firmer. Middling upland cotton closed heavily on Wednesday at 19¼ cts. per lb. The receipts at all the ports, since Sept. 1, have been 279,219 bales, against 154 539 bales same time in the preceding year; exports 46,100 bales against 50,500 bales in the previous year; stock at the ports at latest dates, 171,969 bales against 118,773 bales same date 1871.

At the Live Stock Markets, Beeves have been in more demand at 7@14¼ cts.; Veals at 6@10½ cts.; Sheep at 4½@7⅛ cts.; Lambs, 6¼@9 cts.; Swine, at 5@5¼ cts. per lb., all live weight. The week's receipt were 9,099 Beeves, 2,352 Veal Calves, 25,791 Sheep and Lambs, and 49,098 Swine.

Foreign merchandise has been in fair request at generally firm prices. The week's imports of foreign goods reached the amount of $8,644,238 including $2,108,985 of dry goods.

Ocean freights have been fairly active, particularly for Grain, Cotton and Petroleum, at a further improvement in rates, though closing tamely.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—St. Louis and Iron Mt. 1st mort., 94; Cedar Falls and Minnesota 1st mort., 82; Burlington, Cedar Rapids and Minnesota 1st mort., 91⅜; Toledo, Wabash and Western consols, 88½; Lake Shore and Michigan Southern consols, reg., 100; Albany and Susquehanna 2d mort., 95; Galena and Chicago 1st mort., 100; Central of New Jersey 1st mort., 102⅜; St. Louis, Jacksonville and Chicago 1st mort., 91; Gt. BANKING AND FINANCIAL.

BANKING HOUSE OF FISK & HATCH,
No. 5 NASSAU ST.
NEW YORK, Sept. 18, 1872.

DEPOSITS received, on which we allow interest at the rate of four per cent. per annum. Special arrangements made with Savings Banks and others depositing large amounts.

We issue CERTIFICATES OF DEPOSIT available in all parts of the country, and bearing interest in case of special deposit.

We make COLLECTIONS for merchants and others in all parts of the country.

Orders for INVESTMENT STOCKS and BONDS executed at the Stock Exchange, on commission, for cash.

We deal in GOVERNMENT and other FIRST CLASS SECURITIES, such as CENTRAL PACIFIC and CHESAPEAKE and OHIO Bonds.

The Chesapeake and Ohio Loan having been withdrawn from the market by the Company, the small amount remaining on hand will be disposed of at private sale, giving investors an opportunity to purchase this favorite security upon terms which should insure an advance upon the completion of the road and their introduction at the Stock Exchange.

FISK & HATCH.

☞ The Cincinnati Railroad *Record*, of October 3, says that a mortgage and a deed of trust from the Kentucky and Great Eastern Railway Company to the Farmers' Loan and Trust Company of New York, was left for record on Wednesday, in the County Clerk's office of this county. The mortgage, which is to secure the payment of the railroad company's bonds to the amount of $2,190,000, covers the entire line of the Kentucky and Great Eastern Railroad, right of way, and all the real and personal property of the company. The instrument requires revenue stamps to the amount of about $2,100.

☞ The tracklayers on the Chesapeake and Ohio Railroad are now some 50 miles west of the White Sulphur Springs, and advancing down the new River Valley at the average rate of a mile per working day. The gap remaining between the eastern and western portions of the road is less than fifty miles and will be closed by the last of November or soon thereafter. The Western Division of the road from Huntington to Gauley is doing a very active coal traffic; all the present supply of rolling stock can accommodate.

☞ We see it stated that Col. Thomas A. Scott has completed contracts in this city for transporting supplies, provisions and laborers, and 25,000 tons of iron to be used in building the Transcontinental Railroad, which begins at the end of the Missouri, Kansas and Texas Railroad.

ELEVEN PER CENT
INVESTMENT.
FIRST-CLASS SECURITY.
State Loan of Arkansas,
7 per cent Thirty-Year Bonds.
A LIMITED NUMBER OFFERED
AT 70 CENTS
AND ACCRUED INTEREST.

In these Bonds "the faith and credit of the State are solemnly and irrevocably pledged for the payment and redemption of the principal and interest on each and every bond.

THE
Arkansas Central Railway,
BY
Special Mortgage Indorsement,

pledge their splendid endowment of Lands, Railroad Rolling Stock, Station Houses and all other property for the faithful payment of interest and principal, making this a

Double and Undoubted Security.

Interest payable April and October, at the Union Trust Company New York.

Maps, circulars, pamphlets, giving full particulars of the loan, to be had by addressing the undersigned, who unhesitatingly recommend these Bonds.

WILLIAMS & BOSWICK,
Bankers, 49 Wall-st.,
NEW YORK.

Arkansas Central Railway.

The Arkansas *Gazette*, published at Little Rock, Ark., in noticing the formal opening on the 27th ult. of the first division (50 miles) of this road, says:

The Central is among the pioneer narrow gauge enterprises of the United States, and marks a new era in the history of Arkansas. We have frequently remarked that the narrow gauge railway is by far the best means for a general and quick development of our resources, for the reasons assigned by the recent convention of narrow-gauge railroad advocates at St. Louis, viz:

First—Costing only about one-half as much as the broad gauge, it is within the means of all sections to build them; hence will enable them to avail themselves of railway facilities where otherwise they will be compelled to dispense with them.

Second—From their small cost, light operating expenses and small interest account, they will prove to be paying investments.

Third—They will supply the great want of the age—cheap transportation.

Fourth—Cheapening transportation, they will develop dormant interests more rapidly than our present costly structures with their high rates can possibly do.

Fifth—Their adoption in sections without railway facilities will enhance the value of property largely in excess of their cost.

Sixth—Penetrating those sections, and rapidly developing their resources by low rates, they will bring a large new business to the broad gauge roads, enabling them to reduce their rates and thereby stimulate and develop new interests.

Seventh—A failure to adopt the narrow gauge in the sections referred to will necessarily defer the construction of railways until such time as their means will admit of the more costly broad gauge, with its consequent high rates.

☞ The estimated earnings of the Erie Railway for the week ending September 30, 1872, were $335,749; against $345,072 in 1871—a decrease of $9,323. From April 1, to September 30, 1872, the earnings were $9,508,503 against $9,505,817 for the corresponding period of 1871, an increase of $2,686.

Journal of Railroad Law.

RAILROAD COMPANIES —INJURY TO ANIMALS—COMPLAINT MUST AVER NEGLIGENCE.

The facts in the late case of The Toledo, Wabash and Western Railway Company *vs.* Wea ver, (34 Ind., 298,) are fully and clearly stated in the following opinion by—

BUSKIRK J.—The appellee filed before a justice of the peace of Tippecanoe County a complaint against the appellant, in the following words:

"Bulah W. Weaver complains of the Toledo, Wabash and Western Railway Company, and says that on the 27th day of June, 1868, the No. Four express train running east did run over and kill one work ox, of the value of forty-five dollars, and, at the same time and place, cripple one two-year old heifer to the damage of fifteen dollars; wherein the plaintiff claims judgment for sixty dollars, and damages for loss and use of said work ox at fifty cents per day, one hundred and nine days, $54 50.

(Signed) BULAH W. WEAVER."

The appellant did not appear before the justice of the peace. There was a default and assessment of the damages.

The appellant appealed to the circuit court. The circuit court on motion of appellant, struck out of the complaint all that relates to the loss and use of the work ox, and refused to dismiss the action.

There was a trial by the court, a finding for appellee, motion for a new trial made and overruled, to which ruling an exception was taken. There was a motion in arrest of judgment, which was overruled, and to this ruling an exception was taken. The evidence is in the record. The motion in arrest of judgment presents for our consideration the sufficiency of the complaint. The complaint is fatally defective. It is not good at common law, because there is no allegation of negligence on the part of those in charge of the train. In a common law action of this character, it is essential under any system of pleading that so material a fact as the negligence and carelessness of the defendant should be expressly averred. Indianapolis, &c., R. R. Co. *vs.* Clarke, 21 Ind., 150. Indianapolis, &c., R. R. Co. *vs.* Brucey, 21 Ind., 215. Thayer *vs.* The St. Louis, &c., R. R. Co., 22 Ind., 26. The Toledo, &c., R. R. Co. *vs.* Reed, 23 Ind., 101.

The complaint is not a good cause of action under the statute, because it does not aver that the road was not fenced. The Toledo, &c., R. R. Co. *vs.* Reed, *supra*. The Toledo, &c., R. R. Co. *vs.* Lurch, 23 Ind., 10.

The complaint is also bad because it does not allege that the train which it was alleged ran over and killed the cattle belonged to the appellant, or was being run over its road.

The motion in arrest should have been sustained.

Judgment reversed, with costs, and cause remanded, with directions to sustain the motion in arrest of judgment.

☞ Articles of association of the Indianapolis, Delphi and Chicago Railroad company have been filed at Indianapolis. The company is formed to construct and operate the unfinished and abandoned road known as the Indianapolis, Delphi and Chicago R. R. The capital stock is $1,500,000 divided into 30,000 shares at $50 each.

The Rise in Freight.

During the last sixty days there has been a general advance in the rate of freight all over the country, and the effect is crushing upon those who produce the low priced varieties of grain. This advance has not affected the wheat growers, because there is comparatively little of that cereal going forward. The cost of moving corn from a point one hundred miles distant from Chicago, for instance, by the way of the lakes and Erie canal, including the intermediate charges, to New York or Boston, is 41¼ cents. The price of corn in the eastern markets is seventy cents. Allowing four cents per bushel to cover profits and expenses, there is left to the producers about twenty five cents per bushel for his corn. In oats the case is worse, the producer realizing six to ten cents per bushel. The present freight rates are nearly double the average rates of last year, and the advance in freight is of necessity taken from the price of the grain in the hands of the producer. If freights advance still higher, is is possible that the producer will have to send some money along with his corn to pay the freight on the latter. One bushel of corn now no longer pays the freight of another. In this connection, the scarcity of navigable waters in the Western and Southern rivers has overtasked the railroads, every available car being used to transport the heavy Fall and Winter stocks of merchandise passing from the East to the consumers of the West and Southwest.—*Boston Globe.*

Flour and Grain Trade.

The eastward movement of flour and grain from the West through Buffalo from January 1 to September 30, inclusive, this year as compared with the corresponding period last year, shows a decrease of 428,340 barrels in the receipts of flour, and a decrease of 4,728,934 bushels of grain, estimating flour as wheat.

The following shows the imports of flour and grain into Buffalo by lake and Grand Trunk Railway, from January 1 to October 1, 1872, as compared with previous years:

	Flour, Bbls.	Grain, Bush.	Grain, incl'g Flour, bush.
1872	477,025	40,296 046	42 681,171
1871	900,365	42 908,280	47,410,105
1870	907,455	25,045,968	29,583,243
1869	945,942	27,063,266	31,692 976
1868	859 786	30 023 290	34,322,220
1862	1,835,786	40,809,840	42,898,770

RAILWAY RECEIPTS.

The following shows the receipts of flour and grain by the Lake Shore Railway, from January 1 to October 1, 1871 and 1872:

	1871.	1872.
Flour, bbls	1,018,821	812,505
Wheat, bush	1,186,400	721,400
Corn, bush	8,098,100	12,099 060
Oats, bush	4,678,850	4,922,700
Barley, bush	175,004	141,070
Rye, bush	84,607	23,400
Total	14,222,961	17,908,630

RAILWAY EXPORTS.

The following shows the shipments of grain by rail, including the through shipments and city shipments, from January 1 to October 1, 1872.

	Through Shipments. Bush.	City Shipments. Bush.	Total Bush.
Wheat	714,000	1,595,238	2,219,238
Corn	11,093,200	2 747,425	14,640.625
Oats	4,890,800	1,240.794	6,131,594
Barley	111,400	146,342	257,742
Rye	23,000	1,250	24,250
Totals	17,632,400	5,641,049	23,273,449
Same time last year	18,781,560	6,704,872	20,486,432

CANAL EXPORTS.

The following exhibit shows the amount of flour and grain shipped from Buffalo by canal from the opening of navigation to October 1, for the years:

	1870.	1871.	1872.
Flour, bbls	45,678	14,379	4,635
Wheat, bush	9,912,061	11,836 144	5,422 820
Corn, bush	4,605.298	16,482 442	23,988,824
Oats, bush	3,868,651	3,538,661	3 816.928
Barley, bush	440,986	610,045	365 919
Rye, bush	182,483	513,591	129,149
Total bush	19,009,608	32,980,884	33,723,640

CANAL TOLLS.

The annexed statement shows the aggregate receipts of canal tolls at Buffalo from the opening of the canal, May 1 to October 1, from 1860 to 1866, inclusive: May 6 to October 1, 1867; May 4 to October 1, 1868; May 10 to October 1, 1869 and 1870; April 24, to October 1, 1871, and May 13 to October 1, 1872:

1872	$1,019,401 19
1871	1,001.685 08
1870	763,237 75
1869	1,230,004 49
1868	1,428.598 12
1862	2,203,068 61

NUMBER OF BOATS CLEARED SINCE OPENING.

1872	6 269
1871	6,300
1870	4,780
1869	5,600
1868	5,479

Knox and Lincoln Railroad.

The annual meeting of the stockholders of this company was held in Bath, Me., on the 7th inst. The directors report that the whole amount received up to August 31, 1872, is: On capital stock $361,492 50; on city and town bonds $2,395,000; earnings of the road $107,610 57. There has been expended $2,725,798 45; cash and bonds on hand $88,804 62; difference between bills payable and collaterals on same at par, $49,500. For the last ten months the net earnings have been $35,972 08. The connection with tide water at Rockland will be made in time for the business of next season, and will, it is believed, largely increase the earnings of the road. The extension to tide water was put under contract in June, and is now substantially completed to sub-grade, and the iron will be laid in a few weeks. Satisfactory progress has been made in the construction of the wharf at Rockland, and it will be completed this fall or early next spring, in time for the business of 1873. The land damages are mostly settled and paid, and the company now owns the best water front in the city of Rockland. The wharf is a crib wharf, 615 feet along and 50 feet wide, with a head 90 feet by 50 feet. The whole when completed will be a very valuable property, and it is believed the cost will be within the estimate. It is hoped that during the coming year a second connection per day with Boston will be made. It will be perceived that the earnings have paid the operating expenses and a very considerable amount in construction, and judging by the history of other roads it may be confidently expected that a greater amount will be earned during the coming year than in the past. The directors during the past year have been in frequent communication with the directors of the Penobscot Bay and River Railroad Company, and have held themselves in readiness to afford all the encouragement in their power in aid of the construction of the road from Rockland to Bangor. They are happy to say that there is now a new movement for the construction of that road, giving much promise of success. By its construction and its

connection with the European and North American and the Bangor and Piscataquis railroads at Bangor, and with their road at Rockland "the great lumber-producing country of the east" will be opened to "the ship building and lumber-consuming" portion of the State, and a valuable freighting traffic as well as a large passenger business may be expected to result from that connection.

☞ The Amherst *Gazette* says of the Intercolonial Railway that but twelve miles of rails are yet to be constructed to make the connection, and about twenty miles of ballasting to be done. The rails are on hand, and it is expected the gap will be filled during the month, at which time it is stated the bridges will also be ready. A train may be run over the first week in October, and the line will probably be opened for traffic by the 15th.

☞ The Milwaukee *Wisconsin* says that the engineers are at work locating a north and south line of railroad through Green Lake County. The road is to run from Weyauwega through Berlin, Dartford, Markesan, Beaver Dam, and make connections at Jefferson with a new Road to Chicago. It is to be built by the Wisconsin Central Railroad Co., as a southern outlet to their present road.

☞ The grading on the Lake Erie and Louisville Railroad is now finished to a point several miles south of Lima, and track laying is in progress. Iron has been purchased and is now on the ground in sufficient quantity for the track to Lima.

☞ The Elkhorn (Wis.) *Independent* says tha the question is now definitely settled that the Chicago and Lake Superior Air Line Railroad is to be built at once. The contractors are on hand and have commenced work between Elkhorn and Geneva, and want 300 laborers immediately.

☞ The contract for the connecting link betwixt Menasha and the present terminus of the Manitowoc, Appleton and New London (Wis.) Railroad, has been let to Messrs. Reed & Scott of Menasha.

☞ Regular passengers trains have commenced running on the Poughkeepsie and Eastern Railroad to the eastern terminus at Boston Corners and the State line. The road will be finished west to the Hudson River early this month.

☞ The sales of Northern Pacific Railroad lands in Minnesota during September amounted to 5,197 acres, at an average price of $5 97 per acre.

☞ Work will be commenced on the road from Princeton to Montello, in Marquette Co., Wis., on or before the 15th of October.

☞ The Toronto, Grey and Bruce Railway is now graded and ballasted to Mount Forest.

DREDGING MACHINES AND SCOWS
FOR SALE.

One (Osgood Pattern) Second Hand. Price $10,000.
One, Almost New. Price $22 000.
Two Large Dumping Scows, $3,500 Each.
Apply to
A. W. LADD,
5 and 7 Dey Street.

Locomotives for Sale.

SEVEN LOCOMOTIVE ENGINES FOR SALE, built for Peruvian Railways—all for Standard gauge of 4 feet 8½ inches. Five built at Rogers Locomotive Works, and two at Danforth Works; all of the very best materials, designs and finish. Six have cylinders of 17 inches x 22 inches, with six driving wheels of 49 inches diameter, and one pair truck wheels—One a tank engine, cylinders 10½ inches x 18 inches. Driving wheels four, 34 inches diameter. These engines sold on account of the construction of the railway they were intended for being suspended for a time. For further particulars apply to
W. W. EVANS,
47 Exchange Place,
Oct. 7, 1872. New York.

ROGERS CO. ENGINES, FOR PACASMAYO RY, PERU.

4 Engines, Mogul design—
Gauge, 4 feet 8½ inches.
Cylinders, 17 inches x 22 inches.
6 Driving wheels, 48½ inches diameter.
2 Truck wheels, 30½ inches diameter.
Furnace, steel.
Flues, 1⅝ iron, 10 feet 8 inches long, 2 inches diameter.
Fuel, Soft Coal.
Tender tank, to hold 2,000 Winchester Gallons.
Weight, empty, about 63,000 pounds; loaded 71,500 pounds.
Price, $18,500.

DANFORTH ENGINES, FOR PACASMAYO RY.

2 Engines, Mogul design—
Gauge, 4 feet 8½ inches.
Cylinders, 17 inches x 22 inches.
6 Driving wheels, 49 inches diameter.
2 Truck wheels, 30 inches diameter.
Furnace, Steel.
Flues, 175 iron, 10 feet 4 inches long, 2 inches diameter.
Fuel, Soft Coal.
Tender tank to hold 2,000 Winchester Gallons.
Weight, empty, about 63,000 pounds; loaded, 71,500 pounds.
Price, $17,500.

ROGERS ENGINE, PACASMAYO RY.

1 Tank engine—
Gauge, 4 feet 8½ inches.
Cylinders, 10½ inches x 18 inches.
4 Driving wheels, 34 inches diameter.
No truck wheels.
Steel Furnace.
Flues, 65 iron, 9 feet 10 inches long, 2 inches diameter.
Fuel, Soft Coal.
Tank, 400 gallons.
Price, $11,500.

THE WHARTON
Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Address,
ABRAHAM BARKER, Pres't,
Or WM. WHARTON, Jr., Sup't,
Of the Wharton R.R. Switch Co.

PACIFIC MAIL
Steamship Company's

LINE TO

California, Japan and China.

VIA PANAMA,
CARRYING MAILS, PASSENGERS AND FREIGHT TO
ASPINWALL, PANAMA, SANTA MARTHA AND GREYTOWN, AND PACIFIC COAST OF MEXICO, CENTRAL AMERICA, PERU, AND CHILI.

Steamers leave 10th 20th and 30th each month, except when those days fall on Sunday, then the day previous.

Oct. 12, steamer HENRY CHAUNCEY, CAPT A. G. GRAY, will leave Pier No. 42, North River, at 12 o'clock noon, for Aspinwall direct, connecting at Panama with steamer ARIZONA, Capt. FARNSWORTH, touching at Acapulco, Manzanillo and Mazatlan, and also connecting for all Central American and South Pacific ports. Departures of 10th and 20th each month connect with the Company's steamer, touching at San Benito, Tonata, Salina Cruz and Port Angel.

Freight for all way ports received until 4 P. M. of Oct. 10.

An extra steamer will leave San Francisco, Oct. 16, 1872, for Japan and China.

For rates of passage, freight and all further information, apply at the Company's office on the pier, foot of Canal street.

F. R. BABY, Agent.

SPECIAL NOTICE.—POSTPONEMENT OF SAILING DAY.—The steamer HENRY CHAUNCEY will sail for Aspinwall at noon on Saturday, October, 12.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**

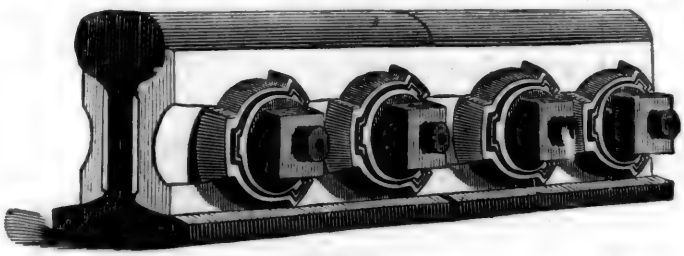
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Northern Pacific Railroad Survey.

The War Department has just received an official report of the military expedition which recently accompanied the surveying party of the Northern Pacific Railroad from the point in Dakota where that road crosses the Missouri river to the crossing of the Yellowstone river in Montana, near the mouth of the Powder river. No serious trouble was occasioned by the Indians, and the engineers were enabled to make careful surveys and effect a final location of the railroad line across the section of country referred to, being a distance of 235 miles. A practicable and excellent route was found without difficulty, and without any serious divergences from a straight line. The river valleys along which the line mainly runs were found to be uniformly fertile, and no "bad lands" are traversed by the route selected. Grass was abundant all the way from the Missouri to the Yellowstone, and good water was found at convenient intervals during the entire march. Extensive beds of ignite and semi bituminous coal were found at frequent intervals for a distance of one hundred and fifty miles. Timber exists in considerable quantities, especially in the river valleys, and consists mainly of oak, ash and cottonwood.

INVESTING MONEY.

The Northern Pacific Railroad Company, through its Financial Agents, offers for sale its First Mortgage 7-30 Gold Bonds. They fall due in 30 years, bear 7-30 per cent. gold interest, payable semi-annually, are exempt from United States tax to the holder, and are secured by first and only mortgage on

1. The Railroad, its Right of Way, Franchise, Rolling Stock, and other property.

2. Its Traffic or Net Earnings.

3. A Government Grant of Land averaging on completion of the Road about 23,000 acres per mile of track.

The Road follows what is known as the Valley Route to the Pacific, flanked most of the way by an excellent country, and is assured in advance of a vast and profitable traffic which already awaits its completion. The work of construction is steadily and satisfactorily progressing; the settlement of the adjacent country and the building of towns keep pace with the advance of the road; a large body of the Company's lands is already in market, and the proceeds of sales will constitute a Sinking Fund for the redemption of the Company's Bonds, which are convertible at 110 into the Company's Lands at market prices.

Believing that these bonds, both in point of safety and profitableness, constitute such a security as judicious investors can approve, we recommend them to the public. Government bonds and all marketable securities are received in exchange at current quotations, without cost to the investor.

JAY COOKE & CO.,

New York, Philadelphia and Washington.

FINANCIAL AGENTS NORTHERN PACIFIC RAILROAD COMPANY.

The Highest Bridge in the World.

The Baltimore Bridge Company, the President of which, Col. C. SHALER SMITH, so well known to all our citizens, has just obtained a crowning triumph—the bridging of a mighty chasm in the heart of the Andes Mountains.

The Verrugas Viaduct is on the Lima and Oroya railroad, in the Andes of Peru. The structure is remarkable for being the highest of the kind in the world, and for surpassing all others of the same class in its perfect system of bracing and connections. The viaduct crosses a mountain torrent called the Agua de Verrugas, in a wild and picturesque locality 12,000 feet above the level of the sea. The structure consists of four deck spans of the Fink type of truss, three of which are 110 feet long, and one, the central span, 125 feet long. The spans rest on piers built of wrought iron columns. The piers are fifty feet long by fifteen feet wide on top. There being three piers, the total length of the viaduct is 575 feet. The piers are the principal feature of interest, and are respectively 145 feet 252 feet, and 187 feet high. Each pier consists of twelve legs, which in plan form a rectangle. The legs are composed of a series of wrought iron six segment columns, in lengths of twenty five feet, connections being made by cast iron joint-boxes having tenons on each end running into the column. The tenons and the face of casting against which the column bears are machine-dressed, so as to obtain an accurate fit and perfect bearing surface. The columns have an exterior diameter of twelve inches, and a diameter, including flanges, of sixteen inches. Compared with other works of a similar type, such as the Cromlin viaduct, which has hitherto borne off the palm, it is far ahead, both in magnitude and perfection of details.—*St. Charles (Mo.) Cosmos.*

Virginia Valley Railroad.

The Lexington (Va.) *Gazette*, referring to the action of the late stockholders' meeting of the Valley railroad, adopting the Central line through Rockbridge county, as a practicable one on which to construct the road and carry it to its terminus at Salem, on the Virginia and Tennessee road, says:

At last, after many difficulties and dangers, this great improvement may be considered as resting on a firm basis. All difficulties have been adjusted, and the early completion of the road rendered certain.

When the surveys were completed, and it was found that the "central route" was not more costly than the others, but only had the high grade to its disadvantage, we learn that Mr. J. W. Garrett at once declared that this route should be adopted, as he considered the question of grade settled by his concession at the meeting last

March. In this matter Mr. Garrett has shown that scrupulous regard for his promises for which he is distinguished and which has given him so honorable a position among the great railroad kings of the day.

The stockholders invested their directors with power to make financial arrangements adequate to the construction of the entire work in the best manner, and the energetic young president has already completed the preliminary negotiations for selling the bonds of the company on the most favorable terms.

The city of Baltimore has been called upon for 30 per cent. of her stock, and as soon as this is paid, which will be no doubt in a week or two, contracts will be let upon the whole line and the work pushed forward. The county subscriptions will then be called for. The bonds for this, and we believe of the other counties and corporations, are already prepared and ready for delivery. We suppose that the company will soon begin to arrange the land damages in the county, and we bespeak fair and liberal treatment for them from our people.

Boston, Concord and Montreal Railroad.

The earnings of this road for the years ending March 31, 1871 and 1872, were as follows:

	1871.	1872.
From passengers	$194 572 83	$197,436 79
" freight	361,084 62	419 088 86
" mails	10,198 48	9,865 81
" express	6,000 00	7,250 00
" miscellaneous	639 36	1,254 25
	$572,495 29	$634,895 71
Expenditures, viz:		
Maintenance of way	$182.750 42	$197,929 44
" motive power	108,845 09	120,083 97
Cost of working road	115.505 32	141,562 31
" management	12 059 24	13,032 26
Miscellaneous	27,335 22	28,035 50
	$446,495 29	$500,643 48
Net balance	$126,000 00	$134,252 23
Balance, March 31, 1871		175,632 85
Interest received during the year		10,372 28
Wood, oil and stock on hand less than last year		130 87
Total		$320,387 73
Appropriated as follows:		
Paid coupons, back coupons, interest on over-due bonds, etc		$67,668 79
Paid preferred stock dividends		44,358 00
In hands of superintendent more than last year		3,365 80
Engineer department, on hand, over last year		8,755 60
Paid trustees of sinking fund		12,500 00
Paid sundry expenses		4,441 92
Bonds and cash on hand		179,297 62
Total, as above		$320,387 73

Compared with the previous year, the gross earnings show an increase of $62,400 42; with an increase in expenses of $54,148 19—making the increase in the net earnings of $8,252 23. The report says:

The above statement includes the earnings of the extension from Littleton to Lancaster, as well as the White Mountains, N. H., Railroad, and we have charged to the running expenses $20,000 as a part of the interest on the cost of building the same.

We have laid 83,323 sleepers, put in 1,100 tons of new 56-lb. iron, taken out 325 tons of 50-lb. iron, mended and put the same into the Branch Road from Wing Road station to Pierce's Mills, which is included in the cost of the branch.

We have made extensive repairs upon our bridges, built new abutments (that were damaged by the freshet in 1869) and bank walls, and built and relaid culverts, so that the roadway, superstructure and bridges, are all in a better condition than at any former time.

The motive power and equipment have been increased by one first class passenger engine, and one first-class freight engine, one monitor-top passenger car, one baggage car, and sixty-one freight cars; and we have made full and ample repairs upon all engines and cars, so that the equipment will compare favorably with that of any road in the State.

We have built a new passenger depot and freight house at East Concord, a car house at Lake Village, engine house at Littleton, four wood sheds, and made general repairs upon all buildings.

We have built forty-five miles of fence this year, and shall continue to build until the whole line of road is re-fenced.

The directors have thought it more for the interest of the corporation to make the road as perfect as they could, and in so doing have looked to that more than to a show of earnings.

The two dividends for the year on the preferred stock have been paid and charged in the accounts.

The annual payment to the sinking fund, of $12,500, was regularly made, and the fund with its accumulations now amounts to $310,590.

The directors, under the authority given them at the last annual meeting, made a contract to build the branch from the Wing Road to Pierce's Mills in Bethlehem, and the same was completed so as to be used on the first of January last, and it has been run as a freight road since, doing a fair business. In the summer season this will be used for passenger travel to and from the White Mountains. The directors think it for the interest of the corporation to continue this road to the Fabyan Place. The cost, so far, has been about $65,000, which is not included in the accounts.

The directors last September made a contract with Messrs. Thompson & Lindsey, to do the grading for the extension from Lancaster to Northumberland, to connect with the Grand Trunk Railway, to be done by June 1st. The severe winter and late spring have put the work back very much, but we believe that it will be completed in season for summer business.

When this part is completed it will make a connection with the Grand Trunk Railway and the West, which, we believe, will be greatly to the advantage of this road. The cost of the extension, to this time, is about $520,000, which, as stated in our last report, is not included in the accounts, but when completed is to be arranged by stock and bonds.

At the last session of the legislature, a renewal of the charter of the Conway and Meredith Railroad was obtained under the name of the Meredith and Conway Railroad, with authority to lease to this road. We think that it will be for the interest and benefit of the corporation to have this road built, at least as far as Ossipee, where it will connect with a proposed road to Portland, provided the towns on the line of it and roads below Concord make liberal subscriptions towards it.

We respectfully ask authority to aid in such manner as may be thought best.

On the 11th of April, we had the misfortune to have our bridge over the Merrimac River, at Concord, together with the town bridge, carried away by the ice. This was a serious loss, and a great derangement of the business of the road. The superintendent immediately made arrangements to build a temporary one for the summer, and had the satisfaction to have it completed so as to run over in a little over a week's time. It is a good and substantial bridge, and will answer until we can have time to build new piers abutments, and suitable bridge.

The report of the committee relative to a consolidation of the capital stock of this corporation, together with a communication from us on the same subject, have been printed in a circular for distribution among the stockholders. These will show the unanimous views of the committee, and also of the directors on that point. We, therefore, now have only to add that those views are confirmed by further consideration and hope that they will meet with your favorable regard and action.

If this arrangement is carried out, and a union made with the White Mountains, N. H., Railroad, and the road extended to Colebrook, and above, it will be the most important, most beneficial to the people of this State of all the railroads within its limits, and its stock and bonds will be a desirable investment.

The total number of passengers carried during the year was 151,207; equal to 9,072,420 carried one mile. Total number of tons of freight, 94,688; equal to 5.681,220 tons carried one mile.

Northern Pacific Land Products.

The Elmira *Advertiser* thus speaks of the display of Northern Pacific Land Products at the State Fair recently held at that place:

Probably the most remarkable display of agricultural products on the ground is that made by the Land Department of the Northern Pacific Railroad Company. In variety and extent it certainly had no equal. It was not entered for premium but simply exhibited. Among the products shown were vegetables, fruits, grains and minerals. The lands that grow such monstrous specimens must certainly be of the best quality. The productions are from Minnesota, Dakota, Montana, Idaho, Washington Territory and Oregon. Some of the rye exhibited as grown in Montana is marvelous in size, and the Spring wheat is equal if not superior to the best Winter wheat grown in the Genesee Valley. There are some plums from Oregon, five of which make a pound, and Bartlett pears from Washington Territory weighing fifteen ounces each. The barley is equal to the wheat and as well the oats. This exhibition attracted a great deal of attention and comment from the practical farmers of this vicinity, and the millers looked at the specimens of wheat with eyes of wonder. A larger space should have been allotted to this collection than it had, as it looked cramped and confined. We were present when one of the largest farmers in this region was carefully examining it, and he repeatedly and emphatically pronounced it as exceling anything he had ever seen. This exhibition was a clear demonstration to the minds of the many that looked upon it that the climate of the country through which the Northern Pacific Railroad passes is mild enough and the season long enough to raise the finest cereals.

Vermont Central and Vermont and Canada Railroads.

(Continued from page 1293.)

Having thus briefly, and yet as fully as the limited time at their command and the pressing nature of their engagements would permit, alluded to the immediate causes which have produced the present state of affairs on the road, the Trustees and Managers come to the specific charges brought against them in the public prints of mismanagement.

The first and indeed the most prominent is the existence of the car companies, known as the National Dispatch and Vermont Iron and Car Company, whose cars run upon and over the Vermont Central Road.

The history of these is very brief and simple.

First—The National Car Company. This company was organized in 1868. Up to this date the Vermont Central line as it was denominated was composed of the Boston and Lowell, Concord, Northern New Hamshire, Vermont Central and Vermont and Canada, and Ogdensburgh roads. Its connection for its western business to and from points west of Ogdensburg was by means of the propellers on the upper lakes, and formed during the season of navigation a good and efficient line.

The business accommodated by the line was what is known and termed the interior New England business, consisting of the supply of Western products to the great manufacturing districts and other points in New England.

This traffic formed the most remunerative business of the line. In addition to this during the season of navigation through freights to and from Boston and the West found a convenient and natural route by this line. The Propeller line at that time consisted of thirteen boats, making a semi-weekly line between Chicago and Boston. Thus during the season of navigation this line did a fair business, but on the closing of navigation it could only be operated as a line for local business between Ogdensburg and Boston.

The organization of the car companies known as the "colored lines," under various names of Red, Blue, White, Merchants' Dispatch and the like, was admitted upon the competing roads leading from Boston to Western points, and being enable to transport freights by all rail to all points West without breaking bulk and on time contracts, and having the advantage of continuous lines all the year round, offered great inducements to the patrons of the Vermont Central line to withdraw from it and send their business over those lines, offering as additional inducement contracts for the entire year at uniform rates.

Many strong patrons of the Vermont Central line were thus induced to withdraw, and the business of the line was seriously threatened. The "colored cars" from other lines were reaching far into the interior points of New England, and were drawing away a business which fairly belonged to this line, and which it could, properly equipped, better and more naturally supply then any other. A conference with the other roads now forming the line over which the National Car Company run their cars was had, and it was agreed that an effort should be made to hold this business. The change in gauge, however, constituted a serious drawback. The patent which had been obtained for adjusting the wheels and axle to a difference in gauge was an experiment and so uncertain in its results that the several companies constituting the line did not feel justified in investing in the enterprise as corporations. It was therefore agreed that if the outside capital could be induced to take the risk that a liberal contract would be given by the roads in the way of car service to test the experiment. The parties owning the patent, therefore, with confidence in the success of their invention undertook to organize a company, and a contract was entered into with that company, signed by all the roads composing the line, permitting the Dispatch Company to build and place upon the road two hundred cars to test the experiment, and agreed to allow for that number three cents per mile run for car service. That company was, however, restricted to the original number, and could not add more without the written consent of all the roads in the line. The contract also contained a provision authorizing any road in the line to terminate the contract by purchasing the cars at cost. With a contract thus guarded the company was organized. Being entirely an experiment, and in the judgment of many railroad men somewhat doubtful of success, it was not easy to enlist sufficient capital at first to give it a trial. To encourage it, therefore, many gentlemen connected with the different roads in the line came forward and subscribed for a portion of the capital stock. The number of cars limited in the contract were built and were put into the line, and the experiment proved a success. After a year's working or thereabouts the managers of the several roads in the line became satisfied that although the cost of these cars was somewhat in excess of ordinary cars, yet they could not feel justified in paying the high rate of service called for by the contract, and declined to admit any more cars unless the rate was reduced.

This was done, and the rate two and a half cents fixed for a limited and small number of additional cars. Then the rate was afterward reduced to two cents on the additional cars put in. Negotiations have been pending for the last three months for a still further reduction.

Every effort has been persistently made not only by the Trustees and Managers of the Vermont Central, but by the Managers of the other roads in the line, to reduce this car service.

There was not at the first nor has there been since any element of speculation or personal aggrandizement in it whatever, nor have the cars, in the opinion of the Trustees and Managers, been permitted any undue preference or advantage over the ordinary cars of the road. The instructions of the Trustees and Managers from the ontset to the heads of the departments charged with the duty of looking after such matters have always and uniformly from the first been explicit upon this point, and they are fully assured by the several departments that these orders have been strictly obeyed.

The rates of freight between Boston and the West are not regulated by the Trustees and Managers of this road alone. These are under the general control of a board of Managers of through line business, which Board is composed of representatives of each road constituting the line between Ogdensburg and Boston, and this Board is organized again by a Chairman and an Executive Committee. To this organization all question of rates on through freights are referred and are under their control. The instances cited in the public print where the amount paid for car service exceeded the amount received for the freight, may or may not be true. No such instances on the Vermont Central road have come to the knowledge of the Managers, nor do they believe they exist. If found on other roads, it is believed that they are isolated cases, and if all the facts were given would find a satisfactory explanation.

No such instances have, however, been brought to the notice of the Managers of this road by any of the connecting roads.

That the organization of this Dispatch line has been of actual and essential benefit to the Vermont Central road, any candid examination of the business will be forced to admit. That it would be desirable that the road itself should own the cars there can be no room for doubt, and the managers cannot too strongly urge the importance of the purchase. It is simply a question of capital. If the road were relieved of its present restricted and awkward position as regards the management and were placed in the hands of a corporation, where the proper additions to its plant and the things necessary for its expansion and growth could in its own legitimate and natural way be *capitalized*, all the difficulties and embarrassments which now hang over the enterprise would be relieved. It would add new zest to every department of the road, it would give it a credit which a trustee management can never possess, it would bring a development and growth which would surprise even its most sanguine friends, and it would remove all the causes for jealously and suspicion which must ever attach to the managers of a road, however faithful and honest, whose term of office is not dependent on the will and choice of the true constituents of the road, but is derived from another and independent power. It needs only a fair and just appreciation of the real value of their own property by the security holders, and a proper knowledge of the fertility of the resources of the road which only wait to be dveloped, to inspire the necessary confidence to command the capital to accomplish all this.

Scarce one of the security holders even to-day realizes what his property is—few ever visit it to watch its growth, to study its characteristics, to understand its wants, and the difficulties under which it labors, much less are they in any condition to judge of what is just and right or what is true or false when their property or its managers, from whatever motive, are unjustly assailed.

THE V. I. AND C. CO.

This is another organization formed in 1870. The new extension of the Ottawa and Prescott Railroad to the great lumber mills at Ottawa seemed to give promise of opening a largely increased traffic in lumber from that section. A meeting was held at Ottawa by the lumbermen and the managers of the Ottawa Railroad and those of the Vermont Central Road, and after a full consideration of the proposals made by the lumbermen, the Ottawa Road determined to proceed at once with the construction of their branch road, extending it directly to the mills and lumber yards, provided the Vermont Central would supply the necessary cars to be devoted entirely to the lumber business, transporting it without breaking bulk direct from the place of its manufacture to market. To do this efficiently required, as it was estimated, five hundred box cars, to be increased from time to time as the growth of the business demanded.

The trustees and managers were in no condition financially to undertake this outlay of money, and hence were obliged to forego the business or encourage the building of the cars from other sources. A car company was formed under the above name, and two hundred cars were contracted for at the rate of 2½ cents per mile car service; the trustees and managers reserving the right at any time to terminate said contract by purchasing the cars.

The result of this contract, so far from exhibiting a loss to the Vermont Central Company, has been an actual profit to them; the revenues derived from connecting roads on the usual rate for car service per ton per mile for the use of these same cars having yielded to the railroad more than has been paid to the company at the contract rate. The trustees and managers have, therefore, been actual gainers under the contract. The cars of that company, as will appear from the statements of the master of freight transportation, have never been permitted to take precedence of the cars belonging to the road, but have always been set aside on the sidings whenever the business was slack, so as to keep the cars of the road fully occupied.

THE NEW LONDON LEASE.

This road was leased by three of the managers in December, 1871. There existed at the time of its lease substantial and satisfactory reasons why the lease could not then be taken directly to the Trustees and Managers.

The parties had no idea of any personal speculation in it, but took it temporarily in this form for the benefit of the line. They have never in any form received one cent from it individually nor, has there been any discrimination in favor of it in division of rates, or in any other possible form for the benefit of the lessees.

The lease itself contains the provision for its transfer to the Vermont Central Road at a proper time, and they are the only parties to whom the transfer can be made.

The managers deemed important for the interests of their line that this lease should be made. That it has been of great value to all its interests can as they believe be satisfactorily shown.

The same is also true of the Sullivan road. There existed at the time of its lease difficulties in the way of its being then brought in as part of the Vermont Central line. The question was submitted to Hon. L. B. Peck and Hon. Andrew Tracey, then counsel for the Trust, and after a careful examination they advised that the lease be taken in the form it was. It has been held since that time steadily to the purpose for which it was taken, and at no time has it been used in any sense whatever to the injury of the Vermont Central.

The lessees of the road will at any time be only too happy and willing to transfer it entire to the Vermont Central system.

The Montreal and Vermont Junction road is not a leased road. The road in its inception was sought for by parties adverse to the Vermont Central road. When it became evident that it would be built, the managers of the Vermont Central sought to place themselves in a relation to it that would secure all its advantages to their road.

They therefore became somewhat active in securing a friendly relation to the parties in interest in the charter, and so became prominently identified with it.

After the municipalities had made their subscriptions to the stock and had secured sufficient means to justify placing the work under construction, a contract was let, after public advertising, for a specified sum, to be paid in the stock and bonds of the road. The work was commenced just as the civil war in this country broke out. The currency of this country was then undisturbed and, like the currency of Canada, was at its gold value. The contract being made in Canada was payable in the currency of Canada. To induce the contractors to accept the stock and bonds in payment for this work, two of the managers of this road, who were then directors in the Montreal and Vermont Junction road, gave personal assurances that they would negotiate for the contractors a certain amount of the bonds and stock which they were to receive.

The currency of this country, in consequence of the war, soon became disturbed, and gold rose to an exorbitant premium The currency of Canada had become seriously disturbed, and the contractor was obliged to surrender his contract from inability to go on. Meantime the work on the Vermont and Canada branch to the Canada line had been commenced, and to prevent a failure of the whole enterprise two of the managers of the Vermont Central, having pledged their faith to the parties in Canada that they would in good faith aid in building the road, undertook out of their own means and on their own personal credit to carry the enterprise through, taking the securities of the road. The road was thus completed. A temporary arrangement was made for operating it by the Vermont Central, and a basis of fifty per cent. of the gross receipts was, on consultation with the other managers, agreed upon for the time being. While the road was new and in high condition, and as it was an easy road to operate, this was considered not an unfair division, especially as by the arrangement the Trustees and Managers only assumed to furnish the motive power and keep the track in repair, all the other expenses of maintenance and repairs, of building and road bed, including bridges, being paid by the parties on the other side. The attention of the Committee of the bondholders and of the Vermont and Canada road has been frequently called to the matter since that time, and it has been strongly urged by the Managers interested in the property that they should be relieved of this position in some form, and that some basis satisfactory to all parties should be arrived at. They have at all times been ready and extremely desirous of having the matter disposed of, either by assuming the road at a price or by permanent lease of it, or by some agreement which would be equitable to all parties. Thus far no settlement has been arrived at. They have been exposed to unjust suspicion that they were taking advantage of the double position which they occupied, while they have been anxious all the time to dispose of the question on any fair and just basis. They can only repeat here what they have so often said to the parties above referred to, that they have but one desire and that is that a basis should be agreed upon which will be satisfactory to the security holders of the Vermont Central and Vermont and Canada, preferring even to do injustice to themselves rather than to occupy any doubtful position.

The Managers have thus endeavored to meet fully all the questions which have been raised against them, seeking no concealment or evasion of any responsibilities resting upon them, nor attempting any vindication that is not warranted by the facts.

In the administration of their trust they have endeavored to discharge their duties with fidelity, always inviting the closest scrutiny of their affairs and willing to impart full information to all who were interested to inquire and who had a right to know.

The accounts and vouchers of the Trustees and Managers have been always freely open to the inspection of the Committee of the Bondholders, elected annually, and who by the provisions of the compromise decree are constituted an advisory committee and are the special auditors of the accounts.

This duty of examination has been performed by that Committee periodically, at least as often as once in six months since the date of the decree.

In all important matters, relating to the trust matters, on all questions of policy, they have been freely consulted and advised with, and when matters of graver moment have been before the Trustees affecting the interests of the property, the advise and counsel of the Vermont and Canada Directors has been sought in addition.

The aim of all has been to bring the property to its highest state of efficiency and to develop all its elements of strength in the fullest and most judicious manner possible.

That the property itself is capable of meeting in a little while the full expectations of its warmest friends, none familiar with it can entertain a serious doubt. The question of how soon it can reach this point and how rapidly it shall develop is a question of easy solution. It is now in all its appointments in high condition. It can be worked now safely on a low scale of economy and hold its present earnings, and be made to pay on all the securities hitherto interest bearing; but under such a policy the road can not develop as rapidly as with a liberal policy it can be made to do. The present capital, adding to the interest bearing securities the present debt of the Trust, is not large for the property represented. The ratio of annual increase of earnings for the past ten years has been a little over an average of 13 per cent. There is no reason why the road cannot continue to increase annually in a steady ratio for years to come.

The question of disposing of the present floating debt is the one of pressing importance in order to restore the credit of the road.

To provide for this, authority has been granted to the Trustees and Managers to issue their notes for $2,500 000 payable in thirty years with 8 per cent. interest, and constituting them a special lien upon the trust property and income of the road. Of this sum $700,000 is to be deposited with the New England Company for the purpose of retiring the first equipped loan for that amount, which matures in 1875. The balance, $1,800,000, is to be disposed of for the purpose of retiring the floating debt of the Trust.

If these are taken by the holders of the present securities or sold at once, the Trust would be relieved from their present embarassments and the credit of the road would be promptly restored.

When this is done, the question arises what plan can be adopted for placing the road on some permanent footing to relieve it of a Trust management.

The Managers cannot too strongly urge upon the security holders the necessity for devising some plan to place the road under a corporate management. It is a subject which the Managers have more than once before urged upon the attention of the parties in interest.

The property is too large and involves too important interests to be continued in its present form of management.

The Managers would, therefore, suggest the appointment of a Committee of Conference, from the various classes of securities, to meet with them at an early day to take this subject into consideration.

The Managers will most cordially co-operate in any plan that may be deemed safe and best for all interests.

Treasurer's Report.

Boston, Oct. 1, 1872.

To the Trustees and Managers of the Vermont Central and Vermont and Canada Railroads :—

Gentlemen.—I hand you herewith sundry statements made up from your books after closing them to June 1, last, by which you may see the results of your business for two years ending that day, and your financial condition at that time.

The statements show the results of your business for the two years ending June 1, 1872, as follows :—

The gross earnings of the Vermont Central and Vermont and Canada, including the S. S. and C. R. R.		$4,395,384 17
The expenses		3,004,800 84
Net		$1,890,493 33
The gross earnings of the Rutland road and branches from the time of lease to June 1, 1872, 17 months	$1,869,589 64	
The expenses	1,333,636 48	
The net		$535,953 16
The gross earnings of the Ogdensburg and Lake Champlain Railroad from time of lease to June 1, 1872, 27 months	$2,232,469 64	
The expenses	1,568,281 75	
The net		634,185 89
Totel net		$2,590,632 38
The gross earnings being		$8,497,441 45
The gross expenses being		5,906,809 07
The net being		$2,590,632 38

The proportion of expenses to earnings being 69¾ per cent.

From the above net earnings is to be deducted the amount paid to the Vermont and Canada Railroad, and the rent of leased roads, as follows :—

Two years' interest on $2,500,000, and one year on $500,000, at 8 per cent per ann.		$440,000 00
Seventeen months' rent of Rutland Railroad and branches to June 1, 1872, at $562,000 per year		848,000 00
Twenty-seven months' rent O. and L. C. Railroad	$899,145	
Less lower road's part of loss, say	85,000	
		814,145 00
Total rents and interest on Vt. and C. stock		$2,097,145 00
Which deducted leaves the sum of.. as the balance of the net earnings after payment of all rents and the interest on Vermont and Canada stock.		$493,487 38

In the last two years the interest paid on your bonded debt has been as follows:

On 3,000,000 first mortgage bonds, 7 per cent	$420,000 00
On 2,000,000 equipment loan bonds, 8 per cent	320,000 00
On 443,000 S. S. and C. bonds, 7 per cent	62,132 00
On 795,000 Vermont Central guaranteed 11 months, 8 per cent	58,336 67
Total on all	$860,468 67

During this time you have also paid for new locomotives, cars, new stations, new side-tracks, &c., and extraordinary expenses not included in the statement of expenses and not properly chargeable in them, they being such expenditures as other roads have capital furnished them to meet, the following sums which are detailed in accounts handed you herewith, viz:—

On Vermont Central Railroad	$1,016,580 60
On Rutland Railroad and branches	185,568 55
On Ogdensburg and L. C. Railroad	93,516 40
Amounting in all	$1,295,665 55
Which added to the interest paid on your bonds as above, gives as the sum of your expenditures	$2,156,134 22
If from this you deduct the balance left of your net earnings after paying the rents, viz	493,487 38
The balance shows an excess of expenditures over net earnings for the two years of	$1,662,646 84

The result of your last two years' business may be briefly stated as follows:

You have paid the interest on all your bonds; this interest amounts to	$860,468 67
You have paid the rents of all your leased roads and the interest on the Vermont and Canada stock amounting to	2,097,145 00
In all amounting to	$2,957,613 67
Your net earnings have been sufficient to meet of this	2,590,632 38
The deficit for two years being	$366,981 29
You have increased your rolling stock and improved your own and the leased roads to the amount of	1,295,665 55
Making in all an expenditure of	$1,662,646 84

over and above the net earnings of the roads.

Your financial condition June 1, 1872, as may be seen by the statements hereto appended was as follows:—

BONDED DEBT.

Equipment bonds 8 per cent	$2,000,000
First mortgage bonds 7 per cent	3,000,000
Vermont Central guaranteed bonds 8 per cent	795,500
S. S. and C. bonds 7 per cent	443,800
	$6,239,300
Second mortgage bonds	1,500,000
Total	$7,739,300

Your assets to meet this debt are the road, the rolling stock and the S. S. and C. purchase. Your books do not give the cost of the road nor of the rolling stock.

In your printed report for 1865, it is stated that the original total cost of the construction of the Vermont Central Railroad was	$8,560,000 00
The appraised value of your rolling stock now is	1,895,097 37
The S. S. and Chambly purchase is that road 43 miles in length, and valued at	800,000 00
These sums amount to	$11,255,097 37

And more than cover your funded debt.

FLOATING DEBT.

The floating or unfunded debt June 1, 1872, as shown in detailed statement, is		$2,878,164 42
Your assets to account for this are cash, notes, stocks and book accounts to the amount of	$1,816,029 95	
Wood, shop stock and other supplies on hand to amount of	1,198,595 22	
S. S. and C. bonds on hand	56,200 00	
Vt. C. guaranteed bonds on hand	204,500 00	
		3,275,325 17
Being a surplus of assets of		$397,160 75

Your assets available in time to meet your liabilities I estimate at $1,849,249 57.

The balance of your assets are doubtless worth the amount set against them, but they are investments in supplies for the future use of the road, and cannot well be turned into money.

The amount of the debt over the available assets is	$1,528,914 85
The cause of this debt is seen in the fact that during the last two years your expenditures have exceeded your net earnings by the sum of	$1,662,646 84

The following statement prepared for your meeting September 17, will perhaps exhibit more fully the statement of the floating debt, its causes and the means on hand to meet it:—

Floating debt June 1, 1872:

Notes payable and demand loans		$1,716,654 69
Unpaid bills		450,441 27
Unpaid pay rolls		227,559 67
Sundry book accounts		185,102 59
Sundry railroad accounts		203,062 46
Unpaid coupons		95,343 74
Total debt		$2,878,164 42
Available assets June 1, 1872:		
Notes receivable & stock	$146 609 29	
Post-office, express, etc.	59,336 68	
Cash & cash memoranda	251,488 79	
Station-agents' balances	234,454 17	
Sundry accounts	200,000 00	
Sundry railroad accounts	457,330 64	
		1,349,249 57
Balance of debt above assets		$1,528,914 85
Cause of this deficiency:		
Losses on Ogdensburg and Lake Champlain Railroad		$159,842 00
Losses on Rutland Railroad		396,931 00
Advances on Missisquoi		49,652 00
Northern Transportation Company investment		191 337 00
Notes to Rutland R. R. for materials		418,000 00
Shop stock, wood, &c., in excess of amount two years since		377,000 00
		$1,582,812 00

Sundries on hand to account for the debt and which are working capital:

Shop stock, wood, rails, &c.	$1,198,595 00
Work done on Addison Railroad in completing road, chargeable to Rutland Railroad	102,000 00
Missisquoi bonds	25,000 00
Eight per cent. bonds unsold	204,500 00
Sundry accounts	200,000 00
Sinking fund U. T. Co. provided for in contract of purchase of U. T. boats to extinguish the notes given in payment for the boats	104,625 00
	$1,886,720 00

I hand you herewith a condensed statement of your account as trustees and managers from June, 1868, to June, 1872, by which it may be seen that during the fourteen years ending June 1, 1872, the net earnings have been sufficient to pay the interest on the Vermont and Canada stock, and the rents on all your leased roads.

All of which is respectfully submitted.

(Signed) H. B. WILBUR, Treasurer.

Steam on the Canals.

The steam canal boat Wm. Baxter has made its first trip to New York and back from this port, carrying a little over 201 tons on down and 113½ tons on the up trip. According to the captain's log, the boat left Troy at half-past two P. M. last Monday week, and arrived within the corporation of this city Sunday morning at seven o'clock, being five days sixteen and a half hours. From this the captain claims a detention of twenty-six and a half hours, leaving the running time four days and fourteen hours. It is claimed that this trip has demonstrated this boat a success, both in regard to speed and cost of running; that it only requires ten tons of coal for the round trip to New York and back; that 12½ cents per mile will cover the steam expenses, including two engines fuel and oil. On the Hudson river from Newburgh to New York, the distance, sixty-one miles, was made in twelve hours, and on the return trip in thirteen hours. The passage of the Hudson from Troy to New York was made in thirty-one hours, some twelve to fifteen hours less than the usual time of the tow boats, by which the horse boats reach New York. The boat and machinery was constructed at Newburgh, after the plans and under the directions of Mr. Baxter, who is at present on a visit to our city, and who is so well pleased with the performance of his first undertaking in this direction, that he has decided on the construction of fifteen or twenty more boats of the same pattern, only slightly larger and with whatever improvements may be suggested from the experience of the pioneer boat.—*Buffalo Courier*, 10*th*.

☞ The following gentlemen have been elected directors of the Toledo, Wabash and Western Railway Company: A. Boody, Daniel Drew, A. M. White, A. B. Baylis, Isaac H. Knox, Horace F. Clark, Augustus Schell, George Cecil, Milton Courtright, Sidney Dillon, John Ross, David Dows, John F. Tracy, Kenyon Cox, J. S. Casement. The following officers were elected: A. Boody, President; J. N. Drummond, Assistant President; A. Anderson, Vice President; W. B. Corneau, Secretary; G. H. Burrows, General Superintendent.

☞ At a meeting of the stockholders of the Hannibal and Naples Railroad Company, at Springfield, Ills., on the 5th inst., the leases of its road and of the Hannibal Bridge to the Toledo, Wabash and Western Railroad Company was ratified and confirmed. The following persons were elected directors of the company for the ensuing year: A. Boody, A. B. Baylis, A. M. White-George Cecil, New York; C. M. Smith, Springfield; Josiah Hunt, J. H. McVeigh, Hannibal; C. L. Higbee, Pittsfield; J. N. Drummond, Toledo. The Board elected the following officers: C. M. Smith, President; W. B. Corneau, Secretary and Treasurer.

☞ The Panama *Star*, of September 28th, says that the Honduras Inter-oceanic Railroad is for shops all in good order. The remaining 107 miles the present at a stand still. On the Atlantic side 62 miles of the line have been completed, with bridges, rolling stock, machines and repairing or thereabouts are surveyed and with the greater part of the materials and plant on the ground. Eeven steam saw mills are erected in the interior, the machinery for which had to be carried up piece by piece on mule back.

RAILROAD EARNINGS—MONTHLY.

Central Pacific (in gold):	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.
1867	38,160	51,831	60,029	81,156	95,828	121,702	174,812	181,297	200,550	212,109	128,166	75,871	1,476,653

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide-water from the commencement of navigation to the 30th of September, inclusive, duringing the years 1871 and 1872, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1871..	161,500	12,067,900	16,418,400	394,600
1872..	78,600	5,128,600	21,214,400	496,600
Dec.	82,900	6,939,300	*4,796,000	*102,000

* Increase.

The receipts of new barley so far are 95,100 bushels, against 560,100 bushels in 1871.

By reducing the wheat to flour the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a deficiency equal to 1,470,760 bbls. of flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 30th of September in the years indicated:

	1870.	1871.	1872.
Canal opened—	May 10.	April 24.	May 13.
Flour, bbls.	290,090	161,500	78,600
Wheat, bushels.	10,563,600	12,067,900	5,128,600
Corn, bushels	3,531,700	16,418,400	21,214,400
Barley, bushels.	390,800	394,600	496,600
Oats, bushels	3,723,400	3,014,300	4,600,800
Rye, bushels.	358,700	446,100	356,700
Malt, bushels	555,200	819,600	759,300
Feed, lbs.	7,913,400	5,073,400	4,793,700

The International Bridge at Buffalo.

The project of bridging the Niagara river near Buffalo has been for years past a matter of interest to both American and Canadian engineers. Forming a part of the charter of the Buffalo and Lake Huron railway (now incorporated with the Grand Trunk Railway of Canada), since the year 1858, successive parties of engineers, under different auspices, and at several points, have sounded the river with a view to the construction of a bridge. Failures of these various enterprises have prevented the accomplishment of the object until it was taken in hand by the Grand Trunk Railway, some four or five years ago. Recogniz ing the immense advantage to the communications between East and West that such a bridge could afford, and that the growing traffic had rendered it a necessity, a company was formed of English and American capitalists, styled the International Bridge Company, with C. J. Brydges, of Montreal, as President. Active steps towards securing the necessary charters from the United States and Canadian governments were at once taken, the location of the bridge fixed, and in May, 1870, the works were begun under C. S. Gzowski & Co., the contractors.

It was decided that the bridge should be an iron superstructure on stone piers, and, after much deliberation, the Pratt truss, manufactured at the Phœnixville Iron Works, Phœnixville, Penn., was adopted. This truss has been used in many bridges over the Ohio and Missouri rivers, and notably at the Quincy Bridge, over the Mississippi, where it has served most successfully. This was taken as the model on which the International Bridge was to be constructed, the location having been fixed between Black Rock and Buffalo, the width of the river being broken at that point by Squaw Island. It was found that the main river measured 1,894 feet, and Black Rock harbor 445 feet, or a total of 2,339 feet to be bridged; while Squaw Island was to be crossed by an embankment 22 feet in height, and 1,328 feet in length. The depth of water varies from 13 to 47 feet at the points for the piers, and the normal current at low water from 2.58 to 5.12 miles per hour.

The first intention to place the swing in the centre of the river having been luckily avoided, at the suggestion of the Board of Engineer officers appointed to examine the plans by the United States government, and consisting of General Warren and Colonels Merrill and Harwood, United States Army, it was finally determined that the spans should be as follows, viz:

In main river	4 spans 197 feet	= 788 feet
In main river	3 spans 248 feet	= 744 feet
In main river	1 draw 362 feet	= 362 feet
In Black Rock Harbor.	1 span 223 feet	= 223 feet
In Black Rock Harbor.	1 draw 222 feet	= 222 feet
		2,339 feet

The piers are built in 12x12 inch timber caissons, made water-tight and strongly braced. The bottom, to a certain level, is filled with concrete, made of broken stone, gravel or sand, and Akron hydraulic cement. On this the footing course of heavy blocks of limestone is placed, and the pier built. The dimensions of the first three piers are as follows: Length of coping, 20 feet; width, 7 feet 6 inches; batter of back, 1 in 24; batter of front, above cap of ice-breaker, 1 in 24; batter of ice-breaker, ½ to 1; angle of ice-breaker, 45 degrees; batter of sides, 1 in 24. The height, of course, varies with the depth of water.

The shape of the pier is an oblong, with a rectangular nose-piece or cut-water.

Although delayed by a series of adverse circumstances, and the fact that no previous work of the kind afforded a precedent for dealing with so rapid a current as that of Niagara, the contractors are pushing the work with the greatest energy, and hope to finish it early next year.—*Engineering and Mining Journal.*

Chesapeake and Delaware Ship Canal.

Three gentlemen are now making a reconnoissance of the peninsula to fix upon a route or routes to be surveyed for the proposed ship canal. The reconnoitering party was Gen. J. Stakel, a director in the company; Gen. W. C. Brown, chief engineer, and Gen. Tench Tilghman, of Easton. They visited Georgetown, Lewes, and other points last week, and in company with Horace B. Tibbitts, Esq., of New York, one of the directors, the party called to see Gov. Ponder, who promised to recommend the enterprise in his message to the Legislature next winter. This section is to be reconnoitered, we understand, before the party return to Baltimore. Mr. Tibbitts was interested in the scheme of twenty years ago, when it was proposed to connect Chester or Sassafras rivers with Smyrna creek or Mahon's with a canal of this character. We learn that the party estimate the cost at from $3,000,000 to $4,000,000, which sum will be procured in Germany on loan, which Mr. Tibbitts proposes to negotiate at no distant day. The company interested in the Baltimore and Bremen steamship line, composed of capitalists in this country and Germany, is the main spring in the enterprise. The heaviest stockholders in this steamship line is said to be the Baltimore and Ohio Railroad Company, headed by John W. Garrett, who is anxiously pushing the enterprise to compete with the Philadelphia steamship line to Europe, which is to be established shortly by Mr. T. A. Scott, of the Pennsylvania Railroad Company. Mr. Garrett, it is understood, is leaving no stone unturned to further the canal scheme, as that is the surest means to give him the inside track in these rival lines of ocean steamships. By the construction of this canal a day's journey will be otherwise required in going around the capes. The saving of this day places Baltimore as near or nearer the ports of Europe as Philadelphia is, while the rough seas at the capes are avoided in the passage out.—*Smyrna (Del.) Times.*

☞ The directors of the Exeter and Salisbury (N. H.) Railroad, recently elected, are: Eben F. Stone, Robert Couch, Newburyport; Thos. J. Clark, Salisbury; William A. Currier, Boston; Nathaniel G. Gilman, Nathaniel Gordon, Exeter; James B. Butler, Nottingham.

☞ Surveyors are at work laying out a route for the new railroad between Danielsonville and Brooklyn, in Windham Co., Conn.

Boston, Hartford and Erie R. R.

The Boston *Journal* says that the Trustees of the Boston, Hartford and Erie Railroad have commenced a suit against John S. Eldridge, Mark Healey and Henry N. Farwell, the former trustees of the Berdell mortgage, to recover a large amount of bonds issued under their management, which, according to the terms of the mortgage, should have been retained for the purpose of taking up underlying bonds. The amount of bonds wrongfully alleged to have been used by the defendants is $2,500,000, and the the *ad damnum* in the writ is laid at $4,000,000. A large amount of property has been attached upon the writ, both that standing in the name of the defendants and that standing in the name of other defendants, but alleged to belong to the defendants. The case will be entered in the Supreme Court in December, and Messrs. Charles S. Bradley of Providence, William S. Russell and Lothrop and Bishop of Boston are counsel for the plaintiff.

Finances of Michigan.

The financial condition of the State of Michigan at the close of the fiscal year, September 30, 1872, was as follows:

Balance on hand October 1, 1871, $694,122 66; receipts for the year, $2,181,498 22; total, $2,875,620 80; disbursements for the year, $1,898,396 85; balance on hand October 1, 1872, $972,240 03.

Interest-bearing debt—Sault Canal bonds, 6s, due July 1, 1879, $81,000; renewal loan bonds, 6s, due July 1, 1878, $150,000; two million loan bonds, 6s, due January 1, 1873, $320,000; two million loan bonds, 6s, due January 1, 187–, $427,000; two million loan bonds, 6s, due January 2, 1880, $718,000; war bounty loan bonds, 7s, due May 1, 1890, $463,000; total, $2,209,000.

Non-interest-bearing debt—adjusted bonds past due, $3,000; war loan bond drawn, not presented, $50; unrecognized five-million loan bonds, adjusted at $31,242 78; total, $34,292 78; total bonded debt, $2,243,292 78.

The total bonded debt at the close of the last fiscal year was $2,355,292 78, showing a decrease during the year of $112,000. The only reason why the debt is not paid off more rapidly is that the holders of the unmatured bonds will not sell them at par, and the law forbids a premium being paid.

The State taxes for the coming year, amount to about $830,000, are levied for the following purposes: Military fund, 15c. per vote, $27,976 05; University Aid, $15,000; University Buildings, $37,500; Reform School, $35,000; Insane Asylum, $152,000; Institute for the Deaf, Dumb and Blind, $47,500; general purposes, $300,000; State Public School, $15,000; New Capitol, $200,000. Total, $829,976 05.

☞ The New Bedford *Standard* says that the Boston, Clinton and Fitchburg Railroad Company has made an offer to lease the New Bedford and Taunton Railroad for 50 years, and a proposition is daily expected from the Boston and Providence road for a union and consolidation of the two. Nothing is done yet about the Taunton Branch, but it is not expected that the parties who succeed in getting control of the New Bedford and Taunton road will have any difficulty in making terms with the Taunton Branch. The Old Colony corporation is not moving in the matter.

☞ C. H. Ellis, of New York, has been appointed chief engineer, J. A. Partridge consulting engineer, and George T. May assistant secretary of the Washington City and Point Lookout Railroad Company.
